The Reconnecting Pico Neighborhood Project (Reconnecting Pico) is committed to enhancing community-centered transportation, improving access to economic opportunity, education, health, and the creation of green spaces, while simultaneously alleviating environmental burdens for the residents of the Pico Neighborhood. To achieve this, staff will conduct a thorough investigation into the feasibility, optimal placement, and phasing of cap parks along the I-10 freeway. STUDY ONLY.

Project will replace the SB I-605 on/off-ramp with new configuration, including direct on/off-ramp to merge directly onto the I-605 mainline, ramp metering on new on-ramp, replace overhead signs, and construction of retaining walls adjacent to the new on/off-ramp. The project provides a new signalized intersection, allowing for access to both EB and WB directions of Beverly Blvd. Project requires no permanent ROW acquisitions, but it requires temporary construction and maintenance easements.

Project includes designing a two-lane roundabout at the Busch Dr/PCH intersection to improve safety, traffic flow, and access to the Zuma Beach parking lot. Safety improvements include reduced vehicle speeds through narrowed, curved approaches with a 25 mph entry/exit speed, shorter pedestrian crossings with splitter islands, high-visibility crosswalks and signage, and improved access to Metro Line 534 bus stops on both sides of the intersection. PE ONLY.

The City of Commerce is constructing a new transit maintenance facility (TMF). This facility will address both current and future operational needs and maintenance demands. It aims to improve air quality in the community by supporting efficient, new bus technology and infrastructure. DEMO# 2024-CMPJ-011

The project will use $279,004 in Section 5307 Funds for FFY 2027 to purchase an Infotainment system for the 34-bus transit fleet and six City of Commerce Transit facility areas. The Infotainment system will improve the rider experience by providing displays with route information, schedule alerts, and transit-related information. The project will also include the installation of facility displays for internal staff within the respective maintenance and operations disciplines.

Long Beach Transit (LBT) is procuring three (3) zero emission (BEBs) that will support a line extension and service expansion to meet a surge in demand during the 2028 Olympic and Paralympic Games, when Long Beach will host 11 games at 7 venues. To ensure that this new service on selected routes will continue to serve customers and reduce emissions and congestion after the Olympics are over, LBT is also seeking three years of operating funds.
