

INCLUSIVE ECONOMIC RECOVERY STRATEGY RESOURCES
Economic Development Initiatives – Transportation & Infrastructure

Initiative	Brief Description	Sponsoring Organization	Geography
<u>California Integrated Travel Program (Cal-ITP)</u>	Improve the transit experience in California, promote equity, increase public agency buying power for technology and services, meet California climate change law	California Department of Transportation	California
COVID-19 Economic Recovery Strategies for Climate Adaptation	The primary strategy outlined in this report involves incorporating climate adaptation into a local agency’s long term capital improvement plan. Once adequate capital facilities planning has taken place, an agency can position itself to pursue state and federal funding streams as they become available.	Commissioned by SCAG	Southern California
<u>Fontana USD High-Speed Internet for students</u>	Fontana Unified School District will provide high-speed internet access for its more than 36,000 students – at home and in their community – by creating the nation’s first Citizens Broadband Radio Service (CBRS) private network of its scale dedicated to education.	Fontana School District	San Bernardino
<u>Transportation Electrification Partnership</u>	Partnership among diverse stakeholders to make progress toward transportation electrification and zero emissions goods movement.	LACI, Multiple Organizations	Los Angeles
