Project will replace the SB I-605 on/off-ramp with new configuration, including direct on/off-ramp to merge directly onto the I-605 mainline, ramp metering on new on-ramp, replace overhead signs, and construction of retaining walls adjacent to the new on/off-ramp. The project provides a new signalized intersection, allowing for access to both EB and WB directions of Beverly Blvd. Project requires no permanent ROW acquisitions, but it requires temporary construction and maintenance easements.

Project includes designing a two-lane roundabout at the Busch Dr/PCH intersection to improve safety, traffic flow, and access to the Zuma Beach parking lot. Safety improvements include reduced vehicle speeds through narrowed, curved approaches with a 25 mph entry/exit speed, shorter pedestrian crossings with splitter islands, high-visibility crosswalks and signage, and improved access to Metro Line 534 bus stops on both sides of the intersection. PE ONLY.

Long Beach Transit (LBT) is procuring three (3) zero emission (BEBs) that will support a line extension and service expansion to meet a surge in demand during the 2028 Olympic and Paralympic Games, when Long Beach will host 11 games at 7 venues. To ensure that this new service on selected routes will continue to serve customers and reduce emissions and congestion after the Olympics are over, LBT is also seeking three years of operating funds.

Project, which follows Phase #1 that procured 17 zero-emission buses (ZEB), will ensure Pasadena Transit transitions to a 67% ZEB fleet by replacing eight additional aging Compressed Natural Gas (CNG) buses with advanced Fuel Cell Electric Buses (FCEBs), aligning with regional sustainability goals and Pasadena's commitment to a 100% ZEB fleet by 2037.
