- VIII. FINAL REGIONAL HOUSING NEEDS ALLOCATION**

Pre-Certified Local Housing Data for Costa Mesa

Developed by SCAG and pre-certified by the California Department of Housing and Community Development (HCD) for use in 6th cycle housing elements.

This report contains a wide range of jurisdiction-level data elements intended to provide an understanding housing need experienced in Costa Mesa as a part of its 6th cycle housing element update. Data sources are noted below each table or figure.

I. POPULATION, EMPLOYMENT, AND HOUSEHOLDS

Population Trend, 2000-2020

CA DOF E-5 Population and Housing Unit Estimates

Costa Mesa has a 2020 total population of 114,778 including 2,395 living in group quarters according to the California Department of Finance. The chart above describes the population trend in Costa Mesa from 2000 to 2020. Over this period Costa Mesa had an annual growth rate of 0.3% compared to 0.7% for the region.

Current Population by Age and Sex

American Community Survey 2014-2018 5-year estimates

The population of Costa Mesa is 50.4% male and 49.6% female. The share of the population of Costa Mesa which is under 18 years of age is 20.3%, which is lower than the regional share of 23.4%. Costa Mesa's seniors (65 and above) make up 10.7% of the population, which is lower than the regional share of 13%.

Employment by Industry

American Community Survey 2014-2018 5-year estimates using groupings of 2-digit NAICS codes.

Costa Mesa has 63,740 workers living within its borders who work across 13 major industrial sectors. The chart above provides detailed employment information. The most prevalent industry is Professional Svcs. with 11,436 employees (17.9% of total) and the second most prevalent industry is Education & Social Services with 10,360 employees (16.3% of total).

Employment by Occupation

American Community Survey 2014-2018 5-year estimates using groupings of SOC codes.

In addition to understanding the industries in which the residents of Costa Mesa work, it is also possible to analyze the types of jobs they hold. The most prevalent occupational category in Costa Mesa is Management, in which 26,846 (42.1% of total) employees work. The second-most prevalent type of work is in Sales, which employs 14,233 (22.3% of total) in Costa Mesa.

Farmworkers

Farmworkers by Occupation:

Costa Mesa	Percent of total Costa Mesa workers:	SCAG Total	
328	0.51%	57,741	Total jobs: Farming, fishing, and forestry occupations
234	0.53%	31,521	Full-time, year-round jobs: Farming, fishing, and forestry occupations

Employment in the Agricultural Industry:

Costa Mesa	Percent of total Costa Mesa workers:	SCAG Total	
462	0.72%	73,778	Total in agriculture, forestry, fishing, and hunting
413	0.93%	44,979	Full-time, year-round in agriculture, forestry, fishing, and hunting

American Community Survey 2014-2018 5-year estimates using groupings of NAICS and SOC codes.

Statewide, farmworker housing is of unique concern and of unique importance. While only a small share of SCAG region jurisdictions have farmworkers living in them, they are essential to the region's economy and food supply.

Housing Tenure

American Community Survey 2014-2018 5-year estimates.

Housing security can depend heavily on housing tenure, i.e. whether homes are owned or rented. Costa Mesa's housing stock consists of 41,019 total units, 16,032 of which are owner-occupied and 24,987 of which are renter-occupied. The share of renters in Costa Mesa is higher than in the SCAG region overall.

Housing Tenure By Age

American Community Survey 2014-2018 5-year estimates.

In many places, housing tenure varies substantially based on the age of the householder. In Costa Mesa, the age group where renters outnumber owners the most is 15-24 (by 82.1%). The age group where owners outnumber renters the most is 75-84 (by 51.5%).

Housing Tenure by Year Moved to Current Residence

American Community Survey 2014-2018 5-year estimates.

Across the SCAG region, the most common move-in period was 2010-2014 (31.9%) followed by 2000-2009 (26.1%). In Costa Mesa, the period during which most people started living in their current residence was 2010-2014 (36%) followed by 2015 or later (21.2%).

II. SPECIALIZED HOUSEHOLD NEEDS: LARGE FAMILIES, SENIORS, AND FEMALE-HEADED

Households by Household Size

American Community Survey 2014-2018 5-year estimates.

This chart illustrates the range of household sizes in Costa Mesa for owners, renters, and overall. The most commonly occurring household size is of two people (32.9%) and the second-most commonly occurring household is of one person (26.5%). Costa Mesa has a higher share of single-person households than the SCAG region overall (26.5% vs. 23.4%) and a lower share of 7+ person households than the SCAG region overall (1.7% vs. 3.1%).

Female Headed Households (FHH)

American Community Survey 2014-2018 5-year estimates.

Statute requires analysis of specialized housing needs, including female-headed households in an effort to ensure adequate childcare or job training services. Of Costa Mesa's 41,019 total households, 10.2% are female-headed (compared to 14.3% in the SCAG region), 4.6% are female-headed and with children (compared to 6.6% in the SCAG region), and 0.9% are female-headed and with children under 6 (compared to 1.0% in the SCAG region).

Households by Poverty Status

American Community Survey 2014-2018 5-year estimates.

5.4 percent of Costa Mesa's households are experiencing poverty, compared to 7.9 percent of households in the SCAG region. Poverty thresholds, as defined by the ACS, vary by household type. More information can be found at M256. In 2018, a single individual under 65 was considered in poverty with a money income below \$13,064/year while the threshold for a family consisting of 2 adults and 2 children was \$25,465/year.

Elderly Households by Income and Tenure

		Owner	Renter	Total	Percent of Total Elderly Households:
Income category, relative to surrounding area:	< 30% HAMFI	905	955	1,860	24.5%
	30-50% HAMFI	840	290	1,130	14.9%
	50-80% HAMFI	1,090	555	1,645	21.7%
	80-100% HAMFI	465	195	660	8.7%
	> 100% HAMFI	1,720	580	2,300	30.3%
TOTAL		5,020	2,575	7,595	

HUD CHAS, 2012-2016. HAMFI refers to Housing Urban Development Area Median Family Income.

Statute requires analysis of specialized housing needs, including housing needs for seniors. Federal housing data define a household type as 'elderly family' if it consists of two persons with either or both age 62 or over. Of Costa Mesa's 7,595 such households, 24.5% earn less than 30% of the surrounding area income, (compared to 24.2% in the SCAG region), 39.4% earn less than 50% of the surrounding area income (compared to 30.9% in the SCAG region).

III. PEOPLE EXPERIENCING HOMELESSNESS

2019 city and county homelessness point-in-time counts processed by SCAG. Jurisdiction-level counts were not available in Imperial County and sheltered population (and thus total) counts were not available in Riverside County. As a result, SCAG region totals from this compilation of data sources likely undercount true totals.

#N/A

IV. PEOPLE WITH DISABILITIES, INCLUDING DEVELOPMENTAL DISABILITIES

Disability by Type

American Community Survey 2014-2018 5-year estimates.

Disability data also provides valuable context for assessing current and future need for accessible housing units. Note that since some disability types are not recorded for children below a certain age, calculating disability as a percentage of total population may not be accurate.

Disability by Type - Seniors (65 and over)

American Community Survey 2014-2018 5-year estimates.

In Costa Mesa, the most commonly occurring disability amongst seniors 65 and older was an ambulatory disability, experienced by 21.2% of Costa Mesa's seniors (and 22.9% of seniors in the SCAG region).

Disability by Employment Status

	With a Disability	Percent of Total	No Disability	Percent of Total
Employed	2,077	45%	58,746	80%
Unemployed	235	5%	2,723	4%
Not in Labor Force	2,313	50%	11,743	16%
TOTAL	4,625		73,212	

American Community Survey 2014-2018 5-year estimates.

Understanding the employment status of people with disabilities may also be an important component in evaluating specialized housing needs. In Costa Mesa, 44.9% of the population with a disability is employed, compared to 80.2% of the non-disabled population.

Developmental Disabilities

		Costa Mesa
By Residence:	Home of Parent/Family/Guardian	545
	Independent/Supported Living	212
	Community Care Facility	95
	Intermediate Care Facility	91
	Foster/Family Home	10
	Other	10
By Age:	0 - 17 Years	963
	18+ Years	356
TOTAL		2282

CA DDS consumer count by CA ZIP, age group and residence type for the end of June 2019. Data available in 161/197 SCAG jurisdictions.

The California Department of Developmental Services also provides data on developmental disabilities by age and type of residence. These data are collected at the ZIP-code level and were joined to the jurisdiction-level by SCAG. Totals may not match as counts below 11 individuals are unavailable and some entries were not matched to a ZIP code necessitating approximation.

V. HOUSING STOCK CHARACTERISTICS

Housing Type

CA DOF E-5 Population and Housing Unit Estimates

The chart above provides detailed information on the housing stock in Costa Mesa, which has a total of 43,532 housing units. The most prevalent housing type in Costa Mesa is single-family detached with 17,134 units. The share of all single-family units in Costa Mesa is 49.5%, which is lower than the 61.7% share in the SCAG region. Out of the total housing units in Costa Mesa, there are 41,637 occupied-units, which equates to a 4.4% total vacancy rate. The average household size (as expressed by the population to housing unit ratio) is 2.699.

Housing Type Trend

CA DOF E-5 Population and Housing Unit Estimates

Over the past two decades (2000-2020), there has been more construction of single-family residential units than multi-family residential units in Costa Mesa. When comparing 2000 to 2020, SFR units increased by 2,064, MFR units increased by 1,345, and mobile homes decreased by -283.

Vacant Units by Type

American Community Survey 2014-2018 5-year estimates.

The ACS provides additional detail on vacant housing units by category.

Housing Units by Year Structure Built

American Community Survey 2014-2018 5-year estimates.

Examining the age of the current housing stock is one way to understand how historical development patterns have contributed to a city's form. The time period where the highest share of Costa Mesa's housing units were built is 1960-1969, while in the SCAG region more units were built during 1970-1979 than any other period.

Substandard Housing

American Community Survey 2014-2018 5-year estimates.

The ACS includes surveys about three factors of what may be considered substandard housing. In Costa Mesa, 613 units lack telephone service, 79 units lack plumbing facilities, and 325 units lack complete kitchen facilities.

Median Home Sales Price for Existing Homes

SCAG Local Profiles, Core Logic/Data Quick. SCAG median home sales price calculated as household-weighted average of county medians.

Between 2000 and 2018, median home sales prices in Costa Mesa increased 202% while prices in the SCAG region increased 151%. 2018 median home sales prices in Costa Mesa were \$815,000 and the highest experienced since 2000 was \$815,000 in 2018. Prices in Costa Mesa have ranged from a low of 118.4% of the SCAG region median in 2007 and a high of 163.2% in 2009.

Housing Units Permitted

Core Logic/Data Quick. Additional detail available in SCAG 2019 Local Profiles. SCAG median home sales price calculated as household-weighted average of county medians.

VI. OVERPAYMENT AND OVERCROWDING

Crowding by Extent and Tenure

American Community Survey 2014-2018 5-year estimates.

In Costa Mesa, 435 owner-occupied and 3,251 renter-occupied households had more than 1.0 occupants per room, which meets the ACS definition for overcrowding. 74 owner-occupied households and 1,169 renter-occupied households had more than 1.5 occupants per room, which meets the ACS definition for severe overcrowding.

Cost Burden by Income

Households by Share of Income Spent on Housing Cost:			
Income	< 30%	30-50%	> 50%
< 30% HAMFI	615	614	5,035
30-50% HAMFI	1,185	2,050	2,340
50-80% HAMFI	3,280	3,640	1,065
80-100% HAMFI	2,865	1,230	204
> 100% HAMFI	14,500	1,495	145
<i>Total Households</i>	<i>22,445</i>	<i>9,029</i>	<i>8,789</i>

HUD CHAS, 2012-2016. HAMFI refers to Housing Urban Development Area Median Family Income.

Housing cost burden is most commonly measured as the percentage of gross income spent on housing, with 30% a usual threshold for 'cost burden' and 50% the threshold for 'severe cost burden.' However, a lower-income household spending the same percent of income on housing as a higher-income household will likely experience more true 'cost burden.' These data indicate the number of households in Costa Mesa by their income relative to the surrounding area and their share of income spent on housing.

Spending on Rent

Across Costa Mesa's 24,987 renter households, 12,640 (50.6%) spend thirty percent or more of gross income on housing cost, compared to 55.3% in the SCAG region. Additionally, 6,465 renter households in Costa Mesa (25.9%) spend fifty percent or more of gross income on housing cost, compared to 28.9% in the SCAG region.

Spending on Rent by Income

American Community Survey 2014-2018 5-year estimates.

While the previous table breaks down cost burden by area-relative income, the ACS also allows for the analysis of Costa Mesa's 24,085 renter households (for which income data are available) by spending on rent by income bracket (dollar amounts). As one might expect, the general trend is that low-income households spend a higher share of income on housing (e.g. over 50%) while high-income households are more likely to spend under 20% of income on housing.

Household Income by (Cash) Rent

American Community Survey 2014-2018 5-year estimates.

Costa Mesa renter households' cash rent paid can be broken down by household incomes. As one might expect, the general trend is that lower-income households spend less on rent while higher-income households spend more on rent, though this may not be universally true. Rent categories range from <\$500/month (2.2% of Costa Mesa renters) to >\$2000/month (32.5% of Costa Mesa renters). The most common rent category in Costa Mesa is \$1500-2000/month with 40.9% of renters.

Monthly Owner Costs for Mortgage Holders

American Community Survey 2014-2018 5-year estimates.

While renter households receive much of the focus when it comes to housing cost analysis, owner households make up 39.1% of Costa Mesa and 52.5% of the SCAG region. The most commonly occurring mortgage payment in Costa Mesa is \$2000-\$3000/month and the most commonly occurring mortgage payment in the SCAG region is \$2000-\$3000/mo.

Costs for Mortgage Holders by Income

Mortgage-holding households in Costa Mesa can be broken down by income and the percentage of income spent on mortgage costs. As one might expect, the general trend is that lower-income households spend a higher share of income on housing costs, while high-income households may spend a lower share of income on housing. The income category most prevalent amongst Costa Mesa mortgage-holding households is \$75,000 or more (8,920 households) and the most prevalent share of income spent on mortgage costs is over 30% (4,574 households).

Household Income by Home Value (for owned units)

Another approach to evaluating the relationship between housing and income is to compare incomes and home values in Costa Mesa. The most commonly-occurring income category amongst owner households in Costa Mesa is \$100,000 or more (8,883 households) and the most commonly-occurring home value category is Above \$500,000 (13,261 households).

Extremely Low Income Housing Needs

	Total Households	Households below 30% HAMFI	Share below 30% HAMFI
White, non-Hispanic	25,230	3,720	14.7%
Black, non-Hispanic	695	105	15.1%
Asian and other, non-Hispanic	4,838	629	13.0%
Hispanic	10,105	2,380	23.6%
TOTAL	40,868	6,834	16.7%
Renter-occupied	25,125	5,220	20.8%
Owner-occupied	15,730	1,625	10.3%
TOTAL	40,855	6,845	16.8%

HUD CHAS, 2012-2016. HAMFI refers to Housing Urban Development Area Median Family Income.

Housing the extremely-low income population (below 30% of area median income) can be especially challenging. HUD's CHAS dataset provides a wealth of information on such households in Costa Mesa. The above table provides a breakdown of extremely low income households by race and ethnicity. The race/ethnicity with the highest share of extremely-low income households in Costa Mesa is Hispanic (23.6% compared to 16.7% of total population). In the SCAG region, the highest share of extremely-low income households is Black, non-Hispanic (27.1% compared to 17.7% of total households).

VII. ASSISTED UNITS AT RISK OF CONVERSION

Assisted Units at Risk of Conversion

Risk Level	Definition:	Low-income units in jurisdiction	Percent of county's low-income units
Very High	At-risk of converting to market rate within the next year	74	20%
High	At-risk of converting to market rate in the next 1-5 years	0	0%
Moderate	At-risk of converting to market rate in the next 5-10 years	0	0%
Low	At-risk of converting to market rate in the next 10 or more years and/or are owned by a large/stable non-profit, mission-driven developer.	302	80%
TOTAL		376	100%

California Housing Partnership, July 2020. Includes HUD, Low-Income Housing Tax Credit (LIHTC), USDA, and CalHFA projects. Subsidized or assisted developments that do not have one of the aforementioned financing sources may not be included.

The California Housing Partnership (CHP) provides data on assisted housing units and assesses the level of risk to converting to market rate. These data identify homes without a known overlapping subsidy that would extend affordability beyond the indicated timeframe and unless otherwise noted are not owned by a large/stable non-profit, mission-driven developer. Detailed 2019 data can be found in SCAG's RHNA data appendix at <http://scag.ca.gov/programs/Documents/RHNA/SCAG-Final-RHNA-Data-Appendix-030520.pdf>. Complete, updated data can be requested from CHP through Danielle Mazzella, Preservation & Data Manager (dmazzella@chpc.net)

VIII. REGIONAL HOUSING NEEDS ALLOCATION

Final 6th Cycle Regional Housing Needs Allocation for Costa Mesa:

	Units
Very-Low Income (<50% of AMI)	2,919
Low Income (50-80% of AMI)	1,794
Moderate Income (80-120% of AMI)	2,088
Above Moderate Income (>120% of AMI)	4,959
TOTAL	11,760

SCAG, 2021. Based on SCAG's 6th cycle Final RHNA Allocation, adopted March 2021. Please note that for the housing element update, local jurisdictions will have to consider extremely low income (ELI) households as well. ELI housing needs may be calculated either by using Census data or simply assuming that 50 percent of the very low income households qualify as extremely low income households.
