Dear SCAG Representative,

I am a resident of the City of Los Angeles and am writing today to comment on the RHNA housing assignment methodology.

RHNA housing assignments must not be determined by the preferred growth rates of cities. Please close the Beverly Hills loophole that allows the richest cities to shunt housing responsibilities onto other communities. RHNA numbers need to be justifiable according to social and environmental objectives like proximity to jobs, jobs-to-housing imbalances, fire risk, and mitigating climate change.

And don't assign Beverly Hills only 3 housing units again. Seriously.

Thank you for your time.
