Subject: Increased housing density

I am opposed to the increase of density that is now being proposed. It should remain at the amount already approved for 2029. Our areas cannot handle the increase on infrastructure that the 1.2 million new homes statewide would bring about. Our canyon roads cannot handle the volume we have now. The whole westside is in gridlock and the traffic pattern lines are getting more and more blurred. Our public services including police and utilities are already taxed to the limit.

Sincerely,
Susan Horn
