Subject: Mandating housing

Dear sirs/madams,

Please eliminate the mandated housing requirement for cities in California. I live in Southern and we are at the limit for what our resources can handle. Schools, electricity, gas, roads and of course and maybe paramount, water! You have no right to tell towns to increase housing!! Let the market bare that. Our country is huge and businesses will build elsewhere so people can follow. When govt steps in it is overstepping. RHNA needs to be eliminated. Water and power are of paramount concerns. Surely you understand that.

Thank you,

Lee Anne Severns
