**Subject:** Vista

**Customer Name :** Marilyn Brown

**Customer Email Address :** [REDACTED]

**Message :** Please explain to me why you would mandate such an enormous degree of increased housing. The city of vista is building every square inch of undeveloped land. Not only housing but high density housing. How is that good? And why would the state of California mandate this? There is not even remotely enough streets to deal with the traffic. Why? I thought people were leaving this state by the droves... Vista a small rural town is being ruined by your mandate.
