Overview: What is the Community Streets Program?

The Southern California Association of Governments (SCAG) announces the Call for Projects for the 2024 *Go Human Community Streets Grant Program* (Community Streets Program). With support from the California Office of Traffic Safety (OTS), the Community Streets Program provides grant funding to eligible applicants to implement traffic safety strategies through community engagement projects.

In alignment with and furtherance of SCAG’s *Racial Equity Early Action Plan*, the Community Streets Program supports projects that facilitate community resiliency and resource delivery, prioritizing outcomes for low-income families and communities of color, especially those most harmed by traffic injuries and fatalities.

Program Goal: What does the Community Streets Program aim to do?

The Community Streets Program aims to build street-level community resiliency and increase the safety of people most harmed by traffic injuries and fatalities, including without limitation Black, Indigenous and People of Color; people with disabilities; and elders, particularly those walking and biking. The Community Streets Program aims to improve traffic safety locally and across the Southern California region, leveraging and building community leadership committed to traffic safety and prioritizing projects that center historically excluded or disinvested communities, mobility justice, disability justice and rural community investment, among others.

The Community Streets Program provides approximately 12 eligible applicants with up to $30,000 in grant funding to support projects that implement traffic safety strategies including but not limited to messaging, education, engagement activities, leadership development, community assessment or resource distribution.

Rather than focusing on the behavior of people walking and biking, the Community Streets Program targets structural issues that affect the safety of people walking and biking, such as dangerous driving behavior, high vehicle speeds, street design and structural racism.

Applicants are encouraged to propose creative, strategic projects that center justice and respond to program goals and communities’ current needs.

Potential Project Types

Funded strategies through the Community Streets Program may include, but are not limited to, the following examples:

- Community bicycle rides, walk audits or open streets events
- Design and development of placekeeping/placebuilding features, such as public art or signage
- Community capacity building projects, such as a virtual traffic safety ambassador leadership development programs or traffic safety cohorts
- Virtual information or media hubs, inclusive of traffic safety information, content or resource distribution
• Storytelling efforts that center mobility justice efforts and/or challenging the dominant narratives of traffic safety

This program does not fund permanent or quick-build infrastructure improvements.

**Eligible Applicants: Who can apply?**

Community-based organizations, nonprofits and social enterprises are eligible to submit a Community Streets Program proposal. If awarded, applicants must be able to submit supporting documentation for eligibility (i.e., a copy of the business license, 501(c)(3) status). Entities with 501(c)(4) status are not eligible for this program.

Funding is available to recipients across the SCAG region, which encompasses the counties of Imperial, Los Angeles, Orange, Riverside, San Bernardino and Ventura.

Funding will be distributed to prioritize equity, particularly within communities that have been historically disinvested or in disadvantaged communities.

**Grant Amount & Term**

community needs. Advertisements may include digital ads, banners, lawn signs, bus wraps and more.

Invoices shall be submitted on a monthly or bimonthly basis, and SCAG shall remit payments of incurred costs up to 60 days after submission of invoice packages.
