More details are provided in the Internal Audit Status report which is part of today’s agenda packet. Additionally, The CFO and Manager of Contracts joined a stakeholder review group that assists the Caltrans Local Assistance Program. By becoming members of this group, SCAG will have the opportunity to provide comments and feedback, prior to adoption of future updates.

The new contract extension is expected to be brought to the Audit Committee and Regional Council for approval within the next few months.

AGENDA ITEM 3
REPORT

Southern California Association of Governments
Remote Participation Only
October 20, 2021

To: Audit Committee (AC)                                               EXECUTIVE DIRECTOR’S APPROVAL

From: Debbie Dillon, Chief Strategy Officer

Subject: Project Management Process Improvement Update

RECOMMENDED ACTION:
Information Only - No Action Required

STRATEGIC PLAN:
This item supports the following Strategic Plan Goal 7: Secure funding to support agency priorities to effectively and efficiently deliver work products.

EXECUTIVE SUMMARY:
At the April 28, 2021, meeting, staff provided an update regarding the California Department of Transportation (“Caltrans”) Corrective Action Plans, Continuing Process Improvement and the Enterprise Project Management Office. This report provides a status update on those items and other agency efforts underway to support continuous improvement for project management and related processes, policies, and procedures.

BACKGROUND:
A. Corrective Action Plans - Closed
   As of the April 28, 2021, Audit Committee meeting SCAG was waiting on one outstanding response due from Caltrans regarding the under-recovery of indirect costs in the amount of $598,332 as of June 30, 2017. SCAG received email approval from Caltrans to include the full amount of the under-recovery of indirect costs in the FY22 Indirect Cost Budget. As part of Budget Amendment 2, coming to the Regional Council for approval in December, SCAG will be submitting this amount for formal Caltrans approval. Next steps will require working with the FTA, our new “cognizant agency,” to amend our indirect cost recovery rates.

B. Enterprise Project Management Office and Continuing Process Improvement
   The EPMO was established in May 2020 with the hiring of a Lead Projects Manager who was on a rotational developmental assignment from the Planning Division through May 7, 2021. The Lead Projects Manager reported to the Executive Director’s Office through Debbie Dillon, Chief Strategy Officer. The EPMO worked closely with the Planning Division which has since staffed
up its project delivery team, enhanced and improved its internal processes, and project tracking. So far in FY 20/21, Planning has added three management analysts to support program and project managers in delivering direct local technical assistance to local and regional entities under three major funding programs. The project delivery team has improved project tracking across the programs. Additionally, a new management analyst was hired to support cross-division initiatives and inter-division coordination. This person has developed workflows for multiple inter-division processes, and a workplan document that will be used to prepare for the FY 22/23 budget development cycle. The rotational assignment concluded in May. Since that time SCAG has evaluated how best to move the EPMO into its next phase of implementation. SCAG’s Chief Information Officer, Julie Shroyer, who possesses proven knowledge and experience establishing strong project management systems will be leading SCAG into the next phase of EPMO implementation. Julie began reporting to EPMO Executive Sponsors, Executive Director, Kome Ajise, Chief Operating Officer, Darin Chidsey and Chief Strategy Officer, Debbie Dillon a few months ago in this role and has launched a process to build a strong cross divisional steering committee and schedule a decision-making workshop facilitated by Industry leader Gartner on November 1st. The workshop will facilitate definition and prioritization of services to be offered by the EPMO and a phased approach to deliver the greatest outcomes for the agency in the near and long term.

Additional improvements or activities that have taken place or are in process since the April 28, 2021, Audit Committee include the following:

1. The EPMO Lead Projects Manager completed an assessment of the maturity of various project management practices by conducting a survey, researching best practices, and holding focus groups. The executive summary was circulated to SCAG divisions for review and input. The final executive summary provides important data for the next phase of EPMO implementation as described above.

   Staff continues to implement a project management planning template that was developed by a consultant. The EPMO helped identify superusers throughout the agency who received training as additional support within business units. Training on the template was provided to all project managers in January and the template is in use. Additional training is being provided and recorded for new staff.

2. The EPMO continues to assist the Finance Division’s operational units with educating staff and streamlining access to various existing tools and training. The project management training implemented with the response to Caltrans Audit requirements in November 2019 is updated on a regular basis to reflect process improvement and other changes and
presented to staff as well as recorded and made available on demand through SCAG’s intranet. Another updated training is planned before the end of the calendar year.

With the hiring of the current Chief Financial Officer (CFO) last November, the EPMO established a new committee focused on additional improvements to the procurement process. This team began meeting in November 2020 and has been actively updating manuals, training materials and processes. Some of these are mentioned in the CFO report but also include:

1) Revisions to the pre-award/contracts process
2) Labor charging practices updates and training
3) Improved processes and requirements for contracting with non-profits
4) Utilization of bench contracts

3. The CFO and Manager of Contracts continue to serve on a stakeholder review group that assists the Caltrans Local Assistance Program with future updates to its Local Assistance Procedures Manual which is a resource for SCAG in administering the projects funded through Caltrans. By becoming members of this group, SCAG has had the opportunity to provide comments/feedback prior to the adoption of future updates and has provided SCAG a voice in the formation of policies and procedures that directly impact our ability to serve our stakeholders. Caltrans’ Local Assistance Program oversees more than one billion dollars annually available to over 600 cities, counties, and regional agencies for the purpose of improving their transportation infrastructure or providing transportation services. This funding comes from various Federal and State programs specifically designed to assist the transportation needs of local agencies. Annually, over 1,200 new projects are authorized through the Local Assistance Program of which approximately 700 are construction projects.

4. Additionally, SCAG continues to move away from Cost-Plus-Fixed Fee contracts and toward Lump Sum contract formats, when appropriate. Of the 19 active procurements on October 8, 2021, 12 or 63.16%, were structured as Lump Sum contracts with milestone or progress payments. That payment structure requires less administration and is more attractive to potential bidders as long as the scope of work in the Request for Proposals is drafted with enough specificity. Contracts is working with Project Managers to develop each new scope of work to that level to maximize the number of Lump Sum contracts.

FISCAL IMPACT:
None.
RECOMMENDED ACTION:
Information Only – No Action Required

STRATEGIC PLAN:
This item supports the following Strategic Plan Goal 7: Secure funding to support agency priorities to effectively and efficiently deliver work products.

EXECUTIVE SUMMARY:

SCAG’s new Internal Auditor has begun work in key areas:

- The Internal Auditor is performing an organizational Risk Assessment.
- The Internal Auditor is now the administrator of the SCAG ethics hotline.

BACKGROUND:
SCAG’s Internal Auditor performs assessments of SCAG operations, including evaluations of the effectiveness and efficiency of various departments, functions and evaluating governance, risk management, and internal controls. Internal Audit assists staff in efficient and effective discharge of responsibilities by providing independent analyses, appraisals, findings, and recommendations.

A. Organizational Risk Assessment by Internal Audit

SCAG’s new Internal Auditor is conducting an organization-wide risk assessment in order to understand in depth SCAG’s organizational risks and operations. The Internal Auditor interviewed numerous management staff on their function’s key goals and risks. The Internal Auditor also reviewed prior audit reports, policies, procedures, and process manuals. The Internal Auditor will use this information to prepare a risk matrix of areas for a potential internal audit or review. The goal is to create a risk-based list of internal audits to perform.

Common themes that SCAG managers discussed were rapid growth of SCAG, with new funding sources such as for Regional Early Action Planning (REAP). There are also new initiatives at SCAG,
such as its Broadband Action Plan. SCAG managers want to improve their business practices to meet growth, to continuously improve the efficiency of operations, and to use most effectively grant funds. Management also wants Internal Audit to help provide assurance on compliance with laws and grant terms.

SCAG has many key processes that are documented: there are manuals with detailed processes for accounting, contracts, procurement, project management, and human resources. In addition, SCAG has policies for ethics, governance, and other key areas. SCAG has increased the quantity of employees to meet the increased workloads, reorganized some key functions such as Planning, and is using updated software and processes for some functions. With organizational change comes new risks and opportunities, and Internal Audit should play a role in helping SCAG to address these.

B. SCAG Ethics Hotline Update

The Internal Auditor is now the Administrator of SCAG’s ethics hotline Case Management System. The system is provided by a third-party vendor, Lighthouse Services, which allows for anonymous reporting by phone, online, email, or the postal service. Human Resources Director Carmen Flores and Chief Counsel/Director of Legal Services Michael Houston have access to the Case Management System of hotline reports. Information on how anyone can file a report on the Ethics Hotline is on SCAG’s website.

FISCAL IMPACT:
None.
RECOMMENDED ACTION:
Information Only – No Action Required.

STRATEGIC PLAN:
This item supports the following Strategic Plan Goal 7: Secure funding to support agency priorities to effectively and efficiently deliver work products.

EXECUTIVE SUMMARY:
SCAG staff had made significant progress during this past quarter in several key areas:

- **Eide Bailly commenced the FY 2020-21 audit, no issues have been reported and we remain on target to complete before the calendar year end.**
- **A new SCAG policy on labor charging practices has been completed. All staff have received training and the new policy and training documents are available on SCAGHub.**
- **Tom Philip, Accounting Manager, has left SCAG. Erika Bustamente is now Interim Accounting Manager, and an internal recruitment is underway to backfill her position as Budget & Grants Manager. A full recruitment for a permanent replacement, with a new title of Controller, is being planned. The goal is to onboard the new staff early next calendar year.**
- **SCAG was victim to internet email fraud leading to unrecovered losses of $22,538. Internal discovery was completed, revised procedures were implemented, and staff has reported the matter to the Los Angeles Police Department (LAPD) and the Federal Bureau of Investigation (FBI) for investigation and will continue to cooperate with law enforcement.**
- **The responsibility of completing pre-award reviews has been transitioned to the Contract Administrators within the Contracts department. Since our last Audit Committee meeting, an additional $1.4 million of savings have been achieved through this negotiation process.**

BACKGROUND:
A. FY 2020-21 Financial Audit
Eide Bailly has commenced their audit of our FY 2020-21 financial statements. Eide Bailly has provided staff with the Prepared by Client List (PBC), which is a list of requested financial reports and supporting documentation. Work toward the completion and compilation of all requested items is almost complete. At this point staff is not aware of any issues and we remain on target for the completion of our annual financial report in time to file for the GFOA Award for Excellence in Financial Reporting which is due by the end of December.

B. Labor Charging Policy
As reported during the last Audit Committee meeting, the development of a labor charging policy has been identified as a priority for SCAG. The Labor Budgeting, Labor Monitoring & Labor Charging Policy & Procedures is now complete. The purpose of this policy is to:

Define responsibility for project labor budget preparation, monitoring and charging.

- Ensure correct hours are charged to the correct project codes, and consistent with state and federal laws and regulations.
- Ensure time is reported accurately and honestly. This means reporting only the true and actual number of hours worked and ensuring that the hours charged specifically relate to the activity or work performed.
- Ensure that no cost is allocated to a project which is unallowable, misallocated, contrary to a contract provision or otherwise improper.

In September, all staff received training on the new policy. Additionally, training materials and a copy of the policy is available to employees on SCAGHub.

C. Change in Finance Management
In early September, Tom Philip, Accounting Manager for the past three years, gave notice of his intention to leave SCAG to pursue other opportunities. Tom’s last day with SCAG was Friday, October 1st. Each challenge brings opportunity, so I am happy to report that Ms. Erika Bustamante has agreed to work as Interim Accounting Manager until a permanent replacement is found. This of course, generates another opportunity in the Budget and Grants Department for another SCAG employee to step-up as the Interim Budget and Grants Manager. An internal recruitment is already underway. I am confident these cross-training opportunities will further strengthen the finance team. A full recruitment is also underway for a permanent replacement. The position title has been updated to Controller to reflect the breadth of the associated responsibilities more accurately. Based on the current recruitment timeline, the goal is to be onboarding our new Controller shortly after the new year.

D. Internet Email Fraud
In January of this year SCAG was victim to internet email fraud leading to an unrecovered loss of $22,538.
In early January, staff was working with a new service provider, Cornerstone to set them up as a vendor within our financial system. Regular email exchanges were occurring between staff and the authorized Cornerstone representative Andrew Vo. Events leading to the fraud progressed as follows:

1/5: Staff receives valid invoice and banking information from Andrew Vo.
1/19: Staff receives email from a presumably fictitious “Andrew Vo” requesting change in banking information. Upon a “casual” inspection of the email, and superficially, it is very consistent with Andrew Vo’s signature and Cornerstone branding, but with close examination of the email it is evident the sender is not Andrew Vo’s email (i.e., there is a minor alteration of the email address to a separate non-Cornerstone domain).
1/21: Staff completed the banking change considering the email valid.
1/26: Payment to Cornerstone is made to bank account on record (i.e., changed account based on fictitious email).
2/17: Staff responded to a Cornerstone email requesting status of payment and informed them that payment was made on January 26th.
5/11: Cornerstone sent email requesting proof of payment, which was provided by staff.
5/14: Cornerstone informed staff that Andrew Vo no longer worked for them, and the banking information was erroneous. This is the date the fraud was discovered.

Following the discovery of the fraud, SCAG took the following actions:

- SCAG Executive Management and Legal Counsel were informed of the incident.
- We reviewed all vendor banking changes made in the prior 90 days to confirm they were valid; no exceptions were noted.
- We implemented a new procedure requiring the completion of the appropriate Vendor Change Form. Once received, staff must confirm requested changes over the phone with the vendor contract contact on file.
- We worked with our bank to attempt to recover the fraudulently transmitted funds. The funds have not been recovered.
- The incident was reported, by our Chief Counsel, to both LAPD and the FBI. All requests from these agencies for information or supporting documentation were provided.

While the incident remains open within LAPD and FBI, we consider the incident internally to be closed although we remain available should future information or requests be received from either law enforcement agency.

E. Pre-Award Review Update

As part of SCAG’s procurement policies and procedures, staff completes detailed pre-award reviews
on high dollar value consultant contracts. These reviews provide SCAG with a basis to reduce the contract price through negotiations with the winning bidder. With the vacancy of the Internal Auditor position, the opportunity arose to evaluate the pre-award review process. While previously performed by the Internal Auditor, this responsibility has now been transitioned to the Contracts Department and is performed by Contract Administrators. This transition has thus far been successful with continued significant savings being achieved. Table 1 below shows the success Contract Administrators have achieved through the negotiation process.
