Pre-Certified Local Housing Data for Agoura Hills

Developed by SCAG and pre-certified by the California Department of Housing and Community Development (HCD) for use in 6th cycle housing elements.

This report contains a wide range of jurisdiction-level data elements intended to provide an understanding housing need experienced in Agoura Hills as a part of its 6th cycle housing element update. Data sources are noted below each table or figure.

I. POPULATION, EMPLOYMENT, AND HOUSEHOLDS

Population Trend, 2000-2020

CA DOF E-5 Population and Housing Unit Estimates

Agoura Hills has a 2020 total population of 20,566 including 88 living in group quarters according to the California Department of Finance. The chart above describes the population trend in Agoura Hills from 2000 to 2020. Over this period Agoura Hills had an annual growth rate of 0% compared to 0.7% for the region.

Current Population by Age and Sex

American Community Survey 2014-2018 5-year estimates

The population of Agoura Hills is 48.5% male and 51.5% female. The share of the population of Agoura Hills which is under 18 years of age is 22.3%, which is lower than the regional share of 23.4%. Agoura Hills's seniors (65 and above) make up 14.5% of the population, which is higher than the regional share of 13%.

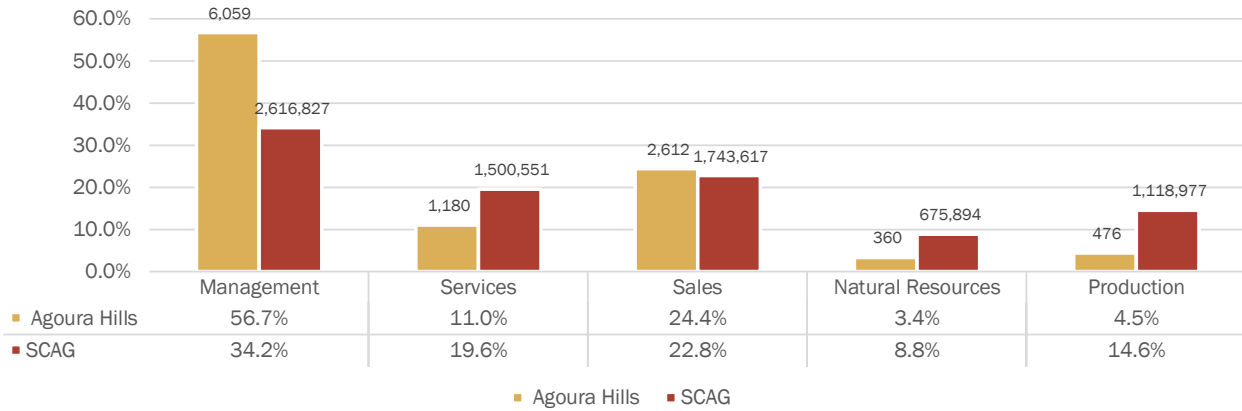

Employment by Industry

American Community Survey 2014-2018 5-year estimates using groupings of 2-digit NAICS codes.

Agoura Hills has 10,687 workers living within its borders who work across 13 major industrial sectors. The chart above provides detailed employment information. The most prevalent industry is Professional Svcs. with 2,350 employees (22% of total) and the second most prevalent industry is Education & Social Services with 1,603 employees (15% of total).

Employment by Occupation

American Community Survey 2014-2018 5-year estimates using groupings of SOC codes.

In addition to understanding the industries in which the residents of Agoura Hills work, it is also possible to analyze the types of jobs they hold. The most prevalent occupational category in Agoura Hills is Management, in which 6,059 (56.7% of total) employees work. The second-most prevalent type of work is in Sales, which employs 2,612 (24.4% of total) in Agoura Hills.

Farmworkers

Farmworkers by Occupation:

Agoura Hills	Percent of total Agoura Hills workers:	SCAG Total	
0	0.00%	57,741	Total jobs: Farming, fishing, and forestry occupations
0	0.00%	31,521	Full-time, year-round jobs: Farming, fishing, and forestry occupations

Employment in the Agricultural Industry:

Agoura Hills	Percent of total Agoura Hills workers:	SCAG Total	
15	0.14%	73,778	Total in agriculture, forestry, fishing, and hunting
40	0.56%	44,979	Full-time, year-round in agriculture, forestry, fishing, and hunting

American Community Survey 2014-2018 5-year estimates using groupings of NAICS and SOC codes.

Statewide, farmworker housing is of unique concern and of unique importance. While only a small share of SCAG region jurisdictions have farmworkers living in them, they are essential to the region's economy and food supply.

Housing Tenure

American Community Survey 2014-2018 5-year estimates.

Housing security can depend heavily on housing tenure, i.e. whether homes are owned or rented. Agoura Hills's housing stock consists of 7,407 total units, 5,713 of which are owner-occupied and 1,694 of which are renter-occupied. The share of renters in Agoura Hills is lower than in the SCAG region overall.

Housing Tenure By Age

American Community Survey 2014-2018 5-year estimates.

In many places, housing tenure varies substantially based on the age of the householder. In Agoura Hills, the age group where renters outnumber owners the most is 15-24 (by 100%). The age group where owners outnumber renters the most is 65-74 (by 89.1%).

Housing Tenure by Year Moved to Current Residence

American Community Survey 2014-2018 5-year estimates.

Across the SCAG region, the most common move-in period was 2010-2014 (31.9%) followed by 2000-2009 (26.1%). In Agoura Hills, the period during which most people started living in their current residence was 2000-2009 (27.6%) followed by 2010-2014 (25.1%).

II. SPECIALIZED HOUSEHOLD NEEDS: LARGE FAMILIES, SENIORS, AND FEMALE-HEADED

Households by Household Size

American Community Survey 2014-2018 5-year estimates.

This chart illustrates the range of household sizes in Agoura Hills for owners, renters, and overall. The most commonly occurring household size is of two people (27.5%) and the second-most commonly occurring household is of one person (22.3%). Agoura Hills has a lower share of single-person households than the SCAG region overall (22.3% vs. 23.4%) and a lower share of 7+ person households than the SCAG region overall (0.2% vs. 3.1%).

Female Headed Households (FHH)

American Community Survey 2014-2018 5-year estimates.

Statute requires analysis of specialized housing needs, including female-headed households in an effort to ensure adequate childcare or job training services. Of Agoura Hills's 7,407 total households, 6.8% are female-headed (compared to 14.3% in the SCAG region), 3.2% are female-headed and with children (compared to 6.6% in the SCAG region), and 0.5% are female-headed and with children under 6 (compared to 1.0% in the SCAG region).

Households by Poverty Status

American Community Survey 2014-2018 5-year estimates.

2.7 percent of Agoura Hills's households are experiencing poverty, compared to 7.9 percent of households in the SCAG region. Poverty thresholds, as defined by the ACS, vary by household type. More information can be found at M256. In 2018, a single individual under 65 was considered in poverty with a money income below \$13,064/year while the threshold for a family consisting of 2 adults and 2 children was \$25,465/year.

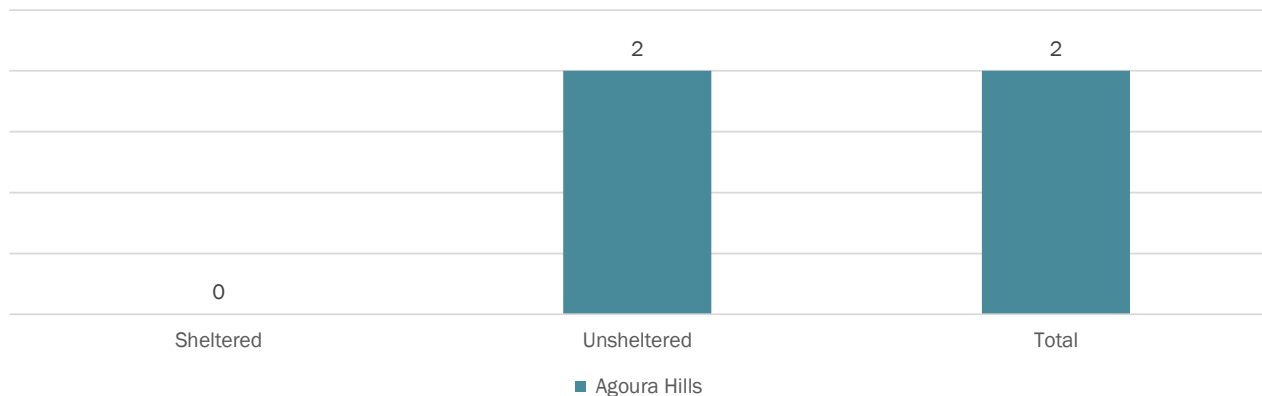

Elderly Households by Income and Tenure

		Owner	Renter	Total	Percent of Total Elderly Households:
Income category, relative to surrounding area:	< 30% HAMFI	110	0	110	6.6%
	30-50% HAMFI	195	10	205	12.4%
	50-80% HAMFI	200	50	250	15.1%
	80-100% HAMFI	185	100	285	17.2%
	> 100% HAMFI	645	160	805	48.6%
TOTAL		1,335	320	1,655	

HUD CHAS, 2012-2016. HAMFI refers to Housing Urban Development Area Median Family Income.

Statute requires analysis of specialized housing needs, including housing needs for seniors. Federal housing data define a household type as 'elderly family' if it consists of two persons with either or both age 62 or over. Of Agoura Hills's 1,655 such households, 6.6% earn less than 30% of the surrounding area income, (compared to 24.2% in the SCAG region), 19% earn less than 50% of the surrounding area income (compared to 30.9% in the SCAG region).

III. PEOPLE EXPERIENCING HOMELESSNESS

2019 city and county homelessness point-in-time counts processed by SCAG. Jurisdiction-level counts were not available in Imperial County and sheltered population (and thus total) counts were not available in Riverside County. As a result, SCAG region totals from this compilation of data sources likely undercount true totals.

#N/A

IV. PEOPLE WITH DISABILITIES, INCLUDING DEVELOPMENTAL DISABILITIES

Disability by Type

American Community Survey 2014-2018 5-year estimates.

Disability data also provides valuable context for assessing current and future need for accessible housing units. Note that since some disability types are not recorded for children below a certain age, calculating disability as a percentage of total population may not be accurate.

Disability by Type - Seniors (65 and over)

American Community Survey 2014-2018 5-year estimates.

In Agoura Hills, the most commonly occurring disability amongst seniors 65 and older was an ambulatory disability, experienced by 16.8% of Agoura Hills's seniors (and 22.9% of seniors in the SCAG region).

Disability by Employment Status

	With a Disability	Percent of Total	No Disability	Percent of Total
Employed	425	45%	9,290	77%
Unemployed	33	3%	359	3%
Not in Labor Force	491	52%	2,438	20%
TOTAL	949		12,087	

American Community Survey 2014-2018 5-year estimates.

Understanding the employment status of people with disabilities may also be an important component in evaluating specialized housing needs. In Agoura Hills, 44.8% of the population with a disability is employed, compared to 76.9% of the non-disabled population.

Developmental Disabilities

		Agoura Hills
By Residence:	Home of Parent/Family/Guardian	Unavailable
	Independent/Supported Living	Unavailable
	Community Care Facility	Unavailable
	Intermediate Care Facility	Unavailable
	Foster/Family Home	Unavailable
	Other	Unavailable
By Age:	0 - 17 Years	Unavailable
	18+ Years	Unavailable
TOTAL		0

CA DDS consumer count by CA ZIP, age group and residence type for the end of June 2019. Data available in 161/197 SCAG jurisdictions.

The California Department of Developmental Services also provides data on developmental disabilities by age and type of residence. These data are collected at the ZIP-code level and were joined to the jurisdiction-level by SCAG. Totals may not match as counts below 11 individuals are unavailable and some entries were not matched to a ZIP code necessitating approximation.

V. HOUSING STOCK CHARACTERISTICS

Housing Type

CA DOF E-5 Population and Housing Unit Estimates

The chart above provides detailed information on the housing stock in Agoura Hills, which has a total of 7,639 housing units. The most prevalent housing type in Agoura Hills is single-family detached with 5,349 units. The share of all single-family units in Agoura Hills is 83.4%, which is higher than the 61.7% share in the SCAG region. Out of the total housing units in Agoura Hills, there are 7,383 occupied-units, which equates to a 3.4% total vacancy rate. The average household size (as expressed by the population to housing unit ratio) is 2.774.

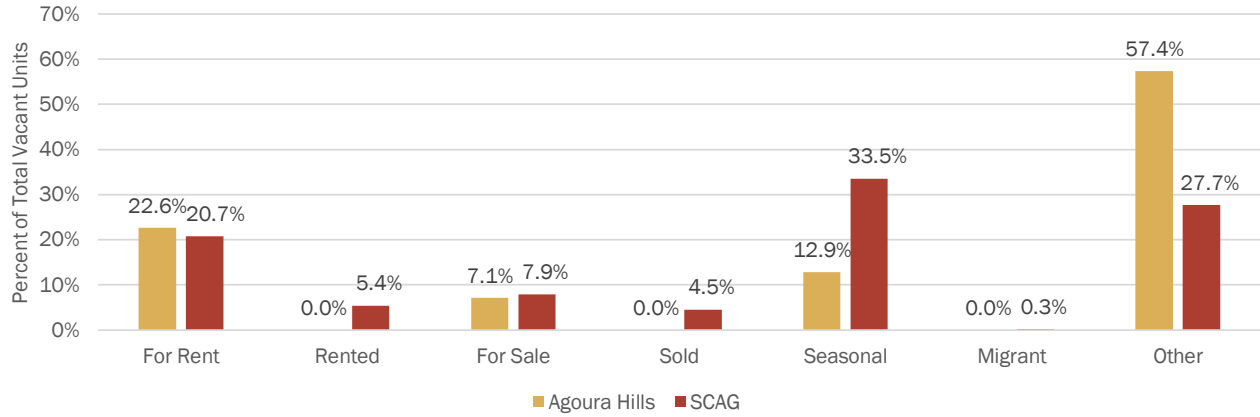

Housing Type Trend

CA DOF E-5 Population and Housing Unit Estimates

Over the past two decades (2000-2020), there has been more development in multi-family residential units than single-family residential units in Agoura Hills. When comparing 2000 to 2020, SFR units increased by 169, MFR units increased by 455, and mobile units increased by 22.

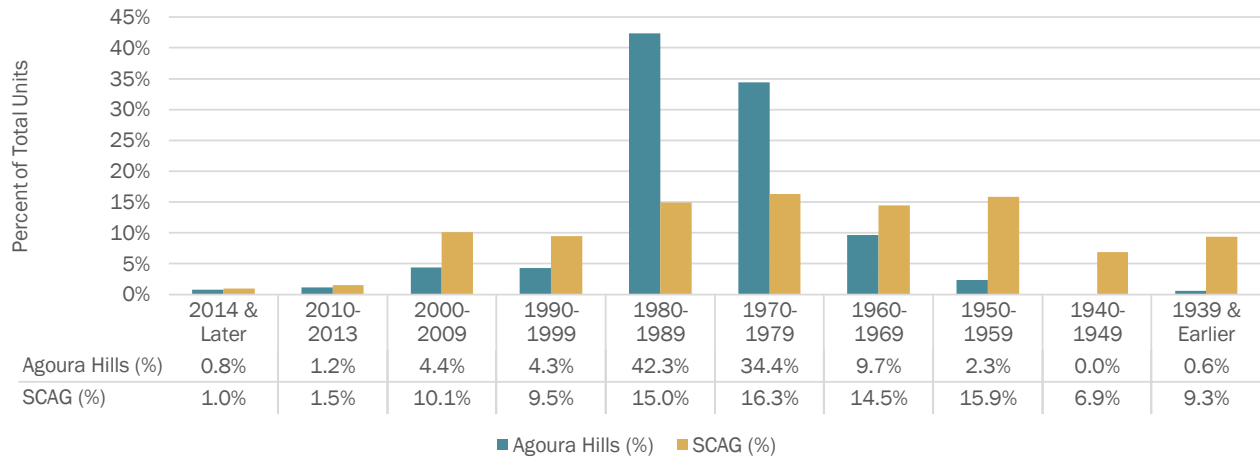

Vacant Units by Type

American Community Survey 2014-2018 5-year estimates.

The ACS provides additional detail on vacant housing units by category.

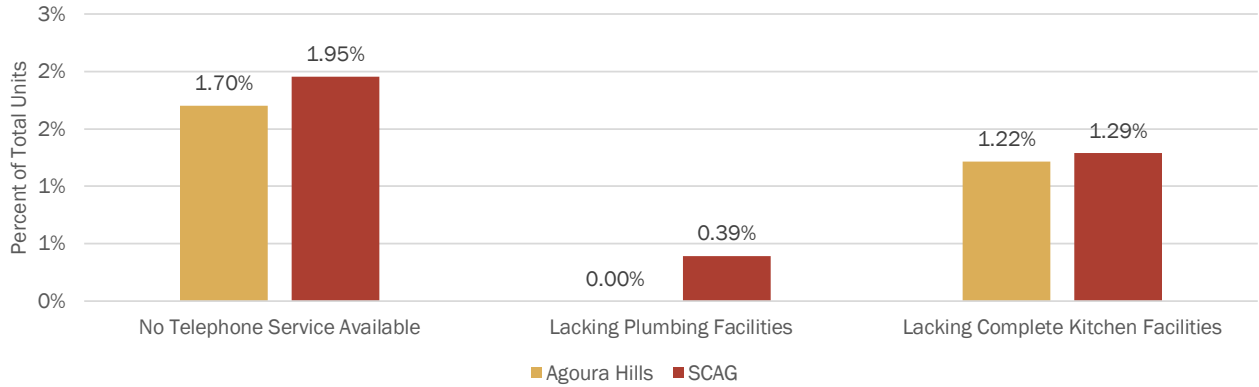

Housing Units by Year Structure Built

American Community Survey 2014-2018 5-year estimates.

Examining the age of the current housing stock is one way to understand how historical development patterns have contributed to a city's form. The time period where the highest share of Agoura Hills's housing units were built is 1980-1989, while in the SCAG region more units were built during 1970-1979 than any other period.

Substandard Housing

American Community Survey 2014-2018 5-year estimates.

The ACS includes surveys about three factors of what may be considered substandard housing. In Agoura Hills, 126 units lack telephone service, units lack plumbing facilities, and 90 units lack complete kitchen facilities.

Median Home Sales Price for Existing Homes

SCAG Local Profiles, Core Logic/Data Quick. SCAG median home sales price calculated as household-weighted average of county medians.

Between 2000 and 2018, median home sales prices in Agoura Hills increased 147% while prices in the SCAG region increased 151%. 2018 median home sales prices in Agoura Hills were \$809,000 and the highest experienced since 2000 was \$809,000 in 2018. Prices in Agoura Hills have ranged from a low of 119.3% of the SCAG region median in 2007 and a high of 180.1% in 2009.

Housing Units Permitted

Core Logic/Data Quick. Additional detail available in SCAG 2019 Local Profiles. SCAG median home sales price calculated as household-weighted average of county medians.

VI. OVERPAYMENT AND OVERCROWDING

Crowding by Extent and Tenure

American Community Survey 2014-2018 5-year estimates.

In Agoura Hills, 26 owner-occupied and 123 renter-occupied households had more than 1.0 occupants per room, which meets the ACS definition for overcrowding. 26 owner-occupied households and renter-occupied households had more than 1.5 occupants per room, which meets the ACS definition for severe overcrowding.

Cost Burden by Income

Households by Share of Income Spent on Housing Cost:			
Income	< 30%	30-50%	> 50%
< 30% HAMFI	15	0	335
30-50% HAMFI	15	35	455
50-80% HAMFI	145	440	335
80-100% HAMFI	160	430	185
> 100% HAMFI	3,959	650	155
Total Households	4,294	1,555	1,465

HUD CHAS, 2012-2016. HAMFI refers to Housing Urban Development Area Median Family Income.

Housing cost burden is most commonly measured as the percentage of gross income spent on housing, with 30% a usual threshold for 'cost burden' and 50% the threshold for 'severe cost burden.' However, a lower-income household spending the same percent of income on housing as a higher-income household will likely experience more true 'cost burden.' These data indicate the number of households in Agoura Hills by their income relative to the surrounding area and their share of income spent on housing.

Spending on Rent

Across Agoura Hills's 1,694 renter households, 811 (47.9%) spend thirty percent or more of gross income on housing cost, compared to 55.3% in the SCAG region. Additionally, 445 renter households in Agoura Hills (26.3%) spend fifty percent or more of gross income on housing cost, compared to 28.9% in the SCAG region.

Spending on Rent by Income

American Community Survey 2014-2018 5-year estimates.

While the previous table breaks down cost burden by area-relative income, the ACS also allows for the analysis of Agoura Hills's 1,629 renter households (for which income data are available) by spending on rent by income bracket (dollar amounts). As one might expect, the general trend is that low-income households spend a higher share of income on housing (e.g. over 50%) while high-income households are more likely to spend under 20% of income on housing.

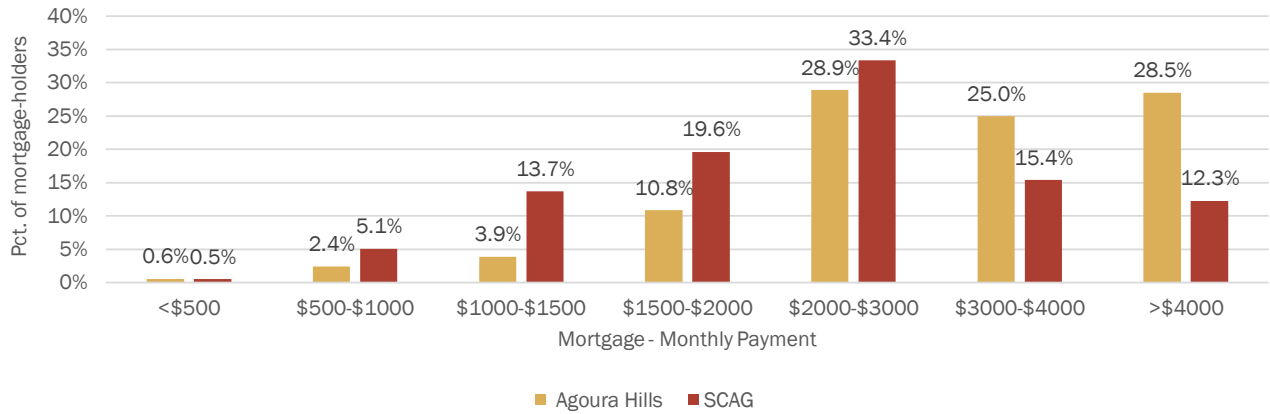

Household Income by (Cash) Rent

American Community Survey 2014-2018 5-year estimates.

Agoura Hills renter households' cash rent paid can be broken down by household incomes. As one might expect, the general trend is that lower-income households spend less on rent while higher-income households spend more on rent, though this may not be universally true. Rent categories range from <\$500/month (0% of Agoura Hills renters) to >\$2000/month (74% of Agoura Hills renters). The most common rent category in Agoura Hills is >\$2000/month with 74% of renters.

Monthly Owner Costs for Mortgage Holders

American Community Survey 2014-2018 5-year estimates.

While renter households receive much of the focus when it comes to housing cost analysis, owner households make up 77.1% of Agoura Hills and 52.5% of the SCAG region. The most commonly occurring mortgage payment in Agoura Hills is \$2000-\$3000/month and the most commonly occurring mortgage payment in the SCAG region is \$2000-\$3000/mo.

Costs for Mortgage Holders by Income

Mortgage-holding households in Agoura Hills can be broken down by income and the percentage of income spent on mortgage costs. As one might expect, the general trend is that lower-income households spend a higher share of income on housing costs, while high-income households may spend a lower share of income on housing. The income category most prevalent amongst Agoura Hills mortgage-holding households is \$75,000 or more (3,562 households) and the most prevalent share of income spent on mortgage costs is over 30% (1,884 households).

Household Income by Home Value (for owned units)

Another approach to evaluating the relationship between housing and income is to compare incomes and home values in Agoura Hills. The most commonly-occurring income category amongst owner households in Agoura Hills is \$100,000 or more (3,728 households) and the most commonly-occurring home value category is Above \$500,000 (4,712 households).

Extremely Low Income Housing Needs

	Total Households	Households below 30% HAMFI	Share below 30% HAMFI
White, non-Hispanic	6,045	310	5.1%
Black, non-Hispanic	85	0	0.0%
Asian and other, non-Hispanic	555	10	1.8%
Hispanic	665	65	9.8%
TOTAL	7,350	385	5.2%
Renter-occupied	1,780	170	9.6%
Owner-occupied	5,560	220	4.0%
TOTAL	7,340	390	5.3%

HUD CHAS, 2012-2016. HAMFI refers to Housing Urban Development Area Median Family Income.

Housing the extremely-low income population (below 30% of area median income) can be especially challenging. HUD's CHAS dataset provides a wealth of information on such households in Agoura Hills. The above table provides a breakdown of extremely low income households by race and ethnicity. The race/ethnicity with the highest share of extremely-low income households in Agoura Hills is Hispanic (9.8% compared to 5.2% of total population). In the SCAG region, the highest share of extremely-low income households is Black, non-Hispanic (27.1% compared to 17.7% of total households).

VII. ASSISTED UNITS AT RISK OF CONVERSION

Assisted Units at Risk of Conversion

Risk Level	Definition:	Low-income units in jurisdiction	Percent of county's low-income units
Very High	At-risk of converting to market rate within the next year	0	#DIV/0!
High	At-risk of converting to market rate in the next 1-5 years	0	#DIV/0!
Moderate	At-risk of converting to market rate in the next 5-10 years	0	#DIV/0!
Low	At-risk of converting to market rate in the next 10 or more years and/or are owned by a large/stable non-profit, mission-driven developer.	0	#DIV/0!
TOTAL		0	#DIV/0!

California Housing Partnership, July 2020. Includes HUD, Low-Income Housing Tax Credit (LIHTC), USDA, and CalHFA projects. Subsidized or assisted developments that do not have one of the aforementioned financing sources may not be included.

The California Housing Partnership (CHP) provides data on assisted housing units and assesses the level of risk to converting to market rate. These data identify homes without a known overlapping subsidy that would extend affordability beyond the indicated timeframe and unless otherwise noted are not owned by a large/stable non-profit, mission-driven developer. Detailed 2019 data can be found in SCAG's RHNA data appendix at <http://scag.ca.gov/programs/Documents/RHNA/SCAG-Final-RHNA-Data-Appendix-030520.pdf>. Complete, updated data can be requested from CHP through Danielle Mazzella, Preservation & Data Manager (dmazzella@chpc.net)

VIII. REGIONAL HOUSING NEEDS ALLOCATION

6th Cycle Regional Housing Needs Allocation for Agoura Hills:

	Units
Very-Low Income (<50% of AMI)	126
Low Income (50-80% of AMI)	72
Moderate Income (80-120% of AMI)	55
Above Moderate Income (>120% of AMI)	65
TOTAL	318

SCAG, 2020. Estimate based on final adopted RHNA methodology (3/5/20). Final RHNA allocation will be issued following the conclusion of the RHNA appeals process in early 2021. Please note that for the housing element update, local jurisdictions will have to consider extremely low income (ELI) households as well. ELI housing needs may be calculated either by using Census data or simply assuming that 50 percent of the very low income households qualify as extremely low income households.
