INTERGOVERNMENTAL REVIEW CLEARINGHOUSE REPORT

This Intergovernmental Review Clearinghouse Report summarizes the federal grant applications, environmental documents and other information received by SCAG’s Intergovernmental Review (IGR) Section during the period 2016-07-01 through 2016-08-31. The Clearinghouse Report consists of two sections, Federal Grant Listing and Environmental Documentation Listing.

The Federal Grant Listing is provided to inform your organization of all grant applications for federal assistance from our region in accordance with Executive Order 12372. The listing includes state sponsored plans and project types such as Housing and Community Development, Urban Mass Transit, and Human Services. The Environmental Documentation Listing describes regionally significant and non-regionally significant facilities (e.g., transportation, wastewater treatment), residential, commercial and industrial projects which have been voluntarily submitted for review by local governments. Environmental documents received include Notices of Preparation, Environmental Impact Reports, Environmental Impact Statements, Negative Declarations and Mitigated Negative Declarations.

A SCAG Project Identification Number organizes project descriptions for both the Federal Grant and Environmental Documentation listings.

IGR CONTACT

To include the interest of your jurisdiction or comment on proposed comprehensive planning, areawide coordination or environmental impacts please contact the IGR Section prior to 2016-09-30. Please send one (1) copy of all environmental documentation. Also, please provide the name and telephone number of the contact person on your transmittal. We may be reached at:

Mailing Address: Southern California Association of Governments
Intergovernmental Review Section
818 West Seventh Street, 12th Floor
Los Angeles, CA 90017-3435

Telephone: (213) 236-1800
Fax: (213) 236-1963

Questions regarding the Clearinghouse Report should be directed to Lijin Sun, (213) 236-1882.

MORE INFORMATION

The IGR web page includes staff prepared publications describing items and projects received by the IGR Section, and other web sites that may be useful to persons seeking information about how to comply with CEQA and the CEQA Guidelines. For more information, please visit SCAG’s IGR web page at www.scag.ca.gov/igr/.

Project Title: 2016 Air Quality Management Plan (AQMP)

Reg. Significance: Yes

Lead Agency: South Coast Air Quality Management District

City / County / Subregion: / **Multi-County / **Not Applicable

Contact: Jillian Wong - (909) 396-3176

Comment Due Date: 2016-08-04

Project Description: Notice of Preparation of a Draft Program Environmental Impact Report

Located in the South Coast Air Basin, which consists of four counties (all of Orange County and non-desert portions of Los Angeles, Riverside, and San Bernardino Counties), the Riverside County portions of the Salton Sea Air Basin (SSAB), and Mojave Desert Air Basin (MDAB), California, the proposed project consists of the 2016 AQMP which identifies control measures and strategies to bring the region into attainment with the revoked 1997 8-hour National Ambient Air Quality Standard (NAAQS or standard) for ozone by 2024, the 2008 8-hour ozone standard by 2032, the 2012 annual PM2.5 standard by 2025, the 2006 24-hour PM2.5 standard by 2019, and the revoked 1979 1-hour ozone standard by 2023. The 2016 AQMP consists of three components: 1) the SCAQMD's Stationary, Area, and Mobile Source Control Measures, 2) State and Federal Control Measures provided by ARB, and 3) Regional Transportation Strategy and Control Measures provided by SCAG. The 2016 AQMP includes emission inventories and control measures for stationary, area, and mobile sources, the most current air quality setting, updated growth projections, new modeling techniques, demonstrations of compliance with state and federal CAA requirements, and an implementation schedule for adoption of the proposed control strategy.
Inland Empire Utilities Agency

Project Description:
Notice of Preparation of a Draft Program Environmental Impact Report

Located in the Inland Empire Service Area, which includes the cities of Upland, Montclair, Ontario, Fontana, Chino, Chino Hills, Ranch Cucamonga, and unincorporated areas of San Bernardino County, California, the proposed project includes construction and operation of facilities in the six interrelated Facility Master Plans. The Facilities Master Plans, which encompasses the 242-square-mile service area, outlines facility improvements that are needed to meet the Inland Empire Utilities Agency's (IEUA) long term planning objectives. These proposed facilities would implement the comprehensive strategy for managing IEUA's regional wastewater and recycled water distribution system in the future, the future strategy for the treatment and disposal of biosolids and manure, and reliable and sustainable energy infrastructure to support these activities.

City of Arcadia

Project Description:
Notice of Intent to Adopt a Mitigated Negative Declaration

Located in the City of Arcadia, County of Los Angeles, California, the proposed project intends to refine General Plan policies applicable to a defined area in Downtown Arcadia and to modify zoning regulations to allow for and guide expansion of an existing private high school. The proposed project involves consolidating educational programs and administration into a single school campus. The contiguous campus will include three buildings, circulation for pedestrians and vehicles, and three parking areas.

A Planning Commission public hearing will be held on July 26, 2016 at 7:00 p.m. and August 16, 2016 at 7:00 p.m. at the City Council Chambers at Arcadia City Hall, located at 240 West Huntington Drive, Arcadia, California.
Located in the City of Lake Elsinore, County of Riverside, California, the proposed project includes the development of a gated complex with 150 units within ten individual buildings on 8.27 acres. Onsite recreational amenities include a 1,619 sf clubhouse that will house the leasing office, a conference room, multi-purpose room, kitchen, pool equipment, and utility area. There is also a proposed pool area that includes a bbq counter, cabanas, and a fireplace.

Located in the City of Westminster, County of Orange, California the proposed project consists of an update to the current General Plan in the following eight elements: Land Use; Mobility; Parks and Recreation; Public Services, Facilities, and Natural Resources; Public Health and Safety; Housing; Economic Development; and Community Design. Buildout of the General Plan Update could ultimately support a total of 36,484 housing units, 118,463 residents, 19.2 million square feet of nonresidential building space, and 39,407 jobs in the City and its Sphere of Influence. This would represent an addition of 6,812 housing units, 26,296 new residents, 6.4 million square feet of additional nonresidential building space, and approximately 16,170 new jobs in the plan area compared to existing conditions.
Located in Downtown Santa Monica, County of Los Angeles, California, the proposed project would involve demolition of an existing 325-space public parking structure at 1318-1320 4th Street and development of an approximately 100,000 square-foot building consisting of 90,000 square feet of floor area for a theater use with up to 16 screens, 2,700 seats, and associated lobby, lounge, and food service areas; and 10,000 square feet of ground floor retail/restaurant commercial space available for lease to commercial tenants unaffiliated with the theater operations. No parking is proposed to be provided on the project site. It is anticipated that the project's parking demand would be met by the public parking supply in the Downtown and Civic Center.

The proposed project is a Transit Oriented Development (TOD) Plan, which would amend the City of Inglewood General Plan to recognize the enhanced accessibility that completion of the Metro Crenshaw/LAX Line will bring, and to capture resulting land use and economic development opportunities. The proposed project will modify existing zoning to provide form-based development regulations aimed at maximizing use of transit, bicycling and walking within Downtown Inglewood and Fairview Heights. Proposed regulations include reductions in minimum parking requirements for uses and locations most amendable to transit use.

The proposed Plan includes various components. They are: residential, retail, office, hotel, institutional, and industrial & industrial/creative office. The project area is developed with existing structures and will require demolition of approximately 40 dwelling units and 987,867 square feet. At build-out, the proposed project would include: 8,474 residential units; 1,230,872 square feet of retail; 1,120,112 square feet of office; a 258-room hotel; 750,104 square feet of institutional use; and 1,752,029 square feet of industrial & industrial/creative office.

Project Description: Notice of Availability of a Draft Environmental Impact Report

Located in the Silver Lake-Echo Park-Elysian Valley- and Hollywood Community Planning Areas of Los Angeles City, County of Los Angeles, California, the proposed project would be a mixed-use development consisting of three (3) sites. Site 1 would include 84 dwelling units, 4,678 sf of creative office space, 3,699 sf of restaurant uses, 2,001 sf of retail uses, an 800-sf community room/cultural activity space, and 8,650 sf of total open space. Site 2 would include 91 residential units, approximately 10,000 sf of restaurant uses, and 7,460 sf of open space. Site 3 would include 122 residential units 4,500 sf of retail fitness center uses, 999 sf of restaurant uses, an 850 sf community room, and approximately 12,450 sf of open space.

Project Description: Notice of Preparation of a Draft Environmental Impact Report

Located in the City of Irwindale, County of Los Angeles, California, the proposed project includes the development of a three-story, approximately 90,000 sf outpatient Medical Office Building (MOB). An approximately 11,357 sf urban plaza will be located on the central portion of the project site along with a public amphitheater, east of the proposed MOB. An approximately 1,200 sf native garden will be located on the northern portion of the project site, immediately north of the proposed MOB. The proposed project would provide a total of 450 parking spaces in a five-story parking structure and surface parking lot.

Located in the City of Agoura Hills, Los Angeles County, California, the proposed project is a mixed-use commercial and residential project on an 8.2-acre undeveloped, vacant site. The proposed project will consolidate 24 parcels into two (2) parcels. The proposed project would include seven (7) buildings and a mix of 35 residential apartment units totaling 47,858 square feet, and 68,918 square feet of commercial space (34,013 square feet of retail and restaurant space, and 34,905 square feet of office space). On-site parking would include 250 surface parking spaces. Additionally, the proposed project would include roadway improvements to the intersection adjacent to the site. The Cornell Road would be improved to accommodate new sidewalks, curb and gutter and the addition of on-street parking spaces along both sides of the roadway.

Scoping Meeting Notice

The Department of Toxic Substances Control (DTSC) is the lead state regulatory agency overseeing investigation and approving cleanup plans for the PIA which is the area within an approximately 1.7 mile radius of the former Exide Technologies Facility (currently Resurrection Church) in Los Angeles County, California. DTSC has prepared an environmental impact report (EIR) for the approval of a cleanup plan ("project"). The project would result in an expansion and acceleration of cleanup efforts inside the PIA with priority given to highest concentration of lead in soil with greatest potential for exposure. Further prioritization for properties will be considered based on demographics and property characteristics, such as bare soils accessible, and if children (under 7 years) and pregnant women reside on the property.

The Scoping Meeting will be held on July 11, 2016, from 6 p.m. to 8 p.m. at 3324 E. Opal Street, Los Angeles 90023.

Project Description: Notice of Public Hearing

Located in the City of Los Angeles, County of Los Angeles, California, the proposed project includes a Conditional Use Permit (CUP) to allow the sale and dispensing of a full-line of alcoholic beverages for on-site consumption in conjunction with a proposed 3,070-square-foot restaurant/bar including a 1,350 sf lobby restaurant/bar with 45 seats, a 250 sf rotunda/bar with 17 seats, and a 1,470 sf uncovered patio with 118 seats.

A public hearing will be held on July 26, 2016 at 10:30 a.m. at the Los Angeles City Hall, located at 200 North Spring Street, Room 1070, Los Angeles, California 90012.
The California Department of Toxic Substances Control (DTSC) has approved the Remedy Selection for the Boeing Satellite Systems. A public comment period was set from April 21 through May 20, 2016 and three comments were submitted during the public comment period. One comment was later retracted by the public member. The public comments did not request changes in the proposed remedy therefore the proposed remedy was not altered. DTSC also prepared a CEQA Notice of Exemption for this project. DTSC’s proposed remedy will be sufficient to protect human health, the environment, and the underlying groundwater resource.

Located in the City of Ranchos Palos Verdes, County of Los Angeles, California, the proposed project involves a request to subdivide an existing vacant 43,610 square foot (sf) lot into two separate parcels for the development of one single-family dwelling unit on each lot, totaling two dwelling units.

A Planning Commission public hearing will be held on July 26, 2016 at 7:00 p.m. at the Hesse Park Community Building, located at 29301 Hawthorne Boulevard, Ranchos Palos Verdes, California.
**Project Description:** Notice of Intent to Adopt a Mitigated Negative Declaration

Located in the City of Wildomar, County of Riverside, California, the proposed project includes the construction of 77 detached single-family residential dwelling units on one lot, including onsite recreational and open space amenities, onsite and offsite infrastructure, and a water basin on five lettered lots on an 11.25 acre site.

**Project Description:** Soil Vapor Sampling at Univar USA, Inc.

Department of Toxic Substances (DTSC) has approved the Site Investigation Report (SIR) for the former Univar USA, Inc. Facility. Univar is in the process of preparing a final Remedy Selection Report, which will (1) outline cleanup goals, (2) describe the plan for achieving the cleanup, and (3) determine whether future use of the site should be restricted.

Comment Due Date: 2016-08-22

Project Description:
Notice of Availability of a Draft Environmental Impact Report
Located in the City of San Bernardino, County of San Bernardino, California, the proposed project includes a Specific Plan to allow the future development of up to 120 single-family residential dwelling units and up to 98,000 square feet of commercial uses on a 42-acre project site. Two private parks and a paseo are proposed within the residential area, along with a recreational vehicle storage lot. And approximately 0.5 acre of parkland will be dedicated as part of the project for the expansion of the existing Ronald Reagan Park.
Located in the City of Los Angeles, County of Los Angeles, California, the proposed project consists of the development of a two-story single-family residence (approximately 3,826 square feet of residential floor area), including a stacked car-life four-car garage, a swimming pool, outdoor living areas (barbeque area and patio), landscaped area, open space, a fence surrounding the property, and an entrance gate. The project includes the removal of six mature oak trees and the partial alteration of a blue-line stream and riparian habitat on the site.

Located in the City of Industry, County of Los Angeles, California, the proposed project would subdivide the 28.9 acre site into five parcels and develop concrete warehouse/office buildings intended for industrial warehouse/office use. Proposed buildings would provide a total combined building area of 614,597 square feet (sf).
The Department of Toxic Substances and Control (DTSC) is proposing a Removal Action Work Plan (RAW) for the treatment and control of chemical contamination resulting from historic operations at the Former Fredrick Raymond Facility. The RAW proposed a remedy that included soil excavation and off-site disposal, groundwater treatment, and a land use covenant. There is immediate health risk because the public is not exposed to any chemical contamination.

This is a Class I permit modification to the Department of Toxic Substances (DTSC) intended to change the designated contact person and emergency coordinator for the Crosby & Overton Inc. facility in Long Beach, California.

Comment Due Date: 2016-08-15
Project Description: Notice of Preparation of a Draft Environmental Impact Report
Located in the City of Tarzana, County of Los Angeles, California, the proposed project proposes upgrades and enhancements to the Medical Center, including enhancing the existing Hospital lobby, expanding the diagnostic and treatment areas (D&T Expansion), construction of new central utility plant in the basement of the D&T Expansion, and constructing a new patient wing. The project would also include the construction of a new above-grade parking structure of approximately seven levels that would provide approximately 650 parking spaces. To provide for the proposed improvements, the project would include removal of the existing pharmacy within the Hospital, eight modular buildings, and the MRI building.
A public scoping meeting will be held on July 27, 2016 at 5:00 p.m. at the Providence Tarzana Medical Center, Main Hospital Building, Hospital Auditorium, located at 18321 Clark Street, Tarzana, California 91356.
The Fig

Located in the City of Los Angeles, County of Los Angeles, California, the proposed project includes the demolition of eight existing multi-family residential buildings and surface parking areas in order to develop a mixed-use project on an approximately 4.4-site. The project is comprised of three components: a hotel component that includes 298 rooms, 15,335 sf of retail and restaurant uses, 13,553 sf of guest and public amenities, and 7,203 sf of public meeting spaces, the student housing component that includes 222 student housing units, and a mixed-income housing component that includes 186 dwelling units (82 of which would be restricted to households earning no more than 80 percent of the Area Median Income), 20,364 sf of creative office space, and 7,000 sf of retail and restaurant uses. The proposed project would also construct a nine-story above-ground parking structure to provide parking for all three components.

A public scoping meeting will be held on August 10, 2016 at 6:00 p.m. at the Radisson Mid-City Hotel, Victory Room, located at 3540 South Figueroa Street, Los Angeles, California 90007.

IPT-225 Distribution Center II (Georgia) Permit Type - D 16-11

Located in the City of San Bernardino, County of San Bernardino, California, the proposed project is a 153,010 square foot industrial building with office space, parking, and landscaping on an approximately 8.1-acre property. The industrial building would be one level with a maximum height of 47 feet. The building would include 148,010 square feet of warehouse space and 5,000 square feet of dedicated office space. The building would have 29 dock doors on its southern frontage. Total on-site parking would include 143 stalls, with 86 dedicated to warehouse parking (including office), 51 trailer parking spaces and 6 dedicated ADA stalls. Landscaping in the amount of 33,619 square feet is anticipated for the site. Roadway frontage improvements would also be provided.
A public hearing will be held on July 28, 2016 at 6:30 p.m. at the City of Agoura Hills Council Chambers, located at 30001 Ladyface Court, Agoura Hills, California 91301.

Located in the City of Lancaster, County of Los Angeles, California, the proposed project consists of a Specific Plan to develop a master community on approximately 307.6 acres. The Specific Plan consists of 1,375 single family lots, 325 apartment units, 14 acres of commercial use, a 12.8 acre elementary school, a 1.3 acre fire station, 31 acres of parks and open space, and trail network.

A public scoping meeting will be held on July 27, 2016 at 6:30 p.m. at the MOAH - Cedar Center for the Arts, located at 44851 Cedar Avenue, Lancaster, California 93534.
The proposed Project involves the construction and operation of a new, MOTEMS-compliant wharf (herein referred to as a loading platform) at Berth 164 and minor infrastructure improvements to connect the new loading platform to the existing landside pipelines and utilities. Construction would consist of demolishing the existing 19,000-square-foot timber wharf and constructing a new, steel and concrete loading platform, access trestles, pipeline trestle, mooring structures, berthing structures, catwalks, topside equipment, and necessary utilities. The new structure would be capable of handling vessels of up to 85,000 DWT. The proposed Project consists of the following components to meet MOTEMS requirements: (1) Demolition of the timber deck and access trestles and removal of creosote-treated timber piles at Berth 164. Piles that cannot be extracted would be cut at the mudline; (2) Construction of a new, steel-reinforced concrete loading platform and access trestles; (3) Installation of new mooring dolphins and berthing dolphins; (4) Installation of new boom reel platform, catwalks, and topside equipment required for loading and unloading operations at and adjacent to the new loading platform; and (5) Possible clean-up dredging to restore the existing berth of 40-foot depth. Additionally, the proposed Project also includes a new long-term (30-year) lease between the LA Harbor Department and Valero.
Project Description: Notice of Availability of a Draft Environmental Impact Report

Located in the southeastern portion of the City of Long Beach, County of Los Angeles, California, the proposed project includes a new Specific Plan covering 1,472 acres and includes 1,372 acres currently zoned "PD-1 SEADIP," 94 acres of the San Gabriel River and Los Cerritos Channel, and 6 acres along the southeast edge of the current PD-1 boundary.

Buildout of the Specific Plan would allow a total of 9,518 dwelling units, 15,134 persons, 2,665,052 square feet (sf) of commercial/employment uses, and 425 hotel rooms. This would result in a net increase of 5,439 dwelling units, 8,648 persons, 573,576 sf of commercial/employment uses, and 50 hotel rooms.

Notice of Intent to Adopt a Mitigated Negative Declaration

Located in the City of Santa Monica, in western Los Angeles County, the proposed project will occur at the existing Santa Monica Urban Runoff Recycling Facility (SMURRF), Santa Monica Civic Center Parking Lot and Memorial Park.

The proposed project includes three integral project elements. Together they will provide for advance treatment and reuse of brackish-saline-impaired groundwater, recycled municipal wastewater and stormwater runoff. The elements are: (1) brackish/saline impaired groundwater reuse; (2) recycled water production and conjunctive reuse capable of advance treatment of up to 1.0 MGD of municipal wastewater; and (3) stormwater harvesting and reuse with two tanks (3.0 million gallons and 1.5 million gallons).

Project Title: Palen Solar PV Project (formerly Palen Solar Electric Generating System)
Reg. Significance: No
Lead Agency: Bureau of Land Management
City / County / Subregion: / Riverside / **Not Applicable
Contact: Frank McMenimen - (760) 251-4800
Comment Due Date: 2016-09-03
Located in eastern Riverside County on land administrated by the Bureau of Land Management (BLM), the 4,200-acre site lies north of the I-10 freeway, approximately 10 miles east of the Community of Desert Center to the northeast of the Corn Springs Road freeway exit. The previously approved project was the use of thermal solar power tower technology withdrawn before final approval. The current proposal was to construct and operate the project as a 500 megawatt (MW) solar photovoltaic (PV) electric generating facility with associated infrastructure on the site. The proposed project would maximize its solar generation capacity by using a single-axis tracking system that allows PV panels to track the sun over the course of the day while minimizing visibility by maintaining a panel height of 18 feet or less. The facility would include 200 power blocks with the capability of 2.5 MW each.

The project is subject to the NEPA and CEQA and has previously gone through the review under both statutes, a combined Supplemental EIS/EIR will be prepared. Scoping is not required for the Supplemental EIS/EIR. However, because of the conversion from solar thermal technology to solar PV technology, the public is given an opportunity to provide input and comments. A public meeting is scheduled for August 4, 2016 at 3:30 p.m. to 5:30 p.m. at Palm Springs City Hall, located at 3200 E. Tahquitz Way, Palm Springs, California 92262.

---

This is a notice to make a revision to the previous notice. In the previous notice, it stated that the proposed Conditional Use Permit was for the proposed hours of operation from 7 a.m. to 10 p.m. Monday through Friday to allow the sale and dispensing of a full-line of alcoholic beverages for on-site consumption in conjunction with a 3,070-square-foot restaurant/bar. The revision is to the proposed hours of operation to say 7 a.m. to 12 a.m. Monday through Saturday and 7 a.m. to 10 p.m. Sunday.
Located near the City of Loma Linda, within the City's Sphere of Influence in an unincorporated portion of San Bernardino County, California, the proposed project includes an annexation of 80 acres to develop into 95 single-family residential lots and eight (8) common letter lots. The 95 single-family residential lots would range in size from 7,200 square feet to 15,330 square feet.

A public hearing will be held on August 3, 2016 at 7:00 p.m. at the Council Chambers, located at 25541 Barton Road, Loma Linda, California.

Located in the County of Orange, California, the proposed project includes the construction and operation of four monitoring wells to document the travel time distance of Groundwater Replenishment System water recharged into Burris basin and Santiago Basin.

Comment Due Date: 2016-08-22

Project Description: Notice of Preparation of Environmental Impact Report

Located in the City of Newport Beach, County of Orange, California, the proposed project consists of the demolition of an existing 8,800 sq ft restaurant and development of a 5-story 128-unit (144-bed) convalescent and congregate care facility and associated ancillary uses and subsurface parking. The project site is 1.5 acres.

A public scoping meeting will be held on August 15, 2016 at 6:00 p.m. at the Civic Center Community Room, 100 Civic Center Drive, Newport Beach, CA 92660.

Comment Due Date: Notice of Community Workshop

Project Description: Located in the City of Lakewood, County of Los Angeles, California, the proposed project is an update to the City's Hazard Mitigation Plan (HMP). The HMP is used to assess the natural hazards that poses a threat to the city and to determine the potential financial impact of such hazards and will also identify ways to minimize or even eliminate the damage caused by natural hazards.

A community workshop will be held on August 2, 2016 at 5:00 p.m. at the Centre at Sycamore Plaza, Executive Board Room, located at 5000 Clark Avenue, Lakewood, California 90712.

Project Description: Notice of Public Hearing

A public hearing will be held on August 11, 2016 at 7 p.m. in City Council Chambers located at 25550 Commercenter Drive, Suite 100, Lake Forest, California 92630.
**Project Description:** Notice of Intent to Adopt a Mitigated Negative Declaration

The proposed project is an update to the City of Arcadia's Development Code, which will apply only to land within the City of Arcadia, Los Angeles County, incorporated boundaries.

The proposed update consists of three components. First, comprehensive updates/rewrites of Chapter 1 (Subdivision Code), Chapter 2 (Zoning Regulations), Chapter 3 (setbacks), and Chapter 6 (Review of Planning Commission Decisions) of Article IX of the City Municipal Code to create a new Development Code. Additionally, there will be minor amendments to Chapter 7 (Tree Preservation). Second, there will be a focused amendment to General Plan to expand the area currently designated as Downtown Mixed Use. Third, the zoning will be amended to achieve consistency between the Development Code and General Plan amendments.

**Project Description:** Notice of Availability of Recirculated Draft Environmental Impact Report

Located in the downtown Los Angeles in the Los Angeles County, California, the proposed project is a redevelopment of an approximately 10-acre site. The proposed project would demolish up to approximately 91,729 square feet of the existing structures and redevelop the site with a mixed-used project with a maximum of approximately 1,719,658 square feet of total developed floor area. The proposed project would take place over a 25-year period to include the construction of 945 multiple residential dwelling units, approximately 210 hotel rooms, approximately 294,641 square feet of commercial (including medical and general office) and manufacturing uses, approximately 224,864 square feet of retail floor area, a cinema with 744 seats, and approximately 321,112 square feet of corporate/educational campus floor area. Additionally, the proposed project would include 3,670 parking spaces in above and below grade parking structures. Lastly, the proposed project development would not exceed an FAR of 4.10 : 1.
City of Los Angeles Department of City Planning

Notice of Completion and Availability of Draft Environmental Impact Report.

Located in the Van Nuys-North Sherman Oaks area in the City of Los Angeles, California, the proposed project is a mixed-use development consisting of residential and neighborhood-serving commercial uses on an approximately 8.3-acre site. The proposed project would include three new buildings that would provide a total of 298 new multi-family residential uses and approximately 39,241 square feet of neighborhood-serving commercial uses, including up to 7,241 square feet of restaurant uses. Additionally, the project would include a total of 1,345 parking spaces for the proposed uses.

Project Description: Notice of Determination.
This is the filing of notice of determination in compliance with Section 21108 or 21152 of the Public Resource Code. The notice of determination is to inform that the University of California, as lead agency, has approved the project on July 19, 2016 and has made the following determinations: (1) the project will have a significant effect on the environment; (2) a negative declaration was prepared pursuant to the provisions of CEQA; (3) mitigation measures were made a condition of the approval; (4) a mitigation reporting or monitoring plan was adopted for the project; (5) a statement of overriding consideration was reaffirmed for the project; and (6) findings were made pursuant to CEQA.
Located in the City of Irvine, County of Orange, California, the proposed project includes Conditional Use Permit (CUP) updates to the current Campus Master Plan. Seven (7) existing buildings totaling approximately 71,231 square feet (sf) total are proposed to be demolished. Seven (7) new buildings or additions to existing buildings totaling approximately 148,880 sf total are proposed to be constructed. One future residence hall for 74 dormitory units (296 bed) is proposed. Various athletic facilities will be added, relocated, or improved, including but not limited to a new lap and recreational pool with kidney-shaped play area for students and staff as well as two new sand volleyball courts and two new tennis courts with four relocated tennis courts on a deck over the southwest parking area. New parking areas are proposed to be added and existing parking areas will remain, be reconfigured, or removed. As proposed, the number of on-site parking spaces will increase from 1,218 existing spaces to approximately 1,436 spaces, or a net increase of approximately 218 spaces. Lastly, internal campus roadway improvements are also proposed.
Project Description: Notice of Availability of a Draft Environmental Impact Report

Located in the southern portion of the City of Moreno Valley, in the County of Riverside, California, the proposed project includes the construction of four industrial buildings totaling 1,736,180 square feet (sf). Building 1 consists of 1,351,763 sf, Building 2 consists of 122,275 sf, Building 3 consists of 97,222 sf, and Building 4 consists of 164,920 sf. The proposed project also includes a Specific Plan Amendment which would amend the setback requirement from 300 feet to 100 feet between industrial and residential uses specified in the Moreno Valley Industrial Area Plan (MVIAP) in order to provide a consistent setback with the warehouse building already constructed immediately north of the project site, and to add the requirement for a contiguous enhanced landscaping zone that is at least 50 feet wide within the 100 foot setback area. The proposed project also consists of a Tentative Parcel Map which would consolidate three (3) parcels on an approximately 73.4 gross acre portion of the project site into two parcels. Parcel 1 would contain approximately 62.6 net acres and Parcel 2 would contain 6.9 net acres.

Lead Agency: City of El Segundo
City / County / Subregion: El Segundo / Los Angeles / South Bay
Contact: Maria Baldenegro - (310) 524-2341
Comment Due Date: 2016-08-30

Project Description: Notice of Public Hearing and Categorical Exemptions

Located in the City of El Segundo, County of Los Angeles, California, the proposed project is a retail market of 65,024 square feet and contains an 869 square-foot outdoor dining area with 45 seats in front of the building. Three restaurants with a total of 1,005 square feet and 57 seats were previously approved to serve alcohol inside the market.

The environmental assessment has determined that the proposed project is categorically exempted from the requirements of the CEQA as a Class 1 (existing facilities) and a Class 3 (new construction of conversion of small structures). The proposed project is negligible expansion of the operation of an existing building involving minor interior tenant improvements and the addition of a 696-square-foot outdoor dining area with 48 seats in front of the market. The property is in an urbanized and developed area where it has adequate access and all public services and facilities are available. The project is not anticipated to have any significant impacts with regard to traffic, noise, air quality or water quality.

This is the filing of notice of determination in compliance with Section 21108 or 21152 of the Public Resource Code. The notice of determination is to inform that the University of California, as lead agency f, has approved the project on July 19, 2016 and has made the following determinations: (1) the project will have a significant effect on the environment; (2) a negative declaration was prepared pursuant to the provisions of CEQA; (3) mitigation measures were made a condition of the approval; (4) a mitigation reporting or monitoring plan was adopted for the project; (5) a statement of overriding consideration was reaffirmed for the project; and (6) findings were made pursuant to CEQA.
A public hearing will be held on August 10, 2016 at 7:00 pm or as soon as possible thereafter, at Menifee City Council Chambers 29714 Haun Road Menifee, CA 92586.

An informational workshop will be held on July 28, 2016 at 9:00 AM at Temecula Conference Center 41000 Main Street, Temecula, CA 92590.
Application for the Fort Yuma Water Treatment and SCADA Project for the Quechan Indian Tribe in Yuma, Arizona

A funding opportunity of $830,000 is being sought from the Department of Agriculture-Rural Development, Water and Waste Disposal Loans and Grants, Native American Set Aside, for the Fort Yuma Water Treatment and SCADA Project. The proposed project will construct and install a new green sand filtration system for the safe removal of the iron and manganese present in the current North Picacho Well and future Picacho Well.

Located in the County of Los Angeles, California, the California Department of Transportation (Caltrans) (Lead Agency) proposes a project to reduce traffic congestion on the Interstate 405 (I-405) freeway mainline, and its on-and-off-ramps at Crenshaw Boulevard/182nd Street from post mile 14.4 (Western Avenue) to post mile 15.6 (W. 182nd Street). Existing roadway deficiencies have led to a continued deterioration of operational conditions. The proposed interchange improvements include: 1) constructing new auxiliary/deceleration lanes on the I-405 freeway mainline; 2) widening of existing on-and-off ramps; 3) constructing a new, two-lane on-ramp to southbound I-405 from Crenshaw Boulevard; 4) widening of Crenshaw Boulevard south of the interchange to accommodate a new, exclusive right-turn lane onto the new proposed southbound I-405 on-ramp; and 5) widening of westbound 182nd Street between the northbound I-405 on-and-off ramps and Crenshaw Boulevard to accommodate new turn movements and geometrical improvements.
Located in the City of Bellflower, County of Los Angeles, California, the proposed project consists of 32 total attached condominium units within 5 buildings, with a mix of ground floor commercial uses and both ground floor and 2nd and 3rd floor residential use. Each unit will be provided with a two-car garage at the ground level, and there will also be a parking lot along Artesia Boulevard. There will be a concrete courtyard between the 5 buildings making up the development.

Located in the City of Compton, County of Los Angeles, California, the proposed project consists of the construction and redevelopment of the project site with a detached condominium development of 62 units and with 142 associated surface parking spaces. The maximum site population would be approx. 258 persons.
Located in the City of Anaheim, County of Orange, California, the proposed project consists of construction of a new organic waste-to-energy facility that would use anaerobic digestion to convert organic waste to biogas. Waste from the Municipal Solid Waste (MSW) stream would be pre-processed at two separate facilities and the organic wet fraction of this would be transported by truck to the Anaheim Sustainability Center where it would be anaerobically digested and release biogas inside concrete digestion tanks, generating energy for onsite use and for sale to utility companies. The projected wastewater flow at buildout was calculated to be approximately 140,500 gallons per day, making the project not significant.

A planning commission hearing will be held on August 22, 2016 at Anaheim City Hall, Council Chambers, 200 S. Anaheim Blvd, Anaheim, CA 92805.

Located in City of West Hollywood, County of Los Angeles, California, the proposed project consists of two five-story buildings joined by two levels of underground parking, a ground-level courtyard, and pedestrian bridges. The overall floor area of the two buildings would be approx. 40,718 sq. ft. including 9,391 sq. ft. commercial space and 30 apartment units.
Located in the City of Agoura Hills, County of Los Angeles, California, the proposed project includes the construction of six (6) light industrial buildings totaling 69,867 square feet on a 5.16 acre parcel and removal of 22 oak trees to allow for on-site improvements.

Located in the City of Beverly Hills, County of Los Angeles, California, the proposed project includes the demolition of two existing commercial buildings and the construction of a new 31,702 square foot building that consists of three stories of commercial office development and four levels of subterranean parking.

A public hearing will be held on August 9, 2016 at 6:00 p.m. at the Beverly Hills City Hall, 2nd Floor, Room 280-A, located at 455 North Rexford Drive, Beverly Hills, California 90210.
The proposed project is a citywide integrated master plan by the City Public Works. It is intended to provide a central planning document to guide improvements to the City's water infrastructure through the planning horizon (2040). Specifically, the proposed Integrated Master Plan addresses future planning needs including infrastructure additions and upgrades for City's water, wastewater, recycled water, and stormwater utilities. The proposed Integrated Master Plan builds upon previous planning efforts using a coordinated methodology, which will allow the City to take full advantage of potential linkages and synergies between the four water utility systems. In addition, it is also coordinated with a street plan in an attempt to allow timing of future street updates to be tied together with infrastructure upgrades.

This is the California State Lands Commission agenda for its regular meeting on August 9, 2016 that is scheduled for 11 a.m. at the Port of Los Angeles Board Hearing Room, located at 425 S. Palos Verdes Street, San Pedro, California. Among the matters that will be considered include those for the Central/Southern Region, and the matters are generally organized into two categories: (1) consideration of application for a general lease; and (2) termination of lease.
Located within the Santa Clarita Valley Sanitation District service area, County of Los Angeles, California, the proposed project involves analysis of potential impacts to the stickleback as a result of reductions in discharge from the Valencia and Saugus Water Reclamation Plants (WRP) to annual average flows of 8.5 and 4.5 million gallons per day (mgd), respectively. Further, the daily minimum flows of both WRPs would not be reduced below the current daily minimum flows of 5 and 4 mgd, respectively, expect as may be required by an emergency. The project only seeks to make quantities of recycled water available to water purveyors that are in excess of a volume established to be protective of the beneficial uses of the Santa Clarita River. This project does not involve any construction.

A public scoping meeting will be held on August 22, 2016 at 1:30 pm at the Santa Clarita Activities Center, located at 20880 Centre Point Parkway, Santa Clarita, California 91350.

Located in City of Newport Beach, County of Orange, California, the proposed project consists of the demolition of existing gas-to-energy facility structures and the construction of both temporary and permanent collocated wireless telecommunication facilities at the closed Coyote Canyon Landfill gas-to-energy facility site.

A public hearing will be held on September 22, 2016 at 6:30 p.m. at the City of Newport Beach Civic Center Council Chambers, 100 Civic Center Drive, Newport Beach, CA 92660.
Located in the City of San Bernardino, County of San Bernardino, California the proposed project would establish a land use and development framework, identify needed transportation and infrastructure improvements, and serve as a marketing tool for attracting developers to key sites and for boosting economic development. The proposed project is intended to encourage residential and neighborhood-serving commercial establishments on major corridors such as Baseline Avenue and Waterman Avenue, direct the creation of employment generating uses to the southern portion of the Plan area closer to the Civic Center and Downtown, and protect and enhance the existing residential neighborhoods.

The project would accommodate for an increase in existing residential uses from an estimated 2,049 units to approximately 4,341 units, and an increase in in commercial uses from roughly 2,366,385 square feet to approximately 3,570,448 square feet and establishes six distinct districts to guide future developments of key parcels throughout the project area.

Located in the City of West Covina, County of Los Angeles, California, the proposed project includes the First Amended Third Partial Consent Decree regarding the 190-acre closed Class I landfill that is part of the BKK Landfills Facility. Since 2006, DTSC and the BKK Working Group (BWG) have entered into a series of court-approved consent decrees requiring the BWG to conduct maintenance and other work at the Facility. If approved by the court, the Amended Third Consent Decree would extend the requirements and other provisions of the Third Consent Decree to five new members of the BWG. The Amended Third Consent Decree would also require the BWG members to make an additional payment and would add an additional maintenance obligation.
**Project Description:** Notice of Preparation of a Draft Subsequent Environmental Impact Report.

Located in the Page Ranch Planned Community Development Plan in the southwest portion of the City of Hemet, County of Riverside, California, the 245.07-acre proposed project is a Specific Plan Amendment (SPA) to the Page Ranch Planned Community Development (PCD), originally approved as PCD 79-93. The PCD was adopted in 1980 and functions as a specific plan, and has been amended several times including the last amendment in 2009.

The proposed Specific Plan Amendment includes a reduction of density of dwelling units from 744 to 625 units and modifies the land use designation from Low Density Residential to Low Medium Density Residential and Open Space Recreation. Additionally, the Specific Plan Amendment will trigger an amendment to the General Plan (GPA 15-002), particularly the Circulation Element, to allow street extension and classification change of one nearby street from a 6-lane arterial to a 4-lane arterial. Lastly, the associated Tentative Tract Map would subdivide the 245.07 acre project site into 635 single family residential lots with an average size of 6,200 square feet and 60.63 acres of park and open space area.

Project Description: Notice of Preparation of a Draft Environmental Impact Report

Located in the City of Riverside, County of Riverside, California, the proposed project includes the construction of a new motor vehicle and emissions testing and research facility that would meet today's work and safety standards and be adequately sized to meet mandated air quality and climate change requirements. The proposed facility would be approximately 300,000 square feet (sf), comprising approximately 160,200 square feet of testing space, 48,000 sf of chemistry lab, and 91,100 sf of office/administrative space. In addition, approximately 144,000 sf of surface parking will be available to accommodate the 415-460 employees and the public. Improvements to Iowa Avenue and possibly Cranford Avenue would be made to accommodate the increased traffic associated with the project and diversity of motorized vehicles transporting to/from the facility for testing.

A public scoping meeting will be held on August 16, 2016 6:00 p.m. at the Center for Environmental Research and Technology, University of California, Riverside, 1084 Columbia Avenue, Riverside, California, 92507.

Project Title: University Dr. and Ridgeline Dr./Rosa Drew Ln. Intersection Improvement Project
Reg. Significance: No
Lead Agency: City of Irvine
City / County / Subregion: Irvine / Orange / Orange County
Contact: Cheryl Lea - (949) 724-7313

Comment Due Date: Revised Notice of Public Hearing

Located in the City of Irvine, County of Orange, California, the proposed project includes adding an additional through lane on eastbound University Drive from approximately (approx.) 580 feet (ft) west of the intersection with Ridgeline Drive/Rosa Drew Lane, which would taper back to two through lanes approx. 725 ft east of the intersection. A northbound right-turn lane would be added to Ridgeline Drive from approx. 500 ft south of the intersection. The existing left turn pocket on westbound University Drive would be extended by approx. 40 ft. This project also includes new pavement, curb, gutter, sidewalk, and pedestrian ramps; modifications to the existing traffic signals to improve traffic operations; construction of low-flow check dams, a vegetated swale, and stormwater/water quality facilities.

This notice is being recirculated to notify agencies that the revised Planning Commission Meeting will be held on September 1, 2016 at 5:30 p.m. at the City Council Chambers, located at One Civic Center Plaza, Irvine, California 92606 and the City Council Meeting will be held on September 13, 2016 at 4:00 p.m. at the City Council Chambers, located at One Civic Center Plaza, Irvine, California 92606.
Notice of Preparation of a Draft Environmental Impact Report

Located in the City of Los Angeles, County of Los Angeles, California, the proposed project includes the construction of a Wellness Pavilion within the Chalon campus to replace the existing outdated fitness and recreation facilities. The project would require the demolition of the existing pool area, tennis courts, fitness trailer, facility maintenance offices, surface parking, and landscaping. The proposed Wellness Pavilion would be a two-story, approximately 38,000 sf, multi-use building, physical therapy lab, dance and cycling studios, offices and support space (i.e. lockers, showers, restrooms, equipment storage, and mechanical spaces). The proposed project would also provide 279 parking spaces. The project does not include a request to change the permitted enrollment limitations nor will it lead to increased student enrollment.

A public scoping meeting will be held on August 16, 2016 at 6:00 p.m. at the MSMU Chalon Campus (Tennis Courts), located at 12001 Chalon Road, Los Angeles, California 90049.

Notice of Public Hearing

A public hearing will be held on August 25, 2016 at 6:30 p.m. at the Gen, William J. Fox Airfield - Lobby, located at 4555 West Avenue G, Lancaster, California 93536 and August 7, 2016 at 9:30 a.m. at the Grace Chapel Neenach, located at 25649 West Avenue D, Lancaster, California 93536.
Project Description: Notice of Completion of a Final Environmental Impact Report

Located in the Hollywood Community Plan area with the City of Los Angeles, California, the proposed project would be a mixed-use project that would provide services and affordable housing for at-risk seniors and young adults in the Los Angeles LGBT Center. The proposed project includes three buildings. The first building is a six-story, 75-foot senior housing building with 100 units for seniors. The second building is a five-story, 60-foot youth housing with up to 35 affordable housing units for young people aging from 18 to 24. The third building is a one- to four-story LGBT facility with approximately 69,250 square feet of floor area which, among others, will include 55 transitional living and emergency guest rooms with a capacity for 100 beds. The proposed project would also include approximately 350 parking spaces in a two-level subterranean parking garage.

Project Description: Notice of Preparation of a Supplemental Environmental Impact Report

Located in the City of Irwindale, County of Los Angeles, California the proposed project occupies 0.98 acres at 5820 Martin Road in the City of Irwindale near the signaled major cross streets of Irwindale Avenue and 1st Street.

A Final EIR was completed and approved by DTSC in 2015, and now a SEIR is being prepared to provide a revised cumulative impacts analysis. This SEIR contains on the revised cumulative impacts analysis and DTSC is only seek input on the scope and content of the revised portions.
Project Description:
Located in the City of Los Angeles, County of Los Angeles, California, the proposed project includes the construction of one new museum building (Museum Building) of approximately 368,300 gross square feet (sf) and a new parking facility referred to as the Ogden Parking Structure. The proposed Museum Building would replace four buildings within LACMA East collectively comprising approximately 392,871 gross sf. The Museum Building is proposed to consist of eight semi-transparent Pavilions that would support an elevated, continuous, transparent main gallery level and extend over Wilshire Boulevard to the Spaulding Lot. The Ogden Parking Structure would be developed southwest of the intersection of Ogden Drive and Wilshire Boulevard on three contiguous parcels owned by Museum Associates and would replace the existing surface parking currently on the Spaulding Lot and would provide the same number of spaces.

A public scoping meeting will be held on August 24, 2016 at 6:00 p.m. at the Los Angeles County Museum of Art, Broad Contemporary Art Museum (BCAM) building, first floor, located at 5905 Wilshire Boulevard, Los Angeles, California 90036.

Project Description:

Project Description:
Regular meeting agenda consisted of (1) CEQA Statutory Exemption for LAFCO 3208; and (2) LAFCO 3208 - Sphere of Influence Amendment for the West Valley Mosquito and Vector Control District, (3) CEQA Statutory Exemption for LAFCO 3209; and (4) LAFCO 3209 - Reorganization to include Annexations to the West Valley Mosquito and Vector Control District and its Assessment District No. 1 and Zone A.
Sycamore Canyon Business Park Buildings 1 and 2

Located in the City of Riverside, County of Riverside, California, the proposed project consists of grading, construction, and operation of a total of approximately 1,375,169 million square feet (sf) of light industrial office and warehousing contained within two buildings on site, which will be subdivided into two parcels. Building 1 will consist of 10,000 sf of office space, 1,002,995 sf of warehouse, totaling 1,012,995 sf, 147 dock doors, 446 parking stalls, and 278 trailer stalls. Building 2 will consist of 10,000 sf of office space, 362,174 sf of warehouse, 45 dock doors, 143 parking stalls, and 74 trailer stalls. Combined, the two buildings propose up to approximately 1,355,169 sf of logistics use, 20,000 sf of office space, 589 parking stalls, and 352 trailer stalls.

La Quinta Village Build-Out Plan

Located in the City of La Quinta, in the County of Riverside, California, the proposed project includes the build-out development of the La Quinta Village area, the City's traditional downtown. The area is currently developed with residential, commercial, and other land uses encompassing 137 acres of land. The Build-Out Plan (project) will develop the remaining 20.7 acres of vacant land as well as redevelop underutilized properties. Future development will include 1,230 units of residential development, a 290 room hotel, and 960,711 square feet of non-residential uses. The project is a long range plan that focuses on development onto the next 20+ years, to 2035.
Located in the northern portion of Los Angeles County, California, the proposed project includes widening and improvements on approximately 36.8 miles of State Route 138 (SR 138) between Interstate 5 (I-5) and State Route 14 (SR-14). The project corridor spans west to east from Post Mile (PM) 0.0 to PM 36.8.

The evaluation of two Build Alternatives and one No-Build Alternative were studied in the EIR/EIS. The No Build Alternative would provide no improvements to SR-138. Build Alternative 1 would include a 6-lane freeway from the I-5 interchange to 300th Street West, and a 4-lane expressway from 300th Street West to the SR-14 interchange generally following the existing alignment of SR-138. It would also include improvements (such as auxiliary lanes on the I-5 and SR-14 freeway connectors and the Antelope Acres Bypass which is a bypass route around the Antelope Acres community. The Build Alternative 2 would include a 6-lane freeway from the I-5 interchange to Gorman Post Road, a 6-lane expressway from Gorman Post Road to 300th Street West, a 4-lane expressway from 300th Street West to 240th Street West, and a 4-lane limited access conventional highway from 240th Street West to the SR-14 interchange, generally following the existing alignment of SR-138. There would also be improvements to the I-5/SR-138 and SR-138/SR-14 freeway connections and to the structure that crosses over SR-14.
Project Description: Notice of Preparation of a Draft Environmental Impact Report

Located in the City of Los Angeles, County of Los Angeles, California, the proposed project consists of the demolition of three existing vacant commercial buildings totaling 172,500 sq. ft. of floor area and the removal of associated surface parking areas in order to construct a 584,000 gross sq. ft. mixed-use development on an approximately 8.9 acre site. The project involves construction of seven buildings containing approx. 200,000 sq. ft. of commercial floor area and 423 multi-family residential units, and associated parking facilities.

A public hearing will be held on August 17, 2016 at 5:00 pm, located at Panorama High School - Parent Center, 8015 Van Nuys Blvd., Panorama City, CA 91402.

Project Description: Staff Report

Located in the City of Los Angeles, County of Los Angeles, California, the proposed project consists of a Zone Variance to permit an Official Police Garage as designated by the Los Angeles Police Commission for the storage of impounded, abandoned, or partially-dismantled automobiles in the M1-1 Zone within 300 feet of a R (Residential) Zone. Another Zone Variance is requested to require 0 (zero) parking spaces in lieu of one space for each 500 square feet of Floor Area for the existing building on the site.

Project Title: Orange County Civic Center Facilities Strategic Plan
Reg. Significance: Yes
Lead Agency: County of Orange
City / County / Subregion: Santa Ana / Orange / Orange County
Contact: Eric Hull -
Comment Due Date: 2016-09-15
Located in the city of Santa Ana, County of Orange, California, the proposed project includes the phased demolition, renovation and new construction of multiple government buildings at the project site. Project implementation would occur in 4 phases over approximately 18 years and would allow for the eventual renovation of approx. 289,360 sq. ft., demolition of approx. 429,277 sq. ft. and construction of approx. 818,676 sq. ft. of building space. This would result in a net increase of 389,399 sq. ft. of new government office uses.

A public scoping meeting will be held on August 30, 2016 between 5:00 pm and 6:30 pm at the County of Orange Hall of Administration at 333 W. Santa Ana Blvd., Santa Ana, CA 92701.

Located in the SCAQMD area of jurisdiction, California, the proposed project consists of two new rules to allow proposed Investor Owned Utility (IOU) and Local Publicly Owned Electrical Utility (LPOEU) power projects that meet specific requirements, to pay a fee for the use of SOx, PM10, and NOx emission offsets in SCAQMD’s internal accounts. There currently may be an inadequate supply of Emission Reduction Credits (ERCs) in the open market to meet the offset requirements for permitting new or expanded power projects. The purpose of these proposed rules is to ensure that adequate resources are available to maintain local and regional electrical grid reliability despite the decommissioning of the San Onofre Nuclear Generating Station (SONGS), an aging and progressively unreliable power generation inventory, and the increased reliance on interruptible renewable generation mandated by the California Renewables Portfolio Standard. The project has many proposed benefits, from aversion of potential black-outs and brown-outs to community benefits for communities in Environmental Justice areas.

A public workshop/CEQA and Socioeconomic Scoping meeting will be held September 7, 2016 at 1:30 pm at SCAQMD Headquarters 21865 Copley Drive, Diamond Bar, CA 91765.
**Project Description:** Notice of Preparation of a Draft Environmental Impact Report

Located in the City of Redland, County of San Bernardino, California, the proposed project is the General Plan Update for the City of Redlands. The General Plan Update will: establish a long-range vision that reflects the aspirations of the community and outline steps to achieve the vision; establish long-range development policies that will guide City Departments, Planning Commission, and City Council decision-making; provide a basis for judging whether specific development proposals and public projects are in harmony with plan policies; plan in a manner that meets future land needs based on the projected population and job growth; allow City departments, other public agencies, and private developers to design projects that will enhance the character of the community; and provide the basis for establishing and setting priorities for detailed plans and implementing programs, such as zoning ordinance, subdivision regulations, specific and master plans, and the Capital Improvement Program. The updated plan will address six of the seven elements mandated by State law (land use, circulation, conservation, open space, noise, safety). The Housing Element, which is the seventh mandatory General Plan element, was updated in 2013 and is not included in this project.

A scoping meeting will be held on August 30, 2016 at 4:00 p.m. at the City Council Chambers, located at 35 Cajon Street, Redlands, California 92373.

---

**Project Description:** Notice of Preparation of a Draft Environmental Impact Report

Located in the City of Long Beach, County of Los Angeles, California, the proposed project includes demolition of an existing church, and construction of 40 four bedroom single family residences. The 40 residential lots would average 4,005 sq. ft. in size, ranging from 3,696 sq. ft. to 5,696 sq. ft. The subdivision of the site would consist of five additional lots, Lot A would contain a landscaped area and a pre-existing cell tower, Lot B would contain a landscaped area and paseo area and tot lot play area, Lot C would contain a private road and utilities and Lot D and E are smaller landscaped areas.
Located within the boundary of Los Angeles City, County of Los Angeles, California, the proposed 72-acre project consists of 1,279,284 sq. ft. of developed floor area, including a recently completed surgery and emergency room replacement project. The master plan project will develop approximately 2,457,355 sq. ft. of developed floor area including a new hospital tower to meet state seismic requirements, renovating the existing hospital tower, replacement of aging facilities, reconfigured vehicular and pedestrian access to and circulation within the Harbor-UCLA Campus, and implementation of a cohesive design that enhances the experience of staff, patients, and visitors. The proposed project would consolidate outpatient facilities and locate them in proximity to the new hospital tower in the north-central portion of the medical center campus. The western side of the medical center is the proposed location of a new Bioscience Tech Park of up to 250,000 sq. ft. and would support open space, surface parking, and other similar ancillary short-term uses.

A public meeting will be held on September 8, 2016 at 5:30 pm at Harbor-UCLA Medical Center, Parlow Library (southeast of the existing Hospital building) 1000 West Carson Street Torrance, California 90509.
Located within the multiple counties of the South Coast Air Quality Management District, the proposed project will consist of an analysis of environmental impacts from PAR 307.1, PAR 1401, PAR 1402, Public Notification Procedures for Phase I and II facilities under air toxics 'hot spots' information and assessment act of 1987, and draft SCAQMD guidelines for participating in the rule 1402 voluntary risk reduction program pursuant to its certified regulatory program (SCAQMD Rule 110) for CEQA compliance. The Draft Environmental Assessment has been prepared and is being circulated for public review.

A public hearing will be held on October 7, 2016 at 9:00 AM at SCAQMD Headquarters 21865 Copley Drive, Diamond Bar, CA 91765.

Comment Due Date: 2016-09-19
Project Description: Notice of Preparation of Supplemental Environmental Impact Report (SEIR)

Located in the City of Indio, County of Riverside, California, the proposed project would consist of a single-focus acute care licensed surgical hospital for hip and knee replacement primarily and sports medicine secondarily. The facility would be approx. 30,450 gross sq. ft. in a single-story building comprising an outpatient evaluation center, a reception/patient education center, advanced imaging department, a surgical suite (three operating rooms), a pre- and post-surgical care unit, and a post-surgical physical therapy/rehabilitation center. The project would require connection to existing sanitary sewer, and grading within the property limits.
Located in unincorporated Riverside County, California, the proposed project includes the French Valley Specific Plan which encompasses approximately 221.7 acres (198.9 acres within existing SP and 22.8 acres proposed to be added). The proposed project includes a revision to the portion of the French Valley Specific Plan (SP) land use plan located north of Baxter Road to increase total acreage of the SP by 22.8 acres, reconfigure planning area boundaries, renumber planning areas, increase total dwelling units by 149 units, add park facilities, and relocate the proposed elementary school from the central portion to the northeast portion of the SP. The amendment also includes a subdivision of 842 lots - 753 of which would be residential lots - while the remaining 89 lots are proposed for open space, parks, trails, landscape, water quality retention basins, and the school site.

A scoping meeting will be held on September 12, 2016 at the Riverside County Administrative Center, 1st floor conference room 2A, located at 4080 Lemon Street, Riverside, California 92501.
**Project Description:** Notice of Intent to Adopt a Mitigated Negative Declaration

Located in unincorporated San Bernardino County near the City of Loma Linda, County of San Bernardino, California, the proposed project would include (1) the annexation of an approximately 80-acre area into the City of Loma Linda, (2) a GPA to change the existing City of Loma Linda General Plan designation from business park to low density residential for a 30-acre property,(3) a pre-zone application to establish designations of single family residence zone for 39 acres, multi family residence zone for 18 acres, institutional zone for 13 acres, and general business zone for approximately 10 acres and (4) approval of a tentative tract map 15-046 to subdivide an approximate 30-acre property into 95 single family residences and nine common lettered lots.

A public hearing will be held on September 13, 2016 at 7:00 pm at the Council Chambers at 25541 Barton Road, Loma Linda, California, 92354.

Project Description: Notice of Availability of a Draft Environmental Impact Report

Located in the City of Palm Desert, in the County of Riverside County, California, the proposed project includes updates to the 2015 General Plan for the City of Palm Desert. The existing General Plan was extensively updated in 1980, and again in 2004. The update encompasses future community development plans to 2040 and anticipates to plan for an addition 8,000 new households and 14,000 new jobs. The update will focus on key areas of the City, including the 111 corridor/City Center and the areas around the Cal State University campus. The General Plan Elements included in the update are the Land Use and Community Character Element, the Mobility Element, the Health and Wellness Element, the Environmental Resources Element, the Safety Element, and the Noise Element.

Project Description: Notice of Availability of a Recirculated Draft Environmental Impact Report

The City of Lake Elsinore circulated a DEIR for surface mining permit and an amendment to Reclamation Plan No. 2006-01A1 for public review from January 8, 2016 to February 22, 2016. Based on comments received in response to the DEIR, the City of Lake Elsinore has prepared a Recirculated Draft Environmental Impact Report (RDEIR) to inform the public of changes to the document. Revisions made to the previously circulated DEIR are reflected in the RDEIR in strikeout/underline format.

Located in the City of Lake Elsinore, County of Riverside, California, the proposed project consists of applications for a surface mining permit and an amendment to Reclamation Plan, which proposes to: increase the total area subject to mining activities on the approximately 199-acre Nichols Canyon Mine from approximately 116 acres to approximately 140 acres, representing an increase of approximately 24 acres; extend the hours permitted for mining equipment operation, processing, equipment, and export during specific hours.

Project Title: Angeles National Forest & San Gabriel Mountains National Monument  
Reg. Significance: No  
Lead Agency: U. S. Department of Agriculture (10845)  
City / County / Subregion: / Los Angeles / **Not Applicable**  
Contact: Justin Seastrand - (626) 574-5278  

**Project Description:** Notice of Public Meetings  
The Angeles National Forest will hold four public meetings and one webinar discuss the development of the San Gabriel Mountains National Monument Management Plan and Environmental Assessment.  
The public meetings will be held at Downtown Los Angeles on September 14 from 3:00pm to 8:00pm, Santa Clarita on September 15 from 4:00pm to 8:00 pm, Arcadia from September 17 from 10:00am to 2:00pm, and Wrightwood on October 4 from 3:30pm to 7:30pm. The webinar will be held online on September 10 from 1:00pm to 3:00pm.
Notice of Availability of a Recirculated Draft Environmental Impact Report

The City of Palm Desert circulated the NOA/DEIR for the City of Palm Desert 2015 General Plan Update on August 19, 2016 but City staff noticed minor errors in Technical Appendix 3.0-2. Table 25.18-2 "Downtown District Development Standards" contained in Technical Appendix 3.0-2 "One Eleven Development Code" overstated land use intensities along the Highway 111 corridor. Additionally, minor grammatical errors on page 19, 27, and 28 have been corrected. Because of the update, the comment period related to Technical Appendix 3.0-2 is extended to Monday, October 10, 2016 or 45 days from the receipt of this notice.

Notice of Revised Meeting Time for Study Session

Located in the City of Newport Beach, County of Orange, California, the proposed project consists of demolition of the existing Orange County Museum of Art, and development of a 25-floor, 295-ft. tower with two levels of subterranean parking. The project site is approximately 86,942 sq. ft. A Draft EIR is available for public review and comment through September 30, 2016 at the Planning Division, all city libraries and on the city website.

A study session will be conducted on September 1, 2016 at 4:30 pm at the council chambers at 100 Civic Center Drive, Newport Beach, CA.
Located in the City of Newport Beach, County of Orange, California, the proposed project would consist of repair of existing bluff drainage facilities, consisting of the removal of approx. 162 linear feet of 30-inch corrugated steel pipe, and the installation of approx. 450 linear feet of 48-inch high-density polyethylene pipe, a catch drain protected by approx. 96 sq. ft. of un-grouted rip-rap, and a sub-drain at the bottom of the erosional gully that is approx. 174 ft. Approx. 1800 cubic yards of fill material will be imported to fill in areas of existing bluff erosion, and 9,800 sq. ft. of jute matt erosion protection will be installed. Onsite habitat restoration and off-site mitigation are also proposed.

A public hearing is scheduled for September 7, 2016 at 9:00 am at Newport Beach Civic Center, City Council Chambers 100 Civic Center Drive, Newport Beach, CA 92660.

Located in the County of San Bernardino, California, the approved resolution consists of (1) the LAFCO for San Bernardino County finds and determines that it wishes to revise and amend its Policy and Procedure Manual within the Application Processing section to include new policies and procedures related to Out of Agency Fire Protection Contracts, (2) The LAFCO resolves and orders that (a) the policy and procedure manual is revised, (b) the new Chapter 5: Out of Agency Service Fire Protection Contracts is adopted and approved, (c) the new Application Form for Fire Protection Service by Contract is adopted and approved, and (3) the Executive Officer of LAFCO is ordered to certify the passage of this resolution and to post an amended Policy and Procedure Manual to the LAFCO website and forwarded to the County Executive Officer, each city, town, and Independent Special District in the County.
Located in the City of Banning, County of Riverside, California, the proposed project is a master-planned community on an 831 acre-site, and is organized into 44 planning areas (PAs) that include a mixture of residential, commercial, schools, open space, recreational uses and up to 3,133 residential units; or 3,385 residential units if the commercial site and school site are not developed.

The Project requires concurrent consideration of a General Plan Amendment No. 13-2503 and Zone Change No. 13-3501 to reflect the proposed zoning ordinance text and overlay map amendments for the Rancho San Gorgonio Specific Plan; a Water Supply Assessment for the project; proposed Specific Plan No. 13-2001 for the Rancho San Gorgonio Specific Plan to create the master planned community detailed above; a proposed Master Tentative Tract Map establishing road right-of-ways, 43 numbered lots and 2 lettered lots, a proposed Development Agreement containing provisions for financing acquisition and infrastructure construction and land use development parameters, and proposed Annexation No. 13-1001 for the annexation of 161 acres of property located in the County of Riverside and within the City’s adopted Sphere of Influence General Planning Area and the Rancho San Gorgonio Specific Plan.

A public hearing will be held on September 7, 2016 at 6:30 p.m. at the Banning City Council Chambers, located at 99 East Ramsey Street, Banning, California 92220.

**Project Description:** Notice of Availability of a Draft Environmental Impact Report

Located in the City of Moreno Valley, County of Riverside, California, the proposed project includes the construction of approximately 446,350 square feet (sf) of light industrial uses within an approximately 19.64-acre site. As currently proposed, 347,080 sf would be allocated for distribution warehouse use; 89,270 sf would be assigned to manufacturing uses; and 10,000 sf would be assigned to office uses. The project site is currently on four different parcels so a Lot Line Adjustment will be required to consolidate the four parcels into one 19.64 acre site.

**Project Description:** Notice of Intent to Adopt a Mitigated Negative Declaration

Located in the City of Los Angeles and City of Culver City, County of Los Angeles, California, the proposed project includes a new trail on BHRCA property to connect the Baldwin Hills Scenic Overlook to the Kenneth Hahn State Recreation Area (KHSRA). The trail would include installation of native landscaping, fencing, walls, gates, signage, steps, and a new trail from parking lot at the Baldwin Hills Scenic Overlook; through BHRCA-owned surface property (adjacent to and partially through the Stoneview Nature Center), and connecting with a pedestrian bridge over La Cienega Boulevard to KHSRA.

A public meeting will be held on September 6, 2016 at 6:00 p.m. at the Dan Patachhia Conference Room at the City Hall, located at 9770 Culver Boulevard, Culver City, California 90232.

Project Description: Notice of Preparation of a Draft Environmental Impact Report

Located in the City of West Hollywood, County of Los Angeles, California, the proposed project includes the demolition of the existing two-story building at the project site and removal of the adjacent parking lot to construct a 79,000 square foot commercial building. The proposed building would consist of office, retail, and restaurant spaces, a subterranean nightclub, and three levels of subterranean parking containing 250 vehicle spaces and 21 bicycle stalls. The existing one-story nightclub building on site would remain. The proposed project would also include a total of 15,825 sf of landscaping, terrace space, and a green roof.

A public scoping meeting will be held on September 6, 2016 at 6:00 p.m. at the Plummer Park (rooms 1 and 2), located at 7377 Santa Monica Blvd, West Hollywood.

Project Title: General Plan Land Use & Urban Design Elements Project
Reg. Significance: Yes
Lead Agency: City of Long Beach
City / County / Subregion: Long Beach / Los Angeles / Gateway Cities
Contact: Craig Chalfant - (562) 570-6368
Comment Due Date: 2016-11-01
Project Description: Notice of Availability of a Draft Environmental Impact Report

Located in the City of Long Beach, County of Los Angeles, California, the proposed project consists of updates to the City of Long Beach General Plan Land Use Element (LUE) and adoption of a new General Plan Urban Design Element (UDE).

The proposed LUE would replace the current 1989 General Plan LUE and would introduce the concept of "PlaceTypes," which would replace the current approach of segregating property within the City through traditional land use designations and zoning classifications. The new UDE would be an entirely new element and aims to improve the City's PlaceTypes by creating great places, improving the urban fabric, public spaces, and defining edges, thoroughfares, and corridors.

A Planning Commission Study Session will be held on October 6, 2016 at 5:00 p.m. at the First Floor Council Chamber, located at 333 West Ocean Boulevard, Long Beach, California.

Comment Due Date: 2016-09-23
Project Description: Notice of Preparation of a Draft Environmental Impact Report

Located within the March Inland Port Airport in unincorporated Riverside County, California, the proposed project includes the construction and operation of two high cube industrial buildings, totaling approximately 2,219,852 square feet (sf) on approximately 142.5 acres. Building 1 consists of 1,017,020 sf and Building 2 consists of 1,172,832 sf. Each building would have a north to south orientation with trail truck dock doors located on the east and west sides of the building. All trailer and truck parking would be provided on site.

The project is currently not served by water, sewer, power, natural gas or telecommunications facilities therefore services and infrastructure would be extended to the project site concurrent with the construction of facilities for the proposed project. Existing water and sewer lines are present in the vicinity and any extensions would be located in existing or planned public rights-of-way.

A public scoping meeting will be held on September 7, 2016 at 6:00 p.m. at the Western Municipal Water District, located at 14205 Meridian Parkway, Training Room 120, Riverside, California 92518.
SCAQMD is considering the amendment of Regulation IX - Standards of Performance for New Stationary Sources (NSPS). The proposed MSPS amendments are for: new GHG standards (methane emission limits) for gas well completions and equipment leaks at natural gas processing plants, and new GHGs and VOC standards for unregulated and partially regulated oil and natural gas sources; New PM standards for residential hydronic heaters and forced-air furnaces; new GHG standards (CO2) for new modified, and reconstructed fossil-fuel-fired electric utility steam generating units and stationary combustion turbines; Updated emission limits, eliminated broad exemption, and strengthened test methods for new residential wood heaters; Revised daily average PM calculating compliance for continuous emission monitoring systems (CEMS) for utility generating units; Added temperature parameter to start up and shut down requirements and provided scaling alternative for sources with wet scrubber, tray tower, or dry scrubber at Portland cement plants; Revised NSPS for process heaters and flares at petroleum refineries; and Revised provisions of low pressure gas well and storage vessels to lower potential to emit (PTE) of individual storage vessels from crude oil and natural gas production.

A public hearing will be held on October 7, 2016 at 9:00 a.m. in the Grand Parisian Ballroom at the Mission Inn Hotel and Spa, located at 3649 Mission Inn Avenue, Riverside, California 92501.
