SOUTHERN CALIFORNIA ASSOCIATION OF GOVERNMENTS

INTERGOVERNMENTAL REVIEW CLEARINGHOUSE REPORT

This Intergovernmental Review Clearinghouse Report summarizes the federal grant applications, environmental documents and other information received by SCAG’s Intergovernmental Review (IGR) Section during the period 2014-11-01 through 2014-12-31. The Clearinghouse Report consists of two sections, Federal Grant Listing and Environmental Documentation Listing.

The Federal Grant Listing is provided to inform your organization of all grant applications for federal assistance from our region in accordance with Executive Order 12372. The listing includes state sponsored plans and project types such as Housing and Community Development, Urban Mass Transit, and Human Services. The Environmental Documentation Listing describes regionally significant and non-regionally significant facilities (e.g., transportation, wastewater treatment), residential, commercial and industrial projects which have been voluntarily submitted for review by local governments. Environmental documents received include Notices of Preparation, Environmental Impact Reports, Environmental Impact Statements, Negative Declarations and Mitigated Negative Declarations.

A SCAG Project Identification Number organizes project descriptions for both the Federal Grant and Environmental Documentation listings.

IGR CONTACT

To include the interest of your jurisdiction or comment on proposed comprehensive planning, area-wide coordination or environmental impacts please contact the IGR Section prior to 2015-01-31. Please send one (1) copy of all environmental documentation. Also, please provide the name and telephone number of the contact person on your transmittal. We may be reached at:

Mailing Address: Southern California Association of Governments
Intergovernmental Review Section
818 West Seventh Street, 12th Floor
Los Angeles, California 90017-3435

Telephone: (213) 236-1800
Facsimile: (213) 236-1963

Questions regarding the Clearinghouse Report should be directed to Lijin Sun, (213) 236-1882.

MORE INFORMATION

The IGR web page includes staff prepared publications describing items and projects received by the IGR Section, and other web sites that may be useful to persons seeking information about how to comply with CEQA and the CEQA Guidelines. For more information, please visit SCAG's IGR web page at www.scag.ca.gov/igr.

Document Received: 2014-11-01

SCAG ID. No: IGR8250_9268
Document Type: NEGATIVE DECLARATION
Project Title: The Soledad Canyon Road Corridor Plan
Reg. Significance: No
Lead Agency: City of Santa Clarita
City / County / Subregion: Santa Clarita / Los Angeles / North Los Angeles County
Contact: Jeff Hogan - (661) 255-4330
Comment Due Date: 2014-11-18
Project Description: Notice of Public Hearing and Notice of Intent to Adopt a Negative Declaration.

As part of the City of Santa Clarita's efforts in updating its zoning regulations within the Unified Development Code (UDC) to be consistent with the 2011 General Plan, the City is developing corridor plans to focus on the unique character of each community corridor. The proposed project consists of a proposed corridor plan that focuses on Soledad Canyon Road.

The proposed project would take an approach that addresses the relationship between the buildings themselves and public spaces. The purpose of the project is to ensure that all future development is pedestrian friendly and aesthetically compatible with the character of the proposed Corridor Plan. The proposed project will create two new distinct zones, will create streets and streetscape standards, and will provide development and architectural standards for all future development within the planning area.

The City Planning Commission will conduct a public hearing on the proposed project on Tuesday, November 18, 2014, at 6 p.m. at City Hall, Council Chambers.

Project Title: Lancaster Metrolink Station Closure
Reg. Significance: No
Lead Agency: City of Lancaster
City / County / Subregion: Lancaster / Los Angeles / North Los Angeles County
Contact: Jocelyn Swain - (661) 723-6249

Project Description: Cancellation Notice.

This notice is to inform the public that the scoping meeting for the proposed project has been cancelled. Because the City of Lancaster is suspending the preparation of an Initial Study/Mitigated Negative Declaration, the scheduled scoping meeting is no longer required in accordance with Public Resources Code Section 21083.9.

Contact: Clarice Nash - (626) 300-2363

Comment Due Date: 2014-12-02
**Project Description:** Notice of Preparation of an Environmental Impact Report.

Located within the boundary of Los Angeles City, the proposed project is on an approximately 72-acre land owned by the County of Los Angeles and is surrounded by the City of Torrance, City of Carson, and the Harbor-Gateway community of the Los Angeles City.

The proposed project is an enhancement to the interactive relationship between the clinical, education, and research components of the Medical Campus and to update it concurrent with growth in the region, after considering current conditions and future needs of the Medical Campus. Hence, the proposed project would incorporate the expansion of current services, the upgrading of aging facilities and buildings, redesign of the Medical Campus to improve access and internal circulation, and provide a cohesive design. Implementation of the project is expected to meet short-term needs as well as long-term needs beyond 2030.

The proposed project would include construction of additional new facilities, thereby increasing the existing floor area of the Medical Campus by 850,000 square feet from approximately 1,050,000 square feet to 1,900,000 square feet of floor area. Additional new facilities representing approximately 200,000 square feet of the overall proposed Project development program, are being proposed, and they would be consolidated into an interior sub-campus near new proposed outpatient facilities and the New Hospital Tower.

Project Description: Notice of Intent to Adopt a Mitigated Negative Declaration.
Located in the City of Wildomar, County of Riverside, California, the proposed project consists of the construction of two drainage facilities and several ancillary laterals and inlets. The first facility will connect existing upstream city-owned facilities to the existing downstream Lateral C Channel that is owned and operated by the District.

The drainage facilities will be designed to accept 100-year storm flows from adjacent developments as well as discharge tributary to the channel.

Project Description: Notice of Preparation of a Draft Environmental Impact Report (EIR).
The College of the Desert/Desert Community College District (COD) is proposing to demolish a largely vacant 332,000 square foot retail mall, to master plan the new West Valley Campus to provide approximately 330,000 square feet of college buildings and related facilities, and to construct a 40-50,000 square foot Phase I Project on a portion of an approximately 29-acre site located in the urbanized core of the City of Palm Springs, County of Riverside, California. The existing structures (Camelot Festival Theaters and a fast-food restaurant) will remain on the site.

The West Valley Campus and Phrase I Project will provide for initial and long-term development of classrooms, lecture halls, laboratory space, multi-purpose/conference center, library, administrative offices, campus-related retail, and incidental space and facilities.

Project Description: Notice of Preparation of an Environmental Impact Report.
Located in the Hollywood Community Plan Area, City of Los Angeles, County of Los Angeles, California, the proposed project is a new mixed-used project with 236 residential dwelling units above 30,000 square feet of ground-floor commercial use. These new uses, which would comprise approximately 210,288 square feet of floor area, would be located on two adjacent sits that together comprise approximately 1.64 gross acres.
Notice of Preparation of an Environmental Impact Report.

Located in the Hollywood Community Planning Area, City of Los Angeles, County of Los Angeles, California, the proposed project is an approximately 498-599-square-foot mixed-used development containing approximately 282,800-square-foot offices, residences, retail/restaurant space, a grocery store, and a possible 100-room hotel, with associated 1,349 parking spaces. The proposed project would involve the demolition of the existing buildings and an approximately 215,799-square-foot 23-story residential tower containing up to 250 apartment units. The possibly up to 100 hotel rooms are in lieu of up to 50 apartments.

Draft Removal Action Workplan for Former After Hours Formalwear

The Department of Toxic Substance Control (DTSC) is developing a Draft Removal Action Work (RAW) for the Former After Hours Formalwear site located in Van Nuys, County of Los Angeles, California. The site consists of approximately 1.4 acres of property. An environmental investigation has identified elevated PCE at the site. The proposed project has been determined to be exempt from CEQA; hence, a Notice of Exemption (NOE) has been prepared.

Comment Due Date: 2014-11-17

Project Description: Public Hearing Notice.

The request is to construct a 65-foot high wireless telecommunications facility designed as a pine tree and associated equipment within the LI (Light Industrial) land use designation of the East Chino Specific Plan (ECSP). The project is determined categorically exempt from the provisions of the CEQA Guidelines per Section 15303 - New Construction of Conversion of Small Structures.

A Planning Commission public hearing has been scheduled to take place on Monday, November 17, 2014, at 7 p.m., at Chino City Hall in the City Council Chambers, 13220 Central Avenue, Chino, California.
On October 31, 2014, Exide Technology (Exide) submitted an application for Interim Status Modification and a Temporary Authorization request to the State of California, Department of Toxic Substances Control (DTSC). Exide operates a metal (lead) treatment and storage/recycling facility at the Vernon location for the recovery of lead from automotive batteries and other lead-bearing materials received from off-site and generated on-site.

The submitted application addresses one existing miscellaneous unit and one existing tank. These units are existing ones at the facility and were previously submitted in the facility's August 4, 2014 RCRA part B Permit Application. The temporary authorization is requested for the existing tank only.

The proposed plan is to clean up contaminated soil at the Malibu High School Building G area. The plan describes the environmental investigation, sampling results, and recommended option to clean up surface soil contaminated with PCBs. The proposed cleanup option is to excavate contaminated soil, temporarily stored in closed containment bins at the site, and then transported off-site to an appropriate permitted facility for disposal. This option is expected to take place in December 2014 during the winter break.

The proposed plan is determined to be exempt from CEQA and has been issued a Notice of Exemption.
Project Description:
Located within the City of San Bernardino, County of San Bernardino, California, the proposed facilities would be constructed within the San Bernardino Municipal Water District service area and would like above the San Bernardino Basin Area, or more specifically, the Bunker Hill Basin.

The proposed project is intended to reduce the District's dependence on imported water and to establish a reliable, sustainable source of clean water. It would consist of six (6) key elements: 1) treatment improvements to the existing San Bernardino Water Reclamation Plant (SBWRP); 2) addition of up to 5 millions gallon per day (mgd) of tertiary filtration/disinfection facilities to the SBWRP; 3) addition of up to 15 mgd of advanced wastewater treatment to the SBWRP that may be phased in 5 mgd increments; 4) a system to convey the recycled water to the Waterman Basin and the East Twin Creek Spreading Grounds for surface spreading and to "target opportunity" customers for direct use applications near, or adjacent to, the conveyance alignment; 5) reduction of up to approximately 22 mgd of treated wastewater discharges into the SAR via the Rapid Infiltration and Extraction (RIX) facility; and 6) future connection of the RIX facility to the Chino Groundwater Basin and the Inland Empire Utility Agency's non-portable system.
Project Description: Notice of Intent to Adopt a Mitigated Negative Declaration.

Located in the City of San Gabriel, County of Los Angeles, California, the proposed project parcels are zoned Mixed-Use Oriented Development (MU-T) and Single Family Residence (R-1) under the Valley Boulevard Specific Plan. The proposed site is currently vacant with previously developed buildings (restaurant and pre-school) that were demolished in October 2013.

The proposed project includes a 222-room hotel, 87-unit condominium, and 55,872 square-foot commercial space spread throughout the site. There would be retail and restaurant uses on the ground and second floors and in the basement. Additionally, there would be approximately 15,701 square-foot open space spread throughout the site in the form of a residential courtyard, a garden area for the hotel, a pool area, and outdoor gathering spaces within a retail courtyard.

Project Description: Public Notice of Availability of a Draft Mitigated Negative Declaration No. 14-004).

Located in the City of Huntington Beach, County of Orange, California, the proposed project is a new mixed-use development that would consist of three stories totaling approximately 9,500 square feet on the subject site.

The proposed project would include the construction of approximately 2,660 square feet of retail space on the first floor, 4,500 square feet of office space on the second floor, and three residential dwelling units on the third floor. The proposed project would also require partial demolition of two existing commercial buildings of approximately 1,050 square feet and 1,150 square feet in size. There would be a total of 24 parking spaces for all uses, and only seven (7) of them are proposed onsite to serve the residential uses. The remaining parking spaces will be provided by a parking in-lieu fees in conjunction with the project request. The construction of the proposed project is anticipated to last approximately nine months.

Comment Due Date: 2015-02-05

The proposed plan, known as the Natural Community Conservation Plan/Habitat Conservation Plan/Master Streambed Alteration Agreement, is part of OCTA's Measure M Freeway Environmental Mitigation Program. The program allocates funds from Measure M, the county’s half-cent sales tax for transportation improvements, to acquire land and fund habitat restoration projects in exchange for streamlined approvals for 13 freeway improvement projects throughout Orange County.

The proposed project is intended to protect and sustain viable populations of native plant and animal species and their habitats in perpetuity through avoidance, minimization, and mitigation measures. The plan area of the proposed project is approximately 511,476 acres, encompassing all of Orange County, California. The proposed project will function independently of other habitat conservation plans within the Orange County region.

The proposed project would provide protection measures for species on the OCTA covered Freeway projects as well as for covered activities within the OCTA Preserves in part by acquiring lands for permanent conservation. Covered activities including planned and future projects are estimated to directly affect up to 141 acres of habitat and indirectly affect up to 484.4 acres of habitat for covered species that will require mitigation over the 40-year term of the permit. Additionally, preserve management and monitoring may adversely affect up to 11 acres of the habitat.

**Project Description:** Notice of Preparation of a Program Environmental Impact Report and Notice of Scoping Meeting.

Located on an approximately 108-acre county-owned property in the City of Irvine, County of Orange, California, the proposed project is a mixed-use, low-impact development (LID) that would maximize the benefit derived from proximity to the Regional Transportation Center.

The proposed project will be used to guide future development on the project site. The anticipated uses would include a mix of uses such as 2,103 dwelling units, a 242-room hotel, approximately 1,876,000 square feet of multi-use (office), and approximately 220,000 square feet of community commercial (retail).

A scoping meeting on the proposed project will take place on November 12, 2014 from 1 p.m. to 3 p.m. at Building 317 off Marine Way, Irvine, California.

Project Description: Notice of Intent to Adopt Mitigated Negative Declaration No. 934.
The proposed project is a Conditional Use Permit of a request to development a 102,150 square foot speculative industrial building on a 4.0-acre site located in a Heavy Manufacturing (M-H) and Buffer (B) zone in the City of Compton, County of Los Angeles, California.
Removal Action Workplan (RAW) Ecology Control Industries

The draft RAW is for Ecology Control Industries, an active environmental services operation. The proposed remedial action at this site is to remove and properly dispose of soils impacted with heavy metals, PCBs and OCPs, in order to reduce the potential threat to human health and the environment. It is estimated that approximately 10,000 cubic yards of potentially impacted soil will be excavated, segregated, and sampled. The proposed future use of the site will be for residential purposes only.

It has been determined that the proposed project is exempt from the CEQA and a draft Notice of Exemption has been prepared.

Archer Forward: Campus Preservation and Improvement Plan

This is a public notice that the proposed project will be heard by the Hearing Officer for the City Planning Commission on Monday, December 8, 2014, at 10:30 a.m., at University Synagogue, 11960 Sunset Boulevard, Los Angeles, California 90049.

Project Title: Mission Viejo Medical Center

Reg. Significance: No
Lead Agency: City of Mission Viejo
City / County / Subregion: Mission Viejo / Orange / Orange County
Contact: Larry Longenecker - (949) 470-3053
Comment Due Date: 2014-12-15
Project Description: Notice of Preparation of a Draft Environmental Impact Report.

Located on a 3.76-acre Mission Viejo property in the City of Mission Viejo, County of Orange, California, the proposed project would construct a four-story medical office building consisting of approximately 110,000 square feet and a five-level parking structure with 637 parking spaces. The existing roadway would remain within the same location, but would be reconstructed.
Located in the western portion of Los Angeles, County, in the City of Santa Monica, the proposed project would be an extension to the Pier Bridge structure west on Colorado Avenue from the intersection of Ocean Avenue and Colorado Avenue and connects to the Santa Monica Pier. Built in 1939 and near the end of its useful life, the Pier Bridge is with a sufficiency rating lower than 25 out of 100; thereby is considered to be structurally deficient and functionally obsolete.

Implementation of the proposed project would be primarily for seismic safety to improve the structural stability of the Pier Bridge. The project would also address vehicular and pedestrian congestion and safety concerns at the Bridge.

Three alternatives are being developed to address the reconstruction of the Pier Bridge. Under Alternative 1 and 2, the existing bridge would be demolished and a new wider bridge would be constructed in the same location. The replacement bridge would feature separate lanes for pedestrians, bicycles, and vehicles. The difference between these two alternatives is the location of the temporary bridge during construction of the replacement bridge. Under Alternative 3, two permanent bridges would be constructed. The new permanent bridge would be constructed for public vehicular access to the Pier parking and would be used during construction of the Pier Bridge replacement bridge, as well as permanently as the main vehicular access to the Pier. The existing Pier Bridge would be demolished and a new bridge would be built with the same current width but would be designed primarily for pedestrian and bicycle traffic.
Project Description: An Interim Status Modification and Temporary Authorization Request

On November 7, 2014, Exide Technologies submitted an application for an Interim Status Modification and Temporary Authorization Request to the State of California, Department of Toxic Substances Control (DTSC) for installation of a proposed floor system with lead detection system over the existing floor system at the Reverb Furnace Feed Room, Unit 33, and replacement of Truck Wash Sump, Unit 51. There is no change in waste management or treatment processes.

Project Description:

Located within the City of Industry jurisdictional boundary (Fullerton Road / State Route 60) and ending at Camino Bello (unincorporated Los Angeles County [Roland Heights]), the proposed project would include roadway widening along 0.45 mile of Fullerton Road. Widening of the roadway would require full and partial acquisitions of 23 properties (6 commercial including some parking), 15 residential and 2 vacant.

The proposed improvement would add a third lane (in each direction) along Fullerton Road and include the future accommodation of a Class II bicycle lane from Colima Road to Camino Bello. Sidewalks, curbs, and gutters will also be reconstructed. At Fullerton Road and State Route 60, the existing eastbound off-ramp would be reconstructed as part of the widening project to accommodate an additional right-turn lane.

Venoco, Inc. (Venoco) has proposed to return offshore State Oil and gas Lease No. PRC 421 to oil production using an existing shoreline (Well 421-2) which has been shut-in since 1994. The proposed has five components: 1) Well 421-2 would be recommissioned; 2) water and gas from crude oil emulsion extracted from the well would be separated at the existing Ellwood Onshore Facility; 3) infrastructure would be upgraded; 4) a second well (Well 421-1) would be decommissioned and removed; and 5) the estimated productive life is 20 years with an estimated production of 150 barrels of oil per day during the first month and instantaneous oil production rate projected not to exceed 500 barrels per day. After two years, production is projected to taper off to approximately 50 barrels per day.

Lead Agency: City of Corona Utilities Department
City / County / Subregion: Corona / Riverside / Western Riverside
Contact: Jonathan Daly - (951) 736-2234

Project Description:

The City of Corona Department of Water and Power (DWP) in Riverside County is applying for funds under the California Energy Commission's Zero Emission Vehicle Readiness Program. The application guidelines require the applicant to document outreach to the local PEV Coordination Council. DWP intends to implement PEV readiness activities in support of their recent CEC awards to install three electric vehicle charging stations in the City. The City will begin installation of these three stations in 2015.

The proposed readiness activities include: 1) installation of retro-reflective directional "trailblazer" signage on local roadways near the three station locations; 2) development of a residential electric vehicle and rate study; and 3) PEV/EVCS awareness activities.
Notice of Completion and Availability of a Draft Environmental Impact Report

Located in the City of Los Angeles, County of Los Angeles, California, the Project proposed the removal of all existing structures, and constructing a total of 807, 200 square feet of floor area of new development. The Project would also create 26 lots (airspace lots). The maximum height of any building in the project would be 160 feet.

The site contains an auto dealership, surface parking, service building with rooftop parking, and a dealership/office building. The project is seeking land use equivalency (LUEP) and design flexibility programs with a base plan (Conceptual Plan) of 516 residential condominium units (540,200 gross square feet), 67,000 square feet of retail floor area, 200,000 square feet of creative office floor area, and associated subterranean parking.

The project requires a General Plan Amendment to the West Los Angeles Community Plan to change the land use from Light Industrial to General Commercial; Zone Change and Variance; Conditional Use Permit; vesting Tentative Tract Map No. 72298; Haul Route Approval; Site Plan Review; Development Agreement.
Project Description: Notice of Public Hearing and Mitigated Negative Declaration.

Located in the City of Menifee and within the Menifee East Specific Plan Planning Area 1 (commercial), the proposed project would include a maximum 121,277 square foot commercial retail center consisting of ten (10) buildings on an approximately 14.04-acre site. Access to the project site is proposed via four (4) new driveways. The proposed site would be subdivided into thirteen (13) parcels. It has been determined that the proposed project will not have a significant effect on the environment, and the lead agency has recommended adoption of a mitigated negative declaration.

The public hearing will be scheduled to take place on December 10, 2014, at 7 p.m., at Menifee City Council Chambers, located at 29714 Huan Road, Menifee, California 92586

Project Title: Change of Zone No. 05-07 (Pre-Zone) and Lotus Ranch Vesting Tentative Subdivision Map
Reg. Significance: Yes
Lead Agency: City of El Centro
City / County / Subregion: El Centro / Imperial / Imperial Valley
Contact: Norma Villicana - (760) 337-4549
Comment Due Date: 2014-12-19

Project Description: Notice of Preparation of an Environmental Impact Report.
The proposed Lotus Ranch project consists of 213 acres south of Interstate 8. The project includes the construction of 617 single-family residential units, 2 parks consisting of approximately 5.8 acres, and offsite improvements to serve the project. The project would be completed in 3 major phases and require an Annexation, Pre-Zone, Vesting Tentative Map, and Development Agreement. The project also requires a Stormwater Approval from the Imperial Irrigation District.

An EIR was proposed on this project in 2007 but the EIR was not formally adopted by the respective governing bodies. Modifications to the project include a reduction in residential units, the addition of a parkland space, removal of a proposed school, and phasing of the project.

Project Title: 500 Broadway Mixed Use Housing Project
Reg. Significance: No
Lead Agency: City of Santa Monica
City / County / Subregion: Santa Monica / Los Angeles / Westside
Contact: Steve Mizokami -
Comment Due Date: 2014-12-22
Project Description: Notice of Preparation/Notice of Scoping Meeting for a Draft Environmental Impact Report

Located in City of Santa Monica, County of Los Angeles, California, the proposed project is a mixed use development of 336,630 square feet in a 84-foot high building. The proposed project would include up to 262 residential units consisting of a mix of studio, one-, two, and three-bedroom units at market rate and would include deed-restricted affordable housing. The affordable housing units would be constructed at either or both on-site and off-site locations. If the affordable housing units are built off-site, in an area Downtown, there would be a maximum of 60 off-site locations, at a maximum of two locations, and would total 322 dwelling units as a result of this project.

The project would involve the demolition of the existing one-story commercial (Fred Segal) building and a 92-space surface parking lot on two contiguous parcels totaling approximately 67,500 square feet of land area. The proposed project would also include 19,500 square feet of common residential open space, including open courtyards, rooftop recreation spaces, gardens, pool/spa, and barbeque amenities. The ground floor of the project would include pedestrian-oriented commercial uses, including retail and restaurant, as well as residential lobbies. The project would also include a 4-level subterranean parking garage for 577 commercial and residential parking spaces, and 32,800 square feet of commercial floor area potentially including an exercise facility, commercial storage, secured long-term bicycle parking, and bike locker and shower facilities.

**Project Description:** Notice of Availability of the Draft Mitigated Negative Declaration.  
Located within Grant Park, City of Ventura, County of Ventura, California, the proposed project is located on an approximately 106.96-acre site that is intersected by Ferro Drive. The proposed project is a Master Plan for the creation of a botanical garden on the project site within an ecological emphasis on the Ventura Coast and its relationship to region of the world which share its Mediterranean biome. The proposed project would be developed in phases over the roughly 30-year implementation of the Master Plan.
Project Description: Request for Comments on Draft Environmental Impact Report.

Located on an approximately 2.56-acre property in the City of Los Angeles, County of Los Angeles, California, the proposed project is a mixed-use development consisting of residential and retail components. The proposed project site currently contains two commercial structures and other improvements, and all of which would be demolished and removed.

The proposed project would consist of two buildings over a single podium structure with various elements ranging in height from two stories to 16 stories in height. The proposed project would include 111,339 square feet of commercial retail and restaurant uses within three lower levels and one rooftop level, and 249 apartment units, including 28 affordable housing units, within the twelve upper levels totaling 222,564 gross square feet of residential space. The proposed project would also include a new, 9,134 square feet of public space, a 34,050-square-foot central public plaza, public rooftop deck/garden areas, a private pool and pool deck area for residents, as well as other resident-only amenities totaling approximately 6,900 square feet. The proposed project would include 849 total parking spaces (295 for resident uses and 554 for commercial retail and restaurant uses). Short- and long-term bicycle parking totaling 985 spaces would also be included on-site, including 428 spaces for residential uses and 557 spaces for commercial uses. The total development would include up to 333,903 square feet of commercial and residential space with a maximum floor-area ratio (FAR) of 3:1.
Project Description: Notice of Preparation of a Draft Environmental Impact Report.

Located in the Hollywood Community Plan Area, City of Los Angeles, County of Los Angeles, California, the proposed project is a development up to 410 multi-family residential units and approximately 10,000 square feet of community-serving retail and restaurant uses on an approximately 2.0-acre site. The proposed project would include approximately 466,420 square feet of floor area within three new buildings that would range from 6 to 26 levels with a maximum building height of approximately 275 feet. In addition, the proposed project would include 940 parking spaces in four subterranean parking levels and up to three above grade parking levels. An existing approximately 19,890-square foot church and surface parking areas would be removed to provide for the proposed uses.

To accommodate the proposed development, the proposed project would need a general plan amendment from "Medium Residential" to "Regional Center Commercial."

Project Title: Water Supply Facility Removal Project
Reg. Significance: Yes
Lead Agency: San Gorgonio Pass Water Agency
City / County / Subregion: / **Multi-County / **Not Applicable
Contact: Jeff Davis - (951) 845-2577
Comment Due Date: 2015-01-15
Project Description: Notice of Preparation/ Notice of Scoping Meeting of a Draft Environmental Impact Report

The project facilities are located on San Bernardino National Forest lands and on privately held lands owned by the City of Banning, Southern California Edison Company (SCE), and others in Riverside County and San Bernardino County. SCE will remove the existing water supply facilities under the direction of the United States Forestry Service, San Bernardino National Forest (SBNF), and the Federal Energy Regulatory Commission (FERC). The facilities supply consumptive water to the community of Banning Beach and to the City of Banning.

SCE will remove all licensed water supply facilities associated with the existing Whitewater Flume Project and curtail associated water deliveries to the Banning Beach and the City of Banning. The SBNF cites inconsistency with the SBNF Land Management Plan as the reason to remove the Whitewater Flume facilities. The FERC cites SBNF's rejection of the City of Banning's Use permit application as the reason to accept the SBNF's facility removal plan. SBNF will remove an unlicensed water supply pipeline in Burnt Canyon to comply with a pipeline removal order issued by the SBNF. SBNF cites the permit expiration as the reason for the removal order.

The SBNF will remove approximately 1,100 feet of an existing pipeline located on Forest Lands. The removal project will include the construction of a new return pipeline and energy diffusion structure in the San Gorgonio River. The FERC completed a National Environmental Policy Act environmental review in July 2013 for full water supply facility removal.

The permits required are Streambed Alteration Agreements with the State Department of Fish and Wildlife, Section 401 Water Quality certifications from the Regional Water Quality Control Board, and Section 404 stream crossing permits from the U.S. Army Corps of Engineers; and encroachment permits.

Document Type: NEGATIVE DECLARATION
Project Title: General Plan Amendment Case No. 2013-002
Reg. Significance: No
Lead Agency: City of Compton
City / County / Subregion: Compton / Los Angeles / Gateway Cities
Contact: Jessica Lopez -
Comment Due Date: 2015-01-05
Project Description: Negative Declaration

The City of Compton is reviewing Conditional Use Permit (CUP) Case No. 2701, General Plan Amendment No. 2013-002 and Negative Declaration No. 932, a request to 1) convert 1,925 square feet of unused commercial space located within an existing 24,120 square foot commercial building to establish a small banquet hall facility and 2) change the General Plan land use designation from Low Density Residential General Commercial to be consistent with existing commercial development and the existing Limited Commercial zoning of the site.

The site has a commercial building, 146 parking stalls, landscaping planters, and parking lot lights. The existing building covers approximately 24% of the lot. There are no exterior physical changes proposed to the site. An initial study for the proposed project was prepared and it has determined that the proposed project requires a Negative Declaration.
Project Description: Notice of Availability of a Draft Environmental Impact Statement.

The proposed project addresses the 577-acre portion of Section 24 bounded by Ramon Road to the north; Bob Hope Drive to the east; Dinah Shore Drive to the south; Los Alamos Road to the west in the County of Riverside, California. The proposed project would allow for the development of a mix of retail, entertainment, office, hotel, and residential uses intended to complement existing and planned surrounding uses in the City of Rancho Mirage. The Specific Plan would allow for the development of a maximum of 1,200 units in an active adult residential community, 1,206 multi-family residential units, and approximately 3.14 million square feet of commercial development.

Project Description: Notice of Availability of a Draft Environmental Impact Report.

Located in the northern portion of the City of Fontana, in western San Bernardino County, California, the proposed project would occupy an approximately 38.3-acre site in a rectangular shape, and approximately 28 acres of the site is zone Regional Mixed-Used (R-MU) and located within the Warehousing Distribution/Logistics Overlay District (WDLOD). The site also includes an approximately 10-acre portion currently zoned General Commercial (C-2) and is located outside the WDLOD.

The propose project would consist of a single building containing 746,350 square feet of ground-floor logistics warehouse operations and supporting office spaces, and 17,000 square feet second-floor mezzanine spaces. The two offices would provide administrative spaces for the principle use, and depending on the number of logistics warehouse tenants, may ultimately support up to two tenants.

Approximately 220 parking spaces (212 standard and 8 accessible) would be provided on the project site. Moreover, the project site would provide roughly 291 parking spaces for tractor-trailers and include approximately 104 in total of truck bays.
**City of Los Angeles Department of City Planning**

**Notice of Preparation of an Environmental Impact Report.**

**Located in the Sunland-Tujunga-Lake View Terrace-Shadow Hills-East La Tuna Canyon Community Planning Area of the City of Los Angeles, County of Los Angeles, California, the proposed project would be a residential development on privately owned land consisting of 242 single-family dwellings, three private parks, and associated infrastructure on an approximately 78.04-acre site. The proposed project's residential lots would range in size from approximately 9,000 to approximately 19,000 square feet. The development would include four floor plans of two-story structures with heights of approximately twenty-eight feet, each with five bedrooms.**

To accommodate the proposed development, the proposed project would require a General Plan Amendment to change the land use designation from Minimum Residential to Low Density Residential.

**Civic Center Wastewater Treatment Facility Project**

**Notice of Public Hearing.**

This is a notice that a public hearing on the proposed project and the Notice of Availability of a Draft Environmental Impact Report will be held on Monday, December 15, 2014, at 6:30 p.m. by the Malibu Planning Commission in the Council Chambers, Malibu City Hall, located at 23825 Stuart Ranch Road, Malibu, California.

Project Description: Notice of Scoping Session

The proposed project is a Specific Plan amendment that proposes to revise the Land Use Designation to match designations from the General Plan, reduce the acreage from 783.4 to 716.9, revise the external boundary to eliminate property from the Specific Plan, and revised Land Use Designations to permit residential and recreational uses in the southeasterly portion of the Specific Plan that is located within the County of Riverside, California. The proposed project would include a tentative tract map that would subdivide 161.84 acres into two hundred fifty-three (253) residential lots and thirty-seven (37) lettered lots, twelve (12) of which are for public streets, eleven (11) for water quality basin, nine (9) designated as HOA, and three (3) designated for park.

The scoping session will take place at 1:30 p.m., on December 15, 2014, in the County Administrative Center, 1st Floor, Conference Room 2A, Riverside, California 92501

Comment Due Date:

Project Description: Notice of Public Hearing.

This is a notice that a public hearing will be held by the City Council on December 3, 2014, at 6:30 p.m., in the Council Chambers, 5050 North Irwindale Avenue, Irwindale, California.
The proposed project is a Draft Corrective Measures Study for Beckman Coulter, Inc.-Fullerton that is located within the City of Fullerton, County of Orange, and California. Investigation found industrial solvents, PCE and TCE in soil, soil vapor and groundwater. Also, PCBs were found in soil. The Draft Corrective Measures Study identifies four cleanup options and recommends the one considered to be the most effective. Once it is approved, the Department of Toxic Substances Control (DTSC) will oversee the cleanup and ensure it is done in a way that is protective of human health and the environment.

With respect to the California Environmental Quality Act, City of Fullerton is the Lead Agency and DTSC is the Responsible Agency for the project. The City prepared the Fullerton Plan Environmental Impact Report (SCH: 2011051019) and the Initial Study/Mitigated Declaration and Addendum (SCH: 2013081209) for the project.

As a Responsible Agency, DTSC considered the prepared environmental documents. No significant impacts are expected from the project. DTSC prepared a draft Statement of Findings and will file a Notice of Determination with the State Clearinghouse if the project is approved.
Project Description: Notice of Intent to Adopt a Draft Subsequent Mitigated Negative Declaration.

Located in the City of Signal Hill, County of Los Angeles, California, the proposed project is a modification to a previously-approved project evaluated in a 1998 Mitigated Negative Declaration (MND), adopted by the City on June 16, 1998. The proposed project is to upgrade the existing natural gas processing plant at its West Unit Production Facility. The purpose of the proposed modification is to 1) expand the existing vapor recovery system; 2) modify the existing natural gas dehydration system; 3) make beneficial use of the natural gas by sale; and 4) provide operational flexibility by allowing for reduced operations and the ability to sell excess gas to Long Beach.

Project Description: Notice of EIR Scoping Meeting.

This is a public notice that a scoping meeting on the proposed project will be held on Wednesday, December, 17, 2014, at 5 p.m. at the Ventura County Government Center, Hall of Administration, Multi Purpose Room, 800 South Victoria Avenue, Ventura, California.
Located in the City of Los Angeles, County of Los Angeles, California, the project proposed would require the demolition of a multi-family residential building. The proposed project is located within the Exposition/University Park Redevelopment Project Area which requires a project permit for the demolition. Permits issued by the Department of Building and Safety are also required.

The building is two-stories high and contains four units. The entire building and all associated improvements would be removed as part of the proposed demolition. No development is proposed following demolition and the project site would remain vacant.

Located in the City of Wildomar, Riverside County, California, the project proposed would require the demolition of a multi-family residential building. The proposed project is located within the Sycamore Canyon Academy Development Project Area which requires a project permit for the demolition. Permits issued by the Department of Building and Safety are also required.

The building is two-stories high and contains four units. The entire building and all associated improvements would be removed as part of the proposed demolition. No development is proposed following demolition and the project site would remain vacant.
Project Description: Initial Study of a Draft Environmental Impact Report

Located in the City of Wildomar, County of Riverside, California the proposed project would be a development of a public K through 8 charter school on a 9.7-acre vacant lot. The project consists of an approximately 28,000 square foot charter school including 22 classrooms arranged in four buildings, a flex-classroom, and an administration building, as well as patio space, parking lots, gardens, an amphitheater, and paved and turf play areas. Off-site improvements in front of the school along Palomar Street will be constructed to a half-section width as an arterial road with a right of way.

The existing Sycamore Academy campus, located at 32326 Clinton Keith Road, served 401 students in grades K-7. This campus will be closed and the students relocated to the proposed project site once it is complete. The new campus will serve a maximum of 594 students in the 2015-2016 school year, with a peak of 35 employees. The proposed playfields would not be lighted and therefore would not be rented out or used at night. A staff parking lot is proposed along Palomar Street providing 34 parking spaces, including two handicap accessible spaces.

The project site is currently undeveloped but highly disturbed with evidence of recent clearing and grading activities on the northern portion of the site. Approvals are required from the California Department of Fish and Wildlife and the San Diego Regional Water Quality Control Board.

Comment Due Date: 2015-01-02

Project Description: Notice of Preparation of a Draft Environmental Impact Report.

Located in the City of Santa Fe Springs, County of Los Angeles, California, the proposed project would upgrade and augment the fluid (e.g., oil, gas, and water) handling systems at the Breitburn Santa Fe Springs Facilities within the Santa Fe Springs Oil Field. The proposed project would provide additional capacity to accommodate existing well production capacity and potential increases in fluid production from future well drilling. The scope of the proposed project is divided into three components that are covered by three SCAQMD permit applications.
Notice of Public Hearing.

This is a notice that a public hearing on the proposed project and the Notice of Availability for the Draft EIR will be held on Thursday, December 18, 2014, at 7:00 p.m. by City of El Monte Planning Commission in the El Monte City Hall, located at 11333 Valley Boulevard, El Monte, California. The Draft EIR determined that all potentially significant effects would be reduced to a less than significant level except for air quality and traffic, which would have significant and unavoidable impacts on the environment even after mitigation. Therefore, a Statement of Overriding Considerations is required. A Final EIR will be prepared and presented to the Planning Commission and City Council.

Notice of Public Hearing.

This is a notice that a public hearing on the proposed project and the Environmental Impact Report will be held on Monday, December 15, 2014, at 7:00 p.m. by the City of Chino Planning Commission at Chino City Hall in the City Council Chambers, located at 13220 Central Avenue, Chino, California.
South Coast Air Quality Management District (SCAQMD) staff is proposing amendments to Regulation XX - Regional Clean Air Incentives Market (RECLAIM) Rule 2002 - Allocations for Oxides of Nitrogen (NOx) and Oxides of Sulfur (SOx) to reduce the allowable NOx emission limits based on current Best Available Retrofit Control Technology (BARCT) to achieve additional NOx emission reductions for a number of applicable industrial equipment and processes. Additional amendments are proposed to establish procedures and criteria for reducing NOx RECLAIM Trading Credits (RTCs) and NOx RTC adjustment factors for year 2016 and later.

Comment Due Date: 2015-01-05
Project Description: Located in the City of Maywood, County of Los Angeles, California the proposed request is from the City of Los Angeles Unified School District. They City is requesting comments on the Tentative Parcel Map No. 72846 and Street Vacation proposal to combine several parcels of land into one parcel (approximately 9.24 acres) for the construction of the new South Region High School No.8. The new high school will contain six buildings and one parking structure with basketball courts over said structure. The classrooms are proposed within a 3-story structure and overall building square footage is proposed at 200,500 square feet.

Project Description: Notice of Public Hearing and Notice of Mitigated Negative Declaration.

Located on a vacant lot south side of Crest Road between Georgeff Road and Caballeros Road in the City of Rolling Hills, County of Los Angeles, California, the proposed project would include a subdivision of one existing 7.055 acres (gross) lot into two parcels each with a minimum area of 2 (net) acres. While no new home construction is being proposed at this time, the proposed development would include two new homes and related grading. The proposed project has an existing Residential Agricultural Suburban (2 acre minimum net lot area) General Plan Land Use Designation. Hence, there is no proposed General Plan Amendment or zoning for the proposed project.

The public hearing would be held before the Planning Commission of the City of Rolling Hills at 6:30 p.m. on Tuesday, December 16, 2014 in the Council Chambers of City Hall, 2 Portuguese Bend Road, Rolling Hills, California.

Project Description: Notice of Completion and Availability of a Draft Environmental Impact Report.

Located in the Chatsworth-Porter Ranch Community Planning Area of the City of Los Angeles, County of Los Angeles, California, the proposed project would consist of a mix of uses totaling approximately 1.22 million square feet, including 1) adaptive reuse and rehabilitation of the former LA Times printing facility (255,855 square feet) for MGA light industrial uses and its corporate headquarters, as well as ancillary creative office space; 2) 700 rental housing units in four main residential buildings; 3) shared recreational campus amenities located throughout the site; and 4) approximately 14,000 square feet of campus and neighborhood serving retail and restaurant uses. The proposed project would be located on approximately 23.6-acre site that is a single parcel improved with a light industrial building formerly used by the Los Angeles Times as a printing facility.

Project Title: Tapestry Project
Reg. Significance: Yes
Lead Agency: City of Hesperia
City / County / Subregion: Hesperia / San Bernardino / San Bernardino
Contact: David Reno - (760) 947-1253

Notice of Availability of a Draft Environmental Impact Report.

Located in the City of Hesperia, County of San Bernardino, California. The proposed Project includes a Specific Plan Amendment (SPL 13-00001), development agreement (DA 13-00002) and three Tentative Tract Maps. The Specific Plan would amend the existing Rancho Las Flores Specific Plan to exclude the approximately 490-acre Las Flores Ranch, and allow the proposed development in lieu of the previously approved Rancho Las Flores Specific Plan.

The Tapestry Specific Plan proposes a maximum of 19,311 residential units with a mix of densities ranging from very low density and estate residential to high density and mixed-use; two mixed-used town centers with approximately 500,000 to 700,000 square feet of commercial and retail; approximately 367 acres of park land; 90 miles of an extensive trail system; eight elementary schools, two middle schools and two high schools totaling approximately 263 acres of school uses; public and civil facilities; water facility and other associated infrastructures; and preservation of approximately 3,526 acres of open space. The proposed Project is expected to be built out through 10 development phases. A TTM for subdivision of single-family lots in Phase 1 is being concurrently processed; phase 2 through 10 will require a similar process for TTMs.

City / County / Subregion: Loma Linda / San Bernardino / San Bernardino  
Contact: Guillermo Arreola - (909) 799-2800  
Comment Due Date: 2015-01-06  
Project Description: Notice of Public Hearing and Notice of Intent to Adopt a Mitigated Negative Declaration.  
This is a notice that a public hearing on the proposed project and Notice of Intent to Adopt a Mitigated Negative Declaration will be held on Wednesday, January 7, 2015, at 7:00 p.m., in the Council Chambers, located at 25541 Barton Road, Loma Linda, California.

Located on two separate properties, totaling approximately 18.75 acres in the County of San Bernardino unincorporated area of Loma Linda and within the Sphere of Influence of the City of Loma Linda, the proposed project would subdivide the 9.5-acre property into 35 single family residences and four common lettered lots. The 35 single family residential lots would range in size from 7,215 square feet to 11,442 square feet. On this 9.5-acre property, there is an existing single family residence and citrus grove. The proposed project would remove these existing them and all related on-site improvements to allow for the proposed development. There is currently no development proposed for the other 9.25-acre property that is currently occupied with two existing single family residences. Hence, at this point, these two residences would remain on this 9.25-acre property that would be annexed to the City under the proposed project.

To implement the proposed development, there would be a general plan amendment to change the existing City of Loma Linda General Plan designation from Business Park to Low Density Residential; a pre-zone application; an annexation, and an approval of the tentative tract map for subdivision.
Notice of Preparation of a Draft Supplemental Environmental Impact Report.

The Walt Disney Company has filed an application with the City to extend the expiration date of the existing Development Agreement for the Disney Studios Master Plan by 18 years to November 24, 2035.

The proposed project is an extension of the term of the approved Development Agreement for an additional 18 years from November 2017 through November 2035 on the 44.5-acre site that is located in the southern portion of the City of Burbank just north of the Ventura Freeway and the Los Angeles River. Under the proposed project, no changes are proposed to the amount or type of allowed land uses or any other aspects of the approved Planned Development. Approval of the proposed project (extension of expiration time would provide the project applicant additionally needed time to complete the already-approved allowable development).

To provide some background, the Development Agreement was approved by the City in 1992 for a vesting period of 25 years. Under this plan, there would be approximately 1,932,528 Office Equivalent Gross Square Feet (OEGSF) and related uses allowed on the project site. The proposed project, if approved, would construct the 681,632 OEGSF of the already-approved total OEGSF under the Development Agreement.

For the 1992-approved Development Plan, there was a certified environmental impact report. The proposed project would require a supplemental environmental impact report to the certified document.
Project Description: Responses to Comments for the Heacock Channel Improvement Project Final Environmental Impact Report.

This is a notice that the March Joint Powers Authority, as a lead agency under CEQA, had completed and issued responses to the comments received on the Draft EIR that was reviewed by the public during a 45-day public review period beginning on September 3, 2014 through October 20, 2014. The commission of the March Joint Powers Authority will consider the certification of the Final EIR as well as the project at 8:30 a.m. on Wednesday, December 17, 2014, in the March Joint Powers Authority Conference Center, located at 23533 Meyer Drive, Riverside, California 92518.

Contact: Matt Straite - (951) 955-8631
Comment Due Date: 2015-01-07
Project Description: Notice of Preparation of a Draft Environmental Impact Report.

Located within the Specific Plan No. 265 Planning Area, in the unincorporated County of Riverside, California, the proposed project would consist of amendments that would reduce the size of the Specific Plan and would allow a residential development in the southeastern portion of the Specific Plan area.

Specific Plan 265 was originally approved in November 1994. In 2002, some of the planning areas of the Specific Plan 265 were annexed into the City of Murrieta. In addition, in 2011, the Riverside Airport Land Use Commission adopted a revised Airport Master Plan for the French Valley Airport. The most significant changes of this revision were the deletion of the 2nd, or easterly runway, and the expansion of the existing runway. Because these revisions, which had resulted in a need to modify the Specific Plan 265, have not been made to date, the proposed project would include these items as "clean-up" items in the proposed Amendment No. 1 to the Specific Plan 265.

The proposed project would include a tentative tract map that would subdivide 161.8 acres into 281 residential lots and 37 lettered lots, and 13 of which would be for public streets, 10 for water quality basins, 8 designated for Home Owners’ Association, 2 are designated for open space, and 4 designated for park.

Project Title: Brewer Site Project

Reg. Significance: Yes

Lead Agency: City of Chino

City / County / Subregion: Chino / San Bernardino / San Bernardino

Contact: Andrea Gilbert - (909) 590-5570

Comment Due Date: 2015-01-09

Project Description: Notice of Preparation of a Draft Environmental Impact Report.

Located in the northern portion of the City of Chino, in the southwestern portion of County of San Bernardino, California, the proposed project would redevelop the approximately 33.5-acre site that is currently occupied by approximately eight (8) large lot single family homes and undeveloped land/fallow agricultural lands through the future construction and operation of a residential community comprising single-family homes and detached condominiums.

To implement the proposed project, there would be a General Plan Amendment to change the site's existing land use designation from "Residential (RD 1)" to "Residential (RD 4.5) on approximately 3 acres, "Residential (RD 8)" on approximately 17.8 acres, and "Residential (RD 12)" on approximately 12.7 acres. Because the proposed project would require a General Plan Amendment that would increase the residential intensity allowed on-site, the proposed project is subject to the City’s Measure M General Plan Initiatives (Measure M). Measure M requires that any proposal to allocate additional residential density to properties already designated for residential development shall be subject to a city-wide vote and must be approved by a majority of voters. The maximum number of units allowed on the proposed project site would be not to exceed 232 dwelling units.

Project Description: Notice of Availability of a Draft Environmental Impact Report.

Located in a project planning area, which is the campus of Pomona College in the City of Claremont, County of Los Angeles, California, the proposed project occupies approximately 140 acres and would consist of a long-range master plan for planned future improvements to the Pomona College campus over a period of 15 years from the date of the approval of the project.

The proposed project would include the following element: 1) enrollment increase of 50 students to 1,640 students, a net increase of 26 student beds on campus to 1,560, an increase of 30 faculty to 222, and an increase of 30 staff to 525; 2) removal of up to 126,700 gross square feet of existing facilities and construction of up to 608,200 gross square feet of new facilities, for a net increase of 205,400 gross square feet of structural development; 3) a net increase of 18 on-campus parking spaces; 4) campus lot coverage increase to 18 percent from 16 percent; 5) pedestrian and bicycle improvements to improve safety and clarify pedestrian and vehicular circulation patterns; and 6) new and remodeled open spaces and facilities such as courtyards and streetscape.

Robertson Lane Hotel Project

No

City of West Hollywood

West Hollywood / Los Angeles / Westside

Jennifer Alkire - (323) 848-6487

2015-01-23

Notice of Preparation of a Draft Environmental Impact Report

Located in the southwest portion of the City of West Hollywood, in the County of Los Angeles, California, the proposed project would involve demolition of three existing commercial buildings and corresponding parking lots on the project site and construction and operation of an approximately 509,000 square foot hotel/commercial building on a 1.94 acre site. The proposed project would include restaurant space, retail stores, a wholesale design showroom, and a 251-room hotel with associated amenities.

Because the proposed project would exceed the currently allowable height and floor area ratio of the project site’s general plan and zoning designation, the project would require approval of the proposed Robertson Lane Specific Plan. If approved, the specific plan would replace current general plan land use and zoning designations for the site and would establish new height limits, allowable density, and design standards for the project site.

Notice of Intent to Adopt a Mitigated Negative Declaration

Located in the southern portion of the City of San Bernardino, in the southwestern portion of the County of San Bernardino, California, the proposed project consists of applications for General Plan Amendment (GPA 14-08), Zoning Map Amendment (ZMA 14-16), Tentative Parcel Map (TPM) No. 19573 (SUB 14-11), and a Development Permit (DP-D14-05) on a 19.65 acre lot.

GPA 14-08 and ZMA 14-16 propose to amend the City's General Plan land use and Zoning designations from Office Industrial Park (OIP) and Residential Medium High (RMH) to Industrial Light (IL) for the project site. TPM No. 19573 (SUB 14-11) proposes to consolidate the existing nine (9) parcels that comprise the 19.65-acre property into one (1) parcel. DP-D14-05 proposes to develop the subject property with a 426,858 square foot logistics warehouse building and associated improvements including, but not limited to, surface parking areas, drive aisles, utility infrastructure, landscaping, exterior lighting, signage, and walls/fencing.
County of Riverside Transportation & Land Management Agency

Project Description:
Notice of Intent to Adopt a Mitigated Negative Declaration

Located in unincorporated Riverside County, California bounded by the cities of Moreno Valley and Perris to the west and Hemet and San Jacinto to the east, the proposed project would construct two features to decant liquid from solid waste collected during storm drain clean-out operations. The decanting features each consist of a sloped concrete pad of approximately 750 square feet and an adjacent 150 square-foot infiltration trench. The concrete pad will be constructed of reinforced concrete and will slope (at 2%) toward the infiltration trench. Solids remaining will be collected every two to three days and transported via 10-wheel dump truck to Lamb Canyon Sanitary Landfill for disposal. The cleaning of storm drain facilities is an existing and ongoing operation required pursuant to the County’s Municipal Separate Storm Water Sewer System. The project site is accessible from Juniper Flats Road.

Project Description:
Notice of Intent to Adopt a Mitigated Negative Declaration

Located northern portion of the City of Monterey Park, in the southern portion of the County of Los Angeles, California, the proposed project would develop a six-story, 180-room, “limited service” hotel. The proposed hotel would total approximately 97,876 square feet (sqft), consisting of 4,059 sqft of restaurant use, 1,075 sqft of retail space, 14,727 sqft of common areas, and 13,446 sqft of service areas and support facilities.

A total of 263 passenger parking spaces would be provided in a three-level subterranean parking garage. Three passenger/tour bus loading and unloading spaces would also be provided at the ground level adjacent to the hotel lobby. The six-story building would be approximately 75 feet in height and would have a total floor area ratio (FAR) of 2.25.

Project Description: Notice of Public Hearing and Mitigated Negative Declaration.

Located in the City of Los Angeles, County of Los Angeles, California, the proposed project is seeking a permit to sell and dispense a full line of alcoholic beverage for on-site consumption at a maximum of 24 establishments, totaling 180,400 square feet, and 3,741 seats with limited live entertainment and outdoor dining, and hours of operation from 6 a.m. to 2 a.m., daily and the off-site sale and dispensing of a full line of alcoholic beverages at 4 venues, totaling 29, 300 square feet, and operating 24 hours daily, in conjunction with renovation and continued operation of the retail and office component of the Bloc (formerly Macy's Plaza).

A public hearing on the proposed project will be held at 10 a.m., on Thursday, January 8, 2015, before the Zoning Administrator, in the Office of Zoning Administration, located in the Los Angeles City Hall, 200 North Spring Street, Room 1020, Los Angeles, California 90012.
Notice of Public Hearing and Mitigated Negative Declaration.

Located in the Century City Planning Area, City of Los Angeles, County of Los Angeles, California, the proposed project is seeking a permit to sell and dispense a full line of alcoholic beverages for on-site consumption at a maximum of seven (7) venues, totaling 42,037 square feet with a maximum of 971 seats (81 outdoor seats), and the off-site sale and dispensing of a full line of alcoholic beverages at a maximum of three (3) venues, totaling 495 square feet, all in conjunction with the renovation and continued operation of the Sheraton Hotel at the Bloc, with proposed hours of operation of 24 hours, daily.

A public hearing will be held on Thursday, January 8, 2015, at 9:30 a.m., in front of the Zoning Administrator, in the Office of Zoning Administration, in Los Angeles City Hall, 200 North Spring Street, Room 1020, Los Angeles, California, 90012.
Project Description:

Supplemental Notice of Completion and Availability of Final Subsequent Environmental Impact Report.

The Final Subsequent Environmental Impact Report (EIR) for the proposed project was published on October 10, 2013, after the Draft Subsequent EIR was circulated for public review from March 15, 2013 through April 29, 2013. To respond to the comments, the City of Los Angeles has prepared an Errata to clarify and correct information in the Final Subsequent EIR. The Errata includes minor edits and revisions to the document, as well as new and revised appendices to the Final Subsequent EIR. The information contained in the Errata does not contain any significant new information that deprives the public of a meaningful opportunity to comment upon a substantial average environmental effect of the project or a feasible way to mitigate or avoid such an effect.

The proposed project is a modification to a project that is previously approved by the City in 2006, which permitted the development of approximately 483 residential condominiums in two 47-story towers and one 12-story building for a total of approximately 1.3 million square feet on an approximately 5.5-acre site. The proposed modification would allow the construction of one 37-story approximately 700,000-square foot office building, approximately 25,830 square feet of low-rise, one- and two-story office space, an approximately 1,300 square foot Mobility hub, a parking structure with approximately 1,579 stalls on the approximately 5.5-acre site located at 1950 Avenue of the Stars in the City of Los Angeles, County of Los Angeles, California.

SCAG ID. No: IGR8317_9361
Document Type: NOTICE OF PREPARATION
Project Title: Baxter Village Mixed-Use Project (Planning Application No. 14-0002)
Reg. Significance: No
Lead Agency: City of Wildomar
City / County / Subregion: Whittier / Orange / Gateway Cities
Contact: Matthew Bassi - (951) 677-7751
Comment Due Date: 2015-01-19
Project Description: Notice of Preparation of a Draft Environmental Impact Report.

Located in the City of Wildomar, County of Riverside, California, the proposed project is a horizontal mixed use development on approximately 12.5-acre site that would develop 8.4 net acres of the site with 75,000 square feet of commercial retail uses, 11.3 net acres with 204 apartment units, and 12.5 net acres with 70 single family homes. The remaining 3.3 acres would contain road, required parking, retention basins, and recreation areas. The proposed project is currently undeveloped and has a General Plan land use designation of Mixed Use Planning Area (MUPA).
Project Description:

In accordance with the California Environmental Quality Act (CEQA), the South Coast Air Quality Management District (SCAQMD), as the Lead Agency, has prepared Notice of Preparation (NOP) and Initial Study (IS) for the Proposed Amended Regulation XX - Regional Clean Air Incentives Market (RECLAIM). The purpose of this notice is to extend the public comment period to solicit comments on the NOP/IS. The original comment period was December 5, 2014 to January 16, 2015. This comment period is extended to January 30, 2015. No other revisions have been made to the NOP/IS.

South Coast Air Quality Management District (SCAQMD) staff is proposing amendments to Regulation XX - Regional Clean Air Incentives Market (RECLAIM) Rule 2002 - Allocations for Oxides of Nitrogen (NOx) and Oxides of Sulfur (SOx) to reduce the allowable NOx emission limits based on current Best Available Retrofit Control Technology (BARCT) to achieve additional NOx emission reductions for a number of applicable industrial equipment and processes. Additional amendments are proposed to establish procedures and criteria for reducing NOx RECLAIM Trading Credits (RTCs) and NOx RTC adjustment factors for year 2016 and later.
Project Description: Extension of Comment Period and Rescheduling of Public Hearings

The project facilities are located on San Bernardino National Forest lands and on privately held lands owned by the City of Banning, Southern California Edison Company (SCE), and others in Riverside County and San Bernardino County. SCE will remove the existing water supply facilities under the direction of the United States Forestry Service, San Bernardino National Forest (SBNF), and the Federal Energy Regulatory Commission (FERC). The facilities supply consumptive water to the community of Banning Beach and to the City of Banning.

Several agencies and interested parties have requested for additional time to prepare verbal and written comments on the potential contents of the DEIR. For this reason, San Gorgonio Pass Water Agency (SGPWA) (Lead Agency) is extending the due date to March 4, 2015 for written comments and will reschedule the public hearings for a later date.

Project Title: BKK Landfills Facility Soil Gas Investigation Results
Reg. Significance: No
Lead Agency: Department of Toxic Substances Control
City / County / Subregion: West Covina / Los Angeles / San Gabriel Valley
Contact: Kamili Siglowide - (916) 255-3657
Comment Due Date:

Project Description: Community Update for BKK Landfills Facility Soil Gas Investigation Results

The Department of Toxic Substances Control (DTSC) directed a soil gas investigation between 2010 and 2014 concerning the BKK Landfills Facility (Facility). The investigation was conducted because the Facility had accepted solid and liquid hazardous wastes, as well as municipal waste, for disposal in the past. Some of the wastes include a category of chemicals referred to as VOCs. DTSC wanted to investigate whether gasses containing VOCs and/or methane were moving into soils beyond the Facility boundary.

Based on the sampling results, DTSC concluded that low concentrations of methane and volatile organic compounds (VOCs) were detected in offsite soil gas which does not pose unacceptable risks to residents and others in the vicinity of the Facility. DTSC also concluded that no additional offsite investigation of methane and VOCs in soil gas is warranted at this time.
Los Angeles County Metropolitan Transportation Authority

Project Description: Notice of Intent to Adopt a Mitigated Negative Declaration.

Located in the Financial District of Downtown Los Angeles, approximately 27 feet below 7th Street, roughly mid-way between Hope Street and Flower Street, County of Los Angeles, California, the proposed project would construct an underground pedestrian passageway below 7th Street to connect the existing 7th Street/Metro Center subway station to the mixed use development called The Bloc (formerly Macy’s Plaza).

The proposed tunnel will be 17 lineal feet in length and 20 feet wide by 15 feet high. The proposed tunnel will be approximately 27 feet below grade. The proposed will join to the existing parking structure located one level below the future mall portion of The Bloc and will provide street access via escalators and elevators. The proposed project would involve no-street construction, or no-street or sidewalk closure, since access to the construction site would be via the subterranean parking structure located at The Bloc.

South Coast Air Quality Management District

Project Description: Notice of Intent to Issue Permits.

The proposed project is an application to revise permits to operate to increase the operating schedule limits for the four identical natural-gas fired electric generating gas turbines at this 200 megawatt (MW) power plant. Effective January 1, 2015, the California Independent System Operator (CAISO) Flexible Resource Adequacy Criteria and Must Offer Obligation (FRAC-MOO) will require the permit applicant to provide a significant amount of flexible generation capacity to serve as backup for solar and wind generation to maintain system reliability.

The South Coast Air Quality Management District has evaluated the permit application and made a preliminary determination that the equipment will comply with all of the applicable requirements of air quality rules and regulations.

City / County / Subregion: Los Angeles / **Not Applicable

Contact: Esther Rojas - (562) 961-5521

Comment Due Date: 2015-01-20

Project Description: Notice of Preparation of a Recirculated Environmental Impact Report

A Draft EIR for the proposed project was previously circulated for public review on March 24, 2014. Since that time, Water Replenishment District of Southern California (WRD) has identified a new project Alternative that would construct an advanced water treatment plan (AWTP) at 4220 San Gabriel River Parkway, in the city of Pico Rivera rather than at the San Jose Creek Water Reclamation Plan (SJCWRP), as described in the previous EIR. The new project Alternative would eliminate the need to construct the 3.7 mile pipeline from the SJCWRP to the Montebello Forebay Spreading Grounds. Treated water from the SJCWRP would be conveyed through an existing outfall pipeline along the San Gabriel River to the proposed AWTP prior to being conveyed to the Montebello Forebay Spreading Grounds for groundwater recharge. The proposed AWTP would provide additional filtration, reverse osmosis, and advanced oxidation disinfection treatment prior to recharging groundwater.

Project Description: Notice of Completion and Availability of a Final Environmental Impact Report

The project includes approximately 340 acres generally bounded by Sepulveda Westway and Sepulveda Boulevard to the east, LAX to the south, Pershing Drive to the west, and generally 91st Street, Manchester Avenue, and 88th Street to the north.

The project would set forth new regulations for future development occurring within the Northside area of the LAX Specific Plan. The proposed project is intended to create a vibrant, sustainable center of employment, retail, restaurant, office, hotel, research and development, education, civic, airport support, recreation, and buffer uses that support the needs of surrounding communities and LAWA. Adoption of the project would enable the development of up to 2,320,000 square feet of new development and would permit areas for recreation, open space, and buffer space. Implementation of the proposed project may also include a street vacation of Cum Laude Avenue.

Project Description: Work Notice for Malibu High School Building G Area

Located at 30215 Morningview Drive, Malibu, California, the cleanup action will include the excavation and off-site disposal of approximately 20 cubic yards of surface soil that contains the PCB Aroclor 1245 at concentrations exceeding DTSC’s unrestricted land use clean up goal. The proposed excavation area is located adjacent to a concrete walkway east of Building G, and consists of an approximately 45 foot long by 7 foot wide landscaped planter. The excavation is limited to 1.5 feet in depth.

The proposed cleanup action will be conducted during Winter Break 2014 when school is not in session and the campus is vacant. To ensure the expedited work schedule can be met, field equipment will be mobilized and security fencing erected at the Site on December 21, 2014. The proposed cleanup action will begin December 22, 2014 and be completed prior to January 2, 2015.

Project Title: 100 West Walnut Planned Development

Reg. Significance: Yes
Lead Agency: City of Pasadena
City / County / Subregion: Pasadena / Los Angeles / Arroyo Verdugo
Contact: Betty Donavanik - (626) 744-6756
Comment Due Date: Notice of Public Hearing

Project Description: Notice of Public Hearing

Located in the City of Pasadena, County of Los Angeles, California, the proposed project is a mixed-use development that would transform the project site from a single-function office complex with over 900,000 square feet to a mixed-use office campus and residential community. The proposed project would include 1) a 620,000 square feet of office uses, of which up to 30,000 square feet could be used for ancillary retail uses; 2) 10,000 square feet of restaurant uses; and 3) 475 residential units. The proposed project would also include a multi-level subterranean parking structure providing a total of approximately 4,104 parking spaces.

The Planning Commission will hold a public hearing on Wednesday, January 14, 2015 at 6:30 pm at the Pasadena City Hall Council Chambers.
Located in the western portion of the City of Los Angeles, in the County of Los Angeles, California, the project site is bordered by 39th Street on the north, Crenshaw Boulevard on the east, Stocker Street on the south, and Santa Rosalia Drive and Marlton Avenue on the west.

The proposed project is formerly called "Baldwin Hills Crenshaw Plaza Redevelopment Project." It would redevelop the existing Baldwin Hills Crenshaw Plaza to include a mixed-use retail, commercial, office, hotel, and residential project totaling approximately 3,072,956 square feet (sf) of net floor area. Approximately 90,898 sf of the existing free-standing structures would be demolished, and all of the enclosed mall structure and cinema would be retained. The proposed project would result in a net increase of approximately 2,056,215 sf of floor area across the entire project site. The proposed project would also result in a net increase of approximately 331,838 sf of retail/restaurant uses, 143,377 sf of office uses, 346,500 sf of hotel uses providing up to 400 hotel rooms, and 1,234,500 sf of residential uses in 961 residential units. Parking would be available in surface parking lots, as well as in above-grade and subterranean parking structures.
Project Description: Notice of Availability of a Draft Environmental Impact Report

Located in the northern portion of the City of San Jacinto, in the western portion of the unincorporated County of Riverside, California, the proposed project would consist of constructing and maintaining a new levee and its associated improvements. The proposed project constitutes the expanded implementation of the 1975 Flood Control Master Plan for the Lower San Jacinto River Basin.

The proposed project will provide the 100-year flood protection for approximately 1,955 acres of existing agriculture, active dairy operations, and roadways as well as existing development.

Construction consists of a new southern levee (approximately five miles in length), a floodwall, enhancements to the existing northern levee, excavation under the State Street Bridge, removal of portions of the existing levee, and protection of the Metropolitan Water District's (MWD) underground aqueduct pipelines. Construction of the proposed project will require temporary construction easements and staging areas. The proposed project also includes operation and maintenance of the new flood control structures and both the modification and continuation of current maintenance practices within designated segments of the expanded riverine corridor.

Document Type: ENVIRONMENTAL IMPACT REPORT
Project Title: City of Hesperia Love’s Travel Center
Reg. Significance: No
Lead Agency: City of Hesperia
City / County / Subregion: Hesperia / San Bernardino / San Bernardino
Contact: David Reno - (760) 947-1253
Comment Due Date: 2015-02-09

Project Description: Notice of Completion of a Recirculated Draft Environmental Impact Report

The proposed project consists of two parcels located in the City of Hesperia that are bounded by Joshua Street to the north, Interstate-15 to the southeast, and Outpost Road to the west.

This project consists of a minor amendment to the Main Street and Freeway Corridor Specific Plan and a Conditional Use Permit for a proposed Love’s Travel and Service Center of approximately 12,271 square feet on 10.6 acres in the City of Hesperia.

This DEIR is being recirculated in its entirety, mainly to address comments on the DEIR regarding traffic and alternatives.
Located in the southeastern portion of the City of Wildomar, in the western portion of the County of Riverside, California, the proposed project would develop a mixed use development with commercial/retail uses and residential uses.

The project includes the development of approximately 50,000 square feet (sf) of commercial/retail and office uses on the northern portion (10.3 acres) of the site; and eight three-story multiple-family (162 units) apartment buildings on the southern portion (9 acres) of the site. The project includes a 1.8 acre passive park and the preservation of an existing 1.3 acre oak grove.

The site is currently undeveloped. The project proposes to amend the City's General Plan, changing the land use designation on the northern half of the site from Business Park to Commercial Retail. Other proposed actions include a Zone Change for the northern portion of the site from Rural Residential to Commercial Scenic Highway; a Tentative Parcel Map (TPM 36673) to subdivide the project property into two parcels; and a Plot Plan to develop 19.3 acre site with commercial retail and multi-family residential uses.
Project Description:

Notice of Preparation and Notice of Scoping Meeting

Located on County-owned property within the City of Irvine, northwest of the intersection of Alton Parkway and Irvine Boulevard, in the County of Orange, California, the project proposes a multi-family development, with 970 units on approximately 44.16 acres, which includes a wildlife movement corridor and an Orange County Flood Control District (OCFCD) drainage outlet structure that occupies 11.84 acres.

A number of off-site improvements are required to serve the project and will be provided as part of future development, which include street, road, sidewalk, and intersection improvements and utility and storm drain system extensions and connections within Irvine Boulevard (includes sewer, water, gas, communication, and CCTV services, and storm drain improvements.)

The project also includes General Plan Amendments and Zoning Ordinance Amendments to allow development of the project.

Document Type: MITIGATED NEGATIVE DECLARATION
Project Title: Conditional Use Permit #6222, 3420, 3500, 4401, and 4500 Arroyo Seco Road
Reg. Significance: No
Lead Agency: City of Pasadena
City / County / Subregion: Pasadena / Los Angeles / Arroyo Verdugo
Contact: Jose Daniel Jimenez - (626) 744-7137
Comment Due Date: Notice of Public Hearing and Notice of Intent to Adopt a Mitigated Negative Declaration.

Project Description:

The proposed project is within the Arroyo Seco Canyon Area that were damaged or destroyed by Station Fire-related events of 2009. The proposed project would allow the repair and replacement of facilities in the Area. The proposed improvements would also allow the increased utilization of surface water rights held by the City of Pasadena, and would improve water quality in the Canyon. Additionally, the proposed project would improve biological habitats; restore hydrological function and fish passage; and improve ecosystem health through enhancements.

A public hearing on the proposed project has been scheduled to take place on Wednesday, January 7, 2015, at 6 p.m., in the Permit Center Hearing Room, 175 North Garfield Avenue, Pasadena, California.
Project Title: La Palma Recharge Basin Project

Lead Agency: Orange County Water District

City / County / Subregion: Anaheim / Orange / Orange County

Contact: Dan Bott - (714) 378-3256

Comment Due Date: 2015-02-05

Project Description: Notice of Availability of a Draft Environmental Impact Report.

Located in the City of Anaheim, County of Orange, California, the proposed project would include construction and operation of one 14-acre groundwater recharge basin and would add an estimated 51,000 acre feet per year of capacity for water recharge into the Orange County Groundwater Basin.

A public meeting has been scheduled to take place on March 11, 2015 at the Orange County Water District Administrative Offices at 18700 Ward Street, Fountain Valley, California 92708.

Project Title: Sierra Pacific Center II Project (formally referred to as the Sierra Industrial II Project)

Lead Agency: City of Fontana

City / County / Subregion: Fontana / San Bernardino / San Bernardino

Contact: Rina Leung - (909) 350-6566

Comment Due Date: 

Project Description: Notice of Public Hearing.

This is a notice that a public hearing on the proposed project would be held on January 20, 2015, at 6 p.m., in the City Hall Council Chambers, located at 8353 Sierra Avenue, Fontana, California 92335.
Project Description:

The proposed project is an application for permit to construct/operate a confined animal facility dairy operation in the City of Ontario, County of San Bernardino, California, pursuant to South Coast Air Quality Management District (SCAQMD) Rule 212 - Standards for Approving Permits and Issuing Public Notice, new or modified sources exceeding any of the specified daily maximums.

The proposed operation will emit volatile organic compounds (VOC) and particulate matter less than 10 microns in diameter (PM10) from enteric fermentation and manure handling. The dairy will also emit ammonia and methanol from enteric fermentation and manure handling, both of which are classified as toxic compounds. Neither ammonia nor methanol poses a cancer risk, and both the cumulative acute and chronic hazards posed by the emission of the compounds are below the threshold requirements of SCAQMD Rule 1401.

Project Description:

A public Workshop will be held by the Planning Commission on Thursday, January 8, 2015 at 6:30pm.
Notice of Intent to Adopt a Mitigated Negative Declaration

Located in the City of Riverside, in the County of Riverside, California, the proposed project consists of removing the existing trapezoidal channel and constructing approximately 2,070 feet of reinforced concrete box (RCB) ranging in size from 8 feet wide by 4 feet high to 14 feet wide by 5 feet high. The main line will be constructed within Monroe Street beginning at the upstream terminus of the existing Monroe/Monticello Channel underground RCB Project (double 10 feet 6 inches wide by 3 feet 3 inches high RCB) at a point approximately 600 feet south of California Avenue and extending south in Monroe Street to its connection with the existing Monroe Channel, Stage 1 RCB (one 8 feet wide by 3 feet high RCB and one 4 feet 6 inches wide by 3 feet high RCB) approximately 70 feet north of Magnolia Avenue. In addition, nine existing laterals will be reconnected to the newly constructed RCB main line at the points where laterals are currently connected to the existing trapezoidal channel.

After the RCB is installed, a walkway will be built over the RCB. Monroe Avenue will be repaved beginning at a point approximately 600 feet south of California Avenue and extending to a point approximately 70 feet north of Magnolia Avenue. Work will also include moving and re-installing lighting poles and utility structures. Regular maintenance of the channel will include removal of debris and minor repairs as warranted.

Extension of Comment Period.

This is a news release that the comment period, originally scheduled to close on January 9, 2015, will be extended through February 23, 2015.
Notice of Public Hearing

The Malibu City Council will hold a public hearing on Monday, January 12, 2015 at 6:30 P.M. for the Civic Center Wastewater Treatment Facility Project. The City Council will certify the Final EIR if it finds the document acceptable and in conformance with CEQA at the meeting.

Project Description:

The Malibu City Council will hold a public hearing on Monday, January 12, 2015 at 6:30 P.M. for the Civic Center Wastewater Treatment Facility Project. The City Council will certify the Final EIR if it finds the document acceptable and in conformance with CEQA at the meeting.

Notice of Public Hearing

Located in the City of Coachella, in the Riverside County, California, the project consists of the City's proposal of updating their General Plan. The new General Plan emphasizes on community designs that prioritize active transportation modes such as walking and bicycling, encourage social interactions, and create traditional neighborhoods, in order to become a healthier, more sustainable community.

A public hearing has been scheduled before the Riverside County Airport Land Use Commission (ALUC) on January 8, 2015 at 9:00 AM. The public hearing will be held at the Riverside County Administration Center located at 4080 Lemon St, 1st floor Hearing Room, in Riverside, California.

Project Description: Notice of Availability for Supplemental Environmental Impact Report
Located in the northern portion of the City of Oxnard, in the western portion of the Ventura County, California, the project proposes a Tentative Subdivision Map for Tract No. 5745 to resubdivide The Village Specific Plan area in substantial conformance with the previously adopted specific plan by creating 17 numbered lots and 19 lettered lots for development, public improvements, and open space previously entitled by The Village Specific Plan.

The 62-acre specific plan area is bounded by the Ventura Freeway (Highway 101) to the north, Oxnard Boulevard to the east, the Union Pacific Railroad and El Rio Drain to the south, and North Ventura Road and the Santa Clarita River to the west.
Project Description:

Located in the City of Compton, in the County of Los Angeles, California, the proposed project involves two potential site plan options, each of which includes the construction of multiple light industrial/warehouse/distribution buildings with truck loading doors.

Project Site Plan A consists of a 1.43 million square feet (sf) light industrial warehouse/distribution building (Building A-1) on the main parcel, with truck loading doors running north/south and a 70,000 sf light industrial building (Building A-2) off the southern flag lot with single-loaded truck loading doors from the north side. Building A-1 would also include ancillary office space, with its entrance oriented at the southeast corner of the project site, off Central Avenue. This building would provide 208 truck loading doors, 575 auto stalls, and storage space of 437 shipping containers. Building A-2 will provide 87 auto stalls and 11 truck loading doors and no storage spaces for shipping containers.

Project Site Plan B consists of a 525,400 sf light industrial warehouse/distribution building (Building B-1) with truck loading doors running east/west on the northwest side of the main parcel; a 481,600 sf light industrial building (Building B-2) with truck loading doors; and a 70,000 sf light industrial building (Building B-3) off the southern flag lot with single-loaded truck loading doors. Building B-1 would include ancillary office space, provide 88 truck loading doors, and 270 auto stalls. Building B-2 would also include ancillary office space, provide 111 truck loading doors, and 275 auto stalls. Building B-3 would provide 12 truck loading doors and 87 auto stalls. A total of 314 storage spaces for shipping containers would be provided under this plan - 100 west of Building B-1, 139 between Building B-1 and Building B-2, and 75 east of Building B-2.

Project Description: Notice of Availability of a Draft Environmental Impact Report

The Lead Agency requests that the previous NOA/DEIR, which was received on December 19, 2014, to be disregarded and replaced with this current CD with the DEIR and Technical Appendices. There is no new information on the enclosed CD however; the executive summary in current CD includes a Comparison of Alternatives Matrix that is correct and the same as the Comparison Alternative Matrix in the Alternative Section. The comment period has also been extended from February 2, 2015 to February 5, 2015.
Notice of Public Hearing.

This is a notice that a public hearing on the proposed project will be held on Tuesday, January 6, 2015, at 7:00 p.m. at the Chino City Hall in the City Council Chambers, located at 13220 Central Avenue, Chino, California.

Notice of Availability of a Draft Environmental Impact Report.

Located west of Interstate 605 (I-605), south of Interstate 210 (I-210), and north of Interstate 10 (I-10) in the northwestern portion of the City of Irwindale, County of Los Angeles, California, the proposed project would consist of an approximately 700,000 square-foot shopping center on an approximately 63.5-acre site. In addition to the primary function of the shopping center to provide commercial space for shopping opportunities, the proposed project would include ancillary amenities, including a central plaza for public gatherings, entryway features, an outdoor entertainment/performance area, and a food court. The proposed project would be completed in two phases. Phase 1 would develop approximately 455,000 square feet of 65 percent of the total project building space, while Phase 2 would develop the remaining 245,000 square feet of 35 percent of the total project space.
Notice of Intent to Adopt a Mitigated Negative Declaration.

Located in the City of Gardena, County of Los Angeles, California, the proposed project is a specific plan for a 96-unit townhouse community on an approximately 4.69-acre site that is currently being operated as a commercial landscaping nursery. The proposed project would require, among other things, a General Plan Amendment to the Land Use Map, and approval of the proposed Specific Plan.

Notice of Availability of Recirculated Draft Environmental Impact Report.

The proposed project is a specific plan that would allow up to 3,473,690 square feet of industrial development involving warehousing and office uses in the City of Fontana, County of San Bernardino, California.

In Spring 2014, a Draft Environmental Impact Report (EIR) was circulated for a 45-day public review. The Recirculated Draft EIR is revision to that previous Draft EIR. Pursuant to the CEQA Guidelines Section 15088.5(a), the City of Fontana, acting as a lead agency under the CEQA, has determined that a thorough response to the comments received during the public review period necessitated the inclusion of new information, and would thereby require recirculation of the entire Draft EIR.

Project Description: Notice of Availability of a Draft Environmental Impact Report (EIR).

City Ventures is proposing development of for-sale homes, on either of two potential development sites in the City of La Habra Civic Center area, County of Los Angeles, California, and the City of La Habra is proposing to relocate City Hall.

Development Option 1 would entail development of approximately 110 new, for-sale homes on approximately 5.5 acres within and adjacent to the City of La Habra Civic Center. Approximately 3.8 acres are occupied by City Hall, the Art Gallery, the Post Office and adjacent parking, driveways and landscape areas and 1.7 acres are occupied by the Crossroads Community Church and associated parking, yards and landscape areas; demolition of some of these buildings will require relocation in La Habra.

Approximately 101 townhomes (3-story, 2-3 bedrooms) and approximately 9 detached, single-family homes (2-story, 3 bedrooms) would be constructed on the development site. Approximately 274 parking spaces would be on-site, including 220 spaces within two car garages and 54 open spaces along the interior streets.

Development Option 2 entails development of approximately 48 new, for-sale homes on the site of an existing 2-story commercial office building and a former bank building (all will be demolished along with parking, landscape). Approximately 47 attached townhomes would be built within the 2.2 acre site. The townhomes would be Approximately 125 parking spaces would be provided, including 94 spaces within two car garages, 10 open spaces, and 21 spaces along the interior. The townhomes will be three-story structures with two or three bedrooms.

Both development options will include rooftop solar photovoltaic panels; parking may increase or decrease by up to 10% depending on design efforts; and the ratio of homes may change per design, or they may all be the same type.

Project Description: Notice of Preparation of Environmental Impact Report

Located in the downtown commercial area of the City of Baldwin Park, County of Los Angeles, California, the proposed project is a specific plan for approximately 115 acres in size that includes publicly and privately-owned properties, as well as public streets, and rights of way.

The proposed project is a City-initiated, Metro grant-funded planning project that would guide future TOD in the Specific Plan area. The proposed project would provide for a mix of residential, employment, retail, and public uses in the downtown area and would guide future development to create a transit-oriented environment that is proximate to the Metrolink Station and would improve access to various modes of transportation, including transit, walking, and bicycling.
