III. PEOPLE EXPERIENCING HOMELESSNESS

2019 city and county homelessness point-in-time counts processed by SCAG. IV. PEOPLE WITH DISABILITIES, INCLUDING DEVELOPMENTAL DISABILITIES

Disability by Type

American Community Survey 2014-2018 5-year estimates.

Disability data also provides valuable context for assessing current and future need for accessible housing units. Note that since some disability types are not recorded for children below a certain age, calculating disability as a percentage of total population may not be accurate.

Disability by Type - Seniors (65 and over)

American Community Survey 2014-2018 5-year estimates.

In Buena Park, the most commonly occurring disability amongst seniors 65 and older was an ambulatory disability, experienced by 22.6% of Buena Park's seniors (and 22.9% of seniors in the SCAG region).

Disability by Employment Status

Cost Burden by Income

Households by Share of Income Spent on Housing Cost:			
Income	< 30%	30-50%	> 50%
< 30% HAMFI	455	449	2,855
30-50% HAMFI	995	1,845	1,260
50-80% HAMFI	2,245	1,515	449
80-100% HAMFI	2,345	875	55
> 100% HAMFI	6,995	640	20
<i>Total Households</i>	<i>13,035</i>	<i>5,324</i>	<i>4,639</i>

HUD CHAS, 2012-2016. HAMFI refers to Housing Urban Development Area Median Family Income.

Housing cost burden is most commonly measured as the percentage of gross income spent on housing, with 30% a usual threshold for 'cost burden' and 50% the threshold for 'severe cost burden.' However, a lower-income household spending the same percent of income on housing as a higher-income household will likely experience more true 'cost burden.' These data indicate the number of households in Buena Park by their income relative to the surrounding area and their share of income spent on housing.

Spending on Rent

Across Buena Park's 10,209 renter households, 5,954 (58.3%) spend thirty percent or more of gross income on housing cost, compared to 55.3% in the SCAG region. Additionally, 3,001 renter households in Buena Park (29.4%) spend fifty percent or more of gross income on housing cost, compared to 28.9% in the SCAG region.

Spending on Rent by Income

American Community Survey 2014-2018 5-year estimates.

While the previous table breaks down cost burden by area-relative income, the ACS also allows for the analysis of Buena Park's 9,731 renter households (for which income data are available) by spending on rent by income bracket (dollar amounts). As one might expect, the general trend is that low-income households spend a higher share of income on housing (e.g. over 50%) while high-income households are more likely to spend under 20% of income on housing.

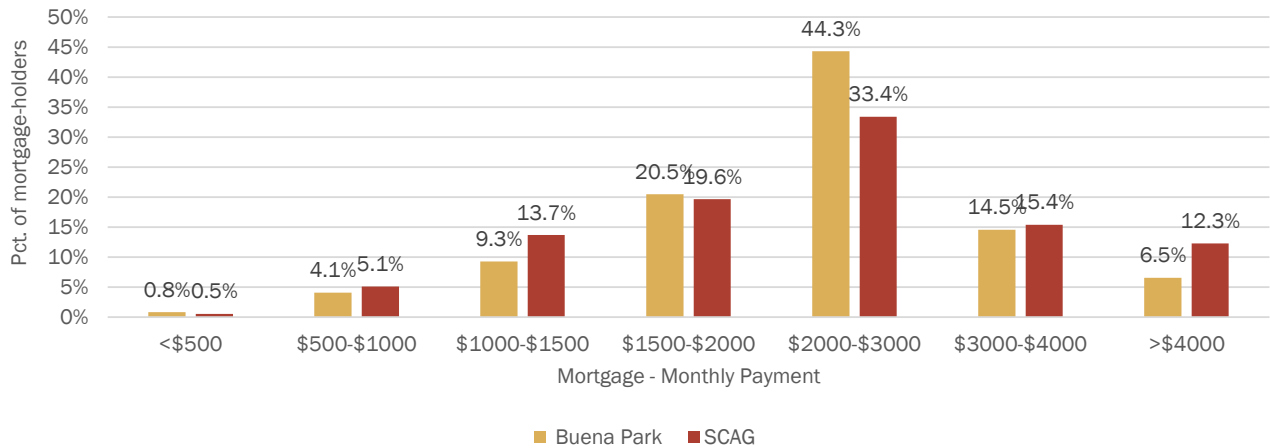

Household Income by (Cash) Rent

American Community Survey 2014-2018 5-year estimates.

Buena Park renter households' cash rent paid can be broken down by household incomes. As one might expect, the general trend is that lower-income households spend less on rent while higher-income households spend more on rent, though this may not be universally true. Rent categories range from <\$500/month (2.9% of Buena Park renters) to >\$2000/month (18.6% of Buena Park renters). The most common rent category in Buena Park is \$1500-2000/month with 38% of renters.

Monthly Owner Costs for Mortgage Holders

The most commonly occurring mortgage payment in Buena Park is \$2000-\$3000/month and the most commonly occurring mortgage payment in the SCAG region is \$2000-\$3000/mo.

Costs for Mortgage Holders by Income

Mortgage-holding households in Buena Park can be broken down by income and the percentage of income spent on mortgage costs. As one might expect, the general trend is that lower-income households spend a higher share of income on housing costs, while high-income households may spend a lower share of income on housing. The income category most prevalent amongst Buena Park mortgage-holding households is \$75,000 or more (6,835 households) and the most prevalent share of income spent on mortgage costs is over 30% (4,334 households).

Household Income by Home Value (for owned units)

The above table provides a breakdown of extremely low income households by race and ethnicity. The race/ethnicity with the highest share of extremely-low income households in Buena Park is Black, non-Hispanic (29.9% compared to 17.5% of total population). In the SCAG region, the highest share of extremely-low income households is Black, non-Hispanic (27.1% compared to 17.7% of total households).
