SPECIAL MEETING
Please see next page for detailed instructions on how to participate in the meeting.

PUBLIC ADVISORY
Given recent public health directives limiting public gatherings due to the threat of COVID-19 and in compliance with the Governor’s recent Executive Order N-29-20, the meeting will be held telephonically and electronically.

If members of the public wish to review the attachments or have any questions on any of the agenda items, please contact Peter Waggonner at (213) 630-1402 or via email at waggonner@scag.ca.gov. Agendas & Minutes are also available at: www.scag.ca.gov/committees.

SCAG, in accordance with the Americans with Disabilities Act (ADA), will accommodate persons who require a modification of accommodation in order to participate in this meeting. SCAG is also committed to helping people with limited proficiency in the English language access the agency’s essential public information and services. You can request such assistance by calling (213) 630-1402. We request at least 72 hours (three days) notice to provide reasonable accommodations and will make every effort to arrange for assistance as soon as possible.
Instructions for Public Comments

You may submit public comments in two (2) ways:

1. Submit written comments via email to: CEHDPublicComment@scag.ca.gov by 5pm on Wednesday, November 4, 2020.

   All written comments received after 5pm on Wednesday, November 4, 2020 will be announced and included as part of the official record of the meeting.

2. If participating via Zoom or phone, during the Public Comment Period, use the “raise hand” function on your computer or *9 by phone and wait for SCAG staff to announce your name/phone number. SCAG staff will unmute your line when it is your turn to speak. Limit oral comments to 3 minutes, or as otherwise directed by the presiding officer.

   If unable to connect by Zoom or phone and you wish to make a comment, you may submit written comments via email to: CEHDPublicComment@scag.ca.gov.

In accordance with SCAG’s Regional Council Policy, Article VI, Section H and California Government Code Section 54957.9, if a SCAG meeting is “willfully interrupted” and the “orderly conduct of the meeting” becomes unfeasible, the presiding officer or the Chair of the legislative body may order the removal of the individuals who are disrupting the meeting.
Instructions for Participating in the Meeting

SCAG is providing multiple options to view or participate in the meeting:

To Participate and Provide Verbal Comments on Your Computer
1. Click the following link: https://scag.zoom.us/j/116153109
2. If Zoom is not already installed on your computer, click “Download & Run Zoom” on the launch page and press “Run” when prompted by your browser. If Zoom has previously been installed on your computer, please allow a few moments for the application to launch automatically.
3. Select “Join Audio via Computer.”
4. The virtual conference room will open. If you receive a message reading, “Please wait for the host to start this meeting,” simply remain in the room until the meeting begins.
5. During the Public Comment Period, use the “raise hand” function located in the participants’ window and wait for SCAG staff to announce your name. SCAG staff will unmute your line when it is your turn to speak. Limit oral comments to 3 minutes, or as otherwise directed by the presiding officer.

To Listen and Provide Verbal Comments by Phone
1. Call (669) 900-6833 to access the conference room. Given high call volumes recently experienced by Zoom, please continue dialing until you connect successfully.
2. Enter the Meeting ID: 116 153 109, followed by #.
3. Indicate that you are a participant by pressing # to continue.
4. You will hear audio of the meeting in progress. Remain on the line if the meeting has not yet started.
5. During the Public Comment Period, press *9 to add yourself to the queue and wait for SCAG staff to announce your name/phone number. SCAG staff will unmute your line when it is your turn to speak. Limit oral comments to 3 minutes, or as otherwise directed by the presiding officer.

   Rolling Hills Estates, SBCCOG
The Community, Economic and Human Development Committee may consider and act upon any of the items on the agenda regardless of whether they are listed as Information or Action items.

CALL TO ORDER AND PLEDGE OF ALLEGIANCE
(The Honorable Jorge Marquez, Chair)

PUBLIC COMMENT PERIOD
Members of the public are encouraged to submit written comments by sending an email to: CEHDPublicComment@scag.ca.gov by 5pm on Wednesday, November 4, 2020. Such comments will be transmitted to members of the legislative body and posted on SCAG’s website prior to the meeting. Written comments received after 5pm on Wednesday, November 4, 2020 will be announced and included as part of the official record of the meeting. Members of the public wishing to verbally address the Community, Economic and Human Development Committee will be allowed up to 3 minutes to speak, with the presiding officer retaining discretion to adjust time limits as necessary to ensure efficient and orderly conduct of the meeting. The presiding officer has the discretion to reduce the time limit based upon the number of comments received and may limit the total time for all public comments to twenty (20) minutes.

REVIEW AND PRIORITIZE AGENDA ITEMS

**CALL TO ORDER AND PLEDGE OF ALLEGIANCE**

The Honorable Jorge Marquez, called the meeting to order at 10:02 a.m. and asked Councilmember James Mulvihill, San Bernardino, to lead in the Pledge of Allegiance.

**PUBLIC COMMENT PERIOD**

Chair Marquez opened the public comment period and reminded the public to submit comments via email to CEHDPublicComment@scag.ca.gov.
There were no public comments made. Chair Marquez closed the public comment period.

**REVIEW AND PRIORITIZE AGENDA ITEMS**

There were no reprioritizations made.

**CONSENT CALENDAR**

**Approval Item**

1. Minutes of the September 3, 2020 Meeting

**Receive and File**

2. Selections from Broadband Opportunity Review Project

A MOTION was made (Finlay) to approve the Consent Calendar. Motion was SECONDED (Jahn) and passed by the following roll call votes:

**AYES:**  BEAMAN JACINTO, BOYLES, BUCKNUM, DE RUSE, FINLAY, GOODLAND, HENDERSON, HODGE, HOLMGREN, HUANG, HUPP, JAHN, JOE, KELLY, LEANO, MARQUEZ, MARSHALL, MEISTER, MIRISCH, MULVIHILL, NGUYEN, O’NEIL, PAGET, PREDMORE, PYE, RICHARDSON, RODRIGUEZ, SANTA INES, SHAPIRO, SHEVLIN, WARONEK, WARREN, WU, YOKOYAMA AND ZERUNYAN (35).

**NOES:**  (0).

**ABSTAIN:**  (0).

**INFORMATION ITEMS**

3. **Future of the Office After COVID-19**

Chair, Jorge Marquez, introduced Amber Schiada, Sr. Director, Research & Insight, JLL, who provided a PowerPoint presentation highlighting the future of the office, including a discussion of the drivers of demand for office space, and the potential long-term impacts from the COVID-19 pandemic.

Ms. Schiada’s presentation focused on expert insights including the following trends:
• Economic overview, labor market and homebuying trajectory
• Mobility and talent movement trends
• US office re-entry timelines, the future of remote work and path forward
• Structural and cyclical shifts, its impacts on future office demand and space re-design
• Employee sentiment on remote work and its potential risk to company culture and collaboration
• E-commerce sales in response to COVID-19

Ms. Schiada responded on the comments and questions from the Committee, including questions pertaining to the current trends and potential for opportunity growth in slower growth economies in order to revitalize economic equality; the data on the demand for single family homes; and confirmation of the data on the regional telecommunication trend pre- and post-COVID-19.

Chair Marquez thanked Ms. Schiada for her excellent presentation and noted that he would request staff to follow up with Ms. Schiada for a presentation specific to the data for Southern California.

The complete report with the PowerPoint presentation was included in the agenda packet.

4. Updates on Regional Data Platform (RDP)

Tom Vo, SCAG staff, provided a brief overview and update of the RDP. Mr. Vo’s presentation focused on the goals of the RDP to facilitate better planning among all local jurisdictions and other partner agencies. The RDP also provides long range planning tools and best practices aimed at supporting General Plan updates while streamlining the process for bi-directional data sharing with SCAG. Mr. Vo highlighted RDP’s benefits, key deliverables, and agency onboarding timelines.

The complete report with the PowerPoint presentation was included in the agenda packet.

CHAIR’S REPORT

There was no Chair’s report given.

STAFF REPORT

There was no staff report given.

FUTURE AGENDA ITEMS

There were no future agenda items requested.
**ADJOURNMENT**

There being no further business, Chair Marquez adjourned the CEHD Committee meeting at 11:15 a.m.

Respectfully submitted by:

Carmen Summers  
Community, Economic and Human Development Committee Clerk

RECOMMENDED ACTION FOR CEHD AND RC:
Receive and File

STRATEGIC PLAN:
This item supports the following Strategic Plan Goal 1: Produce innovative solutions that improve the quality of life for Southern Californians.

EXECUTIVE SUMMARY:
Despite much progress over the past decades, our region still faces significant air quality challenges with serious implications for funding and implementation of important transportation projects. Dr. Philip Fine, Deputy Executive Officer at the South Coast Air Quality Management District (SCAQMD), will provide a presentation on the recent and upcoming air quality planning efforts for the South Coast Air Basin (Basin) and Coachella Valley. Two draft air quality plans have been prepared to address the 2006 24-hour PM2.5 standard in the Basin and the 1997 8-hour ozone standard in the Coachella Valley. Both plans show attainment of these standards by 2023 based on continued implementation of existing regulations. The 2022 Air Quality Management Plan (AQMP) is also being prepared to address the attainment of the 2015 8-hour ozone standard in the Basin and the Coachella Valley by attainment deadlines of 2038 and 2033, respectively. Attainment of the 1997 8-hour ozone standard in the Basin by June 2024 attainment deadline continues to be very challenging because of the lack of federal actions to regulate federal sources and lack of adequate incentive funding.

BACKGROUND:
Pursuant to federal and state laws, the South Coast Air Quality Management District (SCAQMD) is
developing several air quality plans for the South Coast Air Basin (Basin) and Coachella Valley including the 2022 Air Quality Management Plan (AQMP).

As required by California Health and Safety Code, SCAG is responsible for providing socio-economic growth forecast and travel activity projection data to SCAQMD for the development of the 2022 AQMP. SCAG is also required to prepare a portion of the AQMP, commonly known as the Appendix IV-C Regional Transportation Plan/Sustainable Communities Strategy and Transportation Control Measures.

The 2022 AQMP will include an important component relative to regional transportation planning and federal transportation conformity requirements, the motor vehicle emissions budgets, which set an upper limit which on-road transportation activities are permitted to emit. The new emission budgets established as part of the 2022 AQMP process and approved in the final plan will become the functioning emission budgets for transportation conformity for future Regional Transportation Plan/Sustainable Communities Strategy (RTP/SCS) and Federal Improvement Program (FTIP) and their amendments post the effectiveness date of the new emission budgets.

SCAG staff has been providing SCAQMD with the socio-economic growth forecast and travel activity projection data from the adopted Connect SoCal. Staff will also prepare our portion of the 2022 AQMP based on the Connect SoCal.

As presented in the Connect SoCal, it is a significant challenge to meet various federal health-based air quality standards in the SCAG region with potentially serious consequences. A particularly pressing challenge is for the South Coast Air Basin to meet the 2024 statutory deadline of attaining the 1997 ozone standard. An air quality plan has been prepared and recently submitted to U.S. Environmental Protection Agency (EPA) to specifically address the attainment challenge. However, if the U.S. EPA disapproves the air plan, a federal sanctions clock will be triggered which will lead to federal highway sanctions if the underlying deficiency cannot be resolved within 24 months. Highway sanctions restrict federal funding to transportation projects that expand highway capacity, nonexempt project development activities and any other projects that do not explicitly meet exemption criteria. If imposed, highway sanctions have the potential to impact billions of dollars of federal funding and tens of billions of dollars of important transportation projects in the SCAG region.

It is important to note that additional air quality plans are also being developed by the other four local air districts within the SCAG region in collaboration with the California Air Resources Board (ARB). Staff has been closely participating in and monitoring the various air quality planning efforts throughout the SCAG region and will report on any significant issues to EEC as appropriate.
FISCAL IMPACT:
Work associated with this item is included in the current FY20-21 Overall Work Program (21-025.0164.01: Air Quality Planning and Conformity).

</table>

- Missed deadline due to two sites still exceeding the standard
  - Mira Loma very close to the standard – 50/50 chance of attaining this year
  - Compton design value high due to 3 unexplained high days in 2017 – very likely will attain this year
  - Exceptional event demonstrations (wildfires) will be critical
  - New Plan due to EPA this year
Overall Progress Towards Attainment

![Graph showing progress towards attainment with bars and trend lines.]

* Likely exceptional events are removed  ^ Preliminary 2020 Jan-Jun Data

Attainment Demonstration

- **Compton** – Supplemental weight of evidence and air quality trend analysis based on monitoring data
  - Traditional attainment demonstration using chemical transport modeling is not appropriate
    - High PM episodes observed in 2017 were likely driven by anomalous human activities which are not reflected in the emissions inventory
    - If local emissions causing non-attainment are unknown, difficult to develop an effective control strategy
    - Traditional control strategy for Compton would require unrealistic levels of emissions regional reductions and may not be effective
  - Compton will very likely be in attainment before U.S. EPA considers plan
- **Mira Loma** – Traditional Approach - Updated emissions inventory/regional air quality modeling
  - Modeling analysis indicates attainment by 2023 with baseline emissions (existing regulations) with recently adopted regulations providing further assurances
Ozone National Ambient Air Quality Standards – Coachella Valley

Ozone Trend in Coachella Valley (design value)

- **1979 1-Hr O₃ Standard (125 ppb)**
- **1997 8-Hr O₃ Standard (85 ppb)**
- **2015 8-Hr O₃ Standard (70 ppb)**
Air Quality Setting

- Ozone exceedances in Coachella Valley are primarily due to the direct transport of ozone and its precursors from the South Coast Air Basin

Pathway to Attainment

- Attainment by 2023 is expected to be achieved based on baseline emissions
  - Adopted rules and regulations provide continued emission reductions in future years
  - Recently adopted rules and regulations since 2016 AQMP as well as continued implementation of 2016 AQMP measures provide further assurance for 2023 attainment
  - Based on preliminary modeling, attainment may be earlier (2022), but 2023 is retained as attainment year given uncertainties in meteorology, emissions inventory and modeling approach
2022 Air Quality Management Plan

2022 AQMP

Overall Control Strategy for Attaining 2015 8-hour Ozone Standard

- Extensive transition to near-zero (NZE) and zero-emissions (ZE) technologies in mobile and stationary sources, where feasible
- Transition to cleanest available technologies if NZE/ZE not feasible
- Regulatory measures; Incentive programs
- Eliminate/minimize reliance on 182(e)(5) measures
- Seek legislative authority where applicable
- Seek new sources of funding for new/existing incentive programs
- Work closely with state and local governments to maximize reductions from residential and commercial buildings
2022 AQMP Control Measure Development

- Initiating three working groups
  - Mobile Source – On Road
  - Mobile Source – Off Road
  - Residential and Commercial Buildings
- Bimonthly meetings (more frequent meetings as needed)
- November 2020 to October 2021 (expected)
- Open to all

2022 AQMP Overall Schedule

- **2020 Spring**
  - Initiate emissions inventory and modeling preparation

- **2020-2021**
  - Control Strategy Development/Woriking Groups

- **2021 Fall**
  - Release Draft AQMP / Regional Workshops

- **2022 Spring**
  - Release Draft Final AQMP

- **Due to EPA August 3 2022**

- **2020**
  - Initiate Advisory Group Meetings
    - AQMP
    - STMPR

- 2021
  - Control Strategy Symposium

- **2021 Winter**
  - Release Revised Draft AQMP / Regional Hearings

- **2021 Summer**
  - South Coast AQMD and CARB Public Hearings (June/July)

- **2022 Summer**

Progress in Overall NOx Reductions Since 1997

CAA Section 182(e)(5) for Extreme Non-Attainment Areas

- Allows for reliance on emission reductions from anticipated new technologies or improvement of existing technologies
- EPA approved Further Deployment measures in the 2016 AQMP under section 182(e)(5) – 108 tpd
- Contingency measures required 3 years prior to implementation of plan provisions (i.e., 2023 attainment date)
  - Provide full reductions assigned to 182(e)(5) measures
### Contribution of Federal Sources (2023 NOx emissions)

*Includes international sources under the responsibility of federal government*

*Submitted to the U.S. EPA in December 2019*
Additional Incentive Funding

- 2016 AQMP
  - Estimated need over $1 billion per year over 14 years
  - Current effort will update this estimate based on latest information
- Expected Future Funding (approximately $800 M over 4 years)
  - AB 617-Related Incentives – $80-90 M/yr.
  - Carl Moyer - $40-50 M/yr.
  - Prop 1B - $30 M
  - VW Settlement - $67 M
  - AB2766 Subvention Fund - $22 M/yr.
  - Mobile Source Air Pollution Reduction Review Committee - $17 M/yr.
- Additional Funding Needed
  - Voting District Authorization Legislation - $1.4 B/yr.
  - Other Mechanisms - TBD
  - Expected 2023 NOx Reductions: 15 tons per day

Potential Federal Measures

</tbody>
</table>
2023 Attainment Challenge

- Attainment of the 1997 8-hour ozone standard continues to represent a major challenge for the region
  - Regulations/programs adopted since 2016 AQMP fall significantly short of needed reductions
- South Coast AQMD is doing all we can to reduce emissions with current funding and authority
- Significantly more incentive funding is needed to accelerate turnover of existing fleet to cleaner technologies
- Without federal action and/or funding to address federal sources, attainment is not likely

Additional Challenge

- 2020 has experienced some of the highest ozone levels in decades
- Extreme, unusual, early and late season heat waves, wildfire emissions, and COVID impacts are all important factors
- Emissions continue to decline
- Very complicated to assess, but ongoing research:
  - Research contract with UC Riverside to evaluate “Air Quality Modeling and Big Data analysis of Meteorological and Emissions Impact on Air Quality”
  - Changing climate scenarios, “Representative Concentration Pathway (RCP)”, as adopted in IPCC reports being evaluated
  - Evaluating biogenic VOC emissions from urbanized areas and year-to-year changes due to meteorological variations
  - On-going, in-house research in collaboration with academic institutes and research laboratories on the impact of COVID19 shelter-in-place order on Basin air quality
RECOMMENDED ACTION FOR CEHD:
Recommend that the Regional Council approve the Housing and Sustainable Development Guidelines and authorize staff to release the Call for Applications.

RECOMMENDED ACTION FOR RC:
Approve the Housing and Sustainable Development Guidelines and authorize staff to release the Call for Applications.

STRATEGIC PLAN:
This item supports the following Strategic Plan Goal 4: Provide innovative information and value-added services to enhance member agencies’ planning and operations and promote regional collaboration.

EXECUTIVE SUMMARY:
On September 3, 2020, the Regional Council approved the 2020/2021 Sustainable Communities Program (SCP) Guidelines, which will consist of multiple Calls for Applications. Staff requests the CEHD recommend that the Regional Council approve the Housing and Sustainable Development (HSD) Guidelines and authorize staff to release the second Fiscal Year (FY) 20/21 Call for Applications for HSD Project types. HSD project types prioritize planning efforts to increase housing production and advance Connect SoCal’s growth vision and policies.

Staff will promptly issue a Call for Applications for the HSD project types, subject to authorization by the Regional Council. HSD applications will be due to SCAG by 5 p.m. on January 15, 2021, and staff will conduct a workshop at least one month before this due date in order to answer questions and foster SCP program understanding. Approval of application rankings will be sought from the Regional Council in March 2021, and individual project initiation schedules will be developed promptly thereafter.
BACKGROUND:
For many years, SCAG has provided technical assistance and resources to local jurisdictions that support local planning, as well as implementation of the RTP/SCS. Innovative approaches to addressing and solving regional issues have been tested and implemented at local, sub-regional and regional levels. The Sustainable Communities Program (SCP), previously known as the Compass Blueprint and the Sustainability Planning Grant (SPG) program, supports the implementation of the region’s Sustainable Communities Strategy (SCS). In total since its inception, the program has awarded 319 projects and more than $43 million across the region. The 2016 SPG and 2018 SCP projects are still underway. All of these projects demonstrate progress in advancing regional priorities and provide examples of integrated transportation, land use, and active transportation planning tailored to local needs that other cities can emulate.

The SCP is a multi-year funding program supported by federal, state, and local resources. The 2020/2021 SCP program has been updated from previous funding cycles to align with the recently adopted Connect SoCal and its associated implementation plan, Connect SoCal - Aligning Implementation with Pandemic Response Report (Agenda Item 21), which includes a series of pandemic recovery priorities to be considered in local technical assistance programs. In addition, the program aims to align with SCAG’s goal and commitment to meaningfully advance justice and equity per the July 2, 2020 resolution. These priorities are reflected in the following SCP program goals:

- Provide needed planning resources to local jurisdictions for active transportation and multimodal planning efforts, transportation safety, sustainability, land use, and planning for affordable housing;
- Promote, address and ensure health and equity in regional land use and transportation planning and to close the gap of racial injustice and better serve our communities of color;
- Encourage regional planning strategies to reduce motorized Vehicle Miles Traveled (VMT) and greenhouse gas (GHG) emissions, particularly in environmental justice communities with the highest need for air quality improvements;
- Develop local plans that support the implementation of key strategies and goals outlined in Connect SoCal and the Sustainable Communities Strategy;
- Develop resources that support the Key Connections as outlined in Connect SoCal, including Shared Mobility and Mobility as a Service, Smart Cities and Job Centers, Accelerated Electrification, Go Zones, and Housing Supportive Infrastructure;
- Support a resilient region that looks to climate adaptation and public health preparedness as key strategies to address community prosperity, safety and economic recovery and sustainability; and
- Increase the region’s competitiveness for federal and state funds, including, but not limited to the California Active Transportation Program and Greenhouse Gas Reduction Funds.
The SCP also seeks to advance Connect SoCal’s “Core Vision,” which centers maintaining and better managing Southern California’s transportation network for moving people and goods, while expanding mobility choices by locating housing, jobs and transit closer together and increasing investment in transit and complete streets. The Core Vision includes policies and investments that support sustainable development; system preservation and resilience; demand management strategies and intelligent transportation systems; a regional transit backbone; complete streets; and goods movement.

The Program supports projects in multiple funding categories, including: Active Transportation & Safety; Housing and Sustainable Development; Smart Cities, Mobility Innovation, and Transportation Demand Management, and Green Region. Each project category is to include additional goals.

The HSD Call for Applications has the following specific goals:

- To encourage development and preservation of diverse housing types in areas that are supported by multiple transportation options;
- To create dynamic, connected, built environments that support multimodal mobility, reduce reliance on single-occupant vehicles, and reduce VMT;
- To reduce greenhouse gas emissions and improve air quality;
- To support healthy and equitable communities;
- To complement and increase competitiveness for state funding programs, including by increasing the number of cities with “pro-housing local policies” focusing on location efficient development and access to opportunity to receive preference in designated state programs;
- To employ strategies to mitigate negative community impacts associated with gentrification and displacement and achieve equitable outcomes.

Staff has sharpened the program focus to include in three (3) specific HSD project types, each to have a unique application. These program modifications aim to maximize resources toward meeting GHG reduction targets and expedite the procurement process. HSD project types are outlined below and are designed to complement the resources available through the Regional Early Action Program (REAP)/Local Early Action Program (LEAP).

**Housing and Sustainable Development Project Types:**

1. **Advancing Accessory Dwelling Unit (ADU) Implementation:** The intent of this project type is to provide planning assistance to help jurisdictions develop implementation policies and programs, including affordable rental ADU programs and ordinances, required for housing elements updated for consistency with State law.
2. **Housing Sustainability Districts, Workforce Housing Opportunity Zones, and Housing Supportive Tax Increment Financing Districts**: The intent of this project type is to provide planning assistance to help jurisdictions implement and adopt Housing Sustainability Districts, Workforce Housing Opportunity Zones, and Housing Supportive Tax Increment Financing Districts that support housing production.

3. **Objective Development Standards for Streamlined Housing, Prohousing Designation Program and Parking Innovation**: The intent of this project type is to provide planning assistance to help jurisdictions revise and adopt Objective Development Standards, implement prohousing policies and programs, revise and adopt housing supportive parking policies and programs.

Incorporated cities and unincorporated counties within the SCAG region are eligible to apply for HSD resources.

**Next Steps:**
Staff will present the HSD guidelines to the Community, Economic, and Human Development (CEHD) Committee at their November 5, 2020, meeting. The CEHD will be asked to recommend that the Regional Council approve the HSD Guidelines and authorize staff to release the second FY 20/21 Call for Applications for HSD Project types. Any significant comments from the CEHD will be reported to the Regional Council. Pending Regional Council approval, the anticipated schedule can be found below:

2020/21 Sustainable Communities Program (SCP)
Program Guidelines: Housing and Sustainable Development
Call for Applications

SCP Overview
The Southern California Association of Governments (SCAG) announces the Call for Applications for the 2020 Sustainable Communities Program (SCP) – Housing and Sustainable Development (HSD). Since 2005, SCAG’s various sustainability planning grant programs (Compass Blueprint, Sustainability Planning Grants, Sustainable Communities Program) have provided resources and direct technical assistance to jurisdictions to complete important local planning efforts and enable implementation of the Regional Transportation Plan and Sustainable Communities Strategy (RTP/SCS), which today is called Connect SoCal.

The SCP allows SCAG to strengthen partnerships with local agencies who are responsible for land use and transportation decisions. Projects selected will allow local agencies to facilitate coordination and integration of transportation planning with active transportation, housing production, safety, smart cities, mobility innovation, transportation demand management, green region initiatives and sustainability. The SCP also serves as the primary funding vehicle where SCAG partners with local agencies to implement the goals, objectives and strategies of Connect SoCal and achieve an integrated regional development pattern that reduces greenhouse gas (GHG) emissions. Applicants are encouraged to review strategies promoted in Connect SoCal to align project applications with regional planning priorities and concepts.

The SCP provides local jurisdictions with multiple opportunities to seek funding and resources to meet the needs of their communities, address recovery and resiliency strategies considering COVID-19, and support regional goals. SCAG will release Calls for Applications throughout Fiscal Year ’21 to select projects within different program areas and funding categories. SCAG may bundle similar projects together in a common contract.

SCP Goals
The SCP aims to:

- Provide needed planning resources to local jurisdictions for active transportation and multimodal planning efforts, sustainability, land use, and planning for affordable housing;
- Promote, address and ensure health and equity in regional land use and transportation planning and to close the gap of racial injustice and better serve our communities of color;
- Encourage regional planning strategies to reduce motorized Vehicle Miles Traveled (VMT) and greenhouse gas (GHG) emissions, particularly in environmental justice communities where there is the highest need for air quality improvements;
- Develop local plans that support the implementation of key strategies and goals outlined in Connect SoCal and the Sustainable Communities Strategy;
- Develop resources that support the Key Connections as outlined in Connect SoCal, including Shared Mobility and Mobility as a Service, Smart Cities and Job Centers, Accelerated Electrification, Go Zones, and Housing Supportive Infrastructure;
- Support a resilient region that looks to climate adaptation and public health preparedness as key strategies to address community prosperity, safety and economic recovery and sustainability;
Increase the region’s competitiveness for federal and state funds, including, but not limited to the California Active Transportation Program and Greenhouse Gas Reduction Funds.

Moreover, the SCP seeks to advance Connect SoCal’s “Core Vision,” which prioritizes maintaining and better managing Southern California’s transportation network for moving people and goods, while expanding mobility choices by locating housing, jobs and transit closer together and increasing investment in transit and complete streets. The Core Vision includes policies and investments that support sustainable development; system preservation and resilience; demand management strategies and intelligent transportation systems; a regional transit backbone; complete streets; and goods movement.

On July 2, 2020, the SCAG Regional Council adopted a resolution reaffirming the agency’s commitment to working toward a fair and just society and toward systemic change to eliminate all barriers that reduce opportunity and undermine Southern California’s shared values and ability to thrive. SCAG affirmed its commitment to meaningfully advance justice and equity; and SCAG declared its intent to strengthen the way it engages and convenes to protect and expand community voice and power, and work in partnership with others to close the gap of racial injustice and better serve our communities of color, and in so doing, serve all the people of the region. The SCP aims to prioritize resources where there is a demonstrated need, guided by the Connect SoCal Goal, “to support healthy and equitable communities.” SCAG is committed to advancing equity through addressing systemic disparities in the SCAG region, and to center communities most impacted by economic, social, and environmental injustices towards the goal of creating healthy and equitable communities.

Housing and Sustainable Development (HSD) Guidelines

Housing and Sustainable Development (Overview)
The Sustainable Communities Program HSD Program will provide beneficial resources to cities and counties for housing production planning implementing the Regional Housing Need Allocation (RHNA) and to further implementation of the Sustainable Communities Strategy (SCS).

Housing Goals and Purpose
The Connect SoCal HSD Program aspires to increase and accelerate housing production for all household types at all income levels in Southern California. In addition, the program aims to integrate and align housing goals with the region’s adopted SCS.

Connect SoCal’s “Core Vision,” which is wholly integrated within the SCS, prioritizes maintaining and better managing the transportation network, while expanding mobility choices by locating housing, jobs and transit closer together.

All applicants are encouraged to review and align proposals with the recommended strategies, which can be found in the Sustainable Communities Strategy (SCS) Technical Report.

By directing resources toward projects that implement Connect SoCal, SCAG aims to achieve the following goals:

- To encourage development and preservation of diverse housing types in areas that are supported by multiple transportation options;
• To create dynamic, connected, built environments that support multimodal mobility, reduce reliance on single-occupant vehicles, and reduce VMT;
• To reduce greenhouse gas emissions and improve air quality;
• To support healthy and equitable communities;
• To complement and increase competitiveness for state funding programs, including by increasing the number of cities with “pro-housing local policies” focusing on location efficient development and access to opportunity to receive preference in designated state programs;
• To employ strategies to mitigate negative community impacts associated with gentrification and displacement and achieve equitable outcomes.

**Housing and Sustainable Development Project Types**
The HSD Call for Applications will prioritize planning projects which aspire to integrate and align Southern California’s housing production, preservation and protection opportunities with Connect SoCal - the region’s adopted SCS. Applicants are encouraged to review strategies included within Connect SoCal – specifically, the SCS Technical Report, to align project applications with regional planning priorities and concepts. The most competitive applications will advance multiple planning goals, prioritize practical context-based need, utilize innovative or creative planning practices, and result in planning products or programs that are clearly tied to accelerating housing production, community need and implementation, and can serve as “best practices” for jurisdictions in the region. Conducting collaborative public participation efforts to involve communities or entities representing diverse lower-income households is required.

Applications for planning resources may be submitted for one of three project types:

1. **Advancing Accessory Dwelling Unit (ADU) Implementation**
2. **Housing Sustainability Districts, Workforce Housing Opportunity Zones, and Housing Supportive Tax Increment Financing Districts**
3. **Objective Development Standards for Streamlined Housing, Prohousing Designation Program and Parking Innovation**

These project types are discussed in depth below. Required project components include (but are not limited to) how a planning project will result in the production of more housing, affordable housing, and streamlined entitlements; reduce GHG emissions and/or VMT; and benefit low-income and/or disadvantaged communities. Projects must have a strong nexus with the primary goals of increasing housing production, as well as advance one or more previously described program goals. Please quantify desired results and outcomes where possible.

*Note: SCAG encourages applicants to assess jurisdictional priorities and apply for only one project type, however jurisdictions are allowed to submit more than one application. SCAG staff is available to support applicants in determining the most appropriate category for their project(s).*
Scoring Rubric & Criteria

The overall application scoring rubric for each project type will be the same. Each application includes 3 main scoring criteria – 1) Project Need, 2) Scope of Work and Project Outcomes and 3) Partnerships and Community Engagement. Application questions vary by category within each topic area depending on the types of projects eligible. The potential points to be awarded for responses to each question also vary by category and project type and are noted in each application. Further clarification regarding how points are awarded are provided in the project application forms.

Funding

The HSD program will draw resources primarily from AB101 (2019) funding, specifically the Regional Early Action Planning (REAP) grant funds, per guidelines established by SCAG (September 2020) and the Notice of Funding Availability (NOFA) established by the California Department of Housing and Community Development (HCD) published on February 27, 2020. It is estimated that $15 million will be available for projects funded through SCAG’s multiple SCP funding opportunities, with selected HSD Program projects to receive a portion of this funding. Additional state and federal resources may be used to supplement specific projects depending on availability.

The Sustainable Communities Program will not provide direct grant funding to applicants for HSD assistance, but will instead provide a combination of consultant services, SCAG staff resources, and direct technical assistance to complete planning projects in close collaboration with cities and counties. SCAG will work with the awarded agency to complete necessary procurement and contracting. SCAG staff will serve as the administrative project manager, manage the contract and pay for all costs incurred. SCAG may bundle similar projects together in a common contract.

Period of Performance and Time Extensions

A project initiation schedule and expectations regarding period of performance will be determined within sixty days of project award announcements, and will be based on project complexity, funding source, and agency capacity. Once the project schedule has been established, extensions will be considered only under extraordinary circumstances, on a case-by-case basis. Extensions and scope changes must be requested in letter format. All requests must include an explanation of the issues and actions the agency or local jurisdiction has taken to correct the issues. All extensions will be contingent on funding availability and the program requirements of the funding source assigned. Program completion is based on statutory provisions and SCAG intends all selected projects to be completed in a timely manner and requires that applicants coordinate internal resources to ensure timely completion of the projects.

Schedule

The following schedule outlines important dates for the HSD Call for Applications.

<table>
<thead>
<tr>
<th>SCP-Housing and Sustainable Development Milestones</th>
<th>Date</th>
</tr>
</thead>
</table>
Call for Applications Opens | November 9, 2020
---|---
Application Workshop | December 2, 2020
Call for Applications Submission Deadline | January 15, 2021 (5:00 p.m.)
Regional Council Recommendation | March 4, 2021
Final Work and Invoices Submitted | June 30, 2023

**Contact Information**
Questions regarding the SCP application or application process should be directed to:

Hannah Brunelle
Associate Regional Planner
Telephone: 213-236-1907
Email: brunelle@scag.ca.gov

**Submittal Information**
Applications are due Friday, January 15, 2021 by 5:00 p.m. using the instructions provided in the application. Questions regarding submitting applications for each category should be emailed to the contact person listed above. Applications should include all supporting documents in a single PDF file. Applications should include all supporting documents in the online application. Applicants are not required to demonstrate that a governing body has taken official action in order to apply, but a supporting resolution from the governing body or a letter of intent in support of the project from the appropriate executive officer will be required prior to project initiation. Files should be labeled in the following format:

Phase Category_City Name_Application Category_Project Name

For example:

Housing_Plannersville_ADUPoliciesandOrdinances_CitywideADUOrdinance

**Regional Distribution**
Efforts will be made so that HSD projects are awarded in each county within the SCAG region.

**Eligible Applicants**
Incorporated cities and unincorporated counties within the SCAG region are eligible to apply for HSD resources

**Prioritizing Community Engagement Across Project Types**
Community engagement is essential in developing any HSD project. SCAG encourages each applicant to engage local communities and community-based organizations during the project, to help achieve equitable outcomes and affirmatively further fair housing (AFFH). Pursuant to [State law](https://www.ca.gov), AFFH means “taking meaningful actions, in addition to combatting discrimination, that overcome patterns of segregation and foster inclusive communities free from barriers that restrict access to opportunity based on protected characteristics.”
Project Type: Advancing Affordable Accessory Dwelling Units (ADU) Implementation

The intent of this project type is to provide planning assistance to help jurisdictions develop implementation policies and programs, focused on affordable rental ADU programs and ordinances, required for housing element programs updated for consistency with State law. The most competitive applications will advance multiple planning goals; prioritize practical context-based need; utilize innovative or creative planning practices; result in planning products or programs that are clearly tied to accelerating housing production, community need and implementation; and can serve as “best practices” for cities in the region.

ADUs have the potential to be an innovative, affordable, effective option for adding much-needed housing in California. HCD is the state’s recognized expert on local ADU ordinances, which have grown exponentially in number as more cities, counties, and homeowners become interested in ADUs as one solution to increasing the supply of affordable housing.

ADUs can be designed and supported as more affordable housing because they do not require paying for land, major new infrastructure, parking, or elevators. ADUs can provide a source of income for homeowners and can allow extended families to be near one another. ADUs can provide as much living space as many newly-built apartments and condominiums, and they are well suited for a variety of living situations. ADUs offer homeowners the flexibility to share independent living areas with household members and others and are an option to allow seniors to age in place.

Moreover, as jurisdictions prepare site inventories for the 6th Housing Element Update Cycle, site capacity must be designated for residential development, including ADUs, to meet Regional Housing NeedsAllocations (RHNA) for each designated income level. Many local governments have updated their ADU ordinances for consistency with recent amendments to State law, but still need programs to incentivize development of affordable ADUs.

SCAG has already conducted an analysis in order to provide local governments in the region with assumptions for ADU affordability that can be used to assign ADUs to income categories for the purpose of 6th Housing Element Update Cycle. Since HCD has determined SCAG’s Regional ADU Affordability Analysis meets statutory requirements, SCAG’s ADU project type may therefore be used to address additional housing element requirements such as ADU development trends, resources and incentives, and policies and programs. There is need for development of financing programs to support ADUs affordable to lower income households, described, for example in this University of California – Berkeley report. Applicants who wish to apply for this program are strongly encouraged to attend an application workshop and/or reach out to SCAG staff for more information.

### Project Type: Housing Sustainability Districts, Workforce Housing Opportunity Zones, and Housing Supportive Tax Increment Financing Districts

The intent of this project type is to provide planning assistance to help jurisdictions implement and adopt Housing Sustainability Districts, Workforce Housing Opportunity Zones, and Housing Supportive Tax Increment Financing Districts that support housing production. The most competitive applications will advance multiple planning goals; prioritize practical context-based need; utilize innovative or creative planning practices; planning products or districts that are clearly tied to accelerating housing production, community need and implementation; and can serve as “best practices” for cities in the region.

The [2017 Legislative Housing Package](#) provided a renewed focus on California’s housing crisis. The housing package offered an injection of new regulatory and financial resources, and with it, an opportunity to innovate in the way housing is delivered throughout the state of California. Examples of eligible plans include but are not limited to the following:

**Housing Sustainability Districts (AB 73):** Planning assistance to help jurisdictions implement AB 73, through the use of incentives to local governments to create housing on infill sites near public transportation, including fair housing analysis, identifying potential areas for affordable housing, and developing equity-based housing policies and programs. Certain CEQA streamlining and ministerial approval options may also become available in a Housing Sustainability District.

**Workforce Housing Opportunity Zones (SB 540):** Planning assistance to help jurisdictions implement SB 540, through the use of streamlining the housing approval process by having cities identify Workforce Housing Opportunity Zones and completing up-front planning focused on employment and affordable housing in areas close to jobs, transit, and result in reduced VMT.
Housing Supportive Tax Increment Financing Districts: Planning assistance to help jurisdictions implement tax increment financing districts that will result in accelerating housing production, through the development of infrastructure improvements to support infill housing and transit-oriented mixed-use development, such as:

**Enhanced Infrastructure Financing Districts (EIFDs)** ([SB 628](https://leginfo.legislature.ca.gov/faces/billText.xhtml?billId=202021bh0628an)). EIFDs are authorized to utilize tax increment financing to fund infrastructure improvements, maintenance, and related projects. EIFDs do not increase property taxes. Jurisdictions designate a district for investment through a public financing authority. There is no mandatory affordable housing set-aside for this type of tax increment financing district.

**Community Revitalization and Investment Authorities (CRIAs)** ([AB 2](https://leginfo.legislature.ca.gov/faces/billText.xhtml?billId=201920ah0002as)). CRIAs are funded through tax increment financing and increase funding for and production of affordable housing in disadvantaged communities. To qualify, a city/county must meet the criteria for disadvantaged communities or meet other socioeconomic conditions. CRIAs have an affordable housing set aside of 25%.

**Neighborhood Infill Finance and Transit Improvements (NIFTIs)** ([AB 1568](https://leginfo.legislature.ca.gov/faces/billText.xhtml?billId=201819ah1568an)). The NIFTI Act permits cities/counties to allow EIFDs to funnel sales and use tax revenues toward affordable housing and supportive transit infrastructure projects. The law outlines the requirements for the ordinance that must be established to create a NIFTI. NIFTIs have a 20% affordable housing requirement.

**Affordable Housing Authorities (AHAs)** ([AB 1598](https://leginfo.legislature.ca.gov/faces/billText.xhtml?billId=201920ah1598as)). As public financing entities, AHAs use property or sales tax increment to provide bonds for affordable housing and workforce housing production. AHAs are funded by an affordable housing fund that is funded by property tax increment revenues. AHAs have a 95% affordable housing requirement.

**Infrastructure and Financing Revitalization Districts (IFRDs)** ([AB 229](https://leginfo.legislature.ca.gov/faces/billText.xhtml?billId=202021ah0229as)). IFRDs finance housing development and other development projects of communitywide significance in current and former redevelopment project areas using funds from the Redevelopment Property Tax Trust Fund. Districts that develop housing are required to set aside a minimum of 20% affordable housing.

Applicants who wish to apply for this program are strongly encouraged to attend an Application Workshop and/or reach out to SCAG staff for more information.

Project Type: Objective Development Standards for Streamlined Housing, Prohousing Designation Program and Parking Innovation

The intent of this project type is to provide planning assistance to help jurisdictions revise and adopt Objective Development Standards, implement prohousing policies and programs, revise and adopt housing supportive parking policies and programs. The most competitive applications will advance multiple planning goals; prioritize practical context-based need; utilize innovative or creative planning practices; result in planning products, policies or programs that are clearly tied to accelerating housing production, community need and implementation; and can serve as “best practices” for cities in the region.

Speeding up approvals and permit processing, including instituting programs that streamline or consolidate the review process, can expedite the production of housing in a community, and can incentivize infill development and affordable housing. Moreover, reducing parking, implementing parking pricing programs, and other parking innovations can also significantly reduce the cost of producing new housing.

Developing Objective Development Standards or pre-approved site and architectural plans can facilitate non-discretionary permitting and streamline the housing approval process. In 2017, SB 35 provided for a streamlined, ministerial approval process for multi-unit residential development in localities that have not met their RHNA targets for any given year. These standards involve “no personal or subjective judgement by any local official and are uniformly verifiable by reference to an external and uniform benchmark, or criterion available and knowable by both the development applicant or proponent and the public official.” Objective development standards can facilitate compliance with the Housing Accountability Act; see HCD Memorandum: Housing Accountability Act Technical Assistance Advisory (PDF) (AB 678, AB 1515, AB 3194, SB 330).

To facilitate process streamlining, HCD is implementing a new Prohousing Program to incentivize cities to reduce housing costs by speeding up the process of housing entitlements. HCD has a living document that provides insight on best practices that support Prohousing communities [HCD’s pending Prohousing Guidelines should be available prior to the deadline for completing applications].

Eligible proposals include but are not limited to the following:

Streamlining permit processing. Planning assistance to help jurisdictions implement streamlining the housing approval process by having cities revise and adopt ordinances, policies, fee reductions and programs that focus on accelerating housing production.

Prohousing Designation. Planning assistance to help jurisdictions attain an HCD Prohousing designation, by implementing streamlined & objective development standards, and/or reducing
development impact fees, to reduce housing costs for infill development and by encouraging by-right housing.

**Parking Innovation.** Planning assistance to help jurisdictions implement innovative parking strategies such as reducing or eliminating parking minimums, implementing parking pricing programs, and other parking policies that significantly reduce the cost of producing new housing.

Applicants who wish to apply for this program are strongly encouraged to attend an Application Workshop and/or reach out to SCAG staff for more information.

**Match Requirements**
There are no local match requirements for HSD planning projects.

**Application Process**
Eligible applicants are encouraged to apply to the SCP by completing an application specific to one of the three Project Types described above that prioritizes jurisdictional goals. While one application is recommended, jurisdictions may submit multiple project applications. Please contact SCAG staff if support is needed in identifying the proper application category. An application workshop will be scheduled on December 2, 2020 to address any questions related to the application process. For more information and details on the workshop, please see the [SCAG SCP website](#). Applicants must complete and submit their application by 5:00 p.m. on January 15, 2021.

**Evaluation Process**
An evaluation team specific towards each project type will review the applications. Each evaluation team will be made up of internal and external representatives, related to the specific categories.
Recommendations will be made to the Regional Council in March 2021. Following project award announcements, unsuccessful applicants are encouraged to talk with SCAG staff to obtain feedback on opportunities to improve their applications for future program cycles.

RECOMMENDED ACTION FOR CEHD:
Information Only - No Action Required

STRATEGIC PLAN:
This item supports the following Strategic Plan Goal 1: Produce innovative solutions that improve the quality of life for Southern Californians. 2: Advance Southern California’s policy interests and planning priorities through regional, statewide, and national engagement and advocacy. 4: Provide innovative information and value-added services to enhance member agencies’ planning and operations and promote regional collaboration. 6: Deploy strategic communications to further agency priorities and foster public understanding of long-range regional planning.

EXECUTIVE SUMMARY:
On May 1, 2014, the General Assembly adopted a resolution in support of endorsing a regional effort to promote a pedestrian and bicycle safety initiative. To pursue this effort, SCAG launched Go Human, a Regional Active Transportation Safety and Encouragement Campaign, with funding from the Active Transportation Program. To extend campaign efforts, SCAG has secured Pedestrian/Bicycle Safety funds from the Office of Traffic Safety annually since 2016. On October 1, 2020, SCAG secured a grant in the amount of $1,000,000 to conduct a fourth round of Go Human safety programming and outreach across the region. With this funding, Go Human launched a regional safety advertising campaign, achieving 328 million impressions, and provided resources to jurisdictions across the region through co-branding and technical assistance, as well as mini grant opportunities to community-based organizations to implement street level safety strategies for people walking and biking.

BACKGROUND:
The SCAG region, like California and the nation, experienced a period of annual declines in traffic-related fatalities and serious injuries until 2012 when they began to steadily rise. Although the region has made some progress on safety, on average between 2012 and 2016, 1,500 people are killed, 5,200 are seriously injured, and 136,000 are injured in traffic collisions each year. About 73
percent of those killed between 2001 and 2016 were in vehicles or on motorcycles, while the remaining 27 percent were walking or bicycling (disproportionate to their mode share, 12 percent of all daily trips are walking or biking trips). The numbers of both pedestrians and motorcyclists killed are the highest they have been for more than a decade. These collisions are happening in every city across the region.

To heighten awareness of the region’s transportation safety challenges and opportunities, and to reduce collisions resulting in serious injuries or fatalities, SCAG launched the Go Human campaign in 2015. Go Human is an award-winning community outreach and advertising campaign with the goals of reducing traffic collisions and encouraging people to walk and bike more in the SCAG region. Go Human is a collaboration between SCAG and the County Transportation Commissions and Public Health Departments in the region. The campaign provides advertising and educational resources to partners and implements temporary safety demonstration projects to showcase innovative transportation designs and help cities re-envision their streets as safer, more accessible places for walking and biking.

The Go Human program has been funded annually through the California Office of Traffic Safety for the past four years. During the past grant period, ending September 30, 2020, with $1,000,000 in funding, Go Human implemented a variety of strategies to improve the safety of residents walking and biking across the region.

This item is being presented to inform SCAG Policy Committee Members of the highlights and outcomes of Go Human’s recent grant activities, including the regional advertising campaign, message co-branding with jurisdictions, the Resilient Streets program, and the Go Human’s Safety Mini Grant Program. This item also identifies the Go Human program’s role with pandemic recovery and resiliency, in support of economic development, through its adapted strategies with technical assistance and local funding opportunities.

Advertising Campaign

SCAG launched Go Human’s paid regional advertising campaign during the month of August 2020 with updated, stakeholder-tested messaging, in anticipation of the time of year with the highest rate of collisions due to reduced daylight hours. The media purchases targeted drivers with a “point of engagement” strategy, utilizing billboards, gas pump toppers, convenience store sheets, bus shelters, digital and social media ads, among others, with messaging reminding drivers to slow down and watch for pedestrians. The campaign flight achieved over 328 million impressions (each time someone views the advertisement). To date, Go Human has achieved over 1.3 billion impressions related to traffic safety messaging across the region. Additionally, SCAG completed an evaluation of the campaign effectiveness and found that over 80 percent of drivers found the ads motivating.
Co-Branding & Leveraging Strategies

To extend the reach of the paid advertising campaign, Go Human implemented a local co-branding strategy with partners. Go Human developed 17 partnerships, distributing over 2,900 materials. Campaign creative was utilized outside of the SCAG region, including in Placer County in support of their Active Transportation Program funded project, complementing infrastructure strategies with safety messaging. Other strategies leveraged the advertisement campaign to advance a message of safety. The SCAG Safety Pledge called on local governments to commit to improving safety by adopting a Vision Zero plan, hosting a pop-up safety demonstration, implementing a safety outreach campaign, among other actions. The Pledge was signed by 44 signatories representing 32 jurisdictions. The Go Human Safe Driver Pledge encouraged drivers to keep everyone on the road safe and was signed by 122 residents of the SCAG region. SCAG’s highly successful Go Human Twitter Chat further engaged stakeholders in virtual safety conversations, reaching over 80,000 unique viewers and building over 430,000 impressions.

Local Community Engagement and Safety Mini-Grant Program

In conjunction with the advertising campaign, Go Human launched the Local Community Engagement and Safety Mini-Grants (Mini-Grants) program. Developed as funding program to improve safety for people walking and biking, the program expanded the concept of traffic safety in response to the pandemic and efforts to reduce the transmission. Go Human awarded more than $210,000 in funding to 28 projects across the region. Awarded projects spanned a wide range of creative engagement activities that prioritized the mobility and transportation needs of those most impacted by COVID-19. Projects included storytelling radio series focusing on transit, virtual workshops for youth, free bike match and repair for essential workers and families, and co-creation of community resilience and safety resources, among many other creative and impactful projects. Mini-Grant awardee efforts reached an additional 76,500 people to support safety and street level resiliency planning.

Kit of Parts and Resilient Streets

Go Human’s Kit of Parts is an engagement tool for jurisdictions to temporarily demonstrate safety infrastructure. Designed with modular elements, the Kit, through a no-cost loaner program, supports planning efforts by showcasing potential and planned street design treatments that support public space, improve equity, and enhance community resiliency. Inclusive of five different design treatments (protected bike lanes, parklets, crosswalks, pedestrian refuge islands and bulb-outs), as well as signage and evaluation tools, the Kit was deployed 16 times throughout the past 12 months (prior to the onset of the pandemic). As a result of the growing demand, Go Human
designed and developed two additional Kits, to be housed in four different Counties in the following grant year, managed by community-based partners.

As a response to the impacts of the pandemic, SCAG launched its Resilient Streets Technical Assistance program in recognition of emerging needs and practices. Across the country, jurisdictions and community stakeholders have repurposed street space for aid distribution, resource delivery, and temporary infrastructure for bus rapid transit (BRT), among other purposes. Resilient Streets utilize street space for community resiliency, recovery, and resource delivery that prioritizes disadvantaged and vulnerable communities.

To provide technical assistance to jurisdictions, SCAG hosted a Resilient Streets webinar series that reached a total of 129 practitioners and community members. SCAG has also developed a robust Resilient Streets Toolkit that functions as an integrated programmatic component of the Kit of Parts. The Toolkit demonstrates ways of adapting components of the Kit of Parts to support resilient street projects and identifies case studies, funding sources, and other practical considerations for planning and implementation.

**FISCAL IMPACT:**
All costs associated with this item are included in the FY 2020-21 Overall Work Program (OWP) under project number 225-3564.13 and funded by a Pedestrian and Bicycle Safety Program Grant from the California Office of Traffic Safety.

Agenda

- Go Human Overview
- Regional Safety Advertising Campaign Overview
- Co-Branding and Leveraging Strategies
- Local Community Engagement and Safety Mini-Grant Program
- Kit of Parts
- Resilient Streets Technical Assistance & Toolkit
Go Human: Active Transportation Safety & Encouragement Campaign

Regional Advertising Campaign & Co-Branding
Temporary Safety Demonstrations & Programming
Safety Workshops, Webinars & Technical Assistance

Background & Framing

- SCAG launched Go Human in 2015 to reduce traffic collisions and encourage people to walk and bike more.
- Yearly averages for traffic collisions in the SCAG region between 2012 and 2016:
  - 1,500 fatalities
  - 5,200 serious injuries
  - 136,000 injuries
- Walking and biking comprises 12% of daily trips in the region yet 27% of all fatalities are people walking and biking.
- Go Human strategies support pandemic recovery and resiliency in support of economic development.
SCAG Resolution to Close the Gap of Racial Injustice

From Resolution No. 20-623-2:

“SCAG stands in solidarity with those working toward a fair and just society, and with those calling for systemic change to eliminate all barriers that reduce opportunity and undermine Southern California’s shared values and ability to thrive.”

Regional Advertising Campaign Overview

<table>
<thead>
<tr>
<th>Core message</th>
<th>Slow down driving and watch for people walking.</th>

Audience-Tested Messages

Baja la velocidad.
El vecindario no es una pista de carreras.

Gracias por bajar la velocidad, vecino.

It's not just a sign, watch for people at intersections.

Go Human Safe Driver Pledge

Thanks for slowing down, neighbor.

Go Human Safe Driver Pledge / Compromiso del conductor seguro de Go Human

SCAG’s Go Human campaign aims to reduce traffic collisions to improve safety in communities across Southern California. Commit to driving practices that create safe streets for vulnerable users, particularly those who walk and bike.

La campaña Go Human de la Asociación de Gobernadores del Sur de California (SCAG) tiene como objetivo reducir los accidentes de tráfico para mejorar la seguridad en las comunidades del sur de California. Comprométete a prácticas de manejo que generen calles seguras para los usuarios vulnerables, particularmente para aquellos que caminan o andan en bicicleta.

To help create a safer Southern California, I will:

- Slow down and drive the speed limit or less. Bajar la velocidad y manejar a la velocidad máxima permitida o una velocidad menor.
- Look for people walking or biking before turning. Estar atento a las personas que caminan o andan en bicicleta antes de dar la vuelta.
- Remember, every intersection is a crosswalk, even if unmarked. Recuerda, cada intersección es un paso peatonal, incluso si no está señalizado.
- Give people biking at least 3 feet when passing. Dar un paso de al menos 3 pies a las personas que andan en bicicleta al pasar a su lado.
- Stay alert and put the cell phone away. Estar alerta y guardar el celular.
- When parallel parked, look for people biking before opening the door. Estar atento a los ciclistas antes de abrir la puerta al estar estacionado en paralelo.

Please share with your friends, family, and neighborhood organizations. Together, we can.
Virtual Stickers for those that Pledge!

I pledge to drive safely.

Me comprometo a conducir con seguridad.

Local Community Engagement and Safety Mini-Grants

- Expanded the concept of traffic safety in response to the pandemic and efforts to reduce transmission.
- SCAG provided over $210,000 to 28 community-driven projects.
- Small, targeted investments led to big, ambitious projects, through partnerships between SCAG, community-based organizations, and elected official champions.

Material Produced by Mini-Grant Awardees
Kit of Parts

- No-cost loaner program includes materials that allow for 5 different street treatments that, when combined, create a temporary Complete Street demonstration on an otherwise typical street:
  1. Parklet
  2. Curb Extension
  3. Artistic Crosswalk
  4. Separated Bike Lane
  5. Median Refuge Island

- Deployed 16 times throughout the past 12 months (prior to the pandemic)
- Expanding Fall 2020 with the addition of 2 new, CBO-managed kits (from 2).

Resilient Streets Technical Assistance

- Resilient Streets is the use of street space for community resiliency, recovery, and resource delivery that prioritizes disadvantaged and vulnerable communities, such as
  - Black, Indigenous and People of Color
  - Frontline workers
  - Street vendors

- Emphasis on community-driven co-creation, where community engagement is ongoing for a project.
- July webinar series reached 129 practitioners.

Resources Used for Framing

- PolicyLink
  - “Center Racial Equity”
- Untokening
  - “Mobility Justice Responses to COVID-19”
- Safe Routes Partnership
  - “Open Streets, Shared Streets, Healthy Streets—Creating Mobility and Physical Activity Solutions Now and for the Future”
- NACTO
  - “Streets for Pandemic Response & Recovery”
Resilient Streets Toolkit

- Resilient Street Toolkit identifies how jurisdictions can use Kit of Parts towards pandemic response and resilient economic recovery.
- Identifies project examples, practical considerations for implementation, and potential funding sources.

Thank you for being champions for safety in your city and region!

Materials developed with funding provided by the California Office of Traffic Safety.
Kit of Parts: Parklet

- Prototypes outdoor engagement
- Allows physical distancing
- Provides shaded seating
Kit of Parts: Curb Extension

- Prototype outdoor engagement
- Demonstrate physical distancing
- Shortens the crossing distance

Kit of Parts: Artistic Crosswalk

- Support safer crossing
- Provide more room for physical distancing when crossing (stripes are spaced at 6 feet)
**Kit of Parts: Separated Bike Lane**

- Provide more room for physical distancing

**Kit of Parts: Median Refuge Island**

- Support safer crossing
- Provide more room for physical distancing

**Kit of Parts: Signage & Survey Tool**

- Each treatment includes an educational sign that describes the treatment in Spanish and English.
- The Kit includes 5 signs in total.
- Go Human has a feedback/survey form available which can be used to assess support for designs, needs assessments and other feedback, if collection is feasible.
- Lending form for the Kit is located [here](#).
IMPLEMENTATION & INSPIRATION – Food & Supply Distribution

East Side Riders – food distribution to vulnerable populations
https://www.esrbc.org/

IMPLEMENTATION & INSPIRATION – Essential Services

Accessing Library Services: Imperial County Library – Raise a Reader Initiative
- Family literacy packets delivered to participants of the program

Impact of lack of Broadband Access for student’s homework: link [here](#)
- Creating way-finding routes to support families who need printed materials due to lack of broadband internet access

Essential Places Installation (City of Oakland) link [here](#)
- Temporary traffic safety improvements to enable safer access for residents to the essential services in their neighborhood – including grocery stores, food distribution sites in public facilities, and COVID-19 test sites
IMPLEMENTATION & INSPIRATION – Outdoor Dining & Street Vending

IMPLEMENTATION & INSPIRATION – Modified Open Streets

Modified Open Streets for local economic recovery

• Short commercial street closures, not events, for safe social-distancing and promoting local business.

Subject: Personal Shelter Community for Homelessness  

RECOMMENDED ACTION:  
Information Only – No Action Required  

STRATEGIC PLAN:  
This item supports the following Strategic Plan Goal 1: Produce innovative solutions that improve the quality of life for Southern Californians.  

EXECUTIVE SUMMARY:  
Patrick Diller, Business Development Director at Pallet, will present on the benefits of temporary personal shelters for people experiencing homelessness and how shelter communities can help local governments rapidly add capacity to existing shelter systems.  

BACKGROUND:  
Permanent solutions for increasing housing across California are often not developed quickly enough to keep up with demand, resulting in thousands of people sleeping on the streets in any given night across the state. In the midst of the COVID-19 pandemic, people experiencing homelessness are uniquely vulnerable to contract the virus and often experience harsher effects. The pandemic is expected to push even more people into poverty and out onto the streets in the coming months. This dual crisis has led many elected officials to seek accelerated emergency shelter solutions for unhoused residents in their communities.  

The concept of personal shelters involves assembly of temporary shelters in empty lots around California in a matter of hours to immediately support people experiencing homelessness. The services provided in shelter communities act as a gateway by giving residents the resources they need to transition into permanent supportive or affordable housing. During the COVID-19 crisis, personal shelters such as these are crucial in providing residents the ability to practice social distancing. Patrick Diller, Business Development Director at Pallet, will present on the benefits of temporary personal shelters for people experiencing homelessness and how shelter communities can help local governments rapidly add capacity to existing shelter systems.
FISCAL IMPACT:
None.

1. PowerPoint Presentation - Pallet
Pallet

About Pallet

Pallet builds safe, dignified, and personal shelter for people experiencing homelessness, designed and built by people with lived experience in homelessness.

90% of employees across our companies are system-impacted.

Weld Seattle
Weld equips system-impacted individuals with housing, employment, and resources conducive to recovery and successful reintegration back into society.

Square Peg Construction
Seattle’s only social enterprise builder, Square Peg Construction transforms communities through the building of quality spaces and productive people.
Employee Programs

Life Skills Training
A life of stability requires more than a career and a paycheck. That’s why Pallet brings experts to its manufacturing headquarters each month to advise its employees on life skills, such as how to open a bank account or obtain an identification card.

Personal Support Services
Sometimes life happens and we all hit a speed bump – that’s why the team at Pallet is here to provide support, and help its employees through their personal challenges.

Rapid and dignified shelter.

For more than half a million people facing homelessness across the America, Pallet’s durable, portable, and dignified shelters are a stepping stone out of personal crisis and into a life of stability.

For communities, Pallet’s personal shelters are a rapid and cost-effective strategy to move people off the streets and into a stable living environment.
Benefits:
- Quick and easy to deploy
- Assembled in an hour by a team of three
- 10 year product lifespan
- Climate control with heat, air conditioning
- Mold, mildew, and rot resistant

Features:
- Fold-up bunk system
- Lockable door and windows
- Secure ventilation system
- Structural floor with aluminum framing
- 110 mph wind rating
- 25 lb per square foot snow load rating
- CO monitor
- Fire extinguisher
- Smoke detector

Factors for Success

Individuals
- The privacy, security, and dignity of personal space
- Comfort in leaving personal items, pets, and other owned items for periods of time to engage in services, participate in employment opportunities, and/or engage with treatment programs

Service Providers
- Ability to organize by shared experience or other service specific target to ensure effective resource distribution and community collaboration
- Known nightly location of shelter residents for continuity of care and services

Communities
- More cost effective than traditional shelter models, allowing funding to be used elsewhere
- Immediate sheltering, cleaning up streets the same day the shelters are built
