INTERGOVERNMENTAL REVIEW CLEARINGHOUSE REPORT

This Intergovernmental Review Clearinghouse Report summarizes the federal grant applications, environmental documents and other information received by SCAG’s Intergovernmental Review (IGR) Section during the period March 01 through April 30, 2013. The Clearinghouse Report consists of two sections, Federal Grant Listing and Environmental Documentation Listing.

The Federal Grant Listing is provided to inform your organization of all grant applications for federal assistance from our region in accordance with Executive Order 12372. The listing includes state sponsored plans and project types such as Housing and Community Development, Urban Mass Transit, and Human Services. The Environmental Documentation Listing describes regionally significant and non-regionally significant facilities (e.g., transportation, wastewater treatment), residential, commercial and industrial projects which have been voluntarily submitted for review by local governments. Environmental documents received include Notices of Preparation, Environmental Impact Reports, Environmental Impact Statements, Negative Declarations and Mitigated Negative Declarations.

A SCAG Project Identification Number organizes project descriptions for both the Federal Grant and Environmental Documentation listings.

IGR CONTACT

To include the interest of your jurisdiction or comment on proposed comprehensive planning, areawide coordination or environmental impacts please contact the IGR Section prior to May 31, 2013. Please send one (1) copy of all environmental documentation. Also, please provide the name and telephone number of the contact person on your transmittal. We may be reached at:

Mailing Address: Southern California Association of Governments
Intergovernmental Review Section
818 West Seventh Street, 12th Floor
Los Angeles, CA 90017-3435

Telephone: (213) 236-1800
Fax: (213) 236-1963

Questions regarding the Clearinghouse Report should be directed to Pamela Lee, (213) 236-1895 or leep@scag.ca.gov.

**Project Description:**
Notice of Intent to Adopt an Initial Study/Mitigated Negative Declaration

The California Department of Water Resources (DWR) proposes to develop a 10 megawatt (MW) photovoltaic solar panel array and supporting facilities on approximate 70 acres at the existing Southern Field Division Headquarters, Pearblossom Pumping Plan (PBPP). The project is anticipated to generate approximately 10 megawatt of energy transmitted to CAISO via SCE.
Documents Received: March 05, 2013

Project Description: Notice of Intent to Adopt a Mitigated Negative Declaration
A proposed subdivision of 12 single-family units on 3.6 acres of land in the Low Residential District (204 dwelling units per acre).

SCAG ID. No.: I20130050
Document Type: MND
Project Title: Drake Park Soccer Field Project
Reg. Significance: No
Lead Agency: City of Long Beach
City/County/Subregion: Long Beach/Los Angeles/Gateway Cities
Contact: Craig Chalfant - (562) 570-6368
Comment Due Date: 3/29/2013
Project Description: Notice of Intent to Adopt A Mitigated Negative Declaration for the Drake Park Soccer Field Project
The proposed project includes a linear park characterized by an 8-foot wide pedestrian trail running through the project site from the northeast to southwest. The proposed project includes development of one striped soccer field, large landscaped open space/passive park areas, a pedestrian walking trail, restroom facilities, and parking. The proposed project would incorporate the adjacent Loma Vista Park by removing the existing park’s chain link fence along the northeastern portion of the project site. In addition, the proposed park would require the use of a portion of the City-owned parking lot near the northwestern area of the project site to accommodate passive park space. Implementation of the proposed park would occur over several phases, with construction occurring over the course of approximately 12 months.

**Reg. Significance:** No  
**Lead Agency:** City of Westlake Village  
**City/County/Subregion:** Westlake Village/Los Angeles/Las Virgenes  
**Contact:** Scott Wolfe - (818) 706-1613  
**Comment Due Date:** 3/20/2013

**Project Description:** Notice of Preparation of an Environmental Impact Report and Notice of Scoping Meeting

The proposed Westlake Village Business Park Specific Plan would provide a planning document to control future redevelopment within the planning area in accordance with the land uses and development standards contained in the Specific Plan.

The City is seeking to promote the revitalization of underutilized or obsolete properties and the intensification and adaptive reuse of properties in the northern section of the City within the Specific Plan area.

**Reg. Significance:** No  
**Lead Agency:** City of Hemet  
**City/County/Subregion:** Hemet/Riverside/Western Riverside  
**Contact:** Deanna Elliano - (951) 765-2375  
**Comment Due Date:** 3/25/2013

**Project Description:** Notice of Preparation of a Draft Environmental Impact Report

The Specific Plan covers the entire 208.87 acre project site. The Specific Plan includes a long-range plan for development of the project site with a multiple-use commercial and residential community concentrated around open space amenities. The project also includes all related infrastructure to serve the development, including circulation elements, on-site and off-site drainage facilities including an open space recreation area, and utilities. The primary land uses associated with the project are divided into 11 Planning Areas.

The 208.87 acre project site is located in the western portion of the city approximately 3 miles west of downtown Hemet and 1/2 mile northwest of the Hemet-Ryan Airport. The project site is bound by Florida Avenue (SR-74) on the south, Celeste Road on the north, and Myer Street on the east.

**Contact:** Douglas Hawkins - (714) 229-6720  
**Comment Due Date:** 4/2/2013

**Project Description:** Notice of Preparation of a Draft Environmental Impact Report

The approximately 33.06 acre project site is located at the northeast corner of Katella Avenue and Enterprise Drive. The project proposes to construct approximately 725,000 square feet of warehouse, distribution, light manufacturing, and office uses. The conceptual site plan for the proposed project shows a configuration with three buildings:

- Building 1 - 182,000 sf
- Building 2 - 167,000 sf
- Building 3 - 376,000 sf

**Contact:** Jim McDavid -  
**Comment Due Date:** 3/27/2013

**Project Description:** Notice of Intent to Adopt a Mitigated Negative Declaration for Basin No. 2 Inlet/Turn-Out Structure Project

The purpose of the proposed project is to increase the operational flexibility of the San Gabriel Coasting Spreading Grounds (SGCSG) and enhance the ability to recharge more recycled water. The proposed project consists of one or two reinforced concrete turnout structures with one being a connection to the existing recycled water pipeline and proposed to be constructed on the existing recycled water pipeline.

The project site is located in the City of Pico Rivera on the east edge of the San Gabriel Coastal Spreading Grounds between Basin No. 1 and Basin No. 2 and on the west side of the San Gabriel River.

Comment Due Date: 3/27/2013
Project Description: Notice of Intent to Adopt a Mitigated Negative Declaration
The purpose of the proposed project is to enhance the ability to recharge recycled water to Montebello Forebay. The proposed project consists of a reinforced concrete turn-out structure with a connection to the existing recycled water pipeline (RWP). Connection to the RWP will be by means of a diversion structure to be constructed on the existing RWP.

The project site is located at 15001 South Broadway Street in the West Rancho Dominguez-Victoria area of unincorporated Los Angeles County. The approximately 6.4 acre project site consists of an existing transfer station/processing facility, established in 1993 and a vacant warehouse with accompanying office space.

The proposed project will increase the operating capacity of the expanded facility from 5- to 2,500 TPD (tons per day) of material permitted to be handled. The
The proposed project will expand the operations from the existing 2.38 acres site to 6.4 acres with the addition of an adjacent 4.04 acre site to the east. The project involves the demolition of all existing structures on both sites (including the existing transfer facility and the vacant warehouse and office building on the eastern parcel) and the construction of a 115,104 square foot building that will enclose all processing and waste transfer operations and will also include bale storage, maintenance and office facilities.

The proposed project includes the demolition of four existing 2-story apartment buildings (totaling approx. 21,802 sf) and the retention of two existing 1-story bungalow structures (totaling approximately 1,661 sf after renovation). The two bungalow structures to be retained are currently on the Serrano Property and contain three, 1-bedroom dwelling units which will be relocated on-site to have direct access from the sidewalk along Serrano Avenue. A new 3- to 4-story apartment building over one level of subterranean parking will be constructed behind the relocated bungalow buildings and will contain 51 new dwelling units. The proposed project will result in a total of 54 dwelling units on site with approximately 46,353 sf of floor area. These proposed units will be reserved for low-income households except one unrestricted unit for the apartment manager.

Project Description: Notice of Intent to Adopt a Negative Declaration/Mitigated Negative Declaration

The proposed Waite Street 1467 Zone Reservoir and Pipeline Project is located within the City of Wildomar in Riverside County. The proposed reservoir portion of the project is located approximately in the central portion of the City of Wildomar, about 0.20 miles east of Interstate 15. The project site is located just north of the intersection of Waite Street and Pointe Circle within a residential neighborhood. The proposed approximate 2.5 mile pipeline portion of the project will extend off of the Waite Street reservoir access driveway and within existing right-of-way.

Project Description: Notice of Preparation

The East San Fernando Valley Transit Corridor Project area is located in the San Fernando Valley in the County of Los Angeles. Generally, the project area extends from Ventura Boulevard in the south of the City of Los Angeles to the City of San Fernando and the Sylmar/San Fernando Metrolink Station in the north.

Three alternatives are proposed:
- No Build: predicted conditions through the year 2035.
- Transportation System Management (TSM) Alternative: Consist of the No-Build bus network and enhanced bus frequencies for the existing Rapid Bus 761, which runs primarily on Van Nuys Boulevard in the Corridor.
- Light Rail Transit (LRT) Alternative: This alternative includes the construction of a new rail transit traveling from the Sylmar/San Fernando Metrolink Station south/east to van Nuys Boulevard and then south to Ventura Boulevard.
- Bus Rapid Transit (BRT) Alternative: Approximately 9.4 miles of the route would operate in a median-running configuration with the remaining 2.6 miles operating in mixed-flow traffic between Sylmar/San Fernando Metrolink Station and San Fernando Road/Van Nuys Boulevard.

Project Description:
Notice of Preparation of a Draft Environmental Impact Report

The Loma Linda University Health (LLUH) Campus Transportation Project is a Master plan that consists of a multi-phased development to construct new facilities and improvements to the existing campus facilities in order to accommodate growth in the services provided, and to meet regulatory requirements. The proposed project would provide construction of new facilities, modernization of existing facilities, and replacement of the 1967 portion hospital structure in response to California's SB 1953 Hospital Seismic Safety Act mandate. The existing campus and all improvements proposed as part of the Master Plan are in the City of Loma Linda and anticipated to be built out in phases over a 10-year period.

Proposed facilities include a 6-story, approximately 250,000 sf, 760-space patient and visitor parking structure; a 12-story, approximately 732,000 square foot hospital with 464 beds and 80 parking spaces; an approximate 50,000 square foot central utility plant; an approximate 14,000 square foot Southern California Edison off-site
Venoco has applied to the California State Lands Commission to implement the Revised PRC 421 Recommissioning Project to return existing Oil and Gas Lease PRC 421 to production after ongoing production was shut-in in 1994. The project would share infrastructure used by other existing Ellwood area facilities. Venoco estimates the productive life of Lease PRC 421 to be approximately 12 years, commencing in 2013 and continuing to and potentially beyond 2025 depending upon production characteristics and project economics. Venoco expects first year production levels to average 700 barrels of oil per day, with a maximum daily production as high as 1,000 barrels of oil per day, and 120 barrels of water per day, with oil production tapering off to approximately 100 barrels of oil per day and water production increasing to nearly 900 barrels of water per day by the final year of production.

Project Description: Notice of Availability of a Draft Environmental Impact Report

The City of Anaheim, Irvine Ranch Water District (IRWD) and Yorba Linda Water District (YLWD) have requested annexation of lands into the Orange County Water District (OCWD) boundary, which would increase the service area of the OCWD. The City of Anaheim proposes to annex contiguous lands east and west of the 241 Freeway directly south of the 91 Freeway; IRWD proposes to annex four separate land areas including the largest parcel located west of the 261 Freeway south of the point where the 261/241 Freeways separate, and three smaller parcels. The proposed annexations will result in increased hours of pumping at three existing City of Anaheim wells, no changes to existing IRWD facilities, and new wells and pipelines for YLWD.

Project Description: Notice of Preparation for a Draft Environmental Impact Report for the 1402 Santa Monica Boulevard Mini Dealership Project

The project site is bounded by Santa Monica Boulevard on the north, 14th Street on the west, 14h Court on the east, and residential uses on the south. The proposed Mini Dealership project would develop a new 2 story, 33,750 square foot automobile dealership building containing vehicle showrooms, indoor/outdoor cafe, concealed service/repair and parts departments and vehicles sales/training offices. The dealership would have a high ground floor ceiling and display windows that will be constructed adjacent to the Santa Monica Boulevard sidewalk.
Project Description: Notice of Preparation of an Environmental Impact Report and Public Scoping Meetings

The Mobility Element Update will address all modes of circulation on the City's street network and primary tasks proposed include the following:
- Policies and programs for the goals and objectives of the Mobility Element
- An Enhanced Complete Street System, consisting of Pedestrian Enhanced Districts, Transit-Enhanced, Bicycle-Enhanced and Vehicular-Enhanced Networks, of major streets that facilitate multi-modal mobility within the transportation network
- Guidelines and Street Standards to focus on streetscape elements and characteristics to create a multi-modal transportation system
- Performance measurement tools for evaluating streets and future mitigation for projects affecting circulation
- Implementation strategy identifying costs and potential funding for incorporating and maintaining a complete street network
- Maintenance of existing truck routes and scenic highways.

Project Description: Notice of Intent/Notice of Preparation for the Berths 212-224 [YTI] Container Terminal Improvements Project

The purpose of the proposed project is to improve marine shipping and commerce by upgrading container terminal infrastructure, over, and under water and on terminal backlands to accommodate the projected fleet mix of larger container ships that are anticipated to call at the terminal through 2026.

The proposed project consists of the installation of a new 35 MW Cogeneration Unit including a gas turbine, heat recovery steam generator, a selective catalytic reduction unit, an evaporative cooler, and connections to the existing aqueous ammonia tank at the Refinery.

The proposed project will total four building sites located on Rickenbacker Road west of 6th Street. In total, the four buildings could result in 840,390 square feet of new industrial and ancillary office space. The City’s intent is to approve individual entitlements for each of the four building sites and to consider the environmental impacts of the entire project in a single EIR.

Harvard-Westlake School is proposing the Harvard-Westlake Parking Improvement Plan that consists of improvements to its property located at 3700-3701 North Coldwater Canyon Avenue. The project site is located approximately 1/2 of a mile...
south of Ventura Boulevard and 1.3 miles north of Muholland Drive in the Studio City community of the City of Los Angeles. The project involves the construction of a new parking structure on the development site, along with other related improvements. The parking structure is intended to accommodate Harvard Westlake's existing parking needs, and to relocate vehicles that currently park off-campus and within the surrounding areas to on-campus parking facilities.

**Project Description:** Notice of Preparation of a Draft Environmental Impact Report and Notice of Public Scoping Meeting

The City-initiated Duarte Station Specific Plan is intended to establish the general type, parameters, and character of the development in order to develop an integrated TOD that is also compatible with the surrounding area. The Plan Area's proximity to freeways, major streets, and existing rail infrastructure makes the Duarte Station Specific Plan an ideal location for the integration of mixed uses and transit, along with facilitating economic development in Duarte.

Project Description: Notice of Preparation of a Draft Environmental Assessment

SCAQMD staff is proposing to adopt Rule 1304.1 - Electrical Generating Facility Annual Fee for Use of Offset Exemption. If adopted, Proposed Rule 1304.1 will require any electrical generating facility that uses a specific offset exemption to pay annual fees or a single, up-front fee for the amount of offsets provided by the SCAQMD.
