INTERGOVERNMENTAL REVIEW CLEARINGHOUSE REPORT

This Intergovernmental Review Clearinghouse Report summarizes the federal grant applications, environmental documents and other information received by SCAG’s Intergovernmental Review (IGR) Section during the period 2014-07-01 through 2014-08-31. The Clearinghouse Report consists of two sections, Federal Grant Listing and Environmental Documentation Listing.

The Federal Grant Listing is provided to inform your organization of all grant applications for federal assistance from our region in accordance with Executive Order 12372. The listing includes state sponsored plans and project types such as Housing and Community Development, Urban Mass Transit, and Human Services. The Environmental Documentation Listing describes regionally significant and non-regionally significant facilities (e.g., transportation, wastewater treatment), residential, commercial and industrial projects which have been voluntarily submitted for review by local governments. Environmental documents received include Notices of Preparation, Environmental Impact Reports, Environmental Impact Statements, Negative Declarations and Mitigated Negative Declarations.

A SCAG Project Identification Number organizes project descriptions for both the Federal Grant and Environmental Documentation listings.

IGR CONTACT

To include the interest of your jurisdiction or comment on proposed comprehensive planning, area-wide coordination or environmental impacts please contact the IGR Section prior to 2014-09-30. Please send one (1) copy of all environmental documentation. Also, please provide the name and telephone number of the contact person on your transmittal. We may be reached at:

Mailing Address: Southern California Association of Governments
                 Intergovernmental Review Section
                 818 West Seventh Street, 12th Floor
                 Los Angeles, California 90017-3435

Telephone: (213) 236-1800
Facsimile: (213) 236-1963

Questions regarding the Clearinghouse Report should be directed to Lijin Sun, (213) 236-1882.

MORE INFORMATION

The IGR web page includes staff prepared publications describing items and projects received by the IGR Section, and other web sites that may be useful to persons seeking information about how to comply with CEQA and the CEQA Guidelines. For more information, please visit SCAG’s IGR web page at www.scag.ca.gov/igr.

Project Description: Notice of Preparation of an Environmental Impact Report.
Located in the Van Nuys-North Sherman Oaks Community Planning Area, City of Los Angeles, County of Los Angeles, California, the proposed project is a 359,795 square-foot mixed-use development on an approximately 8.3-acre site.
The proposed project would include renovation of a 126,674 square-foot building, construction of 298 multi-family residential units, an approximately 39,241 square feet of neighborhood-serving commercial uses that would include up to 7,241 square feet of restaurant uses, and an above and below parking structure with 1,345 parking spaces.

Comment Due Date: 2014-08-18

Project Description: Notice of Availability of a Draft Environmental Impact Report
The project site consists of 30.42 acres located at the southeast corner of Pedley Road and State Route 60.
The project consists of a 300,000 square foot commercial development, including retail stores, restaurants, and a fuel center, on 30.42 acres. The site, currently mostly vacant, would be replaced with one-to-two story structures, parking areas, and landscaping. A General Plan Amendment and Zone Change are required for 5.8 acres of the site. A subdivision of the existing 4 parcels into 13 parcels is proposed.

Project Description: Notice of Public Hearing and Notice of Availability and Intent to Adopt a Mitigated Negative Declaration.

The 3.44 acre project site is located within an industrial area of the City of Lake Elsinore, Riverside County, California. The project site is bounded by vacant land (northwest), Collier Avenue followed by Elsinore Valley Cemetery (northeast), Enterprise Way followed by California Skier Mastercraft (southeast), and vacant land (southwest).

The project proposes the construction of a tractor supply store consisting of an 18,800-square-foot tractor supply building; two drainage basins consisting of 8,000 and 2,100 square feet, permanent outdoor display areas of 18,120 square feet; perimeter landscaping; and accompanying parking areas with 91 parking spaces.

Project Title: Chiquita Canyon Landfill Master Plan Revision
Reg. Significance: Yes
Lead Agency: Los Angeles County Department of Regional Planning
City / County / Subregion: Not Applicable / Los Angeles / **Not Applicable
Contact: Rick Kuo - (213) 974-6461
Comment Due Date: 2014-08-24

Project Description: Landfill operations at the proposed project site were first permitted by the County of Los Angeles under Conditional Use Permit (CUP) No. 1809-5, issued on November 24, 1982, which expired by November 1997. The current CUP, which was permitted in 1997 and would be effective until 2019, would allow a maximum daily permitted disposal of 6,000 tons per day. However, based on the current CUP tonnage limits, the projected closure date is between 2015 and 2019. Hence, a new CUP is being applied to implement the proposed Master Plan Revision.

Among the proposed elements, the proposed project would include the permitted waste footprint within the existing property line by approximately 143 acres. The waste footprint would increase from the currently permitted acreage of approximately 257 acres to approximately 400 acres. It will also increase the permitted height of the landfill by 133 feet to a maximum elevation of 1,573 feet.

Additionally, the proposed project would increase daily and weekly disposal tonnage. The permitted maximum daily disposal tonnage would increase from 6,000 to 12,000 tons; the permitted maximum weekly disposal tonnage would increase from 30,000 to 60,000 tons.

Comment Due Date:
Project Description: Negative Declaration

The proposed project is the construction of a new 1,800 square feet of single family home on a 5,430 square-foot undeveloped lot located in the South Pasadena, County of Los Angeles, California. The proposed home would include a two-car garage at the street level, living areas and a terrace at the middle level, and three bedrooms with a balcony on the third level.
Located in the City of Pasadena, County of Los Angeles, California, the project is a modification to an already approved child care operation for school-aged children who are in kindergarten through the ninth grade. The proposed project is seeking a modification of the existing conditional use permit to allow the use of the 1,378 square-foot "Oakview Room" instead of the previously approved, 576 square-foot modular building at the north end of the site.

Located in the City of South Pasadena, County of Los Angeles, California, the proposed project would build a 9-unit condominium complex at the base of a north-facing slope on a vacant lot. The proposed project would involve a subdivision of the nine (9) dwelling units into condominiums so that the individual units could be sold separately.

**Lead Agency:** City of San Gabriel

**City / County / Subregion:** San Gabriel / Los Angeles / San Gabriel Valley

**Comment Due Date:** 2014-07-22

**Project Description:** Notice of Intent to Adopt a Mitigated Negative Declaration

The project is located at 704-712 West Las Tunas Drive in the City of San Gabriel, in the County of Los Angeles, California.

The project proposes a renovation of two existing commercial buildings along with the demolition of one commercial building, which will be replaced with a three story mixed-use development with approximately 61,026 square feet, including 4,814 square feet of commercial uses and 37 residential condominium units. The project would require a Conditional Use Permit to allow mixed-use on the property, a Tentative Tract Map to consolidate the parcels and subdivide the airspace for the residential condominium units, and Precise Plan of Design Review by the Design Review Commission.

**Project Description:** Notice of Completion and Availability of Draft Environmental Impact Report.

Located in the City of El Segundo, County of Los Angeles, California, the proposed project would allow a maximum of 4,231,547 gross square feet of development or an additional 2,142,457 gross square feet over existing conditions. Proposed uses within the proposed project area would include office, warehousing, light industrial, and commercial (retail/restaurant) uses.

To accommodate the proposed development, the proposed project would change the land use designation from "Light Industrial", "Open Space" and "Public Facilities" to "El Segundo South Campus Specific Plan."

Reg. Significance: Yes
Lead Agency: City of Tustin
City / County / Subregion: Tustin / Orange / Orange County
Contact: Ryan Swiontek - (714) 573-3123
Comment Due Date: 2014-08-25
Project Description: Located in the City of Tustin, County of Orange, California, the proposed project is a four-story residential development with 192 units with a six level parking structure on an approximately 3.33-acre site. To accommodate the proposed development, there would be an amendment to the General Plan to allow for greater density allowances than the existing maximum density of 25 du/acre and a maximum FAR of 1.5.
Project Description: Located in the City of Irwindale, County of Los Angeles, California, the proposed project would develop an approximately 700,000 square feet of retail and associated parking on an approximately 63.5 acre site. The shopping center proposes to employ approximately 5,000 people.

The project would include ancillary amenities such as a central plaza for public gatherings, entryway features, an outdoor entertainment/performance area, and a food court. The proposed project would include related improvements, including, but not limited to parking, landscape planters, fencing and walls.

The project would be completed in two phases. Phase 1 of the project would develop approximately 455,000 square feet or 65 percent of the total project building space. Phase 2 would develop approximately 245,000 square feet or 35 percent of the total project space.

Project Description: Located in the Southeast Los Angeles Community Plan Area of the City of Los Angeles, County of Los Angeles, California, the proposed project is a mixed-used development containing approximately 2,533,000 square feet of development, which would include construction of approximately 1,664,000 square feet of new development and an 11,150-square-foot warehouse/storage/distribution building. Additionally, the project would provide at least 2,733 parking spaces in multiple above-ground and subterranean structures.

To accommodate the proposed development, there would be an amendment to the General Plan from Limited Manufacturing to Community Commercial.

Comment Due Date: 2014-08-30

Project Description: Notice of Completion and Availability of a Draft Environmental Impact Report.

The project would include a mixed-use, transit-oriented infill development totaling approximately 425,000 square feet on approximately 3.67-acres located at 527 North Spring Street and 555 North Broadway in the City of Los Angeles. The development would include 345 residential units (for lease) with 20 percent of those reserved as affordable low- or middle-income units, and up to 55,000 square feet of visitor-serving retail. The retail space would include, but not limited to, a restaurant, a cafe, other food services, and a "commissary" or shared commercial kitchen space for culinary demonstrations and use by small businesses.
Located in the City of Wildomar, County of Riverside, California, the proposed project would be a residential development on an approximately 4.16-acre site. To accommodate the development, the proposed project would require a zone change from Rural Residential to One-Family Dwelling for the entire proposed project site. Additionally, the proposed project would subdivide the entire site into 12 single-family residential lots for future single family residential development.

The proposed project is located near Interstate 215/Highway 60 to the south and by I-215/SR 60 to the west in the County of Riverside, California. The proposed project would revise the Specific Plan land use plan to reconfigure planning area boundaries, incorporate a proposed Metrolink station, provide for a substantial increase in the number of residential dwelling units allowed on site in order to help create a demand for Metrolink ridership within the plan area, adjust the range of residential densities, reduce the amount of land use devoted to commercial land uses, and eliminate the planned commercial/office, business park, church/school, and public facilities land uses.

Project Description:
Located in the City of El Monte, Los Angeles County, California, the proposed project would be a mixed-use development. It would consist of 500,000 square feet of retail and 50,000 square feet of restaurant for an outlet mall, a 220-room hotel, and 600 residential units on the 14.66-acre project site.

The proposed project would include the option for up to 20 percent of the proposed retail space to be developed as office uses. Parking would be provided in subterranean and above-grade parking structures. The project would be developed in two phases (with the retail, restaurant, hotel, and some parking the first phase, and the residential and remaining parking the second phase).

Project Description: Notice of Public Hearing
The proposed project would construct two buildings each containing three units for a total of 30,649.50 square feet with 15 subterranean parking spaces (12 tenant spaces and 3 guest spaces) on a vacant parcel.

This notice is the project permit compliance review in support of the proposed development.
Project Description: Notice of Preparation of an Environmental Impact Report.

Located in the Hollywood Community of the City of Los Angeles, County of Los Angeles, California, the proposed project is a mixed-use project that would retain the existing building and construct a new seven-story, 90-foot tall, building on the western portion of a 2.06-acre site.

The proposed project would include approximately 4,700 square feet of ground floor commercial space oriented, 200 residential units on floors three through seven with five percent (9 units) being restricted as very-low income, and an approximately 6,964 square-foot Paseo linking Sunset Boulevard and LeLand Way. The Paseo would be accessible to the public during daylight hours.
Project Description: Notice of Completion and Availability of Revised Final Environmental Impact Report.

This Revised Final Environmental Impact Report was prepared in response to public comments received following the March 8, 2013 public hearing on "Alternative 3: Enclosure Alternative (Preferred Project.)"

Located in Sun Valley, City of Los Angeles, County of Los Angeles, California, the proposed project is used a solid waste facility and a recycling and resource recovery operation. The proposed project is currently permitted for a 1,700-tons-per-day (TPD) transfer station/materials recycling facility (MRF) and which for recycling also receives, unpermitted, approximately 1,200 TPD of construction materials, 1,200 TPD of source-separated green waste, 350 TPD of source separated supermarket trim and cull, and 150 TPD of source-separated wood waste.

The project would include construction of an approximate 196,075-square-foot enclosure building, an approximate 64,120-square-foot structure to enclose the existing front yard tipping floor and transfer station, and provide 139 parking spaces.

Under the new permit, the proposed project would receive up to 2,000 TPD of construction material, up to 1,500 TPD of source-separated green waste, up to 500 TPD of source-separated supermarket trim and cull, and up to 200 TPD of source-separated wood waste.

Reg. Significance: Yes
Lead Agency: City of Wildomar
City / County / Subregion: Wildomar / Riverside / Western Riverside
Contact: Matthew Bassi - (951) 677-7751
Comment Due Date: 2014-09-01
Project Description: The City of Wildomar is preparing an update to its existing General Plan based on the Riverside County General Plan adopted in 2003, and revised by the County in 2008 prior to the City's incorporation. The proposed update was prepared to reflect the following four directives. 1. The proposed General Plan would focus entirely on the City of Wildomar, eliminating those parts of the plan that address the larger geographic area of Riverside County without changing land use designations or the circulation system. 2. The proposed project would ensure that the General Plan reflects and incorporates the results of the City's visioning efforts. 3. The proposed project would craft policies that encourage good design and help meet the City's sustainability goals. 4. The proposed project would provide a clear set of City-specific goals and policies to support existing ordinance and future plans for the community.
Notice of Preparation.

Located in the City of Colton, County of San Bernardino, California, the proposed project would include the construction of a warehouse distribution facility that contains 12,000 square feet of office space and 435,330 square feet of warehouse space, totaling 447,330 square feet of building on a 21.07-acre project site. The project is a modification to the previously approved Agua Mansa Commerce Center Master Plan. The project would add 13.23 acres to the approved Master Plan, increasing the Plan area from 94.18 to 107.13 acres.

Notice of Intent to Adopt a Mitigated Negative Declaration.

Located in the western portion of the City of Redlands, County of San Bernardino, California, the proposed project would include development of two buildings, totaling approximately 1.1 million square feet for the purpose of housing two separate warehousing operations. The proposed project is in addition to the previously approved project known as the Redlands Fulfillment Center. The former project would include a single building of approximately 1 million square feet, for the purpose of housing a fulfillment/distribution center.
**Project Description:** Revised Analysis of Impacts to Public Trust Resources and Values.

The proposed project is a restoration project to address extensive erosion at Broad Beach in the City of Malibu, Los Angeles County, California. The proposed project would address geological hazards at Broad Beach associated with storms, flooding, beach and dune erosion, and anticipated sea-level rise.

Specifically, the proposed project would include 1) sand nourishment and beach replenishment; 2) revetment; 3) sand importation; 4) dune building and restoration; and 5) beach widening and public access enhancement.

Project Description: Notice of Public Scoping for a Draft Environmental Assessment.

The U.S. Coast Guard (USCG) proposes to construct concrete floating piers connected to steel guide piles adjacent to the existing fixed piers to allow four Fast Response Cutters (FRCs) to homeport at Base Los Angeles Long Beach (LA/LB), California. A 13,500-square-foot combined maintenance augmentation team (MAT) and cutter support facility would also be constructed to provide required administrative, storage, and maintenance space to the new vessels.
Notice of Public Hearing for the Proposed Santa Monica Mountains Local Coastal Program

The project is located along a portion of the proposed HSR alignment from the Palmdale Transportation Center Station to the Burbank Airport Station, in Los Angeles County, California.

The project proposes to construct, operate, and maintain an electric-powered steel-wheel-on-steel-rail High Speed Rail (HSR) System, approximately 800-miles long, capable of operating speeds of 220 mph on a dedicated system of fully grade-separated, access-controlled steel tracks, with state-of-the-art safety, signaling, communication, and automated train control systems. Work on this system is currently underway in the Central Valley. This project would continue this effort between Palmdale and Burbank.

Project Description: Recirculated Notice of Preparation

This is a recirculated Notice of Preparation for the proposed project. The original public review period began on June 30 through July 29, 2014. The recirculated Notice of Preparation review period would begin on July 23, 2014 until August 21, 2014.

The reason for the re-circulation is the minor modifications to the proposed project. They include the identification of Site No. 14 (the Modified Project site), the correction of the previously certified PEIR for the City 2008-2014 Housing Element and Implementation Programs to indicate the correct acreage and density allowed, and thus the number of units to be developed on Site No. 14. As a result, the Modified Project would include the development of 159 apartment units as described in the previously circulated Notice of Preparation. These 159 units would include 129 market-rate units and 30 affordable units.

Project Description: Notice of Preparation

The project is located along a portion of the proposed HSR alignment from the Burbank Airport Station to the Los Angeles Union Station, in Los Angeles County, California.

The project proposes to construct, operate, and maintain an electric-powered steel-wheel-on-steel-rail High Speed Rail (HSR) System, approximately 800-miles long, capable of operating speeds of 220 mph on a dedicated system of fully grade-separated, access-controlled steel tracks, with state-of-the-art safety, signaling, communication, and automated train control systems. Work on this system is currently underway in the Central Valley. This project would continue this effort between Burbank and Los Angeles.

**Notice of Completion and Availability of the Draft Environmental Impact Report**

The City of Chino Hills is located in the Chino Valley within the County of San Bernardino. The General Plan Update covers six of the elements: Land Use, Circulation, Conservation, Safety, Noise, and Economic Development.
Project Description: Notice of Public Hearing on Approval of Final Design and Adoption of an Initial Study/Mitigated Negative Declaration

The proposed project is the Roadside Drive Bridge over Medea Creek and approaching segments of Roadside Drive in the City of Agoura Hills, County of Los Angeles, California. The project site is comprised of approximately 1,000 linear feet of Roadside Drive.

The proposed project consists of widening the existing Roadside Drive Bridge over Medea Creek, modifying the approaching segments of Roadside Drive, re-striping Roadside Drive, adding a sidewalk on the south side of Roadside Drive on the west side of the bridge, and installing landscape and lighting improvements. The purpose of these improvements is to improve traffic operations on Roadside Drive and adjacent local roads and to rehabilitate the existing bridge to meet current seismic standards.

Project Description: Notice of Completion of a Draft Environmental Assessment

Project is located in South Coast Air Quality Management District (SCAQMD) area of jurisdiction consisting of the four-county South Coast Air Basin (Orange County and the non-desert portions of Los Angeles, Riverside and San Bernardino counties), and the Riverside County portions of the Salton Sea Air Basin and the Mojave Desert Air Basin.

PAR 1111 will control NOx emissions from gas-fired fan-type residential space heating furnaces. PAR 1111 would provide manufacturers additional time to produce residential furnaces that meet the upcoming NOx emission limit of 14 nanograms per Joule (ng/J).

Project Description: Notice of Completion and Availability of Draft Environmental Impact Report.

Located in the City of Studio City, County of Los Angeles, California, the proposed project would include the construction of a new 200-condominium unit senior housing development with an associated subterranean parking structure on a site that is currently used for recreational purposes. The existing 16 tennis courts and tennis uses on the site would be removed to accommodate the proposed project; however, the existing golf course, driving range, clubhouse, and other golf uses would be retained, with modifications.
Notice of Intent to Adopt a Mitigated Negative Declaration.

Located on an approximately 41-acre Taylor Yard River Parcel G2, three miles north of downtown Los Angeles in the community of Cypress Park of the City of Los Angeles, County of Los Angeles, California, the proposed project would assist in improving water quality in the vicinity of Los Angeles River.

The proposed project would support the City's efforts to comply with the current and future Los Angeles River Total Maximum Daily Load (TMDL) requirements for trash, metals, and bacteria, implement water quality improvements. Additionally, parkland and open space facilities would be included with the proposed project, which would be constructed in two phases - phase I: demolition and remediation; and phase II: water quality improvements and parkland and open space.

Project Description: Permit
Approved a Modified Project Permit associated with Alternative 9 (enhanced retail).
Class 1 Permit Modification for the Landfarm Treatment Area, Hazardous Waste Facility Permit.

The proposed permit modification is in regards to Appendix H - Sampling Procedures - of the Landfarm Part B Permit Renewal Application, dated December 11, 2006. Appendix H outlines the Post-Closure Sampling and Analysis Plan (SAP) for environmental monitoring conducted at Chevron refinery capped land treatment unit (Landfarm). The SAP presents a detailed set of instructions for monitoring the effectiveness of the Landfarm corrective action program.

The project consists of ten separate parcels, totaling 2.03 acres (88,586 square feet). The project is located at the following addresses: 902 and 910 Washington Blvd, 1909, 1911, 1913, 1915, 1917, 1919, 1923, and 1929 Oak St, and 903, 907, 911, 913, 917, 919 20th Street, Los Angeles, California, 90015.

The project includes the demolition of the existing commercial structure and construction of an approximately 182,575 square foot, 142 unit residential townhome/condominium development. Two subterranean levels of parking would provide a total of 320 parking spaces.

LINK: http://cityplanning.lacity.org/ > "Environmental" > "Final Environmental Impact Reports"
Notice of Preparation

The project consists of two continuous parcels of land located north of W. Elk Avenue between San Fernando Road and South Pacific Avenue. The address are 525 W. Elk Avenue and 509 W. Elk Avenue. The project site is approximately 0.72 acres and is designated as Mixed Use on the City of Glendale General Plan Land Use Map and Commercial/Residential Mixed Use on the City's Zoning Map.

Development of a 5 story apartment is proposed. The building would include 71 residential units with 162 parking spaces. The proposed project would include one studio unit, 10 one-bedroom apartment units, and 60 two bedroom apartment units.

Notice of Public Hearing before the Planning Commission

The project is located along Hampton Lane and Shelburne Drive in Sandover and along future Bristol Lane in Brightwater.

The project seeks to establish the General Plan land use designation of: 1) RL-7 (Residential Low Density - Max 7 dwelling units per acre) on 0.17 acre, which includes a triangular piece at the terminus of Shelburne Drive and two small areas at the terminus of Hampton Land in Sandover; 2) RL-7-sp (Residential Low Density - Max 7 dwelling units per acre - Specific Plan Overlay) on 1.01 acres and add the Specific Plan designation to 0.357 acre along future Bristol Lane in Brightwater.
Project Description:
The project site is located north of the existing Circle K gas station on the northwest corner of Haun Road and Newport Road in the City of Menifee, County of Riverside, California.

The project includes the construction and operation of a new 7,454 square foot building for a tire sales and service shop on a 0.93 acre parcel.

LINK: http://www.cityofmenifee.us

Project Description:
The City of Pico Rivera is situated north of the Interstate 5 freeway (I-5) and west of the Interstate 605 freeway (I-605). Pico Rivera is surrounded by the City of Downey to the south, the City of Montebello to the west, and the cities of Whittier and Santa Fe Springs to the east.

The Pico Rivera General Plan Update is a comprehensive update of the City's General Plan, adopted by the City Council in 1993. The City's General Plan is a long term planning document that addresses the key factors for a well-functioning community. The General Plan provides a vision for the future of the community and includes policies for all aspects of development including land use, circulation, housing, community families, economic prosperity, environmental resources, safety, healthy communities and noise.
Project Description:

The previous public review period was from July 10, 2014 to August 24, 2014 (45 days). The public review period will extend to September 23, 2014.

Project Description:

Public Notice

It is a public notice that an informational item will be discussed at the Imperial County Environmental Evaluation Committee on August 14, 2014, at 1:30 p.m. in the Board of Supervisors Chambers.

The informational item is the update to the 2006 Geothermal/Alternative Energy & Transportation Element ("proposed project"). The proposed project is to revise the County’s 2006 Geothermal/Alternative Energy and Transmission Element, review the County’s General Plan goals, policies and programs, revise the Land use Ordinance, implement renewable energy overlay zone and revising applicable zoning maps. Thus, future renewable energy projects can become knowledgeable about conservation areas, potential impacts to resources apply mitigation measures to reduce impacts to insignificance in those areas where renewable energy projects can be located.

Project Description: Draft Response Plan.

The draft Response Plan proposes excavation and off-site disposal of contaminated soil at the preferred clean up alternative for the project site. An initial Removal Action Workplan (RAW) was prepared on May 4, 2012 for the removal of the shallow soil contamination. The draft RAW was approved by DTSC but not implemented due to funding constraints. The current draft Response Plan proposes a cleanup plan to address the contamination. DTSC would oversee the proposed cleanup of the contamination at the site.

In compliance with CEQA, DTSC has prepared a draft Notice of Exemption (NOE). The NOE states that the proposed cleanup will not have a significant negative effect on human health and the environment because of short duration, relatively small amount of contaminated soil to be removed, and the controlled way in which the contaminated soils will be dug out, loaded onto trucks and taken away to an approved / permitted facility for lawful disposal.

Project Description: Notice of Availability of a Draft Environmental Impact Report.

Located in the Perris Valley Commerce Center (PVCC) Specific Plan area in the City of Perris in the Riverside County, the proposed project is approximately 0.8 mile east of Interstate 215, 0.5 mile north of Ramona Expressway, and 5.8 miles south of the State Route 60.

The proposed project include the construction and operation of up to 864,000 square feet (sf) of industrial warehouse/distribution uses on the approximately 43.2-acre site. The northwest portion of the project site (approximately 5.45 acres) would be developed for additional tractor-trailer and/or automobile parking. The proposed project is consistent with PVCC Specific Plan and would not require any General Plan amendments or zone changes.

The proposed project would incorporate PVCC Specific Plan Standards and Guidelines and PVCC Specific Plan EIR mitigation measures into the proposed project, and implementation of project-specific mitigation measures for potentially significant project impacts.

He proposed project would result in significant and unavoidable impacts to air quality (operational and cumulative), greenhouse gas emissions (cumulative), traffic, and agriculture resources (project and cumulative impacts related to conversion of Farmland to non-agricultural uses), and these impacts would require adoption of Statement of Overriding Considerations, should the lead agency chose to approve the proposed project.

Project Description: Notice of Public Hearing and Review of the Environmental Checklist Form.

This is a notice of public hearing to hearing by the City Council on the proposed project and the environmental checklist form on Tuesday, September 2, 2014, at 7:00 p.m. at Hesse Park Community Building.

The proposed project would relocate the General Plan Land Use map boundary line between Residential & Natural Environment / Hazardous and the zoning map boundary line between Single Family Residential (RS-2) & Open Space Hazard (OH) to a more northerly location on the 1.96-acre vacant property. The purpose of the proposed project is to have the only relatively level area of the lot be entirely within the Residential land use and RS-2 zoning district. As a result, the proposed level area will be developed with a future single-family residence instead of over extreme slope portions of the lot.
City of Los Alamitos General Plan Update

Yes

City of Los Alamitos

Los Alamitos / Orange / Orange County

Steven Mendoza - (562) 431-3538

2014-09-22

Notice of Availability of a Draft Environmental Impact Report.

Located in the County of Orange, California, the City of Los Alamitos is on the northwestern boundary of the County and approximately 23 miles south of downtown Los Angeles.

The proposed project is an update to the City's General Plan and is intended to provide guidance for long-term growth, maintenance, and preservation in the City over the next 20-plus years.

The proposed General Plan Update addresses the required elements and one optional element. The project identifies the Los Alamitos Joint Forces Training Base (JFTB) as Community & Institutional/JFTB.

Irwindale Materials Recovery Facility and Transfer Station Project

No

City of Irwindale

Irwindale / Los Angeles / San Gabriel Valley

(Paula Kelly) (626) 430-2207

2014-09-22

Notice of Completion / Notice of Availability of Revised Draft Environmental Impact Report.

Located on a vacant property in the City of Irwindale, in eastern Los Angeles County, California, the proposed project would construct and operate a materials recovery facility and transfer station (MRF/TS) with a fueling facility/convenience store. A MRF/TS is a regional facility where residential, commercial, and/or industrial municipal solid waste and recyclable materials are delivered by commercial and non-commercial haulers, and sorted, and processed in one central location prior to delivery at end use distributors.

The proposed MRF/TS facility would be designed to receive, process and transfer up to 6,000 tons per ton (tpd) based on estimated averages of 3,000 tpd of municipal solid waste, 1,000 tpd of green waste, 1,000 tpd of construction & demolition materials, and 1,000 tpd of self-haul waste.

The proposed project site is approximately 17.22 acres, irregular-shaped, triangular, and unimproved.

The Federal Transit Administration (FTA) is the Federal Lead Agency for the preparation of an Environmental Impact State (EIS) in accordance with NEPA, while the San Bernardino Associated Governments (SANBAG) is the Local Lead Agency for the preparation of an Environmental Impact Report (EIR) in accordance with CEQA for the proposed project.

The proposed project would include the development of new railroad infrastructure along an approximately nine-mile section of rail corridor owned by SANBAG and commonly referred to as the Redlands Subdivision.

The proposed project would include the development of four new stations consisting of boarding platforms with supporting amenities and parking and a new train layover/storage facility. In addition, the proposed project would include track upgrades to include signal improvements, culvert and utility replacements and relocations, replacement or retrofit of six existing bridge structures, and improvements to 30 grade crossings.
Project Description:

Located in the City San Buenaventura, County of Ventura, California, the proposed project is a mixed-use development with 255 units consisting of Stacked Dwelling and Mansion building types ranging from 3 to 5 stories high with a total floor area of approximately 292,620 square feet on 3.5 acres. The proposed development would provide a combination of private and common open spaces for the residents. The proposed project would also introduce a private street, built to public standards, diving the site.

Comment Due Date: 2014-09-10

Project Description:

Located in the Menifee Valley between the City of Menifee and the City of Murrieta, the proposed project would develop 530 residential units on an approximately 170-acre site. The proposed project would also install all of the required utility and roadway infrastructure to support access and use of the property at an overall density of approximately 3.1 units per acre.

To accommodate the proposed development, an amendment to the existing General Plan and a change of zone (to be assigned) for the entire project site would be required. The General Plan Amendment would revise the Land Use Designation from RE:EDR to CD:MDR, and the proposed approval of the amendment would also remove the Estate Density and Rural Policy overly from the proposed project site.

Project Description: Notice of Preparation of a Draft Environmental Impact Report.
Located in the City of Fullerton, County of Orange, California, the proposed project is a Specific Plan that would establish the allowed land uses, maximum allowable development, and land use regulations and guidelines for development within the Specific Plan boundaries.
The proposed Specific Plan would allow for the development of up to 1,142 residential units (including live/work units) and approximately 230,190 square feet (sf) (including the reuse of the existing 42,000-sf BCI Administration Building), of business park/industrial, office, and commercial/retail uses. Two mixed-use plazas and a future transit plaza are proposed, and roadway and utility infrastructure required to serve the project would be installed.
To implement the proposed project, it would require, among others, a General Plan Revision to "Neighborhood Center Mixed Use", a Zone Change to "Specific Plan District", adoption of the Specific Plan, and approval of the Major Site Plan and Tentative Tract Map.

**Comment Due Date:**
Notice of Public Hearing and Availability of Final Environmental Impact Report.

Public hearing will take place at 9:30 a.m. on Thursday, September 11, 2014 at the Los Angeles City Hall.

Located in the City of Los Angeles, County of Los Angeles, California, the proposed project would modify a project previously approved by the City of Los Angeles in 2009 (the Approved Project). The Approved Project proposed approximately 358,881 square feet of net new retail/restaurant space, 106,523 square feet of new office uses, and 252 residential units for a total of 770,000 square feet of residential uses.

As part of the Modified Project, it would reduce the residential component and make minor modifications to the commercial uses in the Approved Project, resulting in an overall reduction in development. Specially, the Modified Project would include reduction of approximately 700,000 square feet of residential floor area, or 242 dwelling units, for a reduced total of 20 dwelling units (rental or condominium) and a new total floor area of 70,000 square feet.

An addendum is being prepared because all of the impacts associated with the Modified Project are within the envelope of impacts identified in the Certified EIR, and no additional environmental analysis of the Modified Project is necessary.

Project Title: Broad Beach Restoration Project

Reg. Significance: No

Lead Agency: California State Lands Commission

City / County / Subregion: Malibu / Los Angeles / Las Virgenes

Contact: Jason Ramos - (916) 574-1814

Comment Due Date: 2014-09-15

Project Description: Notice of Public Review and Extension of Comment Period.

This is a notice that the California State Lands Commission staff has extended, for an additional 31 days, the time for public review of the Revised Analysis of Impacts to Public Trust Resources and Values associated with the proposed project to September 15, 2014.
Project Description: Notice of Completion / Notice of Availability.

Located within the City of Irwindale, County of Los Angeles, California, the proposed project would construct, operate, and reclaim (backfill) the existing inactive Olive Pit mine. The proposed project site is approximately 190 acres.

The proposed project would include three components: 1) construction of a new on-site access road and relocated driveway entrance on the south side of the Pit; 2) phased extraction of mineral resources; and 3) site reclamation.

Project Description: Notice of Intent to Adopt a Mitigated Negative Declaration.

Located in the City of Newport Beach, County of Orange, California, the proposed project would include the reconfiguration of the arrangement of uses on the project site to establish a new public boat dock in an area of Newport Harbor that currently lacks a public dock. It would also improve the private Balboa Marina including its water-side and land-side areas.

The new public boat dock would include a gangway and approximately 12 public boat slips including eight (8) new boat slips and four (4) boat slips that would be relocated to the public dock from the existing private Balboa Maria.

In the land-side area of the marina, the proposed project would demolish the existing Balboa Marina parking lot and a 1,200 square feet of building. In their place, a reconfigured parking lot and a new 19,400 square feet of marine commercial building with tuck-under parking would be constructed.
City of Menifee

Project Description:
The City of Menifee circulated a NOP for the proposed project for public review and comment from May 7, 2014 through June 6, 2014, and during which period, the City held a scoping meeting. During the public review period, several comment letters were received. Since that time, the project description has been revised to address some of the comment letters. Changes include a General Plan Amendment to address circulation mapping errors, and the addition of Class II Bike Lanes, consistent with the General Plan.

The recirculated NOP for the proposed project would be scheduled for a 30-day public review/comment period from August 18, 2014 through September 17, 2014.

Los Angeles County Metropolitan Transportation Authority

Project Description:
Notice of Availability for the Eastside Transit Corridor Phase 2 Project Draft Environmental Impact Statement/Environmental Impact Report
The project area covers over a 50 square mile area to the east and southeast of downtown Los Angeles. It includes portions of the cities of Commerce, Los Angeles, Montebello, Monterey Park, Pico Rivera, Rosemead, Santa Fe Springs, South El Monte, Whittier, and portions of unincorporated Los Angeles County, including East Los Angeles and west Whittier-Los Nietos.

The following four alternatives were evaluated in the Draft EIS/EIR: No Build, Transportation Systems Management (TSM), and two build alternatives utilizing Light Rail Transit (LRT) technology: the State Route 60 (SR 60) LRT Alternative and the Washington Boulevard LRT Alternative. Depending on the selected alternative, the Project would extend the existing Metro Gold Line Eastside Extension (MGLEE) LRT system from its current terminus at the Atlantic Station to the east by 6.9 to 9.5 miles to either Peck Road in the city of South El Monte or Lambert Road in the city of Whittier.

Project Title: Proposed Interstate-5 HOV Lanes Improvements (SR-55 to SR-57) Project
Reg. Significance: No
Lead Agency: Caltrans, District 12
City / County / Subregion: Not Applicable / Los Angeles / **Not Applicable
Contact: Edward Dolan

Comment Due Date: 2014-09-12

Project Description: Notice of Public Hearing and Availability of Initial Study/Environmental Assessment

The section of I-5 located between State Route SR-55 and SR-57 within the cities of Tustin, Santa Ana, and Orange in Orange County, features one HOV lane each in the northbound and southbound directions.

The primary purpose of the proposed project is to reduce existing and projected traffic congestion in the existing I-5 HOV lanes in this section of I-5 through the construction of a second HOV lane in each direction, reducing travel delay for users of these HOV lanes and enhancing the efficient movement of people and goods.

Project Title: Santa Clarita Valley Sanitation District Supplemental Environmental Impact Report for Alternative Deep Well Injection Site
Reg. Significance: No
Lead Agency: County Sanitation Districts of Los Angeles County
City / County / Subregion: Not Applicable / Los Angeles / **Not Applicable
Contact: Mark Giljum - 562-908-4288-2456

Comment Due Date: 2014-09-20

Project Description: Notice of Preparation

The project site is located west of the Old Road between Valencia Boulevard and McBean Parkway on a disturbed, but undeveloped, portion of the Tournament Players Club golf course in Santa Clarita.

The project evaluated in this SEIR only includes the proposed DWI site and injection well components of the approved compliance project. The brine pipeline to the alternate DWI site will follow the same alignment, but will be slightly shorter than analyzed previously. As such, the revised brine pipeline will result in less environmental impacts and will not be addressed in the SEIR.

Based on available information, the SCVSD anticipates needing five injection wells, however, the number to be constructed may change depending on the results of a test well implemented during Phase I.
City of Coachella General Plan Update (GPA #13-02 and EIR)

The City of Coachella is a desert community and located at the eastern end of the Coachella Valley, in Riverside County, California. The City of Coachella General Plan Update encompasses future community development plans from now, until 2035. The General Plan will provide long term planning guidelines for the City's growing population and projected development.

Former Nabisco Foods Site Mixed Use Redevelopment Project

The project is located on 14.5 acres of vacant land at the northwest corner of Artesia Boulevard and Rostrata Avenue, Buena Park, California.

The project is a development plan to build approximately 149 townhomes, on approximately 100-room hotel, and one or two auto dealerships on 14.5 acres of vacant land in the City of Buena Park.
Notice of Class 2 Permit Modification Decision

The Class 2 Permit Modification will allow the facility to add approximately 2 gallons of mixed acid over the course of a week into a 250 gallon evaporator unit to recover precious metals.

Notice of Public Hearing and Notice of Intent to Adopt a Mitigated Negative Declaration

The project involves the redevelopment of the former Macy's building on the east end of the site (bounded by Colorado Boulevard on the north, Los Robles on the east, and Green Street on the south) by demolishing it and replacing it with two buildings: a six story hotel on the southern half and a six-story mixed-use building on the north end of the site, along East Colorado Boulevard, to include 25,000 square feet of ground floor restaurant and retail space and 71 for-sale residential units on the second through sixth floors.
Project Description:

The project is located in the northern part of Los Angeles County, stretching from the Ventura County, Kern County, and San Bernardino County border and the Los Angeles National Forest. This area covers approximately 1,800 square miles and includes over two dozen communities.

The proposed project would be a comprehensive update to the existing Plan, and it would include goals, policies, implementing programs, and ordinances. Served as a component of the Los Angeles County General Plan, the proposed project refines the countywide goals and policies in the General Plan by addressing specific issues relevant to the Antelope Valley, such as community maintenance and appearance, preservation of rural character, open space, and agricultural lands, and provides more specific guidance on elements already found in the General Plan.

Project Description:

Tentative Parcel Map 060604 are being submitted for review and comments. It would subdivide one (1) lot into two (2) residential lots at the proposed project site within the R1-15,000; Single Family Residential and Rural Overlay Zoning Districts.
Project Description: Notice of Preparation of a Draft Environmental Impact Report.

The City of Los Angeles Department of Recreation and Parks, in conjunction with the Friends of the Hollywood Central Park (FHCP), is evaluating the development of Hollywood Central Park (HCP). The proposed HCP would be a deck park that would cap a segment of the U.S. 101 (Hollywood Freeway).

Located in the City of Los Angeles, County of Los Angeles, California, the proposed 38-acre project area would encompass the air space above approximately one (1) mile of the Hollywood Freeway and within Caltrans right-of-way with varied width between 200 and 300 feet.

The purpose of the proposed project is to create community connectivity by developing an open space resource that serves as a local point for recreation and civic life in the community. By constructing a cap over a portion of the existing U.S. Freeway 101, the proposed project would create a street-level urban park that reunites communities separated by the Freeway more than sixty years ago. Additionally, the proposed project would adaptively transform unused air space into a community resource.

Because the proposed project would be built in the airspace above an existing Freeway, there would be a unique set of land use and zoning considerations that will be required to implement the development.

Project Description: Notice of Public Hearing before the City Council.

The proposed public hearing on the project would take place on September 2, 2015, at 5:45 p.m. in the Council Chamber, Santa Ana, California.

Contact: Tricia Thrasher, ASLA - (909) 787-4201
Comment Due Date: 2014-09-25
Project Description: Notice of Completion of Negative Declaration.

Located within and adjacent to an off-campus residential development known as Creekside Terrace, approximately 770 feet from the southern boundary of U.C., Riverside's West Campus Area, the proposed project would involve stabilization of the north bank of an existing drainage channel. The existing drainage channel is located adjacent to the University-owned residential development and partially located on property owned by others.

The existing channel will be reshaped and rip-rap will be placed on the north bank to match existing conditions on the south bank. The proposed improvements will require the removal of all vegetation located on the north bank as well as the channel bottom. Proposed ongoing activity will maintain a vegetation-free condition on the north bank to ensure channel flow capacity is maintained.
**Project Description:** Issuance of Final RCRA Hazardous Waste Facility Permit.

The permit (EPA Identification Number: CAD028409019) is issued for Crobsy & Overton, Incorporated in Long Beach, Los Angeles County, California, for the treatment and storage of hazardous waste.

**Project Description:** Notice of Public Hearing on a Mitigated Negative Declaration.

Located in the City of Fontana, County of San Bernardino, California, the proposed project would create new multi-family general plan designations and an emergency shelter overlay. It has been determined that the project will not have a significant effect on the environment, and a mitigated negative declaration has been prepared.

The public hearing on the prepared Mitigated Negative Declaration will take place on September 16, 2014 at 6 p.m. at City Hall Council Chambers.
Project Description:

This is an announcement of a community open house to update on the on-site and off-site environmental investigation and cleanup activities related to the former Athens Tank Farm, a 122-acre site in the Willowbrook area of unincorporated Los Angeles County. The community open house will take place on Saturday, September 13, 2014, from 1 pm through 5 pm at the Enterprise Park Gymnasium, located at 13095 Clavis Avenue, Los Angeles, California 90059.

Project Description:

Located in the City of Los Angeles, County of Los Angeles, California, the proposed project is a mixed-use development consisting of 695 residential condominium units and approximately 24,900 square feet of commercial space. The project would include a Density Bonus providing 5% of the units for Very Low Income households. The proposed development would demolish the existing improvements and build five (5) new structures ranging in height from 62 feet to 91 feet with commercial uses located at the ground level along Santa Monica Boulevard. In addition, the project would provide 1,391 parking spaces and 123,501 square feet of open space.

Project Description: Notice of Preparation of a Draft Program Environmental Impact Report.

Located in several watersheds of Los Angeles County, the proposed project, if implemented, would give Permittees of the 2012 Municipal Separate Storm Sewer System (MS4) the option of implementing an innovative approach to Permit compliance. The proposed project is intended to improve regional water quality, reduce impairment of water bodies for designated beneficial uses, promote water conservation and supply, enhance recreational opportunities, support public education opportunities, improve local aesthetics, and manage flood risks.
Fullerton Road Corridor Improvements

Project Description:
Located within the City of Industry jurisdictional boundary (Fullerton Road / State Route 60) and ending at Camino Bello (unincorporated Los Angeles County [Roland Heights]), the proposed project would include roadway widening along 0.45 mile of Fullerton Road. The proposed improvement would add a third lane (in each direction) along Fullerton Road and include the future accommodation of a Class II bicycle lane from Colima Road to Camino Bello. Sidewalks, curbs, and gutters will also be reconstructed. At Fullerton Road and State Route 60, the existing eastbound off-ramp would be reconstructed as part of the widening project to accommodate an additional right-turn lane.

Harmony Specific Plan (SPR-011-001)

Project Description:
The City of Highland, as CEQA lead agency, has prepared and is recirculating portions of the Draft Environmental Impact Report (DEIR) for the proposed project for public review and comment from August 19, 2014 through October 13, 2014. The recirculated portions of the DEIR contain new information and analysis regarding 1) biological, 2) air quality, and 3) traffic impacts.

Document Type: NEGATIVE DECLARATION
Project Title: Planning Master Project (PLN14-0027)
Reg. Significance: No
Lead Agency: City of Glendora
City / County / Subregion: Glendora / Los Angeles / San Gabriel Valley
Contact: Sean McPherson - (626) 914-8214
Comment Due Date: 2014-09-16
Project Description: Notice of Intent to Adopt a Negative Declaration.

Located in the City of Glendora, County of Los Angeles, California, the proposed project is a development plan review and tentative tract map to allow the construction of 23 two-story townhomes with 1,364 to 1,802 square feet of living space per unit. Each unit provides 3 bedrooms and 2.5 bathrooms as well as an attached two-car garage. Twenty-one (21) additional parking spaces will be provided on-site to serve the proposed development.
The Department of Toxic Substances Control (DTSC) is proposing to re-adopt emergency regulations which expand the existing options for the disposition of Cathode Ray Tubes (CRTs) and CRT glass currently regulated under universal waste regulations by removing the standard that a universal waste handler may treat CRTs only if the glass is sent for recycling to either a CRT glass manufacturer or a primary or secondary lead smelter.

If approved, the emergency regulations will remain in effect until October 15, 2016, a period of two years past their original expiration date, October 15, 2014.
