SOUTHERN CALIFORNIA ASSOCIATION OF GOVERNMENTS

INTERGOVERNMENTAL REVIEW CLEARINGHOUSE REPORT

This Intergovernmental Review Clearinghouse Report summarizes the federal grant applications, environmental documents and other information received by SCAG’s Intergovernmental Review (IGR) Section during the period 2014-09-01 through 2014-10-31. The Clearinghouse Report consists of two sections, Federal Grant Listing and Environmental Documentation Listing.

The Federal Grant Listing is provided to inform your organization of all grant applications for federal assistance from our region in accordance with Executive Order 12372. The listing includes state sponsored plans and project types such as Housing and Community Development, Urban Mass Transit, and Human Services. The Environmental Documentation Listing describes regionally significant and non-regionally significant facilities (e.g., transportation, wastewater treatment), residential, commercial and industrial projects which have been voluntarily submitted for review by local governments. Environmental documents received include Notices of Preparation, Environmental Impact Reports, Environmental Impact Statements, Negative Declarations and Mitigated Negative Declarations.

A SCAG Project Identification Number organizes project descriptions for both the Federal Grant and Environmental Documentation listings.

IGR CONTACT

To include the interest of your jurisdiction or comment on proposed comprehensive planning, area-wide coordination or environmental impacts please contact the IGR Section prior to 2014-11-30. Please send one (1) copy of all environmental documentation. Also, please provide the name and telephone number of the contact person on your transmittal. We may be reached at:

Mailing Address: Southern California Association of Governments Intergovernmental Review Section 818 West Seventh Street, 12th Floor Los Angeles, California 90017-3435

Telephone: (213) 236-1800
Facsimile: (213) 236-1963

Questions regarding the Clearinghouse Report should be directed to Lijin Sun, (213) 236-1882.

MORE INFORMATION

The IGR web page includes staff prepared publications describing items and projects received by the IGR Section, and other web sites that may be useful to persons seeking information about how to comply with CEQA and the CEQA Guidelines. For more information, please visit SCAG’s IGR web page at www.scag.ca.gov/igr/.

Proposed Cleanup Plan for Avalon Triangle Site in Wilmington

Reg. Significance: No
Lead Agency: Department of Toxic Substances Control
City / County / Subregion: Los Angeles / **Not Applicable
Contact: Don Indermill - (818) 717-6561
Comment Due Date: 2014-10-01

Project Description:
The proposed draft plan is to clean up contaminated groundwater present at the City of Los Angeles Harbor Department Avalon Triangle site. The plan was developed specifically for the 2.9 acre site. Pursuant to CEQA, a Negative Declaration has been prepared for the proposed cleanup actions.
Located in the City of South Pasadena, County of Los Angeles, California, the proposed project consists of a new 2,669 square foot single family home on a 6,674 square foot undeveloped lot. The proposed home includes a two-car garage with a roof deck above as well as living areas at the street level.

Located in the City of South Pasadena, County of Los Angeles, California, the proposed project would add a total of eight cellular panel antennas, four R.R.U.’s, and four GPS antennas to supplement existing cellular panel antennas mounted on the City water tank.
Document Received: 2014-09-02

SCAG ID. No: IGR8184_9166
Document Type: OTHER DOCUMENT
Project Title: Changes to Soil and Groundwater Cleanup System
Reg. Significance: No
Lead Agency: Department of Toxic Substances Control
City / County / Subregion: Colton / Los Angeles / San Bernardino
Contact: Ryan Batty - (916) 255-6424
Comment Due Date:
Project Description: Work Notice for the Proposed Changes to Soil and Groundwater Cleanup System.
The proposed changes would occur at the former Univar USA (Univar) site. The Department of Toxic and Substance Control (DTSC) would oversee cleanup actions at the proposed site. DTSC has recently approved modifications to the equipment used to clean up the soil and groundwater at the site.

Comment Due Date:
Project Description: Notice of Public Hearing.
This is a notice of public hearing on the proposed project on Tuesday, September 9, 2014 at 7 p.m. in the City Council Chambers at 100 Civic Center Drive, Newport Beach.
Notice of Intent to Adopt Mitigated Negative Declaration.

The proposed project is request for a Historic Preservation Review that would authorize the redevelopment of a 6,470-square foot area within the Ivy Lawn Memorial Park Historic District. The project would include the rehabilitation / repurposing of a 930-square foot structure called the "Pump House" to be used as a multi-purpose room. Additionally, the project would include several new accessory structures including a wooden patio trellis, low stone walls and wood fences, the removal of some invasive landscaping and a new landscaping for the subject area.

Project Title: California High-Speed Rail System Palmdale to Burbank Section
Reg. Significance: Yes
Lead Agency: California High-Speed Rail Authority
City / County / Subregion: / Los Angeles / **Not Applicable
Contact: Mark McLoughlin - (916) 403-6934
Comment Due Date: 2014-09-12
Project Description: Scoping Comment Period Extended.

On July 24, 2014, the California High-Speed Rail Authority (Authority) and the Federal Railroad Administration (FRA) published Notices of Preparation and Notices of Intent (NOPs/NOIs) for the receipt of public agency comments regarding the preparation of environmental documentation for the Palmdale to Burbank high-speed rail project section. At the same time we requested comments from all stakeholders.

In its continued efforts to ensure comprehensive agency and public participation, the comment period has been extended to Friday, September 12. The extension is a result of stakeholder interest, time extension requests and the Authority’s commitment to engagement with both agencies and the public during the advancement of these important high-speed rail project sections.

Project Description: Notice of Preparation of a Draft Environmental Impact Report.

Bounded on the north by Telegraph Road, on the east by existing industrial and commercial development in the existing Santa Paula city limits, on the south by agriculture and on the west by the Adams Barranca, the proposed project site contains frontage along State Route 126 and Telegraph Road and is bisected by the Ventura County Transportation Commission (VCTC) railroad right-of-way.

The proposed project contains a comprehensive set of plans, exhibits, regulations, conditions and programs for orderly development of the Business Park, which is designed to contain a combination of office, manufacturing, research and development, professional office, and limited commercial uses. Additionally, the proposed project would address vehicular circulation, landscaping, pedestrian walkways and infrastructure.

Contact: Grace Williams - (951) 656-7000
Comment Due Date: 2014-10-20

Project Description: Notice of Availability of a Draft Environmental Impact Report.

Located in Riverside County, California, the proposed project is a multi-jurisdictional endeavor to design and construct a fully lined concrete flood control channel that will provide 100-year flood protection to residential, commercial, federal, public and privately owned properties within the vicinity of the project site. The purpose of the project is to reduce flooding impacts currently experienced by the residential, commercial, federal, public, and privately owned properties within the vicinity of the channel.

The proposed project alignment will generally flow the existing Heacock Channel starting at the intersection of Cactus Avenue and Heacock Street. It runs parallel to Heacock Street for approximately 9,800 linear feet where it terminates at the recently improved Heacock Street Bridge at Perris Valley Channel.
Notice of Intent to Adopt a Mitigated Negative Declaration.

The proposed project is a zone code amendment entitled the Freeway Overlay District. The proposed amendment will permit pole signs and billboard signs along State Route 91. The ordinance allows for one pole sign per freeway-adjacent parcel, with a display no larger than 160 square feet, and a maximum of 18 feet above the adjacent finished grade of the SR-91 freeway to the bottom of the sign face. The ordinance allows for one billboard sign per 2,500 linear feet on each side of the SR-91 freeway, with a display no larger than 15,000 square feet, and a maximum of 55 feet above the adjacent finished grade of the SR-91 freeway to the bottom of the sign face.
Project Description: Notice of Preparation of a Draft Environmental Impact Report.

Located in proximity to Highway 15 to the northwest and Highway 210 to the southwest in the northern portion of the City of Fontana, County of San Bernardino, California, the proposed project would be an approximately 763,350 net square feet "high-cube" logistics warehouse on an approximately 38.3-acre rectangular-shaped site. Approximately 29 acres of the proposed project site is zoned Regional Mixed Use (R-MU) and located within the Warehousing Distribution/Logistics Overlay District (WDLOD). The remaining 10-acre portion is currently zoned General Commercial (C-2) and is located outside the WDLOD.

The proposed project would consist of a single building containing 746,350 square feet of ground-floor logistics warehouse operations and supporting office spaces, and 17,000 square feet second-floor mezzanine spaces. The two offices would provide administrative spaces for the principle use, and depending on the number of logistics warehouse tenants, may ultimately support up to two tenants.

To facilitate truck and passenger car traffic, the proposed project would include a total of three driveways. The project would also include approximately 104 in total of truck bays, facing north and south, away from Sierra Avenue and the existing residential uses. Approximately 220 parking spaces (212 standard and 8 accessible) would be provided on the project site. Moreover, the project site would provide roughly 291 parking spaces for tractor-trailers.

Project Description: Notice of Preparation of a Draft Environmental Impact Report.

Located on an approximate 35-acre site within a larger 355-acre County of Los Angeles-owned property in the City of Lancaster, County of Los Angeles, California, the proposed project would be developed using the existing Mira Loma Detention Center property and facilities, which are currently not occupied with inmates or serving detention functions.

The proposed project would involve the reuse and expansion of the Mira Loma Detention Facility to provide a total of 1,616 beds for low- to medium-security female inmates. The existing facility would be renovated to provide secured dormitory housing in twinned barracks (896 beds), special purpose single barracks (128 beds), and new transitional housing (336 beds) and existing dormitories (256 beds), along with other support services.

Based on the adopted Board of Supervisors policy, the proposed project would be designed to achieve at least the LEED Silver level of certification.
Notice of Public Hearing.

This is a notice of public hearing on the proposed hotel development in the City of Highland, County of San Bernardino, California. The public hearing will take place on September 16, 2014, Tuesday, at 6 p.m. in the Highland City Council Chambers.

The proposed project would include the construction and operation of a three (3) phased development. They would include the demolition and reconstruction of a service station and convenience store, conversion of an existing apartment complex into a 36 room motel and construction of an expansion to the motel to accommodate 36 additional rooms, for a total of 72 rooms.

Notice of Public Hearing.

This is a notice of public hearing that will be held on the proposed project on Monday, September 15, 2014, at 6 p.m., at City Hall Council Chambers, located at 6615 Passons Boulevard, Pico Rivera, CA 90660.

The proposed project is in accordance with the Department of Toxic Substances Control's (DTSC) approved Preliminary Environmental Investigation Work Plan at Malibu High/Middle School and Juan Cabrillo Elementary School located within the Santa Monica Malibu Unified School District. The proposed project would be a comprehensive shallow soil investigation to determine PCBs levels and PCB contaminated building materials and to identify measures to be taken upon completion of the soil investigation.
City of Long Beach

Project Description:
Notice of Preparation of a Draft Environmental Impact Report.

Located in the City of Long Beach, Los Angeles County, California, the proposed project would be a residential development and would involve a subdivision of an approximately 10.56-acre project site into a gated residential community containing 131 detached single family homes on lots within a minimum square footage of 2,400 square feet. Additionally, the proposed project would include 262 private garage parking spaces and 40 on-street guest parking spaces.

To implement the proposed development, the proposed project would require an amendment to the General Plan to change the site's land use designation from Open Space and Park to Townhomes. Also, it would require a change in the site's zoning from Institutional to a new Planned Unit Development zoning district.

As a separate project for its own environmental review, there would be park at the southwest corner of the project site. Construction of this park is one of the conditions of the Development Agreement for the proposed project.

**Project Description:** Notice of Preparation for Draft Environmental Impact Report.

The proposed project would occur at both the Wilmington and Carson Operations of the Tesoro Los Angeles Refinery. Wilmington operations and the newly purchased adjacent BP Carson refinery would become one single entity. The refinery would be comprised of approximately 950 contiguous acres in size and operate within the City of Los Angeles and the City of Carson.

Both refineries will have new and modified equipment as well as connecting piping. In addition, modifications to existing Liquid Petroleum Gas Rail Unloading Facilities at the Carson Operations are also proposed.

The project will be designed to comply with the federally mandated Tier 3 gasoline specifications and with State and local regulations mandating emission reductions.

**Project Description:** Notice of Intent to Adopt a Mitigated Negative Declaration for Parkside at Baker Ranch Residential.

The project site encompasses 30 acres in the City of Lake Forest, County of Orange, at 28201 Rancho Parkway with the closest major intersection being Portola Parkway and Rancho Parkway.

The site is currently leased to approximately 81 tenants who use the property as a staging area for construction and landscaping businesses, or for the storage of vehicles, equipment and materials, and container plant storage and sales. The project would include closure and reclamation of the existing surface mine and the construction of 250 residential units between 1,500 and 3,300 square feet. To implement the proposed development, the project would require a General Plan Amendment, Zone Change, and Tentative Tract Map to allow for residential use.

City / County / Subregion: / Los Angeles / **Not Applicable
Contact: -
Comment Due Date: 2014-10-20
Project Description:

Notice of Preparation of a Draft Environmental Impact Report.

The County of Los Angeles is the Lead Agency to assess the feasibility of the adoption of an ordinance to allow hauled water as the primary source of potable water for new single-family residential construction in unincorporated areas of the County of Los Angeles, where there is no available service from a public or private water purveyor and where it has been demonstrated that an on-site groundwater well is not feasible.

Should the proposed project be adopted, approximately 42,677 parcel owners in the County could be eligible to seek authorization for use of hauled water to support issuance of a building permit for a single-family residence. The combined proposed initiative study area consists of approximately 285,500 acres or approximately 450 square miles.

Should the proposed project be adopted, areas that will be affected are located entirely within the 5th Supervisorial District in the northern one-third of the County.

Comment Due Date: 2014-10-13

Project Description: Notice of Intent to Adopt an Initial Study/ Mitigated Negative Declaration.
Located in the City of Costa Mesa, Orange County, California, the proposed project would include construction of a 89 units - 49 residential units and a 40 live/work units on an approximately 5.7-acre site. The project has a total gross density of 13 units per acre and a Floor Area Ratio (FAR) of 0.87 (live/work component). The buildings are designed with 3-story residential units within the northern portion of the project and 3-story live/work units within the southern portion. The project also includes approximately 0.6 acre of open space and 1.9 acres of neighborhood streets. In addition, a total of 276 garage/covered parking spaces and 56 open parking spaces are proposed (at least four spaces per residential unit and three per live/work).
The proposed project is located at the site of industrial land uses and a single residence within the Mesa West Bluffs Urban Plan area.
Notice of a Public Hearing.

This is a notice that the Planning and Land Use Management Committee of the Los Angeles City Council will hold a public hearing on Tuesday, September 16, 2014, at approximately 2:30 p.m., or soon thereafter, in the Board of Public Works Edward R. Roybal Hearing Room 350, City Hall, to consider the proposed project.

The proposed project's Alternative 9 (Enhanced Retail) described in the project's Environmental Impact Report has been approved. The Enhanced Retail Alternative would include the construction of one 37-story, 700,000 square foot office building, approximately 10,338 square feet of low-rise, one- and two-story office space, a 2,389-square foot Mobility Hub, a 39,037-square foot Transit Plaza, approximately 17,102 square feet of ancillary retail, and partially subterranean parking structure with 1,530 stalls on the Project Site.

To support the proposed development, the Enhanced Retail Alternative would include a 2.14-acre landscaped green roof deck on the parking structure which would be open to members of the public between 6:00 a.m. - 8:00 p.m. seven days per week, as an additional public amenity. In total, the Enhanced Retail Alternative would comprised approximately 729,829 square feet of occupiable square footage, which would be a reduction of approximately 1,421 total square feet as compared with the Modified Project.

Contact: Peter Ruttan - (916) 255-3734
Comment Due Date: 2014-10-20

Project Description: Draft Cleanup Work Plan for Public Review and Comments - Exide Technologies.

The project is a draft Interim Measures Work Plan for the removal of lead contaminated soils in the residential yards located in portions of Boyle Heights, East Los Angeles, and Maywood.

Exide recycles lead from used batteries. Exide's Vernon plant has been operating as a metal recycling facility for more than 90 years. In 2013, Department of Toxic Substances Control (DTSC) ordered Exide to test soil for lead in portions of Boyle Heights and East Los Angeles, and Maywood because these two areas identified most likely to be affected by air emissions. In fall 2013, some soil testing within these two assessment areas was completed. In August 2014, as rest was being conducted, soil with high levels of lead was successfully removed from two residential yards in the Northern Assessment Area.

For the draft Interim Measures Work Plan, an initial study and draft Negative Declaration have been prepared in accordance with the CEQA.

Project Description: Notice of Preparation of a Draft Environmental Impact Report.

Saticoy is a small, unincorporated community located along the boundary between the City of Ventura and the unincorporated County of Ventura. The proposed project is a comprehensive revision of the existing Saticoy Area Plan, including goals and policies, land use maps, vehicular and non-vehicular mobility maps, and design guidelines for Old Town Saticoy. The proposed project also includes changes to zoning, including zoning maps and revisions to zoning within Old Town Saticoy: 1) new zoning classifications; 2) modifications to the Use Matrix; and 3) development standards.

The proposed project would also require a General Plan Amendment since the Saticoy Area Plan is part of the General Plan, as well as the Non-Coastal Zoning Ordinance. The time horizon for the proposed project is 20 years or from 2015 through 2035.

Project Title: InterHealth Corp. Medical Office Building (MOB)
Reg. Significance: No
Lead Agency: City of Santa Fe Springs
City / County / Subregion: Santa Fe Springs / Los Angeles / Gateway Cities
Contact: Wayne Morrell - (562) 868-0511

Comment Due Date: 2014-10-17
Project Description: Mitigated Negative Declaration
Located in the City of Santa Fe Springs, County of Los Angeles, California, the proposed project would include the development of a three-story, metal Medical Office Building (MOB) for outpatient uses, owned and operated by InterHealth Corp, at the project site. Immediately adjacent to the project site are commercial uses. To implement the proposed development, the project would require a Development Plan Approval and Code Amendment.

The previous public review period was from July 10, 2014 to September 23, 2014 (45 days). The public review period will now extend to October 23, 2014.

Notice of Public Hearing.

This is a notice that a public hearing on the proposed project will be held on Thursday, October 2, 2014, at 6:30 p.m. in the Council Chambers at 100 Civic Center Drive, Newport Beach.
Notice of Public Hearing Before the City Council of the City of Huntington Beach.

This is a notice of public hearing on the proposed project that the hearing before the City Council will be held on Monday, October 6, 2014, at 6 p.m. in the City Council Chambers, 2000 Main Street, Huntington Beach.

Notice of Availability of a Draft Environmental Impact Report.

Located in the City of Fontana, San Bernardino County, California, the proposed project is physically divided into three components identified as the 77.56-acre Near Term Development Site, the 10-acre Long Term Development Site, and the 20-acre Long Term Park Site.

The proposed project may include the ultimate development of two parts: 1) four logistics warehouse buildings for a total of 2,171,449 square feet of high cube warehouse/distribution uses (three buildings on the Near Term Development Site and one building on the Long Term Development Site) and 2) an active park with four soccer fields. In the Near Term Development Site, the three warehouse buildings would total 1,883,234 square feet (Building 1: 634,843 square feet, Building 2: 1,038,499 square feet, and Building 3: 209,892 square feet).

For the Near Term and Long Term Development Sites, the proposed project would consist of 1) a General Plan Amendment to change the General Plan Land Use Designation of the project site from Residential Planned Community (R-PC) to General Industrial (I-G), 2) a Specific Plan Amendment to modify the Southwest Industrial Park Specific Plan boundary, 3) a Zone Change to change the zoning district from Residential Planned Community (R-PC) to Slover East Industrial District (SED) and Jurupa North Research and Development District (JND) within the Southwest Industrial Park Specific Plan.

Comment Due Date: 2014-11-13
Project Description: Initial Study / Environmental Assessment.
The California Department of Transportation (Caltrans) and the City of San Buenaventura (City) are formally initiating studies for the U.S. Route 101 California Street Off-Ramp Relocation Project. The proposed project would include relocation of the existing U.S. 101 northbound off-ramp at California Street to Oak Street, and replacement of the California Street Overcrossing in the City of San Buenaventura, County of Ventura, California.

The proposed project would alleviate existing and anticipated traffic congestion, improve safety at the northbound off-ramp intersection, and improve bicycle/pedestrian access.

Reg. Significance: No
Lead Agency: Los Angeles County Metropolitan Transportation Authority
City / County / Subregion: / Los Angeles / **Not Applicable
Contact: Susan Chivaratanond - (213) 922-1259
Comment Due Date: 2014-10-08
Project Description: Notice of Preparation of an Initial Study.
Located in the Willowbrook Community, unincorporated areas of Los Angeles County, the proposed project would include significant modernization and enhancement to the existing Station that has been operating for 25 years in order to improve its capacity to meet the growth in transit demand and the changing needs of the community. Situated on properties owned by Caltrans and the Los Angeles County Development Commission, the Station is a multimodal, multi-level station serving nearby communities.

Aiming to better connect the more than 30,000 daily transit riders from the Station to nearby education, cultural, and recreational attractions and services, the proposed project would improve local and regional accessibility and increase safety for all users of the transit, while increasing capacity to meeting the expanding functional needs of the Metro bus and rail system.

Comment Due Date: 2014-11-13

Project Description: Notice of Completion of Draft Environmental Impact Report.

Located in the community of Wilmington, County of Los Angeles, California, the proposed project would include the following activities: 1) modification to Hydrotreater Unit 90; 2) replacement of an existing charge heater with a functionally identical replacement heater; 3) installation of a Selective Catalytic Reduction Unit to control NOx emissions from the replacement heater; 4) demolition of an existing cooling tower and replacement with a new cooling tower of the same capability; 5) minor modification to the mid barrel handling and shipping system; 6) minor modifications to the hydrogen distribution system including new hydrogen distribution piping; 7) and modifications to one storage tank to allow a change of service (i.e. contents).
Notice of Intent to Adopt a Mitigated Negative Declaration.

Located in the City of Colton, County of San Bernardino, California, the proposed project would consist of an approximately 178,980 square foot industrial warehouse and parking, a major variance to allow the reduction of required parking spaces from 203 spaces to 112 spaces on an 8.34-acre site. The project would also include related improvements, including, but not limited to, parking and landscaping. The proposed warehouse would have 21 high docks, and 2 grade level docks.

The lead agency has determined that the proposed project is not considered a project of statewide, regional or area-wide significance.

Notice of Public Hearing and Addendum to Initial Study/Mitigated Negative Declaration.

The is a Notice of Public Hearing that will be held at 7 pm. on October 8, 2014 at City of Menifee City Council Chambers, located at 29714 Huan Road, Menifee, California 92586.

Located in the City of Menifee, the proposed project would amend the Specific Plan Zoning Ordinance for Planning Area 1-1 to allow for gym use with approval of a Plot Plan, extend the expiration time for Plot Plan and Conditional Use Permit approval to 5 years, modify parking requirements, and modify parking are design standards.

The lead agency has determined that the above project will not have a significant effect on the environment beyond those impacts previously analyzed in the previous Initial Study / Mitigated Negative Declaration.

Comment Due Date:
Project Description: Final Environmental Impact Report.

The Final Environmental Impact Report (EIR) for the proposed project has been completed, and it contains responses to the comments that were received during the public review period of the Draft EIR.

The proposed project sets out a site layout, architectural plans, and landscape design for one warehouse building that is proposed to be constructed and operated on the property. The building is designed to offer 1,450,000 square feet of interior floor space consisting of up to 12,000 square feet of office space, 66,790 square feet of mezzanine space and a 1,371,210 square feet of warehouse. The proposed structure would be 42 feet in height and provides 225 loading bays. The western approximately 6.99 acres of the property would remain undeveloped, in conformance with the Moreno Valley Industrial Area Plan (MVIAP) designation of "Clear Zone" and the March Air Reserve Base Air Installation Compatibility Use Zone (AICUZ) Study.

The proposed project and the associated EIR have been scheduled for public hearing on the October 9, 2014 Planning Commission Meeting at 7 p.m. in the City Hall Council Chamber at 14177 Frederick Street, City of Moreno Valley, California

SCAG ID No: IGR8213_9214
Document Type: NOTICE OF PREPARATION
Project Title: Yucaipa General Plan Update
Reg. Significance: Yes
Lead Agency: City of Yucaipa
City / County / Subregion: Yucaipa / San Bernardino / San Bernardino
Contact: Joseph Lambert
Comment Due Date: 2014-10-31
Project Description: Notice of Preparation of an Initial Study.

Yucaipa is bordered by the City of Calimesa to the south, the City of Redlands and unincorporated San Bernardino County to the west, and the foothills of the San Bernardino Mountains to the north and east. The proposed project is an update to the City of Yucaipa General Plan and is intended to shape development in the City and its sphere of influence (SOI) over the next 20 years. The project would involve reorganizing of the current General Plan into six required and one optional element. Build out of the General Plan Update would allow for up to 77,328 people, 30,077 residential units, 28,380 households, 9,581,104 square feet of nonresidential use, and 18,488 jobs.

Based on the Initial Study prepared for the proposed project, the City anticipates several potential impacts that will need to be addressed in the EIR.
The proposed project is a long-term, utility-scale energy and conservation plan. It consists of three elements that form an integrated interagency plan for permitting renewable energy and electric transmission line development in the Mojave and Colorado/Sonora Deserts of southern California: 1) BLM’s proposed Land Use Plan Amendments to the California Desert Conservation Plan, Bishop Resource Management Plan, and Caliente/Bakersfield Resource Management Plan; 2) the FWS’ proposed Habitat Conservation Plan (General Conservation Plan); and 3) the CDFW’s proposed Natural Community Conservation Plan.

The proposed project would cover more than 22 million acres in the California desert on private, state, and federal lands in seven counties - Imperial, Inyo, Kern, Los Angeles, Riverside, San Bernardino, and San Diego.

The DRECP uses best available science to identify development focus areas that may accommodate up to 20,000 megawatts of power from renewable energy projects and associated transmission over the next 25 years. The plan also identifies conservation areas, sensitive plant and wildlife species and a strategy for their management into the future.

The plan has two overarching goals: 1) renewable energy and transmission; and 2) desert conservation. To meet the first goal, the plan identifies specific development focus areas with high-quality renewable energy potential and access to transmission in areas where environmental impacts can be managed and mitigated. To meet the second goal, the plan specifies species, ecosystem and climate adaptation requirements for 37 covered species and 31 natural communities, well as the protection of recreation, cultural and other desert resources.

Link: http://drecp.org/draftdrecp/
The California Department of Transportation (Caltrans) is proposing a new multi-modal east-west link that connects State Route 14 in Palmdale (Los Angeles County) and SR-18 in the Town of Apple Valley (San Bernardino County). The proposed project would include freeway, tollway, expressway, high speed rail, and green energy alternatives.

The proposed 63-mile-long west-east facility would provide route continuity and relieve traffic congestion between State Route (SR) 14 in Los Angeles County and SR-18 and Interstate 15 (I-15) in San Bernardino County.

Three modes of transportation and additional project features to create a multipurpose corridor are being proposed and considered. They include 1) highway / expressway for up to four lanes of travel in each direction; 2) two proposed high speed rail (HSR) projects for the potential linkage with the proposed project; 3) bicycle routes and facilities, extending 36 miles along the corridor from U.S. 395 in Adelanto to the Palmdale Transportation Center; and 4) green energy generation, transmission corridor and infrastructure.

Contact: Richard Cameron -
Comment Due Date: 2014-11-18
Project Description: Notice of Availability of a Draft Environmental Impact Report for the MCC Cement Facility

Located on Pier F at 1150 Pier F Avenue in the Southeast Harbor Planning District of the Long Beach Port (Port), the 5.92-acre proposed project site is entirely owned by the Port and is within the highly industrialized inner Port complex.

The proposed project includes expansion of the MCC facility at Berth F208 into the adjacent vacant property, construction of four additional cement storage and loading silos with a truck lane under each pair of silos, installation of an emission control system (DoCCS) to control at-berth vessel emissions, and upgrades to ship unloading equipment. Additionally, the proposed project would construct the additional cement storage silos and truck loading equipment on the vacant property that is the location of the former warehouse. Upon completion of the new silos, a new ship unloader would be added, the larger existing unloader would be upgraded, and the smaller existing unloader would be decommissioned. Hence, the 4.21-acre site would be expanded to 5.92 acres.

Project Description: Notice of Completion and Notice of Availability.

Located along the north side of Petterson Lane and west of Garfield Avenue in the City of Paramount, County of Los Angeles, California, the proposed project would be a material recovery facility that would occupy a number of existing buildings, totaling a floor area of 146,600 square feet. A new receiving facility consisting of 39,500 square feet would be constructed. The total floor area of the existing and new building will be 186,100 square feet.

The primary function of the proposed facility would be to receive, process, recycle, and transfer source-separated recyclables and municipal solid waste (MSW). The maximum permitted capacity would be 2,450 tons per day.
California State Lands Commission (CSLC) consideration of a compromise Title Settlement and Land Exchange Agreement regarding certain interests in public trust lands within the Project area prior to implementation of a proposed residential development as part of the Department of Water and Power Specific Plan Amendment Project.

Document Type: ENVIRONMENTAL IMPACT REPORT
Project Title: Mater Dei High School Parking Structure Project
Reg. Significance: No
Lead Agency: City of Santa Ana
City / County / Subregion: Santa Ana / Orange / Orange County
Contact: Vince Fregoso - (714) 667-2700
Comment Due Date: 2014-11-19
Project Description: Notice of Availability for a Draft Environmental Impact Report

The project is located within the central portion of the City of Santa Ana and includes the existing Mater Dei High School campus. It would involve the construction of a three-level parking structure east of the school's existing campus and a two-story classroom building within the boundaries of the existing campus. The proposed parking structure would provide 990 parking spaces and have a maximum height of 30 feet. No subterranean levels are proposed. Construction of the parking structure would involve the voluntary acquisition of 19 existing single-family residential units by the Project Applicant. Baker Street, between St. Andrew Place and Berkeley Street, would be vacated, providing access from St. Andrew Place. Additionally, a portion of Occidental Street and Berkeley Street, between Baker Street and the proposed property line, would be vacated and cul-de-sacs would be constructed. The proposed classroom building would replace Buildings 300 and 500, resulting in the replacement of 21,240 square feet of existing classroom space with 30,820 square feet of new classroom space. The building would include 32 classrooms with a maximum height of 44 feet, and constructed out of stucco and concrete, similar to the existing two-story Academic Services Complex.

The DEIR indicates that upon compliance with regulatory compliance and recommended mitigation measures (as appropriate), all environmental impacts were found to be less than significant with the exception of aesthetics. Implementation of the proposed project would result in significant and unavoidable impacts related to change in visual character resulting from conversion of 19 residential units to a new 30-foot high parking structure. Architectural treatments and landscaping would reduce visual impacts; however, no feasible mitigation measures are available to reduce these impacts to less than significant levels.
Project Description: Final Environmental Impact Report.

The proposed project would include a mix of transit-oriented land uses to be developed as infill on an approximately 3.7-acre project site located in the City of Los Angeles, County of Los Angeles, California.

The final project design is currently being refined; therefore, this EIR evaluates a development envelope that represents the maximum development intensity anticipated for the site, along with the anticipated mix of uses.

The proposed project would provide for a mixed-use, transit-oriented infill development totaling a maximum of 425,000 square feet, including: 1) up to 345 residential units (for lease), with 20 percent reserved as affordable units; 2) up to 55,000 square feet of visitor-serving retail, including but not limited to a restaurant, a café, other food services, and a “commissary” or shared commercial kitchen space for culinary demonstrations and use by small businesses; 3) up to 786 subterranean parking spaces (with up to 150 parking privileges made available as replacement parking for the existing parking used by County employees, federal jurors, and area visitors); and 4) an extension through the project site to North Hill Street of the existing Historic Paseo/pedestrian trail that currently extends from Union Station to Olvera Street and is already planned to extend from Olvera Street to LA Plaza Park and the LA Plaza de Cultura y Artes (proposed as part of the LA Plaza Museum project) and the El Pueblo de Los Angeles Historic Monument.

The proposed Historic Paseo/pedestrian trail through the project site would be the centerpiece of the development and complete the connection from Union Station to the Fort Moore Pioneer Memorial on North Hill Street.

Project Title: East Area 1 Specific Plan Amendment
Reg. Significance: Yes
Lead Agency: City of Santa Paula
City / County / Subregion: Santa Paula / Ventura / Ventura
Contact: Janna Minsk - (805) 933-4214
Comment Due Date: 2014-11-17
Project Description: Notice of Availability of Supplemental Draft Environmental Impact Report.

Located on the eastern edge of the City of Santa Paula in the Ventura County, California, the proposed project would encompass approximately 501 acres of land that would provide for up to 1,500 residential units, public facilities (including parks and schools), and various neighborhood commercial and business park uses.

The proposed project is an amendment to the already-approved 2008 Specific Plan. The proposed project will maintain the same number of 1,500 residential units allowed in the 2008 Plan, while reducing the intensity of allowed light industrial and commercial uses from a combined total of 435,000 square feet to a combined total of 240,000 square feet.

The proposed project will reconfigure the 2008 Specific Plan area into three distinct planning areas that accommodate the residential neighborhoods, light industrial and commercial, and civic centers. Open space districts, including parks, greenways, and open space will also be created.

This is notice that a public hearing on the proposed project will be scheduled on November 19, 2014, Wednesday, at 6 p.m. at City of Pasadena Permit Center Hearing Room.
The proposed project would include the repair and replacement of facilities within the Arroyo Seco Canyon Area that were damaged or destroyed by Station Fire-related events of 2009. The improvements would allow the increased utilization of surface water rights held by the City and would improve water quality in the canyon, improve biological habitats, restore hydrological function and fish passage, and improve ecosystem health.
The proposed project would include enhancements. They would include 1) naturalize the Arroyo Seco streambed; 2) remove exposed portions of existing infrastructure designed for sediment removal; 3) restore and improve the intake facilities; 4) expand recharge operations by creating additional spreading basins; 5) reduce barriers to fish passage; 6) enhance recreational facilities; 7) build a new restroom facility; and 8) improve stormwater quality through a smaller decomposed granite parking lot. Additionally, the proposed project would remove a total of 17 protected trees in order to accommodate the proposed improvements.
Project Description: Notice of Proposed Ordinance Amendment the City of Redondo Beach’s California Environmental Quality Act Procedures.

The proposed project is amendment to the City’s CEQA procedures contained in Title 10 Chapter 3, including Article 1 through 11. A public hearing on the proposed amendment will be held on October 21, 2014, at 6 p.m. in the City Council Chambers.

Project Description: Proposed Consent Decree.

The proposed consent decree is with the Renu Plating Company. It resolves Department of Toxic Substances Control’s claims under the CERCLA. Under the proposed consent decree, the owner of the Renu Plating Company would pay the agency reimbursement for a portion of past response costs (investigation and cleaning up) incurred at the site.
Located in the City of Rancho Palos Verdes, the proposed project would occupy a 2,690-square-foot portion of the existing Harden Estate gatehouse to feature interactive, state-of-the-art exhibits telling the history of the Palos Verdes Peninsula. Tours of the facility would be docent-led and by appointment only. The museum and grounds would also be made available for up to twelve events each year for local non-profit organizations, with a maximum occupancy of 49 persons. Thirty-three off-street parking spaces will be provided on the grounds of the museum. An existing barn will be removed from the grounds, an existing 96-square-foot, 8 1/2-foot tall pergola will be legalized and the existing swimming pool will be modified into a reflecting pond by reducing its depth to less than 18 inches.

The proposed project would involve repair to the Squaw Mountain Road bridge, consisting of lining the channel bottom below the bridge with concrete, connecting the concrete-lined channel to the existing bridge abutments, placing a quarter-ton of riprap on the upstream and downstream sides of the concrete-lined portion of the channel (some of which would be buried by fill), and installing riprap slope protection on the northwest slope. An existing asphalt access road would be extended approximately 40 feet.
Notice of Intent to Adopt a Mitigated Negative Declaration.

Located in Rolling Hills Estate, Los Angeles County, California, the proposed project, formerly developed with a gasoline service station and a commercial plant nursery that have since been removed, would consist of approvals of Grading application; Zone Text Amendment for development standards for lot size in the Residential Planned Development (RPD) zone; Minor deviation for lot coverage; Tentative Parcel Map for a one lot subdivision; Conditional Use Permit for a Residential Planned Development; General Plan Amendment to change the land use designations from Neighborhood Commercial to High Density Residential; Zone change from Commercial Limited to RPD; and Neighborhood Compatibility Determination for the construction of four single-family patio homes.

The proposed project would consist of four two-story, detached patio homes with a shared driveway, which connects to Highridge Road. The proposed homes would be four-bedroom/four-bath units, with approximately 3,295 square feet in floor area (2,880 livable square feet plus 415 square feet of garage space). All units would have a two-car garage and one additional guest parking space for a total of 12 off-street parking spaces. The lot size is 0.51-acre, with a proposed total lot coverage of 33 percent. The project site is not located on any lists of hazardous waste sites.

Other Document

Plaza El Segundo and The Point Development Project

City / County / Subregion: El Segundo / Los Angeles / South Bay
Contact: Sam Lee – (310) 524-2346
Comment Due Date: 2014-10-23
Project Description: Notice of Public Hearing Before the Planning Commission

The public hearing will discuss the proposed project's Environmental Assessment No. EA-1075, Development Agreement No. DA 14-02 (Sixth Amendment to Development Agreement No. 03-01 for EA-631), and Zone Text Amendment No. ZTA 14-02.

The combined Plaza El Segundo (Phase 1A) and the Point (Phase 1B) Project Site is approximately 51.7 acres and the site is generally located at the northeast corner of Sepulveda Boulevard and Rosecrans Avenue within the C-4 (Commercial) Zone. The Plaza El Segundo development consists of 378,829 square feet of net floor area that is already constructed and The Point development consists of approximately 119,613 gross square feet that is under construction. The existing and permitted uses at the shopping center consist of large retail stores, specialty retail, a grocery store, restaurants, a spa and a fitness center.

The proposed project is a request: a) to amend the existing Development Agreement No. 03-01 for the combined development sites to allow a maximum of two Health Clubs and Fitness Centers provided that no such use exceed 8,500 square feet and the combined square footage does not exceed a total of 11,502 square feet of leasable floor area with a maximum of 10,000 square feet currently allowed; and b) a Zone Text Amendment to increase the area of General Office uses permitted in the Commercial Center from 28,735 square feet to 30,072 square feet.

The decision made by the Planning Commission regarding this matter is advisory to the City Council, regarding whether to amend the Development Agreement. The City Council certified a FEIR for the overall project on February 2005. A new environmental document is not required for the proposed DA amendment since the proposed changes would not result in a significant impact to the environment or require mitigation measures.

Project Title: Earvin "Magic" Johnson Park Master Plan Project

Reg. Significance: No

Lead Agency: Los Angeles County Department of Parks and Recreation

City / County / Subregion: / Los Angeles / **Not Applicable

Contact: Bryan Moscardini - (213) 351-5198

Comment Due Date: 2014-11-12

Project Description: Notice of Preparation of a Draft Environmental Impact Report.

Located in the Willowbrook community within unincorporated Los Angeles County, California, the proposed project would be a master plan for an approximately 120-acre area to provide recreational opportunities and amenities for residents and communities. The 120-acre area would include approximately 104 acres of existing park land with amenities like restrooms, picnic shelters, soccer fields, fitness course, lakes, children's play area, barbecues, drinking fountains, security lighting, and on-site lighted parking.

The proposed project would consist of nine primary components. They are 1) water features; 2) walking trails and exercise amenities; 3) sports complex and gymnasium; 4) circulation and parking; 5) equestrian center and trails; 6) children's play areas; 7) security and safety features throughout the park; 8) community center to be the center of the park; and 9) agency headquarters for the existing Department of Parks and Recreation-South Agency.
Notice of Intent to Adopt a Mitigated Negative Declaration

The City of Irvine Community Development Department has proposed a General Plan Amendment 00616969-PGA and Municipal Code Amendment 00617535-PZC to update population generation characteristics for consistency with 2010 Census population and housing figures, pursuant to the State Quimby Act requirements for parkland dedication. Specifically, the persons per dwelling unit in figures in Table A-3 of the Land Use Element of the General Plan and Section 5-5-1004, subsection D.1 of the Municipal Code (Subdivision Ordinance) will be amended to reflect the new population generation factors. The current residents per acre figures in the General Plan and acres per unit figures in the Subdivision will be removed as these statistics are not used as part of the City’s parkland dedication process.

No significant environmental impacts are anticipated. Therefore, no mitigation measures have been concluded in the project and a Draft Negative Declaration has been prepared.

Public Notice for Notice of Availability of Recirculated Draft Environmental Impact Report

A recirculated Draft Environmental Impact Report for the Phillips 66 Company Rail Spur Extension Project is complete and available for public review and comment. The proposed project is within the industrial land use category in San Luis Obispo County. The document addresses the environmental impacts that may be associated with the 6,915-foot eastward extension of an existing rail spur off of the Union Pacific rail mainline, a crude oil railcar unloading facility, pipeline, emergency access road, and other support infrastructure for the Phillips Santa Maria Refinery (SMR). The DEIR also includes a programmatic assessment of various coastal access options through the SMR site.
City Ventures is proposing development of for-sale homes, on either of two potential development sites in the City of La Habra Civic Center area, and the City of La Habra is proposing to relocate City Hall. This NOP includes an Initial Study to be examined in an EIR.

Development Option 1 would entail development of approximately 110 new, for-sale homes on approximately 5.5 acres within and adjacent to the City of La Habra Civic Center. Approximately 3.8 acres are occupied by City Hall, the Art Gallery, the Post Office and adjacent parking, driveways and landscape areas and 1.7 acres are occupied by the Crossroads Community Church and associated parking, yards and landscape areas; demolition of some of these buildings will require relocation in La Habra.

Approximately 101 townhomes (3-story, 2-3 bedrooms) and approximately 9 detached, single-family homes (2-story, 3 bedrooms) would be constructed on the development site. Approximately 274 parking spaces would be on-site, including 220 spaces within two car garages and 54 open spaces along the interior streets.

Development Option 2 entails development of approximately 48 new, for-sale homes on the site of an existing 2-story commercial office building and a former bank building (all will be demolished along with parking, landscape). Approximately 47 attached townhomes would be built within the 2.2 acre site. The townhomes would be Approximately 125 parking spaces would be provided, including 94 spaces within two car garages, 10 open spaces, and 21 spaces along the interior. The townhomes will would be three-story structures with two or three bedrooms.

Both development options will include rooftop solar photovoltaic panels; parking may increase or decrease by up to 10% depending on design efforts; and the ratio of homes may change per design, or they may all be the same type.
North Wind Inc (NWI), a contractor to the US Department of Energy (DOE), notified the California Department of Toxic Substances Control (DTSC) that DOE will transfer operational control of the Radioactive Materials Handling Facility (RMHF) and the Hazardous Waste Management Facility (HWMF) from the Boeing Company to the NWI effective on November 1, 2014. Both the RMHF and the HWMF are located wholly within Area IV of SSFL. While Area IV is owned and operated by Boeing, DOE owns, the approximately 90-acre, Energy Technology Engineering Center (ETEC) structures. THE RMHF and the HWMF are portions of ETEC, located on Boeing owned property.

THE RMHF is an Interim Status Facility, which means hazardous waste treatment permit application has been submitted to DTSC, but the permit has not been fully executed. NWI submitted a separate Class 1* permit modification for each facility to request DTSC approval of the operator transfer from Boeing to NWI.

Project Title: Fairfield Ranch Commons
Reg. Significance: No
Lead Agency: City of Chino Hills
City / County / Subregion: Chino Hills / San Bernardino / San Bernardino
Contact: Jerrod Walters - (909) 364-2753
Comment Due Date: 2014-11-10
Project Description: Notice of Availability and Intent to Adopt a Mitigated Negative Declaration.
Located on a 36.92-acre vacant lot in the City of Chino Hills, County of San Bernardino, California, the proposed project would a residential apartment development with 346 high density residential units on 14.73 acres and a 362,641-square-foot industrial business park (3 buildings) on 17.37 acres. The tentative map would subdivide one parcel into 4 parcels. General Plan Amendment would change the land use designation for the 14.73-acre residential development from Business Park to Very High Density Residential. Zone Change would change the zoning designation from BP (Business Park) to RM-3 (Very High Density Residential) for the 14.73-acre residential development; however, the BP zoning designation would remain the same for the other 17.37-acre portion of the site.

Document Type: MITIGATED NEGATIVE DECLARATION
Project Title: Toxic Air Contaminant Reduction for Compliance with SCAQMD Rules 1420.1 and 1402 at the Exide Technologies Facility
Reg. Significance: No
Lead Agency: South Coast Air Quality Management District
City / County / Subregion: Vernon / Los Angeles / Gateway Cities
Contact: Cynthia Carter - (909) 396-2431
Comment Due Date: 2014-11-14
Project Description: Notice of Intent to Adopt a Mitigated Negative Declaration.
Located in City of Vernon, County of Los Angeles, California, the proposed project is to reduce toxic emissions of arsenic, benzene and 1,3-butadiene to comply with the recent amendments made to SCAQMD Rule 1420.1 - Emission Standards for Lead and Other Toxic Air Contaminants from Large Lead-Acid Battery Recycling Facilities, as well to assure compliance with requirements in SCAQMD Rule 1402 - Control of Toxic Air Contaminants from Existing Sources including the proposed Revised Final Risk Reduction Plan.
Notice of Intent to Adopt a Mitigated Negative Declaration (Recirculated).

This is a recirculated Initial Study for Mitigated Negative Declaration that was under public review in October 2013. The recirculated document includes the results of a Determination of Biologically Equivalent or Superior Preservation Analysis which was prepared following the September 2013 release of the original Initial Study / Mitigated Negative Declaration. In addition, this recirculated document includes revised mitigation measures which are at least as effective or more than previously proposed.

The proposed project is located in the northwestern portion of the City of Lake Elsinore, in western Riverside County. The proposed project would consist of a residential development with approximately 76.5 acres of residential (468 dwelling units), 22 acres of open space, 22.5 acres of roadways, 1.6 acres of park (2.1 gross acres), and 28.2 acres of graded slopes and basins.

Mandarin and English Dual-Language Immersion Elementary School Project at Mark Twain Middle School

This project would consist of a 22,000 gross square foot single story school. The school would be designed to provide immersion education in Mandarin and English languages. The school would consist of classrooms, a library, cafeteria, gymnasium, and other support spaces.
Project Description: Notice of Preparation of a Draft Environmental Impact Report.

Located in the communities of Venice and Mar Vista within the City of Los Angeles, County of Los Angeles, California, the proposed project includes, but is not limited to, a new classroom building consisting of approximately 15 classrooms, a multi-purpose room, and administrative and support spaces; new food services and lunch shelter facilities; designated elementary and kindergarten play areas; designated student drop-off and parking areas; and modifications to approximately eight existing portable classrooms.

The Program was initiated approximately four years ago and was designed to grow over time to eventually serve students in kindergarten through fifth grade. The proposed project would enable the world language instructional pathways initiative in the Venice High School Complex to align, the Mandarin Program to continue to grow and operate on a single campus; the Spanish and English Dual-Language Immersion Program at Broadway Elementary School to grow; the Broadway Elementary School to continue to offer a traditional instructional program for the long term; and future expansion of the Mandarin and English Dual-Language Immersion Program into middle school on the proposed project campus.

Comment Due Date: 2014-10-20
Project Description: Notice of Public Hearing

Located in the City of Chino, San Bernardino County, the proposed project requests for an approval to subdivide 17.68 acres into 84 lots, ranging from 4,500 square feet to approximately 10,000 square feet, for future single-family residential development within the RDB (Residential, 8du/ac) zoning district in District Three of the Central Avenue Specific Plan; and a request to adopt an Addendum to the Chino General Plan Environmental Impact Report which has been prepared for this project. The project is within the scope of the EIR.
Project Description: Notice of Availability of Draft Environmental Impact Report.

Located in the City of Whittier, County of Los Angeles, California, the proposed project is a Specific Plan with the following primary components: 1) demolition of approximately 406,261 square feet of existing buildings associated with the former Nelles facility and existing onsite commercial use; construction of approximately 750 dwelling units, approximately 208,350 square feet of commercial land uses, and 4.6 acres of open space; and offsite infrastructure improvements including roadway improvements.

The proposed project is intended to provide an orderly and efficient development of the development site, in accordance with the City of Whittier General Plan. The proposed project would serve both planning and regulatory functions including land use regulations, circulation patterns, and open space land uses within a total of nine planning areas.

Project Description: Notice of Intent to Adopt a Mitigated Negative Declaration

Located along the Santa Anita Canyon Wash in the San Gabriel Mountain foothills, approximately 2.5 miles north of the City of Arcadia, County of Los Angeles, California, the proposed project would modify existing flood management and water conservation facilities, including the Santa Anita Dam, the Santa Anita Headworks, with Wilderness Park Culvert Crossing, and the Santa Anita Debris Dam. The proposed improvement would 1) reduce flood risk to downstream communities; 2) enhance sustainability of the local water supply and increase recharge to the groundwater basin by over 500 acres-feet per year; and 3) improve all weather access to the Arcadia Wilderness Park by constructing a new culvert crossing.
Located in the City of Glendora, Los Angeles County, the proposed project consists of grading and the installation of infrastructure improvements to create 19 defined building pads to be developed with two-story single-family residencies consistent with the Final Map approved and recorded in 1998. In 1990, the Glendora City Council approved and certified an EIR (SCH #88121403) for Tentative Tract Map No. 45858. The map approved the subdivision of approximately 71 acres of hillside land into 26 single-family residential lots, and additional purposes. The subdivision functions as two separate subdivisions and this Draft EIR propose a residential project on the undeveloped western portion.

The proposed project would include grading of the western portion for streets, drainage, utilities, building pads on 19 residential lots, and previously defined equestrian and hiking trails.

The City has prepared an Initial Study of potential significant environmental effect to be addressed in the EIR. Environmental effects in the areas of Agricultural and Forestry Resources, Land Use and Planning, Mineral Resources, Population and Housing and Recreation were found to be either less than significant or no impact in the Initial Study will, therefore, not be evaluated in greater detail in the EIR.
Project Description: Notice of Availability for a Draft Environmental Impact Report

Located in City of La Verne, Los Angeles County, California, the proposed project would upgrade existing and/or construct new facilities at the Weymouth Plant to accommodate the plant's maximum operating capacity and update the overall facility. The project would involve rehabilitating and refurbishing aging treatment structures, upgrading systems to improve system processes, enhancing worker safety, reducing carbon emissions with renewable energy, improving stormwater management, and ensuring compliance with recent legislation pertaining to the State Drinking Water Act.

Components of the Proposed Project include renovation of buildings; rehabilitation of facilities, construction and operation of solar facility; seismic upgrades; media and internal basin component replacement to the Filtration Basins; and mechanical component upgrades. The Proposed Project would also improve storm water control measures and the domestic and fire water systems throughout the plant.

The Draft EIR describes the potential significant impacts, mitigation measures, and alternatives to the Proposed Project.

Project Title: Long Beach Courthouse Demolition Project
Reg. Significance: No
Lead Agency: City of Long Beach
City / County / Subregion: Long Beach / Los Angeles / Gateway Cities
Contact: Craig Chalfant - (562) 570-6368
Comment Due Date: 2014-12-01

Project Description: Notice of Availability of a Draft Environmental Impact Report.

Located in the City of Long Beach, County of Los Angeles, California, the proposed project consists of the demolition of the former Long Beach Courthouse building and would entail the removal of the reinforced concrete, structural steel, siding, glass, and other building materials from the project site. Following the completion of the demolition activities, the proposed site would be secured with a fence to prevent unauthorized individuals from entering the site.
Project Description:
The City of Lancaster is holding a public scoping meeting on the proposed project in the community room at American Heroes Park, located at 642 West Jackman, Lancaster, California, on Wednesday, November 5, 2014 from 6 p.m. to 8 p.m.

The proposed project would involve the closure of the existing Lancaster Metrolink Station in order to address issues that are occurring in the downtown Lancaster area. The existing station would be locked and fenced off. Service to and from Lancaster by Metrolink would cease, leaving only the Palmdale station open for Metrolink riders in the Antelope Valley. Two alternative options are being considered: 1) for riders to drive to and board the train at the Palmdale station; and 2) to establish a bus/van service between Lancaster and the Palmdale station for Metrolink riders, essentially using the existing facility as a park and ride lot.
Notice of Completion and Availability of Draft Environmental Impact Report.

Located in the Hollywood community planning area, City of Los Angeles, County of Los Angeles, California, the proposed project is a mixed-use development on an approximately 3.6-acre site (154,648 square feet) parcel.

The proposed project has two development options to provide flexibility for changing market conditions. Option 1: the proposed project would contain up to 731 residential units. Option 2: the proposed project would include a mix of residential and hotel - up to 598 residential units and a 250 room hotel with related hotel facilities such as banquet and meeting area.

Under both options, the proposed project's two new buildings would be up to 28 stories and approximately 350 feet in height, and would be constructed with the same structural configurations, including the same massing of above-ground and below-ground structures. Additionally, both options would include approximately 24,000 square feet of street level retail and restaurant uses, recreation/spa facilities for residents, approximately 1,900 on-site parking spaces, and approximately 820 bicycle stalls. Parking would be located in a subterranean structure as well as in an above-ground structure along the northern edge of the project site. Moreover, both options would be based on a FAR of 6.0:1, a combined lot area of 154,648 square feet, and a developed floor area of 927,354 square feet.

Project Title: Berths 226-236 [Everport] Container Terminal Improvements Project
Reg. Significance: Yes
Lead Agency: Los Angeles Harbor Department
City / County / Subregion: Los Angeles / Los Angeles / Los Angeles City
Contact: Christopher Cannon - (310) 732-7693
Comment Due Date: 2014-11-24

Project Description:
Notice of Intent / Notice of Preparation of a Draft EIS/EIR

Located in the Port of Los Angeles, Los Angeles Harbor, in the City and County of Los Angeles, California the project is proposing terminal improvements at the Everport Terminal at Berths 226-236. The purpose of the proposed Project is to improve marine shipping and commerce by upgrading container terminal infrastructure in, over and under water on terminal backlands to accommodate the projected throughput and fleet mix of larger container ships (up to 16,000 twenty-foot equivalent units [TEU]) that are anticipated to call at the terminal through 2038. The project is needed to accommodate the project fleet mix, additional cranes and backland area for future operations. The project includes facilities and sites that are identified on the State of California Hazardous Waste and Substances Site List.

The project would use the Draft EIR to support permit applications required to implement the project and address national concern for both protection and utilization of important resources. Preliminary review of selected factors include an Environmental Impact Statement; Water Quality certification; Coastal Zone Management; Essential Fish Habitat (would be impacted through dredging, wharf improvements, and transport and disposal of dredged material offshore at LA-2); Cultural Resources; and Endangered Species. Additional actions that do not require a Corps permit but the indirect and cumulative impacts of these actions will be evaluated in the DEIR/DEIS as required by NEPA.
Project Description: Community Notice.

Located in the City of Gardena, Los Angeles County, California, the proposed project, if approved, proposed in situ chemical oxidation to break down volatile organic compounds that were found in groundwater. Under CEQA, a Notice of Exemption has been prepared, as the proposed cleanup actions will not have a significant negative impact on human health and the environment.

A proposed cleanup plan for groundwater, called a draft Removal Action Workplan (RAW), Operable Unit 2 (OU-2) is available for review and comment for the KB Gardena Building, LLC property. There is no immediate health risk because on-site workers and the public are not exposed to the contaminated water. However, long-term exposure to the elevated levels of Site contaminants can cause adverse health effects, DTSC requires a cleanup plan to ensure on-site workers and public are not exposed to groundwater impacts.

Comment Due Date: 2014-11-21
Project Description: Notice of a Negative Declaration.

The proposed project is a countywide 2013 State Implementation Plan for particulate matter (PM 2.5). It has been determined that the project would not have a significant effect on the environment.
The Federal Aviation Administration is preparing an EA of the SoCal OAPM. This briefing is intended for key government officials/agencies to discuss the EA currently being prepared for this project. Public participation will occur later in 2015 when the Draft EA is published.

The EA will address the potential impacts of the implementation of revised air traffic routes and procedures in the Southern California region. The project may involve changes in aircraft flight paths but would not require any ground disturbances nor increase the number of aircraft operations within the Southern California Metroplex area.

This is a notice that there will be three community meetings on the proposed project. They have been scheduled to take place on November 6, 12, and 13, at San Fernando Regional Pool Facility, Marvin Braude Constituent Service Center, and Pacoima Neighborhood City Hall.
Notice of Intent to Adopt a Mitigated Negative Declaration.

Located in the City of Santa Clarita, County of Los Angeles, California, the proposed project would include the construction of a new fueling station (with 12 pumps and 5,040 square feet canopy) and 6,000 square-foot commercial building, consisting of a convenience store, restaurant, and office. The proposed project would also include an accessory (unmanned) car wash and associated equipment.

Notice of Intent to Adopt a Mitigated Negative Declaration.

Located in the City of Fontana, County of San Bernardino, California, the proposed project would include the construction of a new distribution center.
Project Description: Notice of Preparation of a Draft Environmental Impact Report and Public Scoping Meeting Notice

Located in the City of Fontana, San Bernardino County, California the proposed redevelopment project is located within the geographical limits of the Fontana Gateway Specific Plan. The site includes 30.79 acres.

The project proposed to redevelop a property that has contained industrial uses since the 1950's to 1986 and as several manufacturing facilities from 2005 to 2014. In mid-2014, vertical structures on the property were demolished to prepare for redevelopment of one distribution warehouse structure.

The project includes the following proposed discretionary actions from the City of Fontana: Specific Plan Amendment and Design Review Project. A Specific Plan Amendment (SPA 14-000003) to allow parking in the following ratios: a) 1 space per 1,000 sq. ft. of gross floor area for the initial 40,000 sq. ft. of development; b) plus 1 space per 4,000 sq. ft. of additional gross floor area greater than 40,000 sq. ft.; and c) plus 1 space per 250 sq. ft. of gross floor area of office space. It also proposes to allow for front loading and screening.

Additionally, a Design Review Project (DRP 14-000020) proposes to construct and operate one high-cube distribution warehouse building that would contain 671,324 sq. ft. of total building area, including 10,000 sq. ft. of office area and 661,324 sq. ft. of warehouse space. A total of 98 loading bays, 232 automobile parking spaces, and 140 trailer parking spaces are also proposed.

Project Description: Notice of Preparation of an Environmental Impact Report

Located in City of Santa Fe Springs, Los Angeles County, California the proposed project consists of constructing a new business park development totaling approximately 1,230,585 sq. ft. of floor area. The site consists of 54.69 acres and was formerly occupied by the Powerine Oil Refinery (35 acres) and Ridgeline Energy Services, RDX (19.7 acres). Three new concrete tilt-up industrial warehouse buildings: Build 1-403,624 sq. ft.; Building 2-506,465 sq. ft.; and Building 3-300,700 sq. ft.

The refinery operated from 1930s to 1995 but RDX will continue to operate a waste water treatment facility on an approximately 2-acre parcel. Above ground tanks and other structures are located on the project site but will be removed to accommodate the development, along with removal of any contaminated soils.

Building 1 will consist of a warehouse, offices, and 52-truck-high loading docks. Building 2, center of site, will consist of offices and 100 truck-high loading docks. Building 3 will consist of a warehouse, offices, and 41 truck-high loading docks. A total of 1,725 parking spaces will be provided for employee, vendor, and visitors. The project will require discretionary approvals from the City: development Plan Approval; Tentative Parcel Map; Modification Permit; the Certification of the Final EIR; and the Adoption of the MMRP.
Located in the City of Palmdale, Los Angeles County, California, the PRWA is proposing to implement their 2014 Recycled Water Facilities Plan, which includes the construction and operation of distribution pipelines and laterals and pumping facilities. One new pump station would be installed at the Palmdale Water Reclamation Plant along 70,000 linear feet of new recycled water pipe, which would be aligned within developed and paved portions of roadway rights-of-way. The proposed project would provide 1,325 AFY or tertiary-treated recycled water to PRWA customers, landscape irrigation at parks, schools, and golf courses. A feasibility study is being conducted to potentially provide 9,450 AFY of recycled water for groundwater recharge in Little Rock Creek. PRWA has determined that the project will not have a significant impact on the environment.

Located in the City of Rolling Hills, Los Angeles County, California the proposed project would subdivide an existing lot totaling 7.051 acres into 2 parcels: Parcel 1: 2.40 acres gross, 1.96 acres net; Parcel 2: 4.64 acres gross, 3.71 acres net. The property is currently vacant (Lot 67-RH), in the Residential Agricultural Suburban 1-Acre minimum net lot area. Prior to the tentative map submittal, a residence that had occupied Lot 2 was demolished, therefore, while no new construction is proposed at this time, the development anticipated will be for 2 new homes and related grading, of which 1 home is a net additional unit.

An Initial Study was prepared concluding that the project will not have significant effect on the environment with mitigation measures.
