INTERGOVERNMENTAL REVIEW CLEARINGHOUSE REPORT

This Intergovernmental Review Clearinghouse Report summarizes the federal grant applications, environmental documents and other information received by SCAG’s Intergovernmental Review (IGR) Section during the period Sep 01, 2013 through Oct 31, 2013. The Clearinghouse Report consists of two sections, Federal Grant Listing and Environmental Documentation Listing.

The Federal Grant Listing is provided to inform your organization of all grant applications for federal assistance from our region in accordance with Executive Order 12372. The listing includes state sponsored plans and project types such as Housing and Community Development, Urban Mass Transit, and Human Services. The Environmental Documentation Listing describes regionally significant and non-regionally significant facilities (e.g., transportation, wastewater treatment), residential, commercial and industrial projects which have been voluntarily submitted for review by local governments. Environmental documents received include Notices of Preparation, Environmental Impact Reports, Environmental Impact Statements, Negative Declarations and Mitigated Negative Declarations.

A SCAG Project Identification Number organizes project descriptions for both the Federal Grant and Environmental Documentation listings.

IGR CONTACT

To include the interest of your jurisdiction or comment on proposed comprehensive planning, areawide coordination or environmental impacts please contact the IGR Section prior to Nov 30, 2013. Please send one (1) copy of all environmental documentation. Also, please provide the name and telephone number of the contact person on your transmittal. We may be reached at:

Mailing Address: Southern California Association of Governments
Intergovernmental Review Section
818 West Seventh Street, 12th Floor
Los Angeles, CA 90017-3435

Telephone: (213) 236-1800
Fax: (213) 236-1963

Questions regarding the Clearinghouse Report should be directed to Pamela Lee, (213) 236-1895.

MORE INFORMATION

The IGR web page includes staff prepared publications describing items and projects received by the IGR Section, and other web sites that may be useful to persons seeking information about how to comply with CEQA and the CEQA Guidelines. For more information, please visit SCAG’s IGR web page at www.scag.ca.gov/igr/.

Project Title: City of Gardena 2014-2021 Housing Element
Reg. Significance: Yes
Lead Agency: City of Gardena
City / County / Subregion: Gardena / Los Angeles / South Bay
Contact: Lawson Chew - (310) 217-6110
Comment Due Date: 09/27/2013
Project Description: This Housing Element sets forth the City's 2014-2021 strategy to address the community's
housing needs. It includes the preservation and improvement of the community's residential character, the expansion of housing opportunities for all economic segments of the community, and the provision of guidance and direction for local government decision-making on all matters relating to housing.

**Document Received: 09/12/2013**

**SCAG ID. No:** IGR7826_8637  
**Document Type:** NEGATIVE DECLARATION  
**Project Title:** Los Angeles County Housing Element 2014-2021  
**Reg. Significance:** Yes  
**Lead Agency:** Los Angeles County Department of Regional Planning  
**City / County / Subregion:** / Los Angeles / **Not Applicable**  
**Contact:** Troy Evangelho - (213) 974-6417  
**Comment Due Date:** 10/09/2013  
**Project Description:** The proposed revision to the Housing Element serves a policy guide for meeting the existing and future housing needs for all economic segments of the unincorporated areas of Los Angeles County for the period 2014 through 2021. Through an analysis of adopted land use policies, the Housing Element ensures that the County of Los Angeles plans for its fair share of the regional housing need. In addition, the Housing Element contains estimates of existing and projected future housing needs, outlines strategies to address those needs, and identifies constraints to housing production.

**Document Received: 09/12/2013**

**SCAG ID. No:** IGR7827_8638  
**Document Type:** NEGATIVE DECLARATION  
**Project Title:** City of Buena Park 2013-2021 Housing Element  
**Reg. Significance:** Yes  
**Lead Agency:** City of Buena Park  
**City / County / Subregion:** Buena Park / Orange / Orange County  
**Contact:** Joel Rosen - (714) 562-3610  
**Comment Due Date:** 10/09/2013  
**Project Description:** The project is the adoption and implementation of the Buena Park 2013-2021 Housing Element, which represents an update of the City's certified Housing Element. The Housing Element is an integral component of the City's General Plan, as it addresses existing and future housing needs of all types for persons of all economic segments in the City.

**Document Received: 09/16/2013**

**SCAG ID. No:** IGR7828_8639  
**Document Type:** ENVIRONMENTAL IMPACT REPORT  
**Project Title:** Los Angeles Groundwater Replenishment Project  
**Reg. Significance:** Yes  
**Lead Agency:** City of Los Angeles Department of Water and Power
The project proposes to use up to 30,000 acre-feet per year of purified recycled water from the Donald C. Tillman Water Reclamation Plant (DCTWRP) for replenishment of the San Fernando Groundwater Basin (SFB). This project consists of: 1) treatment – the construction of new advanced water purification facilities (AWPF) that would perform additional treatment of tertiary effluent (Title 22 treated recycled water) at the existing DCTWRP; 2) conveyance – the use of existing and newly constructed pipelines to transport the purified recycled water from the AWPF to spreading grounds and injection wells; and 3) replenishment – spreading of the purified recycled water at the Hansen Spreading Grounds (HSG) and the Pacoima Spreading Grounds (PSG) for percolation and would include installation of up to 13 new injection wells for direct injection into the SFB to increase groundwater supply.

The project would be located at the DCTWRP in the eastern San Fernando Valley at 6100 Woodley Ave. in the Van Nuys community of Los Angeles. Also at the HSG which is located in the Sun Valley community of the City of Los Angeles and is bordered by Branford Street to the northwest, Sheldon Street to the southeast, San Fernando Road to the southwest, and Glenoaks Street to the northeast. Also at the PSG which is located in the Pacoima community of the City of Los Angeles and is bordered by Arleta Avenue to the northwest, Filmore Street to the northeast, Woodman Avenue to the southwest, and San Jose Street to the northwest.
Lead Agency: Department of Transportation, City of Los Angeles
City / County / Subregion: Los Angeles / Los Angeles / Los Angeles City
Contact: Tami Podesta -
Comment Due Date: 10/11/2013
Project Description: Notice of Intent to Adopt Mitigated Negative Declaration

The project is located on Glendale Boulevard and Hyperion Avenue and would improve geometrical design, improve seismic strength, and improve pedestrian, bicycle and motor vehicle travel associated with the viaduct complex. In addition, the project includes the widening of the Glendale Boulevard bridges by eight feet each, realigning the I-5 northbound off-ramp to allow left turns onto the southbound Glendale Boulevard, adding a median barrier on the Hyperion Avenue viaduct roadway, creating a wider sidewalk in the northwest side of Hyperion Avenue, and eliminating the southeastern sidewalk. The project would also reconstruct the existing deteriorated railings over the Los Angeles River.

Comment Due Date: 09/23/2013
Project Description: Notice of Intent to Adopt a Negative Declaration

The project is the adoption and implementation of the Azusa 2014-2021 Housing Element, which represents an update of the City's certified Housing Element. The proposed Housing Element addresses future residential development to meet SCAG's RHNA allocation for the 2014-2021 planning period. The project also includes the adoption and implementation of amendments to the City Design, Geology Hazards, and Open Space/Biological Resources Elements to comply with AB 162 to provide additional information of flood hazards, as well as amendments to the Infrastructure Element to comply with SB244 to provide information on disadvantaged unincorporated communities.

Comment Due Date: 10/14/2013

Project Description: Notice of Completion and Availability of Draft Environmental Impact Report

The project includes demolition of the existing commercial structure and construction of an approximately 182,575-square-foot, 142-unit residential townhome/condominium development. The project consists of six separate buildings, two condominium buildings, and four duplex town home buildings. The 134 condominium units would compromise 32 one-bedroom units, 76 two-bedroom units, 24 three-bedroom units, and two four-bedroom units. Two subterranean levels of parking would provide 320 parking spaces.

Reg. Significance: No
Lead Agency: Long Beach Unified School District
City / County / Subregion: Long Beach / Los Angeles / Gateway Cities
Contact: Tom Rizzuti -
Comment Due Date: 10/19/2013

Project Description: Notice of Availability of a Draft Environmental Impact Report

The project is located at 6500 Atlantic Avenue in the northern portion of the City of Long Beach. The 26.9-acre project site currently consists of approximately 332,583 square feet of permanent building space and an additional approximately 30,720 square feet of portable structures (approximately 363,303 total square feet).

The project would increase building space by approximately 89,697 square feet. At project buildout, the total capacity of the school would be 3,870 students. Demolition will occur of approximately 10 permanent buildings and 32 portable buildings as well as renovation of approximately 240,000 square feet of new building space. Additionally, a parking lot will be constructed at the southwestern portion of the campus and renovation will occur at the parking
lot on the northern portion of the campus.

Contact: Barbara Radlein - (909) 396-2716
Comment Due Date: 10/09/2013
Project Description: Notice of Intent to Adopt a Draft Negative Declaration

This project will be located at Phillips 66 Los Angeles Refinery Carson Plant at 1520 East Sepulveda Blvd., Carson, CA, 90745. The project seeks to increase crude oil storage capacity at its Los Angeles Refinery Carson Plant by installing one new 615,000 barrel crude oil storage tank with a geodesic dome, increasing the annual permit throughput limit of two existing 320,000 barrel crude oil storage tanks, and installing geodesic domes on the same two existing 320,000 barrel crude oil storage tanks. Two new feed/transfer pumps and one 14,000 barrel water draw surge tank with associated pumps and pipelines would also be installed. Tie-ins to the Pier "T" crude oil delivery pipeline from Berth 121 would be installed and one new electrical power substation would be constructed.

Lead Agency: City of Hesperia
City / County / Subregion: Hesperia / San Bernardino / San Bernardino
Contact: David Reno - (760) 947-1253
Comment Due Date: 10/18/2013
Project Description: Notice of Completion of a Draft Environmental Impact Report

The project consists of two parcels bounded by Joshua Street to the north, Interstate-15 to the southeast, and Outpost Road to the west.

This project consists of a minor amendment to the Main Street and Freeway Corridor Specific Plan and a Conditional Use Permit for a proposed Love’s Travel and Service Center of approximately 12,271 square feet on 10.6 acres in the City of Hesperia.
Interstate 5 Widening Project from State Route 73 to El Toro Road

The project limits on the I-5 extend 0.5 mile south of the SR interchange to 0.2 miles north of the El Toro Road Undercrossing.

This project proposes to widen Interstate 5 (I-5) from State Route 73 (SR-73) to El Toro Road. This includes adding general-purpose lanes in each direction on I-5 between Avery Parkway and Alicia Parkway to El Toro Road. The project also will reestablish existing auxiliary lanes and construct new auxiliary lanes, and improve several existing on- and off-ramps.

Contact: Scott Drapkin - (949) 497-0362
Comment Due Date: 10/01/2013

Project Description: Notice of Preparation of a Draft Environmental Impact Report
The project consists of two phases. The first phase includes the removal, transport, and disposal of all hazardous waste generated by historic trash collection and incineration activities from the three locations within the Project Area. The second phase includes the restoration of the Project Area to a condition that is representative of the condition prior to the trash collection and incineration activity. This restoration will include the replacement of coastal sage scrub, stabilization of material remaining on the slopes to prevent erosion, minor modifications to drainage, and the protection of oak and sycamore trees.
The project is located east and northeast of the intersection of Laguna Canyon Road and Phillips Road. The project area is within the 196-acre coastal range open space area acquired in 1991. The project area, that portion of the DeWitt Parcel that contains waste as well as that portion that will be distributed by remediation and restoration activities, consists of approximately 5.9 acres of land.

Project Title: Atlantic Aviation Los Angeles International Airport (LAX) Hagar and Office Development Project

Reg. Significance: No
Project Description:
Atlantic Aviation proposes to construct a hangar and office building on its leasehold located within the airport airside at LAX. The project site is located on the western portion of Atlantic Aviation's leasehold, which is on the northwest corner of Sepulveda Boulevard and Imperial Highway at 6411 West Imperial Highway, Los Angeles, CA. The proposed hangar would be 36,500 square feet with an adjoining 4,900 square foot one-story office building and a 2,000 square foot one-story hangar support building. The main purpose of the project is to provide a greater level of service to the users of its Fixed Based Operations, enabling them to store their aircraft inside a hangar rather than park them outside. By providing hangar storage for aircraft, some of Atlantic Aviation's current LAX customers would be able to base their aircraft at LAX, rather than at outlying airports, thereby reducing the number of aircraft operations at LAX, and eliminating unnecessary flights to and from LAX from outlying airports.
Project Description: Notice of Public Hearing on Subsequent Final Environmental Impact Report for Interim Uses of the Van de Kamp Innovation Center

The Los Angeles City College's plans to establish a satellite campus at the Van de Camp Innovation Center have been temporarily scaled back. The Subsequent Final EIR and the Subsequent Draft EIR evaluates potential environmental impacts based on the current and potential future interim uses of the Van de Kamp Innovation Center's buildings, which may include multiple uses such as a High School, College, Office, and Adult Education/Workforce Training.

The project site is located at the northwest corner of Markham Street and Redlands Avenue, east of Perris Boulevard, within the Perris Valley Commerce Center Specific Plan area, in the City of Perris in Riverside County.

The proposed project involves construction and operation of up to 600,000 gross square feet (gsf) of light industrial/warehouse uses. Two buildings approximately 44 feet high are proposed. Building 1 would be approximately 480 gsf and Building 2 would be approximately 120,000 gsf. The physical impact area is 37.5 acres including roadway and infrastructure improvements.

Comment Due Date: 11/01/2013

Project Description: Notice of Intent to Adopt a Mitigated Negative Declaration for the Arroyo Seco Pedestrian and Bicycle Trail

The 0.65 mile trail begins at the southern City limit, runs north along the northeast bank of the Arroyo Seco Channel, through the City's Nature Park and the Arroyo Seco Golf Course, continues along Lohman Lane and terminates at Stoney Drive. The project will require the removal of a 20 foot wide section from the driving range of the Golf Course, the replacement of driving range facilities, and encroachment into the Golf Course parking lot.

City / County / Subregion: Pasadena / Los Angeles / Arroyo Verdugo
Contact: Laura Dahl - (909) 744-6767
Comment Due Date: 10/25/2012

Project Description: Notice of Preparation & Scoping Meetings

The project includes the reuse of the 5.1-acre Desiderio Army Reserve Center site into a 3.87-acre City Park and nine single-family detached bungalow homes. Four buildings are currently on the project site: a 22,152-square foot building, a 3,798-square foot organizational maintenance shop, a 2,226-square foot storage building and hazardous materials shed. All existing buildings and impervious surfaces will be removed from the site. All the units for the nine single-family homes would range from 1,287 to 1,654 square feet.

Comment Due Date: 10/28/2013

Project Description: Notice of Intent to Adopt a Mitigated Negative Declaration

The project is located in the northwestern portion of the City of Lake Elsinore, in western Riverside County. The southern project boundary is located adjacent to Lakeshore Drive and the northern project boundary is located on Hoff Avenue.

The project consists of a residential development with approximately 76.5 acres of residential, 22 acres of open space, 22.5 acres of roadways, 1.6 acres of park (2.1 gross acres), and 28.2 acres of graded slopes and basins. There are two proposed housing options. The first higher density option is of 499 residential units (448 single-family detached units and 51 multi-family attached units). The second lower density option is of 468 units.

Comment Due Date: 10/22/2013

Project Description: Notice of Intent to Adopt a Mitigated Negative Declaration

The project is located on three sites along the north side of Valley Boulevard in the City of Walnut. The first project, "Mixed Use/Housing Opportunity Overlay – 1 (MUHOO1)", consists of 21.41 acres of land bordered by the City of Walnut City limit to the west, Camino De Rosa to
the north, and Lemon creek Channel to the east. The second project, “Mixed Use/Housing Opportunity Overlay – 2 (MUHOO-2)”, consists of 11.37 acres of land located at 100 Pierre Road, 142 Pierre Road, and 20931 Valley Boulevard. The third project, “Mixed Use/Housing Opportunity Overlay – 3 (MUHOO3)”, consists of 49.18 acres of land located at 22059 Valley Boulevard.

The proposed zone changes and amendments to the City of Walnut’s General Plan on three sites seek to accommodate approximately 1,300 residents and assist the City in meeting its Regional Housing Needs Assessment (RHNA) allocation. The city is proposing to place the Mixed Use/Housing Opportunity Overlay classification on all three sites as to encourage the development of multifamily residential areas.

**Project Description:** Notice of Public Hearing to be Held

The project is located in the City of Irvine and encompasses: (1) The Heritage Fields development, (2) an approximately 11-acre parcel located adjacent to the SR-133 Tollroad, (3) Lot D, Lot E, and Lot F, (4) approximately 132 acres owned by the City and zoned 1.4 Preservation, and (5) A portion of Orange County Great Park.

The project requests Planning Commission approval of a general plan amendment and zone change to: (1) combine Planning Areas 30 and 51 and an 11-acre parcel into a single Planning Area that would be designated "Combined PA 51", (2) rezone property in Development Districts 2, 3, and six (3) relocate the Approved Wildlife Corridor Feature (4) rezone 13-acres if Development District 6 (5) rezone City Parcels from 3.2 Transit Orientated Development to 8.1 Trails and Transit Orientated Development, (6) update the City’s general plan land use designation and zoning designation for the 11-acre parcel to Orange County Great Park and 8.1 TOD, (7) amend the City’s Master Plan of Arterial Highways (8) modify General Plan Object B-1 to identify certain locations in Combined PA 51 where traffic level of service may be considered acceptable, and (9) modify the Zoning Ordinance texts to implement the Proposed Project.

In addition the project would amend the City of Irvine General Plan and Zoning Ordinance to: (1) add 3,412 residential units within the Proposed Project site (2) reduce the overall non-residential intensity within Combined PA 51 by 410,400 to: (a) 3,364,000 square feet of medical and science, (b) 220,000 square feet of Community Commercial, and (c) 1,318,200 square feet of Multi-Use. The project also includes a request for up to 1,194 additional Density Bonus units.

**Project Description:** Public Notice of Availability

The project consists of two phases: Phase I which would include the construction of ultraviolet light (UV) disinfection facilities at the VWRP and SWRP, construction of salt management facilities in Ventura County, and use of supplemental water. The salt management facilities would consist of approximately 11 total groundwater extraction wells, one pump station for each well field, and a 36 inch–diameter, 6 mile long pipeline. Phase II would be triggered if chloride limits are not met by Phase I. If needed, Phase II would include microfiltration/reverse osmosis facilities at the VWRP; second pass RO facilities at the VWRP; a brine disposal system, and a RO product water conveyance system to Ventura County.

Project Description: Notice of Completion and Availability of Final Subsequent Environmental Impact Report No. ENV-2004-6269-EIR-SUP-1

The project proposes to modify a project previously approved by the City of Los Angeles in 2006, which permitted the development of approximately 483 residential condominiums in two 47-story towers and one 12-story building for a total of approximately 1.3 million square feet on an approximately 5.5-acre site. The project proposes the construction of one 37-story building (approximately 570 feet in height), approximately 700,000 square foot office building, approximately 25,830 square feet of low-rise, one- and two-story office space, an approximately 1,300 square foot Mobility Hub, a Transit Plaza, approximately 4,120 square feet of ancillary retail, and a partially subterranean parking structure. The project also proposes approximately 35,000 square feet of additional public open space on the site. In total the Modified Project includes approximately 731,250 square feet of floor area, which represents a decrease of 561,108 square feet as compared to the Approved Project.

Project Title: Harvard-Westlake Parking Improvement Plan Project

Reg. Significance: No

Lead Agency: City of Los Angeles Department of City Planning

City / County / Subregion: Los Angeles / Los Angeles / Los Angeles City

Contact: Emily Dwyer

Comment Due Date: 11/25/2013

Project Description: Notice of Completion and Availability of the Draft Environmental Impact Report for ENV-2013-015-EIR

The site is a 24.5 acre project comprised of two components: 1) Parking Structure/Development Site (approximately 5.5 acres) is located at 3701 N. Coldwater Canyon Avenue; and 2) the existing Campus for the Harvard-Westlake School (approximately 19 acres) is located at 3700 N. Coldwater Canyon Ave.

The project proposes the construction of a new 3-story, 750-space Parking Structure including an athletic field with lights on top on the RE40 and RE15 Zones. A pedestrian bridge is also proposed to cross over Coldwater Canyon Avenue from the Development Site to the Harvard-Westlake Campus. There will also be roadway improvements that would improve the flow of traffic in the Project area as well as pedestrian and vehicle safety.

Project Title: Proposed Rule 1420.1 - Emissions Standard for Lead and other Toxic Air Contaminants from large Lead-Acid Battery Recycling Facilities

Reg. Significance: No

Lead Agency: South Coast Air Quality Management District

City / County / Subregion: Diamond Bar / Los Angeles / San Gabriel Valley

Contact: James Koizumi - (909) 396-3234

Comment Due Date: 11/08/2013

Project Description: Notice of Completion of a Draft Environmental Assessment

The project is located at the South Coast Air Quality Management District (SCAQMD) area of jurisdiction consisting of the four county South Coast Air Basin (Orange County and the non-desert portions of Los Angeles, Riverside and San Bernardino counties), and the Riverside County portions of the Salton Sea Air Basin and the Mojave Desert Air Basin.

PAR 1420.1 would reduce arsenic, benzene, and 1,3-butadiene emissions produced by large lead-acid battery recycling facilities. Additionally, source testing, ambient air concentration monitoring, and recordkeeping requirements have been added to ensure continuous compliance of the emission reductions. PAR 1420.1 would affect two facilities that are on lists of hazardous waste facilities.

Contact: Jaime Murillo - (949) 644-3209
Comment Due Date: 11/18/2013
Project Description: Notice of Availability for the Back Bay Landing Project Environmental Impact Report

The Back Bay Landing project is a proposed integrated, mixed-use waterfront village on an approximately 7 acre portion of a 31.4 acre parcel located adjacent to the Upper Newport Bay in the City of Newport Beach. The majority of the project site (6.332 acres) is located immediately north of East Coast Highway between Bayside Drive and the Bayside Marina adjacent to the Upper Newport Bay. The balance of the project site (0.642-acres) is located under and immediately south of the East Coast Highway bridge.

The proposed project involves land use amendments to provide the legislative framework for future development of the site. Amendments to the General Plan and Coastal Land Use Plan are required to change the land use designations to the Mixed-Use Horizontal designation and a Planned Community Development Plan is proposed to establish appropriate zoning regulations and development standards. In addition to the land use amendments, other requested approvals are a Lot Line Adjustment and Traffic Study pursuant to the City's Traffic Phasing Ordinance.

Project Description: Notice of Availability of a Draft Environmental Impact Report (EIR) and LAX PLAN COMPLIANCE REVIEW for the West Aircraft Maintenance Area Project

The project is located in the southwestern portion of LAX, on approximately 84 acres immediately south of World Way West between Taxiway AA and Pershing Drive.

The intent of the proposed West Aircraft Maintenance Area Project is to consolidate, relocate, and modernize existing aircraft maintenance facilities at LAX consistent with the LAX Master Plan. The proposed Project would provide facilities and areas for aircraft maintenance and maintenance hangars, as well as parking areas for existing aircraft and employees. The proposed facilities would include: (1) an apron area; (2) aircraft maintenance hangars; and (3) ancillary facilities. Approximately 68 acres of the 84 acre Project site would be paved/developed, with the remaining 16 acres being unpaved islands adjacent to the proposed taxiways within the site.

Project Title: Hill and Colorado Planned Development
Reg. Significance: Yes
Lead Agency: City of Pasadena
City / County / Subregion: Pasadena / Los Angeles / Arroyo Verdugo
Contact: Jose Daniel Jimenez - (626) 744-7137
Comment Due Date: 11/18/2013
The project is located on two vacant sites. The first site is on 1355 East Colorado Boulevard, which is the northeast corner of Colorado Boulevard and Hill Avenue, and approximately 127,961 square feet (2.94 acres). The second site is on 1336 East Colorado Boulevard, which is located at the southeast corner of Colorado Boulevard and Holliston Avenue, and approximately 30,895 square feet (0.71 acres).

The project proposes the establishment of a Planned Development District encompassing the two subject areas. The Planned Development district delineates development standards relative to building setbacks, heights, form, mass, scale, and other design considerations for future development at the site.

The potential development for the first site includes the construction and operation of a full-service hotel within an approximate 345,000 square foot building (Building A). The hotel would include up to 375 guest rooms with related services (312,000 square feet), a ballroom (12,500 square feet), conference rooms (approximately 8,900 square feet) and commercial retail uses (16,400 square feet). Two levels of subterranean parking with up to 700 parking spaces will also be constructed.

The potential development for the second site includes the construction and operation of an approximate 90,000 square foot commercial use building (Building B). Two levels of subterranean parking with up to 150 parking spaces will also be constructed. The ground floor would encompass approximately 10,000 square feet devoted to retail, restaurant, and other non-residential uses. The remaining approximate 80,000 square feet will be devoted to a hotel with approximately 150 rooms.
Project Title: Pomona College 2013 Campus Master Plan

Comment Due Date: 11/21/2013

Project Description: Notice of Preparation of an Environmental Impact Report for the Proposed Pomona College 2013 Campus Master Plan EIR

The project is located on the campus of Pomona College at 101 North College Way in the City of Claremont. The project would implement the College's 2007 Strategic Plan through development of new, remodeled, and renovated buildings and land uses, while preserving and expanding landscape and open spaces.

The project anticipates an increase in enrollment of 50 students, a net increase of 26 beds in student residences for up to 1,560 beds, and a net increase of 205,400 square feet of on campus buildings, which would bring the total square footage of buildings on campus to 2,055,400.

Document Received: 10/28/2013

Project Title: Alliance California Gateway South Building 3 Project

Comment Due Date: 11/27/2013

Project Description: Notice of Preparation of a Draft Environmental Impact Report

The project is located on a 62.85 acre property located in the City of San Bernardino, California, east of South Waterman Avenue, west of South Tippecanoe Avenue, south of East Orange show Road, northeast of the Atchison, Topeka and Santa Fe Railway, and northwest of the Santa Ana River.

The proposed development would only occur on approximately 49.65 acres of the site. The project would redevelop the underutilized property through the construction and operation of one industrial warehouse building. The building is proposed to contain 1,199,360 square feet of interior floor space. A request to subdivide a tentative parcel map property into two parcels as well as a development permit/site plan approval to construct one light industrial warehouse building is made.

Document Received: 10/29/2013
**Document Received:** 10/29/2013

**Project Description:** Notice to Prepare a Draft Environmental Impact Report

The project site occupies an approximately 200-acre site on top of a ridge on the southern edge of the Chino Hills in northeastern Orange County. The project address is 3972 Valley View Avenue, Yorba Linda, CA 92886.

The project is to update the Robert B. Diemer Water Plant (Diemer Plant) as to maintain reliable water deliveries to the service area. The project proposes four components:

1. **Orange County Conveyance & Distribution Maintenance Facility:** The construction of a new, approximately 15,000 square foot building providing space for the Metropolitan's Orange County Conveyance & Distribution team's offices and workshops.

2. **Washwater Reclamation Plant Rehabilitation:** The installation of a series of Cast-in-Drilled-Hole (CIDH) concrete reinforced caissons to strengthen and protect the northwest slope against seismic events and to support existing utilities. The project area would encompass approximately 76,000 square feet including the west slope, north slope, and the existing Washwater Reclamation Plant.

3. **Filter Outlet Conduit Seismic Upgrades:** The installation of a series of CIDH concrete reinforced caissons in the Diemer Plant's northeast fill slope to strengthen and protect the existing filter outlet conduit and lower maintenance road against major seismic events. The project area is roughly 42,000 square feet.

4. **Olinda Pressure Control Structure:** The installation of a system of pipes, valves, and turbine generators in two underground structures to regulate flow and pressure within the Lower Feeder pipeline. The project would also include an above-ground room to house control equipment and provide access to the underground structures.
Venono is independent oil and gas company and the operator of State Oil and Gas Lease PRC 421 that seeks to return PRC 421 to oil production from an existing shoreline well (Well 421-2) that has been shut-in since 1994.

The project would include the following components: (1) Well-421-2 would be decommissioned using an existing pier located on Haskell's Beach; (2) water and gas from crude oil emulsion extracted from Well 421-2 would be separated at the existing Ellwood Onshore Facility (EOF); and finally, (3) a second well (Well 421-1) will be decommissioned and removed.
Notice of Intent to Adopt a Mitigated Negative Declaration

The project site consists of six parcels located at 1350 to 1600 Agua Mansa Road.

Agua Mansa Properties, LLC, is requesting Architectural/Site Plan Review, a Tentative Parcel Map, a Specific Plan Amendment and a Major Historic Certificate of Appropriateness, in order to develop the 40.49-acre site with an 808,500 square foot industrial “high cube” warehouse distribution facility on parcels addressed as 1350 to 1600 W. Agua Mansa Road. The project also proposes the consolidation of six parcels into one parcel.
