Subject: SCAG Memberships & Sponsorships

RECOMMENDED ACTION:
Approve

EXECUTIVE SUMMARY:
The Legislative/Communications & Membership Committee (LCMC) is asked to approve up to $5,000 in memberships for FuturePorts.

STRATEGIC PLAN:
This item supports SCAG’s Strategic Plan, Goal 2: Advance Southern California’s policy interests and planning priorities through regional, statewide, and national engagement and advocacy.

BACKGROUND:
Item 1: FuturePorts
Type: Member  Amount: $5,000

FuturePorts was established in 2005 and serves as a voice for their members in the goods movement supply chain in order to advocate for balance between business, environment, and community concerns at the San Pedro Bay Ports (Ports of Los Angeles and Long Beach). Their members represent the entire goods movement supply chain, including businesses that support the goods movement industry, as well as labor and trade unions that work at the ports. Their objective is to ensure a healthy economic and environmental future supporting green growth at the ports. In the dozen years since it was founded, FuturePorts has positioned itself as a leader in the movement for rational and balanced growth, representing business interests at both the Ports of Los Angeles and Long Beach commission meetings; Los Angeles and Long Beach city council meetings; public hearings; and other community events. They write letters, provide outreach, and engage the support of other business organizations and stakeholders as we work toward common goals of growing and greening our ports.

SCAG has been a sponsor of the annual FuturePorts conference in the past, but the growing importance of goods movement to the Southern California economy is making it increasingly necessary for the agency to maintain its ability to effectively participate in dialogue and discussion on such an important facet of the region’s economy.

SCAG staff is recommending that the agency maintain membership in FuturePorts. This unique membership/sponsorship package, in the amount of $5,000, includes both membership dues as well as sponsorships of the following FuturePort events:
- Sponsorship of the annual FuturePorts conference at the “Gold Level,” which includes:
  o Ten (10) conference registrations;
  o Full page black and white advertisement in the Conference Program;
  o A six foot exhibitor table;
  o Logo listing on all promotional materials (advertising, flyers, website);
  o Logo listing on PowerPoint “loop” during breaks; and
  o Verbal recognition at event.
- Sponsorship of the Fall VIP Reception
- Sponsorship of the Monthly Luncheon

FISCAL IMPACT:
$5,000 for memberships is included in the approved FY 17-18 General Fund budget.

Subject: AB 1901 (Obernolte) – California Environmental Quality Act: Exemption: Roadway Projects

RECOMMENDED ACTION:
Support

EXECUTIVE SUMMARY:
The California Environmental Quality Act (CEQA), until January 1, 2020, exempts a project or an activity to repair, maintain, or make minor alterations to an existing roadway, if the project or activity is carried out by a city or county with a population of less than 100,000 persons to improve public safety and meets other requirements. AB 1901 (Obernolte) would extend this exemption indefinitely. Staff recommends that the Legislative/Communications & Membership Committee (LCMC) forward a “support” position recommendation to the Regional Council on AB 1901.

STRATEGIC PLAN:
This item supports SCAG’s Strategic Plan, Goal 2: Advance Southern California’s policy interests and planning priorities through regional, statewide, and national engagement and advocacy.

BACKGROUND:
CEQA requires a lead agency to prepare and certify the completion of an environmental impact report on a project that it proposes to carry out or approve that may have a significant effect on the environment or to adopt a negative declaration if it finds that the project will not have that effect. CEQA also requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment.

At present, CEQA, until January 1, 2020, exempts a project or an activity to repair, maintain, or make minor alterations to an existing roadway, if the project or activity is carried out by a city or county with a population of less than 100,000 persons to improve public safety and meets other requirements. The previous sunset date of this particular exemption was January 1, 2016. AB 323 (Chapter 52, Statutes of 2015), however, was passed and signed into law, pushing the exemption’s sunset back to January 1, 2020.

AB 1901
Introduced by Assemblymember Jay Obernolte (R-Hesperia) on January 22, 2018, AB 1901 would extend the aforementioned exemption indefinitely.
AB 1901 was referred to the Assembly Committees on Natural Resources and Transportation on February 5, 2018. It is currently scheduled to be heard in the Assembly Committee on Natural Resources on April 16, 2018.

Staff Recommendation
As this exemption applies only to existing roadways in rural areas of the State of California, the types of repairs, maintenance, and/or safety enhancements that would be completed typically have few, if any, environmental impacts. Allowing the exemption to be indefinite could result in savings in both cost and time for cities and counties.

Staff recommends support for AB 1901 consistent with Regional Council-adopted policy and legislative priorities to not only support CEQA reform to expedite and streamline both project development and delivery, but to also support measures that provide CEQA relief or streamlining for the development of transportation, transit-oriented, infill, and/or housing projects.

Subject: AB 1905 (Grayson) – Green Transportation Development Act

RECOMMENDED ACTION:
Support

EXECUTIVE SUMMARY:
Assembly Bill (AB) 1905 would, in an action or proceeding seeking judicial review under the California Environmental Quality Act (CEQA), prohibit a court from staying or enjoining a transportation project that would reduce total vehicle miles traveled, that is included in a sustainable communities strategy, and for which an environmental impact report has been certified, unless the court makes specified findings.

STRATEGIC PLAN:
This item supports SCAG’s Strategic Plan, Goal 2: Advance Southern California’s policy interests and planning priorities through regional, statewide, and national engagement and advocacy.

BACKGROUND:
The California Environmental Quality Act (CEQA) requires a lead agency to prepare, or cause to be prepared, and certify the completion of, an environmental impact report on a project that the agency proposes to carry out or approve that may have a significant effect on the environment or to adopt a negative declaration if the agency finds that the project will not have a significant effect. The act establishes a procedure by which a person may seek judicial review of the decision of the lead agency made pursuant to the act.

Senate Bill (SB) 375, also known as the Sustainable Communities and Climate Protection Act of 2008 requires that the California Air Resources Board (ARB) set regional targets for greenhouse gas (GHG) emissions reductions from passenger vehicle use. Each of California’s metropolitan planning organizations, of which SCAG is one, must prepare a Sustainable Communities Strategy (SCS) that, if implemented, would allow the region to meet its emission reduction targets. Both the SCS and individual projects contained in SCAG’s Regional Transportation Plan (RTP) are subject to environmental review under CEQA, which requires an Environmental Impact Report (EIR), public input, and the consideration of various alternatives.

According to a multi-year study of CEQA litigation entitled “In the Name of the Environment” (https://bit.ly/2qslgQX) conducted by Holland & Knight LLP, the most frequent targets of CEQA lawsuits—infill development, transit, and renewable energy projects—are designed to advance California’s environmental policy objectives. Transit projects, specifically, are the most commonly targeted type of public infrastructure project, notwithstanding legal mandates to establish and
improve transit service to reduce congestion, improve air quality, and reduce GHG emissions. While CEQA is an important tool for ensuring that projects benefit the environment and the surrounding communities, duplicitous litigation is not. Once projects have met ARB’s stringent SCS standards, been included in a Regional Transportation Plan, and produced an EIR, it is counterproductive and harmful to the state’s climate and infrastructure goals to allow additional lawsuits to impede their timely completion.

**AB 1905**

This bill would prohibit a court from stopping construction on a transportation project if the project reduces total vehicle miles traveled, is included in a sustainable communities strategy, and for which an environmental impact report has been certified. These projects have already been evaluated for environmental impacts at both the regional and project level, and have been certified by ARB to significantly reduce GHG emissions.

By removing barriers to projects with established environmental benefits, AB 1905 would allow transportation infrastructure to be built faster, bringing tangible benefits to our communities and helping California to achieve its ambitious climate goals.

**Staff Recommendation:**

Staff recommends support for AB 1905 as it is consistent with Regional Council-adopted policy and legislative priorities to support CEQA reform to expedite and streamline both project development and delivery, support measures that require transparency in CEQA litigation and eliminate duplicative CEQA lawsuits, and support measures that provide CEQA relief or streamlining for the development of transportation, transit-oriented, infill, and/or housing projects.

RECOMMENDED ACTION:
For Information Only – No Action Required

EXECUTIVE SUMMARY:
President Donald Trump signed House Resolution (H.R. 1625), the “Consolidated Appropriations Act of 2018,” into law on March 23, 2018, which funds the government for the remainder of fiscal year 2018. H.R. 1625 passed the House by a 256-167 vote and the Senate by a 65-32 vote.

STRATEGIC PLAN:
This item supports SCAG’s Strategic Plan, Goal 2: Advance Southern California’s policy interests and planning priorities through regional, statewide, and national engagement and advocacy.

BACKGROUND:
The passage of the Consolidated Appropriations Act of 2018 marked the end of stopgap measures, known as continuing resolutions (CRs), for the remainder of the fiscal year (FY) ending on September 30, 2018. Prior to the passage of H.R. 1625, five (5) separate CRs had been signed into law, allowing the government to remain open while long-term spending measures could be negotiated. Overall, H.R. 1625 authorized $1.3 trillion in spending for the remainder of FY 2018; a new omnibus bill, or a CR, would be needed before the start of FY 2019 on October 1, 2018. Discretionary spending, covering areas such as national defense, foreign aid, and transportation, amounted to $629 billion under H.R. 1625, while non-discretionary spending, covering entitlement programs, amounted to $579 billion.

Department of Transportation:

- **Federal Highway Administration**
  Funding for the Federal Highway Administration (FHWA) contains $47.5 billion in budgetary resources and, under conditions set by the Fixing America’s Surface Transportation (FAST) Act, obligation limitations on the federal-aid highway program is set at $44.234 billion. It is also worth noting that an additional $2.525 billion for Federal Highway Administration programs is provided from the general fund. Programs eligible for this funding include Surface Transportation programs ($1.98 billion set aside), New Bridge Program ($225 million set aside), as well as the Puerto Rico Highway Program ($15.8 million). Caltrans anticipates additional funding for metropolitan planning organizations (MPOs) under H.R. 1625, but the exact amount apportioned for California has yet to be determined. Caltrans is actively working to determine the exact amount that will be available for MPOs.
• **Federal Transit Administration**
  Funding for the Federal Transit Administration (FTA) increased to $13.5 billion. The Capital Investments Grants (CIG) program, used for funding major transit capital investments in heavy rail, commuter rail, light rail, streetcars, and bus rapid transit, was set at $2.6 billion through September 30, 2021.

• **Federal Railroad Administration**
The Federal Railroad Administration’s funding increased to $3.1 billion under H.R. 1625, with competitive grant programs also obtaining increases relative to Fiscal Year 2017. The Consolidated Rail Infrastructure and Safety Improvements grant program offers $592 million in funds to railroads and government agencies.

• **Transportation Investment Generating Economic Recovery (TIGER) Grants:**
  H.R. 1625 increased funding for the Transportation Investment Generating Economic Recovery (TIGER) grant program to $1.5 billion, triple the amount from FY 2017. Projects eligible for TIGER grant funding include some highways and bridges, mass transit, passenger rail, freight rail, and port infrastructure. It is also worth noting that $15 million is set aside for the planning, preparation, or design of projects eligible for TIGER grant funding. The FY 2017 TIGER grant program recipients were announced on March 9, 2018. Of the 41 total recipients, the Gateway Express Project in Modesto was the sole California project to receive a TIGER grant from FY 2017 funds.

**Department of Housing & Urban Development:**

Overall gross spending level for the Department of Housing & Urban Development (HUD) rose to $4.69 billion. Key aspects of HUD’s budget include:

• **Community Development Block Grants (CDBG):**
  While President Trump proposed to eliminate Community Development Block Grants (CDBG) in his proposed budget, H.R. 1625 sets funding for this grant program at $3.3 billion. The funding under this program is intended for assisting state and local government agencies in developing economic and community development activities. No more than 20% of funding from the $3.3 billion is to be expended for planning and management.
• **HOME Investment Partnerships Program (HOME):**
The purpose of the HOME Investment Partnerships Program is to allocate funds by formula for eligible State and local governments to strengthen public-private partnerships and to expand the supply of decent, safe, sanitary, and affordable housing for low-income and very low-income families. Funding for this Program is set at $1.3 billion, remaining available through September 30, 2021.

• **Homeless Assistance Grants:**
Grant funding addressing homelessness under the McKinney-Vento Homeless Assistance Act increased to $2.5 billion, up $150 million from the previous fiscal year. Grants under this act provide local, regional, and state homeless assistance programs with funding through the competitive Continuum of Care (CoC) program and the Emergency Solutions Grant (ESG) formula grant program.
