CALL TO ORDER
The meeting was called to order by the Chair, Hon. Clint Lorimore, at 8:31 a.m. A quorum was confirmed and roll-call taken.

PUBLIC COMMENT PERIOD
There were no public comments presented.
REVIEW AND PRIORITIZE AGENDA ITEMS
There was no re prioritization of the Agenda.

CONSENT CALENDAR

1. Minutes of the April 17, 2018 Meeting
   A MOTION was made (Finlay) to APPROVE the Consent Calendar.
   The MOTION was SECONDED (Marquez) and APPROVED by a majority vote. A roll-call vote was taken and recorded as follows:
   **AYES:** Clark, Finlay, Giba, Hagman, Lorimore, Marquez, Martinez, Mulvihill, Pettis, Saleh, Viegas-Walker, Wapner (12).
   **NOES:** None.
   **ABSTAIN:** None.

ACTION ITEMS

2. SCAG Memberships & Sponsorships
   A MOTION was made (Pettis) to APPROVE the SCAG membership(s) dues to the METRANS Transportation Center Associates Program ($25,000), the American Public Transportation Association ($5,772), the Los Angeles County Business Federation ($5,000), and sponsorship(s) for the Southern California Leadership Network ($14,500).
   The MOTION was SECONDED (Martinez) and APPROVED by a majority vote. A roll-call vote was taken and recorded as follows:
   **AYES:** Clark, Finlay, Giba, Hagman, Lorimore, Marquez, Martinez, Mulvihill, Pettis, Saleh, Viegas-Walker, Wagner, Wapner (13).
   **NOES:** None.
   **ABSTAIN:** None.

3. SB 828 (Wiener) – Land Use: Housing Element
   Kevin Gilhooley, Manager of Legislation, provided a brief report regarding the status of SB 828 (Wiener) and the basis for staff’s recommendation that SCAG take an “Oppose Unless Amended” position. Discussion ensued amongst the Committee members whether to take an “Oppose” position instead, similar to other agencies. After much discussion, a MOTION was made (Wapner) to OPPOSE SB 828. The MOTION was SECONDED (Giba). A SUBSTITUTE MOTION was also made
(Finlay) to take an OPPOSE UNLESS AMENDED position on SB 828. The SUBSTITUTE MOTION was SECONDED (Mulvihill).

Chairman Lorimore stated that the Committee would proceed to vote on the SUBSTITUTE MOTION to take an “Oppose Unless Amended” position on SB 828. A roll-call vote was taken and recorded as follows:

AYES: Finlay, Martinez, Mulvihill, Saleh, Viegas-Walker (5).

NOES: Clark, Giba, Hagman, Lorimore, Marquez, Pettis, Wagner, Wapner (8).

ABSTAIN: None.

It was noted by staff that there were technical difficulties with the videoconferencing of the meeting in the Ventura office. Hon. Carmen Ramirez was in favor of the SUBSTITUTE MOTION but was unable to voice her vote.

As the SUBSTITUTE MOTION did not pass, Chairman Lorimore noted that the Committee would now proceed to vote on the initial MOTION to take an OPPOSE position on SB 828 and if the motion passed that staff was directed to state SCAG’s opposition to the author in the form of a letter. A roll-call vote was taken and recorded as follows:

AYES: Clark, Finlay, Giba, Hagman, Lorimore, Marquez, Martinez, Mulvihill, Pettis, Ramirez, Saleh, Viegas-Walker, Wagner, Wapner (14).

NOES: None.

ABSTAIN: None.

4. AB 2548 (Friedman) — Commute Benefit Policies: Los Angeles County Metropolitan Transportation Authority

Mr. Gilhooley provided the Committee with an overview of Assembly Bill (AB) 2548, concerning the creation of a commuter benefit ordinance administered by the Los Angeles County Metropolitan Transportation Authority (LA Metro).

After some questions regarding the merits of the bill, a MOTION was made (Giba) to SUPPORT AB 2548. The MOTION was SECONDED (Viegas-Walker) and APPROVED by a majority vote. A roll-call vote was taken and recorded as follows:

AYES: Clark, Finlay, Giba, Hagman, Lorimore, Marquez, Martinez, Mulvihill, Ramirez, Saleh, Viegas-Walker, Wapner (12).

NOES: Wagner (1).
ABSTAIN: Pettis (1).

INFORMATION ITEMS

5. Public Participation Plan Update
   Margaret de Larios, Public Affairs Specialist, provided the Committee with an update regarding SCAG’s proposed Public Participation Plan. Ms. De Larios noted that the Committee would vote on the proposed plan during its August meeting.

6. Legislative Tracking Report
   Melvin Sanchez, Legislative Aide, provided a summary of SCAG’s legislative tracking report.

7. Policy & Public Affairs Division Update
   Art Yoon, Director of Policy & Public Affairs, provided the Committee with an update on a few job vacancies in the division. Upon conclusion of Mr. Yoon’s update, Houston Laney, Legislative Analyst, presented Chairman Lorimore with a Certificate of Recognition for his service on the Committee.

FUTURE AGENDA ITEMS
There were no future agenda items presented.

ANNOUNCEMENTS
There were no announcements presented.

ADJOURNMENT
Chair Lorimore adjourned the meeting at 9:25 a.m. The next regular meeting of the Legislative/Communications & Membership Committee is scheduled for 8:30 a.m. – 10:00 a.m. on Tuesday, July 17, 2018 at SCAG’s offices at 900 Wilshire Blvd., Ste. 1700, Los Angeles, CA 90017.

Art Yoon, Director of Policy & Public Affairs
To: Legislative/Communications & Memberships Committee (LCMC)  
From: Melvin Sanchez; Legislative Aide; (213) 236-1850; sanchez@scag.ca.gov  
Subject: SCAG Memberships & Sponsorships

RECOMMENDED ACTION:
Approve

EXECUTIVE SUMMARY:
The Legislative/Communications & Membership Committee (LCMC) is asked to approve up to $58,217 in memberships for the: 1) California Association of Councils of Governments ($42,717); 2) Eno Center for Transportation ($10,500); and 3) Los Angeles County Business Federation ($5,000); and up to $30,000 in sponsorships for 4) LA CoMotion’s 2018 Leadership Conference ($10,000); and 5) UCLA Lewis Center and Institute of Transportation Studies 28th Annual Lake Arrowhead Symposium ($20,000).

STRATEGIC PLAN:
This item supports SCAG’s Strategic Plan, Goal 2: Advance Southern California’s policy interests and planning priorities through regional, statewide, and national engagement and advocacy.

Item 1: California Association of Councils of Governments
Type: Membership  
Amount: $42,717

Established in 1977, the California Association of Councils of Governments (CALCOG) is a statewide association representing 46 regional planning agencies working to assist each member in developing capacity to serve its own members’ needs for regional coordination and policy development. CALCOG’s members serve as a forum for local governments to prepare regional plans, set regional transportation policy, strengthen the effectiveness of local government, and develop and maintain regional databases.

CALCOG works with and through its members to:

- Review plans, and policies on subjects agreed upon by members;
- Coordinate policy development as appropriate to the League of California Cities, the California State Association of Counties, the National Association of Regional Councils, and the Association of Metropolitan Planning Organizations;
- Promote more effective planning at the regional level;
- Conduct statewide workshops and conferences which provide members with an ideal opportunity to discuss key issues and learn from recognized experts in various fields; and
- Provide an informational clearinghouse on issues of concern to the regions and state.
The FY 2018-2019 annual dues are $42,717. Given the vast quantity of legislation and policies related to regional issues and sustainable communities, CALCOG membership has become increasingly valuable to SCAG. CALCOG provides a strong voice for regional organizations in Sacramento. This year, CALCOG has assumed a leadership role in representing regional agencies on proposed legislation relating to the Regional Housing Needs Assessment and has been successful in reducing the impact of those proposals.

Former SCAG President Greg Pettis is currently the First Vice President of CALCOG and SCAG President Alan Wapner (SBCTA) and RC Members Jan Harnik (RCTC), Cheryl Viegas-Walker (El Centro), and Kris Murray (Anaheim) also serve as CALCOG Directors. Hasan Ikhrata serves on the Executive Director Committee.

**Item 2: Eno Center for Transportation**

**Type:** Membership  
**Amount:** $10,500

The Eno Center for Transportation’s mission is to seek continuous improvement in transportation and its public and private leadership in order to increase the system’s mobility, safety, and sustainability. Eno works across all modes of transportation, with the mission of cultivating creative and visionary leadership for the sector. They pursue this mission by supporting activities in their Center for Transportation Policy (CTP) and their Center for Transportation Leadership (CTL).

Eno Transportation Weekly (ETW), a weekly roundup of transportation and infrastructure related news and analyses, provides valuable information to SCAG staff on policy and legislation making its way through Washington D.C. ETW’s thorough and high-quality analyses cover different topics, including transportation reauthorization bills, competitive grant programs, proposed budgets for federal departments, and discussion of new and emerging technologies in the transportation sector.

SCAG staff recommends that the agency maintain membership at the “Gold Connector” level. Although this level of membership typically costs organizations $15,000, SCAG receives a 30-percent discount as a government agency, thus bringing the amount down to $10,500. This membership provides the agency with the following benefits:

- Ten (10) complimentary subscriptions to Eno Transportation Weekly (ETW);
- Complimentary half-page color advertisement in ETW;
- Opportunity to contribute relevant articles to ETW;
- Exclusive participation in Eno Working Group projects;
- One (1) “Signature” sponsorship table at Eno’s Annual Future Leaders Development Conference Fundraising Dinner;
- Six (6) daily rate tuition waivers for Eno Center for Transportation Leadership training courses;
- Special membership discounts to events, training courses and publications;
- Priority access to limited-space events and webinars;
- Access to member-only content via Member Portal;
- Job and RFP viewing and posting permission on Eno Career and Workforce Center;
- Access to online Membership Directory.
- Monthly Member-only expert-led Policy Calls on current and breaking news events, policy, and legislation;
- Access to the Eno Transportation Library; and
- Discounted fees for specialized Eno services (e.g., consultation, facilitation, resource support, custom reports, technical assistance, etc.).

**Item 3:** Los Angeles County Business Federation (BizFed)

**Type:** Membership  
**Amount:** $5,000

The Los Angeles County Business Federation (BizFed) is made up of more than 170 business organizations representing over 390,000 employers throughout Los Angeles County, along with Southern California's leading civic-minded corporations and public agencies. The organization advocates for policies and projects that strengthen the regional economy. This membership will allow SCAG access to utilize BizFed’s massive business networks to actively promote SCAG’s initiatives such as the Regional Transportation Plan/Sustainable Communities Strategy (RTP/SCS), Southern California Economic Summit, and other planning activities.

At its June 2018 meeting, this Committee approved a membership to BizFed in the amount of $5,000. Subsequent negotiations, however, have produced a new framework for SCAG’s membership in BizFed that provide upgraded benefits to the agency. As a result, SCAG staff recommends that SCAG elevate its membership to the “Silver” level. Additional membership dues in the amount of $5,000—bringing the agency’s total membership dues to BizFed to $10,000—would provide SCAG with the following:

- Priority participation at small group meetings and in BizFed’s Leadership Roundtable Series with high level elected officials;
- Hosting of one of BizFed’s Leadership Roundtables, including speaking opportunity and SCAG logo branding;
- Hosting BizFed’s December Board meeting, including three validated parking spots, AV, and lunch for approximately 60 people;
- Logo branding at and five (5) tickets to BizFed’s Annual Freshman Policymakers Party;
- A seat on BizFed’s Advisory Committee to help determine Leadership Roundtable targeted policymakers;
- Up to five (5) representatives from SCAG to have access to all BizFed intelligence sharing, committees, meetings, and events;
- Ability to educate business and elected leaders on policy issues and request support from the BizFed Board;
- One (1) voting seat on the BizFed Board of Directors;
- One (1) voting seat on the BizFed Advocacy Committee; and
- SCAG logo branding in all printed materials and online assets.

**Item 4:** LA CoMotion’s 2018 Leadership Conference

**Type:** Sponsorship  
**Amount:** $10,000
The LA CoMotion 2018 Leadership Conference will be held from November 15-18, 2018 and will provide a space to showcase, test, and experience the future of mobility. LA CoMotion is the leading global conference and expo focused on New Mobility. It is an initiative of the NewCities Foundation, the Montreal-based non-profit institution dedicated to improving the quality of life and work in 21st century cities around the world. LA CoMotion has the support of L.A. Mayor Eric Garcetti, the Los Angeles County Metropolitan Transportation Authority (Metro), the International Organization for Public Transport Authorities (UITP), and other leading city, state, national, and international organizations, both public and private. Over a thousand international leaders, including mayors, policymakers, CEOs, leading researchers, innovators, non-profit, and civil society leaders, will gather to discuss the nexus of innovation, business, and policy as they pertain to mobility.

SCAG sponsored this event last year and the feedback was very positive due to the integration of the agency’s GoHuman campaign. SCAG staff recommends sponsorship of this event in the amount of $10,000, which will provide SCAG with the following:
- SCAG to be branded as an LA CoMotion Institutional Partner, which includes branding on websites, print, marketing materials, social media channels, and on-site signage;
- SCAG given the opportunity to host a workshop or an expert meeting to be integrated within the program of LA CoMotion’s 2018 Leadership Conference;
- Five (5) admission passes for senior SCAG executives and leadership team and/or clients to the thought-leadership conference and for the duration of the event;
- Possibility of integrating and showcasing SCAG’s assets throughout LA CoMotion (i.e. Parklets, GoHuman Campaign, etc.); and
- SCAG news to be shared on CoMotion newsletters. Specifically, possibility for SCAG to contribute original Mobility perspectives (op-eds) to be included on the CoMotion newsletter and shared by LA CoMotion social media channels.

### Item 5:

| University of California, Los Angeles Lewis Center and Institute of Transportation Studies |
| 28th Annual Lake Arrowhead Symposium |
| **Type:** Sponsorship | **Amount:** $20,000 |

Each year, the University of California, Los Angeles (UCLA) Lewis Center and Institute of Transportation Studies Program holds a symposium dealing with regional and public policy issues. This year’s Symposium—*From Public Transit to Public Mobility*—will take place from October 14-16, 2018 at the UCLA Lake Arrowhead Conference Center and convenes a diverse and intimate group of influential policymakers, private sector stakeholders, public sector analysts, consultants, advocates, and researchers to delve into the pressing public policy challenges at the nexus of transportation, land use, and the environment. SCAG has been a sustaining co-sponsor for this program, which enables SCAG to maintain membership on the 2018-2019 Arrowhead Steering Committee and directly help plan and evaluate the event, including suggesting topics and speakers and nominating experts to attend the Symposium consistent with SCAG goals.

SCAG staff recommends that the agency sponsor the event at the “Arrowhead Diamond Sponsor” level in the amount of $20,000, which provides SCAG with the following:
- 6 complementary registrations;
- 450% off registrations; and
- One day of the symposium will be presented by SCAG.

FISCAL IMPACT:
$88,217 for memberships/sponsorships is included in the approved FY 18-19 General Fund budget.

Subject: Proposed Final Public Participation Plan

RECOMMENDED ACTION:
Approve

EXECUTIVE SUMMARY:
SCAG has developed an update to its Public Participation Plan to ensure that the agency’s approach to public engagement is current, effective, and inclusive. The Proposed Final Public Participation is designed to make the plan accessible to a general audience and adaptable in anticipation of evolving technologies and practices.

A Draft Public Participation Plan was released for a 60-day period of public review and comment from February through April of this year. Staff reviewed and responded to all comments, incorporating feedback as appropriate, and has produced a Proposed Final Public Participation Plan, which staff recommends the Legislative/Communications & Membership Committee (LCMC) should approve for Regional Council adoption.

STRATEGIC PLAN:
This item supports SCAG’s Strategic Plan, Goal 2: Advance Southern California’s policy interests and planning priorities through regional, statewide, and national engagement and advocacy; and Goal 6: Deploy strategic communications to further agency priorities and foster public understanding of long-range regional planning.

BACKGROUND:
Since its inception, SCAG has engaged in a public involvement process in developing its regional transportation plans and programs. SCAG’s Public Participation Plan serves as a guide for SCAG’s public involvement process as well as the continuing, comprehensive, and coordinated planning process among stakeholders to ensure the ongoing opportunity for broad-based participation by as many affected and interested parties as possible in the development and review of regional plans and programs.

Strategies and best practices for public engagement, as well as the ways people consume information, have shifted dramatically in the past few years. Periodic updates to the Public Participation Plan allow SCAG to better reflect those changes as well as ensure compliance with state and federal regulations. SCAG’s Public Participation Plan was last updated in March 2014, and in preparation for the development of the 2020 Regional Transportation Plan/Sustainable Communities Strategy (RTP/SCS), SCAG seeks to ensure that the agency’s approach to public engagement is current, effective, and inclusive.
The proposed Draft Public Participation Plan explains how SCAG operates, establishes core values for public participation, and sets forth goals and strategies for increasing public information and engagement. The changes made for the 2018 update were designed to make the plan more accessible to a general audience and more adaptable in anticipation of evolving technologies and practices. The organization of the document has been updated. To make it less formal and easier to navigate, the content is structured as answers to a series of questions. The dense technical and legal language has been moved to the appendices so that the body of the plan is accessible to a general audience and those who are specifically looking for details about statutory requirements and official processes can find them. The updated plan includes more context, explaining SCAG’s key operations and guiding principles for public participation. The draft plan also includes and adapts to public feedback on current strategies and methods for public engagement.

Public Comments
The Draft Public Participation Plan was released for a 60-day period of public review and comment from February through April of this year. In total, the draft plan received 29 comments from six respondents. These included comments urging utilization of digital communication channels, recommendations for improving editorial consistency, and requests for additional information on particular programs. Several comments also suggested clarification or augmentation on SCAG’s commitment to conducting a public participation process that is accessible to all parts of the region and to populations with limited proficiency in the English language.

Staff compiled, reviewed and responded to all comments received, incorporating feedback as appropriate. Copy editing recommendations, including notes on formatting and punctuation, were taken into consideration but not included in formal documentation. All other comments are included in the attached matrix, along with staff responses. As detailed in the matrix, public comments prompted a number of minor changes to the plan, largely related to updating inconsistencies and refining some statements that were unclear.

Staff has now produced a Proposed Final Public Participation Plan, which staff recommends the LCMC approve for review and adoption by the Regional Council.

FISCAL IMPACT:
Funding to support the Public Participation Plan is identified in the agency’s Overall Work Program (OWP) in 090-0148.01, Public Education and Participation.

WHAT IS SCAG?

The Southern California Association of Governments (SCAG) is the metropolitan planning organization (MPO) for the six-county Southern California region, including the counties of Imperial, Los Angeles, Orange, San Bernardino, Riverside, and Ventura. From the beaches to the high desert, the six-county region in Southern California spans 38,000 square miles, 191 cities and a population of over 19 million. The SCAG region is among the largest and most diverse in the world, with a unique combination of languages, ethnicities and cultures.

SCAG is responsible for developing long range transportation plans and programs for the region. An example is the Regional Transportation Plan/Sustainable Communities Strategy (RTP/SCS), the agency’s primary responsibility, which details how the region will address its transportation and growth challenges and opportunities over the next 20+ years in order to achieve its regional emissions standards and greenhouse gas reduction targets.

In addition, SCAG serves as the foremost data clearinghouse and information hub for the region, conducting research and analysis in pursuit of regional planning goals.

WHY DOES SCAG HAVE A PUBLIC PARTICIPATION PLAN?

Input and engagement from the across the region is critical in planning for such a large and diverse region. SCAG relies on public participation as the essential element to the ground-up and integrated approach to SCAG’s planning. The people who live, work and play here have varying, and sometimes conflicting, needs and priorities. Their voices must be heard if we are to develop planning policies that truly meet the needs of the region. To that end, SCAG is committed to conducting robust public outreach and engagement, as outlined in this Public Participation Plan.

Updating our Public Participation Plan has given SCAG the chance to reflect on our approach, and take into consideration the ways communication and information-sharing have changed since the last update in 2014. The changes in this update were designed to make the plan more accessible to a general audience, and more adaptable in anticipation of evolving technologies and practices. The organization of the document is a little different: To make it less formal and easier to navigate, we’ve structured the content as answers to a series of questions. We have also separated out the dense technical and legal language— if you are looking for details about statutory requirements and particulars about processes, you can find them in the appendices. The updated plan includes more context, explaining SCAG’s key operations and guiding principles for public participation. We also include and adapt to public feedback on our current strategies and methods for public engagement.

This plan details SCAG’s goals, strategies, and processes for providing the public and stakeholders with opportunities to understand, follow, and actively participate in the regional planning process. When we discuss “the public,” we are referring to any person who lives, works or plays in the region. When we use the word “stakeholder,” we are describing someone affiliated with an entity that has an official role in the regional transportation planning process.

SCAG will use this plan as a guideline for developing outreach strategies for various programs that have a public outreach component.

SCAG’s Public Participation Plan will help ensure that SCAG effectively seeks early and ongoing input from people and organizations throughout the region, and effectively addresses the evolving transportation, land-use, and environmental needs of Southern Californians now and for generations to come.
WHAT DOES SCAG HOPE TO ACHIEVE FROM PUBLIC ENGAGEMENT?

SCAG’s public participation efforts aim to:

» Ensure that a wide range of perspectives are heard so that planning outcomes reflect the interests and values of the region’s diverse communities. To that end, SCAG will engage and consider the needs of traditionally underrepresented and/or underserved populations, such as low-income, minority, the disabled, and limited English proficient (LEP) populations or individuals (for whom English is not their primary language and who have a limited ability to read, write, speak or understand English).

» Provide opportunities for the public and stakeholders across the region to engage in meaningful dialogue during the decision-making process.

» Clearly define the purpose of each outreach method at each stage and how feedback will be used to shape the plan and/or program.

» Motivate more feedback from stakeholders, partners, and the public by making commenting on plans and programs easy, convenient, and accessible.

» Reduce geographic barriers by providing public participation opportunities online and via teleconference and videoconference.

» Show how public and stakeholder viewpoints and preferences were incorporated, communicate the final decisions made, and identify how the received input affected those decisions.

» Encourage stakeholders and members of the public to remain engaged through the decision-making process, the implementation phase and beyond.

» Coordinate effectively on public participation processes with other agencies, both locally and statewide, to support integrated and complementary planning activities at all levels.

WHAT PRINCIPLES GUIDE SCAG’S OUTREACH?

Meaningful public participation is a cornerstone of regional planning and one of SCAG’s key priorities. In all outreach work, the agency holds itself to high standards according to SCAG’s core values of transparency, leading by example and creating positive impacts in the region. Regardless of how communication technologies and specific tools for engagement continue to evolve, SCAG is committed to following these outreach principles:

» Administer a transparent and clearly communicated process for public participation.

» Ensure that opportunities for public involvement are accessible to all communities.

» Provide information that is clear, concise, and current, making use of visualization and other techniques to enhance understanding.

» Respect and consider all feedback received from members of the public, partners and stakeholders.

» Adapt new communications strategies and technologies for public outreach.

» Provide engagement opportunities that meet and exceed statutory requirements to ensure broad participation in SCAG’s planning activities.

» Demonstrate how public input is addressed in SCAG plans, programs and policies.
WHAT LAWS GUIDE SCAG’S PUBLIC PARTICIPATION PROCESS?

SCAG, as a public agency and metropolitan planning organization, is subject to federal and state requirements which emphasize providing continuous and equitable opportunities for public involvement. Below is an overview of the major requirements for SCAG’s public outreach; a detailed description of each is available in Appendix A (page 18)

Federal Requirements

» **Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU)**, signed into law in 2005 as Public Law 109-59, authorized funds for Federal-aid highways, highway safety programs, transit program and other purposes and established federal metropolitan transportation planning requirements, 23 USC 134 et seq.

» **Federal Metropolitan Planning Regulations**, 23 CFR Part 450 et seq.

» **Executive Order 12898** — Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations. Signed February 11, 1994 by President William J. Clinton.

» **Fixing America’s Surface Transportation Act (FAST Act)**, Public Law as passed by Congress and signed by President Barack Obama on December 4, 2015.

» **Moving Ahead for Progress in the 21st Century Act (MAP-21)** signed into law in 2012, requires metropolitan planning organizations to provide opportunities for public involvement.

» **Title VI of the Civil Rights Act of 1964**, prohibits discrimination on the basis of race, color or national origin in carrying out planning and programming activities.

State Requirements

» California Public Records Act, California Government Code Section 6250 et seq., requires disclosure of records to the public upon request.

» Ralph M. Brown Act, California Government Code Section 54950 et seq., governs the public’s right to attend and participate in meetings.

» State Transportation Planning Law, California Government Code Section 65080 et seq. which incorporates the requirements of California Senate Bill 375 (Steinberg 2008) enacted in 2008 that requires SCAG to develop a Sustainable Communities Strategy as part of the Regional Transportation Plan, as well as requires SCAG as a council of governments to undertake the Regional Housing Needs Assessment (RHNA) process.

» California Environmental Quality Act (CEQA), Public Resources Code 21000–2118, and CEQA Guidelines, California Code of Regulations, Title 14, Division 6, Chapter 3, Sections 15000–15387, generally require lead agencies to inform decision makers and the public about the potential environmental impacts of proposed projects, and to reduce those environmental impacts to the extent feasible.
WHO PARTICIPATES IN SCAG’S PLANNING PROCESS?

SCAG represents the whole six-county region in all its geographic and demographic diversity. SCAG is committed to engaging, and utilizing input from, a range of constituents and stakeholders.

This commitment includes tailoring communications and information-sharing to a range of different levels of experience with, and understanding of, the principles of metropolitan planning.

(Note: When we discuss “the public,” we are referring to any person who lives, works or plays in the region. When we use the word “stakeholder,” we are describing someone affiliated with an entity that has an official role in the regional transportation planning process.)

Public

General Public — SCAG plans for all those who live, work and play in the region, with particular consideration to the accessibility needs of underserved groups such as minority and low-income populations, elderly and retired persons, children, limited English proficiency populations, and people with disabilities.

Stakeholders

Community Organizations — SCAG seeks to engage community groups such as environmental advocates, special interest nonprofit agencies, neighborhood groups, homeowner associations, and charitable organizations.

Public Agencies — SCAG solicits input from, and often collaborates closely with, public organizations like local transportation providers, air quality management districts, public health agencies, water districts, county transportation commissions, the region’s ports, educational institutions, and agencies at the state and federal level.

Business Community — SCAG actively engages many private-sector entities whose work intersects with transportation and land use planning, including private transportation providers, freight shippers, consulting firms, technology developers, and business and professional associations.

Elected Officials — SCAG seeks engagement with elected representatives at all levels, such as neighborhood councils, mayoral offices and city councils, county supervisor boards and state and federal legislators.

Tribal Governments or Nations

Tribal Governments or Nations — SCAG engages in consultation with the region’s tribal governments and nations, sustaining effective government–to–government collaboration on transportation planning and ensuring that tribal sovereignty is observed and protected.

(A full list of our stakeholders and interested parties is included in Appendix A.)
HOW DO WE ENGAGE THE PUBLIC?

SCAG is committed to providing access to accurate, understandable, pertinent, and timely policy, program, and technical information to facilitate effective public participation in the agency’s decision-making process. SCAG aims to increase early and meaningful participation through targeted outreach strategies. There are numerous opportunities for continuing involvement in the work of SCAG through the following methods.

General Public Participation Approach

Programs that have a public outreach component will use these methods as a guide in developing individual, project-specific public participation plans tailored according to scope and audience.

PUBLIC MEETINGS & EVENTS

» Customized presentations offered to existing groups and organizations
» Workshops co-hosted with community groups, business associations and other partners
» Engagement with community-based organizations in low-income and minority communities for targeted outreach
» Sponsorship of topical forums or summits with partner agencies or universities, with the media or other community organizations (e.g. Demographic Workshop, Economic Summit)
» Opportunities for public input directly to policy board members
» Outreach at locations, destinations, or events where people are already congregating (e.g. transit hubs, farmers markets, community festivals, universities)

PUBLIC MEETINGS & EVENTS – METHODS

» Open houses
» Themed workshops (to help avoid information overload)
» Question-and-answer sessions with planners and/or policy committee members
» Break-out sessions for smaller group discussions on multiple topics
» Interactive exercises
» Customized presentations with designated opportunities for feedback
» Vary time of day (day/evening) and days of week (weekday, weekend) for workshops
» Conduct meeting entirely in alternative language
» Provide videoconferencing or virtual meeting options such as webcasting
» Demonstration events to showcase project components

VISUALIZATION METHODS

» Maps
» Charts, illustrations, photographs, photograph simulations
» Artist renderings and drawings
» Table-top interactive displays and models
» Website content and interactive tools and/or games
» PowerPoint slideshows
PUBLIC SURVEY METHODS

» Electronic surveys via web (accessed remotely or at public workshops via tablets or laptops)
» Intercept interviews where people congregate, such as at transit hubs (e.g., Orange County’s ARTIC, Los Angeles Union Station, etc.) or farmers markets
» Printed surveys distributed at meetings, transit hubs, on-board transit vehicles, etc.

COMMENTING METHODS

» Polls/surveys (electronic or paper)
» Paper comment cards
» Online comment cards
» Post it notes or stickers
» Marking up maps or document text
» Phone calls or voicemails directly to staff or to a dedicated hotline
» Email sent to SCAG staff or via our online contact form
» Physically mailed letters
» Public comments can be given anonymously

METHODS FOR COMMUNICATING THE IMPACT OF PUBLIC COMMENTS

» Summarize key themes of public comments in staff reports to SCAG’s standing policy committees, working groups and to SCAG’s main governing board, the Regional Council
» Newsletters and other emails to participants to report final outcomes
» Updated and interactive web content

Public Participation Opportunities

SCAG regularly holds meetings and events, open to the public, where people are welcome to make comments. A comprehensive calendar of upcoming opportunities for public involvement is available on SCAG’s website, www.scag.ca.gov.

To provide opportunities for people to participate or comment from locations throughout the region, SCAG’s main office in Los Angeles and each regional office are equipped with state-of-the-art videoconferencing systems. SCAG provides multiple videoconferencing sites in Coachella Valley, Palmdale and South Bay to provide additional opportunities for participation in SCAG meetings and workshops. SCAG also utilizes web and audio conferencing and often connects to videoconferencing locations throughout the state.

REGULAR MEETINGS

SCAG’s Regional Council — All of SCAG’s plans and programs are adopted by its Regional Council, an 88-member governing board of elected officials, including city representatives from throughout the region, at least one representative from each county Board of Supervisors, and a representative of the Southern California Native American Tribal Governments. The region is divided into districts of roughly equal population in order to provide diverse, broad-based representation. The Regional Council meets once a month and meetings are open to the public. Regional Council meetings are typically held on the first Thursday of the month on or about 12:15 p.m. Specific meeting dates and times can be found on SCAG’s website, as well as agenda materials which are posted 72 hours in advance. Members of the public are welcome to attend and provide input, either by submitting a comment on an individual agenda item or making general comments by submitting a comment card at the start of the meeting.

SCAG’s Policy Committees — SCAG’s policy-making process is guided by the work of three Policy Committees: Transportation Committee (TC); Community, Economic and Human Development (CEHD) Committee; and Energy and Environment Committee (EEC). Members of the Regional Council are appointed to one of the policy committees for two–year terms. Most of the discussion and debate on the “nuts and bolts” of a policy issue occurs in the committees. Issues to be considered by the Regional Council must come through one or more of the committees. As opposed to Regional Council members, members of policy committees do not have to be elected officials. The policy committee meetings typically occur in the morning on the same day of the Regional Council meetings. Members of the public are welcome to attend and provide input, either by submitting a comment on an individual agenda item or making general comments by submitting a comment card at the start of the meeting.
Various other Committees, Subcommittees, Task Forces and Working Groups — These are board committees and focus groups convened to work on specific topic areas and vet highly technical matters. For example, the Technical Working Group (TWG) is an advisory peer group formed to provide SCAG staff with a venue to vet technical matters as they relate to SCAG’s development of its regional plans, including the RTP/SCS. For the 2016 RTP/SCS, multiple working groups were convened including: Active Transportation Working Group, Public Health Working Group, and Natural/Farm Lands Working Group. The Legislative/Communications and Membership Committee, which is made up of Regional Council members, provides guidance and recommendations to the Regional Council regarding legislative matters impacting the region and policy direction on SCAG’s communications and outreach strategies.

Special Public Meetings, Conferences, and Forums — Public meetings on specific issues are held as needed. If statutorily required, formal public hearings are conducted, and publicly noticed. SCAG typically provides public notice through posting information on SCAG’s website, and, if appropriate, through e-mail notices and news releases to local media outlets. Materials to be considered at SCAG public hearings are posted on SCAG’s website, and are made available to interested persons upon request.

Workshops, Community Forums, and Other Events — SCAG conducts workshops, community forums, and other events to keep the public informed and involved in various high-profile transportation projects and plans, and to elicit feedback from the public, partners, and stakeholders. SCAG holds meetings throughout the six-county region to solicit comments on major plans and programs, such as the RTP/SCS. Meetings are located and scheduled to maximize public participation (including evening meetings). For major initiatives and events, SCAG typically provides notice through posting information on SCAG’s website, and, if appropriate, through e-mail notices and news releases to local media outlets. At least once every year, SCAG convenes its General Assembly to bring together the official representatives of SCAG’s member agencies and help set SCAG’s course for the coming year.

Targeted Mailings — SCAG maintains a database of local government officials and staff, and other public agency staff and interested persons. The database allows SCAG to send targeted mailings (largely via email) to ensure the public, partners, and stakeholders are kept up to date on specific issues of interest.

HOW DO WE REACH OUT TO THE PUBLIC?

Public Outreach Channels

DIGITAL CHANNELS

Website — SCAG’s maintains its website, www.scag.ca.gov, to ensure that the public, partners, and stakeholders are kept informed about SCAG’s plans and programs and upcoming meetings. SCAG aims to ensure that its website is user-friendly and provides clear information. The website offers the public the opportunity to sign up for further information and updates via email. It also provides SCAG staff contact information.

Email — SCAG SPOTLIGHT, the official newsletter of the Regional Council, and SCAG UPDATE, the agency’s regular newsletter offering details on current agency programs and events. (Newsletters are archived online at www.scag.ca.gov.)

Social media — SCAG maintains an active social media presence on Twitter (@SCAGnews) and Facebook (@scagmpo). These accounts are regularly updated to share agency announcements, upcoming event details and new developments in SCAG’s plans and programs.

TARGETED MAILINGS/FLYERS

» Work with community-based organizations to distribute flyers
» Email to targeted database lists
» Place notices on-board transit vehicles and at transit hubs
LOCAL MEDIA

» Press releases
» Invite reporters to news briefings
» Meet with editorial staff
» Opinion pieces/commentaries
» Explore advertising opportunities in local newspapers

INTERNET/ELECTRONIC ACCESS TO INFORMATION

» Dynamic websites with updated content
» Videos explaining plans, programs, or concepts
» Maintain regular presence on social media outlets
» Podcast interviews
» Live broadcasts and archived recordings of public events

TARGETED NOTIFICATIONS

» Blast e-mails
» Notices widely disseminated through partnerships with local government and community-based organizations
» Electronic newsletters
» Social media such as Twitter and Facebook
» Local media
» Notices placed on-board transit vehicles and at transit hubs
» Submit articles for publication in community/professional/corporate newsletters

METHODS FOR INVOLVING TRADITIONALLY UNDERSERVED/UNDERREPRESENTED COMMUNITIES

» Engagement with community-based organizations to co-host meetings and remove barriers to participation by offering such assistance as child care or translation services
» Flyers on transit vehicles and at transit hubs
» Outreach in the community (e.g., at churches, health centers, schools etc.)
» Use of community and minority media outlets to announce participation opportunities

METHODS FOR INVOLVING LIMITED-ENGLISH PROFICIENT POPULATIONS

» Translate select documents into the four largest Limited English Proficiency (LEP) languages – Spanish, Chinese, Korean and Vietnamese, making these documents available for download on the agency’s website.
» Have translators, including bilingual staff members, available for public meetings and workshops as needed, with 72-hour advance notice
» Survey LEP participants at public hearings to assess the effectiveness of the agency’s language services and whether alternate services may need to be employed
» Disseminating notices of availability and press releases to print, radio and broadcast media serving minority communities
» Research and engage online LEP communities and groups
WHICH PROGRAMS HAVE ESTABLISHED PUBLIC PARTICIPATION PROCEDURES?

Regional Transportation Plan/Sustainable Communities Strategy

The Regional Transportation Plan/Sustainable Communities Strategy (RTP/SCS) represents the vision for Southern California’s future, including policies, strategies, and projects for advancing the region’s mobility, economy, and sustainability. The RTP/SCS details how the region will address its transportation and land use challenges and opportunities in order to achieve its air quality emissions standards and greenhouse gas reduction targets. An update of an existing RTP/SCS is required every four years, and SCAG is currently undertaking the development of the 2020 RTP/SCS to provide Southern California with a comprehensive vision for its transportation future to the year 2045.

Developing the long-range plan for the SCAG region takes between two and three years to complete and involves working with six county transportation commissions, 15 sub-regional organizations, 191 cities, and numerous other stakeholder organizations and the public. The 2020 RTP/SCS involves goal setting, target setting, growth forecasting, financial projections, scenario development and analysis, and significant issues exploration.

Throughout the 2020 RTP/SCS development, SCAG’s Regional Council; Community, Economic, and Human Development Committee; Energy and Environment Committee; and Transportation Committee will consider the challenges and opportunities facing our region and how to best address them, while considering public input.

The process will need to be flexible and is subject to change as needed to reflect and respond to the input received as SCAG moves through the steps of updating the plan. SCAG will update its details regularly to help direct interested SCAG residents and organizations to participate in key actions or decisions being made. Details will be on the plan website at www.scagrtpsc.org.

(For additional information on the RTP/SCS public participation procedures, see Appendix B.)

Program Environmental Impact Report for the RTP/SCS

Pursuant to the California Environmental Quality Act (CEQA), SCAG will prepare a Program Environmental Impact Report (PEIR) to evaluate the potential environmental impacts associated with the implementation of the 2020 RTP/SCS. The PEIR will focus on a region-wide assessment of existing conditions and potential impacts as result of the 2020 RTP/SCS, as well as broad policy alternatives and program-wide mitigation measures.

The PEIR will serve as an informational document to inform decision-makers and the public of the potential environmental consequences of approving the proposed plan by analyzing the projects and programs on a broad regional scale, not at a site-specific level of analysis. Site specific analysis by the lead agency will occur as each project is defined and goes through individual project-level environmental review.

SCAG will hold various scoping meetings and workshops throughout the PEIR development process to solicit input from SCAG stakeholders and the public. SCAG will ensure the PEIR is accessible to the public for review and comment.

(For additional information on the PEIR public participation procedures, see Appendix B.)

Environmental Justice Program

Pursuant to regulatory compliance, SCAG has developed a policy to ensure that environmental justice principles are an integral part of its transportation and land use planning process, including the RTP/SCS. SCAG’s environmental justice program has two main elements: technical analysis and public outreach. The two major elements of the program contribute to the development of the Environmental Justice (EJ) Appendix of SCAG’s RTP/SCSs (SCAG staff is currently working on the 2020 RTP/SCS), which conducts a technical analysis of EJ issues of the region and discusses outreach strategies, and SCAG’s role as a resource for local jurisdictions to help address EJ issues in their respective communities (i.e. SCAG can be a data resource and provide guidance on EJ technical analysis processes for local jurisdictions that develop an EJ General Plan Element or incorporate EJ-related policies, goals, and objectives into their General Plans per SB 1000 requirements).

The overall environmental justice outreach process encourages SCAG stakeholders and the public, with many opportunities to be involved, to discuss and address environmental justice issues and shape SCAG’s
environmental justice program.

To further strengthen public outreach with SCAG stakeholders on EJ–related issues, SCAG staff proposed an Environmental Justice Working Group (EJWG) and held the first meeting in May 2018. The purpose of the EJWG is to kick–start SCAG’s ongoing EJ Program and develop a platform for SCAG stakeholders to discuss EJ topic on a continuous basis, not just during the development of the most current RTP/SCS.

(For additional information on the Environmental Justice public participation procedures, see Appendix B.)

Regional Housing Needs Assessment

SCAG is required to make updates to the eight–year Regional Housing Needs Assessment (RHNA), as mandated by state housing law. The RHNA quantifies the need for housing within each jurisdiction. Communities use the RHNA in land use planning, prioritizing local resource allocation, and in deciding how to address identified existing and future housing needs resulting from population, employment and household growth.

Both the RTP/SCS and RHNA use the local input survey, which collects information from each local jurisdiction, as the basis for future demographic projections, including household growth. The next RHNA cycle, also known as the 6th cycle, will cover the planning period of October 2021 through October 2029. The latest that SCAG can adopt the 6th RHNA allocation is October 2020, but SCAG is looking at alternative schedules for an earlier adoption date, possibly to coordinate with the adoption of the 2020 RTP/SCS.

As part of its public outreach for the RHNA process, SCAG will hold public meetings, workshops and public hearings at different points in the RHNA process to receive verbal and written input. SCAG staff will also coordinate with sub–regional COGs and other groups to update local jurisdictions and other stakeholders on the RHNA process and allocation.

Federal Transportation Improvement Program

SCAG’s Federal Transportation Improvement Program (FTIP) is the short–term capital listing of all transportation projects proposed over a six–year period. The listing, which is prepared every two years, identifies specific funding sources and funding amounts for each project. The proposed transportation projects are funded through a variety of federal, state and local sources. Projects consist of improvements such as, highway improvements, transit, high occupancy vehicle lanes, signal synchronization, intersection improvements, bikeways, and freeway ramps to name a few. The FTIP must include all transportation projects that are federally funded, and/or regionally significant regardless of funding source or whether subject to any federal action.

Projects in the FTIP are submitted to SCAG by the six County Transportation Commissions. SCAG analyzes the projects to ensure that they are consistent with state and federal requirements. Federal law requires the FTIP be consistent with the RTP.

SCAG works with transit operators and county transportation commissions on developing the FTIP. The public participation process and coordination is a tiered process within the SCAG region, beginning at the county level with each transportation commission developing their own transportation improvement program (TIP). There are several opportunities for the public to review and comment on projects and programs during the development of each county TIP and approval of the SCAG FTIP.

(For additional information on the FTIP public participation procedures, see Appendix B.)

Overall Work Program

Funding for SCAG’s metropolitan planning activities are documented in an annual Overall Work Program, or OWP, pursuant to federal requirements. The OWP is developed each fiscal year, and details the agency’s planning and budgetary priorities for the following fiscal year. SCAG’s federal and state funding partners (FHWA, FTA and Caltrans) must approve SCAG’s OWP each year before it takes effect.

(For additional information on the OWP public participation procedures, see Appendix B.)
WHY DOES SCAG EVALUATE PUBLIC PARTICIPATION ACTIVITIES?

SCAG regularly monitors its communication and outreach activities in order to ensure that public and stakeholder concerns and input are directly addressed in its policies and programs, as well as to find areas for improvement. Additionally, these measurements are used to ensure public outreach outcomes are in compliance with state and federal requirements.

In developing this updated Public Participation Plan, we sought feedback from stakeholders and the public on our current outreach and engagement practices. In a survey distributed digitally during the development of this plan, we asked respondents to let us know which of our public participation activities are most effective, and how we can improve our efforts.

Major survey takeaways include:

» Respondents ranked email as their most frequently used SCAG communication channel by a clear margin. Local media announcements were reported as the most infrequently used.

» When asked about the most effective ways for SCAG to keep them engaged, those surveyed overwhelmingly supported email communications: 62% expressed a preference for “Regular, monthly e-mail newsletters with brief snippets of information” and 23% chose “Infrequent direct email on a singular issue” over alternative choices like social media and online video content.

» 81% of respondents reported feeling that they have adequate access and opportunity to comment on SCAG’s plans and publications.

» 94% of respondents reported being either “somewhat satisfied” or “very satisfied” by SCAG’s responsiveness to inquiries and comments.

» More than 75% of respondents indicated support for SCAG collecting demographic data (such as age, race, or primary language) in public engagement efforts to support more inclusive outreach.

» Additional comments requested more frequent and up-to-date information sharing on digital channels, and multiple respondents expressed a desire for more frequent, or better publicized, opportunities to provide input (beyond board meetings and on the Regional Transportation Plan).

This plan moves to address this feedback by placing a greater emphasis on online engagement efforts, particularly via email, and more clearly outlining SCAG’s regular public comment opportunities. The survey input will also inform some of our future evaluation methods, incorporating demographic data as a metric because of the expressed stakeholder support.

SCAG will continue to periodically survey the public and stakeholders to assess the effectiveness of the procedures and strategies contained in the Public Participation Plan, to ensure a full and open participation process.
WHAT DOES SCAG MEASURE?

» SCAG measures the outcomes of a diverse array of public participation activities with context-sensitive evaluation methods that tailor goals to each project.

» Benchmarks used to gauge success in public outreach include but are not limited to:
  » Number of meetings or events held
  » Number of meeting/event attendees
  » Amount spent on outreach elements
  » Media coverage
  » Type and quantity of materials presented

» Email distribution numbers, including open and click-through rates

» Digital metrics including web traffic and social media engagement

» Impressions (estimates of digital and print exposure)

» Demographic data, shared voluntarily, such as race/ethnicity, gender and age

» The following chart shows the measurements activities that correspond with previously stated public participation goals.

HOW DOES SCAG DEFINE SUCCESS?

» SCAG uses qualitative and quantitative methods to evaluate the success of its public participation strategies. Depending on the scope and location of the project or activity, SCAG measures feedback through:

» Setting clear, measurable outcomes.

» Establishing benchmarks to gauge success (i.e. 75% of respondents rated a workshop at 4 or higher on a six-point scale).

» Reviewing past processes, activities, and evaluations to see what actions the agency took as a result, noting lessons learned.

» Identifying and simplifying public involvement techniques that produce more cost-effective decisions.

» Evaluating public participation plans with surveys and opportunity for public comment.

» Highlight yearly public outreach successes and areas for improvement in annual accomplishments report.

» Measuring impact of digital outreach strategies by documenting number of hits on website, social media (Twitter and Facebook), and number of followers, shares, retweets, tweets, direct tweets, mentions etc.

» Measuring growth of distribution lists size, and number of requests to join distribution lists.

» Counting number of attendees, comments received and press mentions for project specific open houses, meetings & workshops.

» Counting number of registrations compared to actual attendance at events.

» Counting registrations and log-ins for webinars.

» Documenting the distribution, press mentions, number of calls, and comments for physical outreach materials such as direct mailings and flyers.

» Documenting press mentions, number of calls, and comments related to press releases.

» Tracking how often SCAG is mentioned in media such as news articles, blog posts, TV news etc. Other aspects to document are: circulation/popularity of news outlet; whether reference is positive or negative; content and number of comments on article/blogpost; number of times article/blog post has been shared; and what projects/programs are being mentioned.

» Scientific polling to obtain metrics regarding the effectiveness of its outreach.

» Reporting to agency leadership on level of success with respect to public participation using these methods.

WHAT SHOULD YOU DO NOW?

Find Information

Web & Video — SCAG’s website, www.scag.ca.gov, serves as the comprehensive resource for SCAG’s programs and policy initiatives, agendas for Regional Council and Policy Committee meetings, fact sheets and calendar of SCAG events. Live and archived video of Regional Council meetings and other SCAG-related video productions are available in the SCAG-TV section.

Data Library — SCAG has a wide range of data and web tools to help you access regional planning data, statistics and research information. We also have an extensive GIS library, which provides free access to a diverse collection of geographic and spatial data. SCAG’s data have been used by interested parties for a variety of purposes including: data and communication resources for elected officials; businesses and residents; community planning and outreach; economic development; visioning initiatives; and grant application support.

Group Presentations — SCAG’s planning staff are available to conduct presentations to community and stakeholder groups. Presentations can be tailored to address a specific topic, area of concern, or provide a general overview of how SCAG works on many different issues. Request a SCAG presentation to your organization or community through our online contact form at www.scag.ca.gov/about/Pages/ContactUs.aspx.
STAY CONNECTED

E-Newsletters — SCAG SPOTLIGHT is the official newsletter of the Regional Council. It includes information on recent Regional Council actions, an update from SCAG’s Executive Director and news on upcoming events. SCAG UPDATE is the agency’s regular newsletter, which offers updates on agency programs and events. To view or subscribe to SCAG’s e-newsletters, visit www.scag.ca.gov.

Social Media — SCAG is active on several social networking sites to help expand awareness of SCAG and broaden interest in its regional planning work. Engage with SCAG and stay current with news and events by following the agency on Facebook at @scagmpo or on Twitter at @SCAGnews.

Multilingual Access — SCAG seeks to ensure that diverse populations are involved in the regional planning process. With a minimum advance notice of 72 hours, SCAG makes available translation assistance at its workshop and public meetings. SCAG translates key outreach materials into Spanish, Chinese, Korean, and Vietnamese, and makes them available on the SCAG website: www.scag.ca.gov.

Share Input

SCAG welcomes the public to address the Regional Council and Policy Committees at every monthly meeting. Meetings for special subcommittees also include time for public comments. Visit the Public Participation Form on the SCAG website at www.scag.ca.gov to weigh in on important issues in Southern California. Regional Affairs Staff and Offices

To address the challenges of coordinating participation activities and events across 38,000 square miles of the region, SCAG established regional offices in the counties of Imperial, Orange, Riverside, San Bernardino and Ventura. Each office is staffed by a Regional Affairs Officer who coordinates SCAG activities for each county.
LEGAL PUBLIC PARTICIPATION REQUIREMENTS

Federal Planning Requirements

As the MPO designated for the six-county metropolitan planning area (MPA), SCAG is responsible under federal and state transportation planning law, to develop a metropolitan transportation plan, referred to by SCAG as the Regional Transportation Plan (RTP) and a transportation improvement program (TIP), referred to as the Federal Transportation Improvement Program (FTIP).

The 2005 “Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users” (SAFETEA-LU) set forth public participation requirements for MPOs in developing these transportation plans. Specifically, SAFETEA-LU required MPOs to develop, in collaboration with interested parties, a Public Participation Plan that would provide reasonable opportunities for all parties to participate and comment on regional transportation plans. The transportation reauthorization bill “Moving Ahead for Progress in the 21st Century” (MAP-21) continues an emphasis on providing early and continuous opportunities for public involvement.

In carrying out its planning work, SCAG must comply with federal metropolitan planning law and regulations (23 U.S.C. Section 134 et seq. and 23 CFR Part 450 et seq.) and state transportation planning law (Cal Gov. Code Section 65080 et seq.) which incorporates the requirements of California Senate Bill 375 (Steinberg 2008). SCAG is further committed to developing and updating its regional transportation plans in accordance with the following requirements, including but not limited to: California Environmental Quality Act (CEQA) and Guidelines; Federal Clean Air Act; American with Disabilities Act of 1990 (ADA); Title VI of the Civil Rights Act; Executive Order 12898 regarding Environmental Justice; Executive Order 13166 regarding Improving Access to Services for Persons with Limited English Proficiency; Executive Order 13175 regarding Consultation and Coordination with Indian Tribes.

SCAG’s Public Participation Plan procedures will follow and must comply with the following federal planning regulations set forth under 23 C.F.R. Section 450.316:

1. The MPO shall develop and use a documented participation plan that defines a process for providing citizens, affected public agencies, representatives of public transportation employees, freight shippers, providers of freight transportation services, private providers of transportation, representatives of users of public transportation, representatives of users of pedestrian walkways and bicycle transportation facilities, representatives of the disabled, business and other interested parties with reasonable opportunities to be involved in the metropolitan transportation planning process.

2. The participation plan shall be developed by the MPO in consultation with all interested parties and shall, at a minimum, describe explicit procedures, strategies, and desired outcomes for:

   » (i) Providing adequate public notice of public participation activities and time for public review and comment at key decision points, including but not limited to a reasonable opportunity to comment on the proposed metropolitan transportation plan and the TIP;

   » (ii) Providing timely notice and reasonable access to information about transportation issues and processes;

   » (iii) Employing visualization techniques to describe metropolitan transportation plans and TIPs;

   » (iv) Making public information (technical information and meeting notices) available in electronically accessible formats and means, such as the World Wide Web;
» (v) Holding any public meetings at convenient and accessible locations and times;
» (vi) Demonstrating explicit consideration and response to public input received during the development of the metropolitan transportation plan and the TIP;
» (vii) Seeking out and considering the needs of those traditionally underserved by existing transportation systems, such as low-income and minority households, who may face challenges accessing employment and other services;
» (viii) Providing an additional opportunity for public comment, if the final metropolitan transportation plan or TIP differs significantly from the version that was made available for public comment by SCAG and raises new material issues which interested parties could not reasonably have foreseen from the public involvement efforts;
» (ix) Coordinating with the statewide transportation planning public involvement and consultation processes under subpart (ii) of this part [regarding Consultation]; and
» (x) Periodically reviewing the effectiveness of the procedures and strategies contained in the participation plan to ensure a full and open participation process.

3. When significant written and oral comments are received on the draft metropolitan transportation plan and TIP (including the financial plans) as a result of the participation process in this section or the interagency consultation process required under the EPA transportation conformity regulations (40 CFR part 93), a summary, analysis, and report on the disposition of comments shall be made as part of the final metropolitan transportation plan and TIP.

4. A minimum public comment period of 45 calendar days shall be provided before the initial or revised participation plan is adopted by SCAG. Copies of the approved participation plan shall be provided to the FHWA and the FTA for informational purposes and shall be posted on the World Wide Web, to the maximum extent practicable.

CONSULTATION REQUIREMENTS & ACTIVITIES

SCAG must consult, as appropriate, with State and local agencies responsible for land use management, natural resources, environmental protection, conservation, and historic preservation concerning the development of the RTP. The consultation shall involve, as appropriate:

1. Comparison of transportation plans with State conservation plans or maps, if available; or
2. Comparison of transportation plans to inventories of natural or historic resources, if available.

SCAG’s consultation requirements under federal planning regulations are set forth under 23 C.F.R. Section 450.316(b)-(e) as follows:

1. In developing metropolitan transportation plans and TIPs, the MPO should consult with agencies and officials responsible for other planning activities within the MPA that are affected by transportation (including State and local planned growth, economic development, environmental protection, airport operations, or freight movements) or coordinate its planning process (to the maximum extent practicable) with such planning activities. In addition, metropolitan transportation plans and TIPs shall be developed with due consideration of other related planning activities within the metropolitan area, and the process shall provide for the design and delivery of transportation services within the areas that are provided by:
   » Recipients of assistance under title 49 U.S.C. Chapter 53;
   » Governmental agencies and non-profit organizations (including representatives of the agencies and organizations) that receive Federal assistance from a source other than the U.S. Department of Transportation to provide non-emergency transportation services; and
   » Recipients of assistance under 23 U.S.C. 204.
2. When the MPA includes Indian Tribal lands, the MPO shall appropriately involve Indian Tribal government(s) in the development of the metropolitan transportation plan and the TIP.
3. When the MPA includes Federal public lands, the MPO shall appropriately involve the Federal land management agencies in the development of the metropolitan transportation plan and TIP.
4. MPOs shall, to the extent practicable, develop a documented process(es) that outlines roles, responsibilities, and key decision points for consulting with other governments and agencies, as defined in paragraphs 1–3 of this section, which may be included in the agreement(s) developed under Section 450.314 [metropolitan planning agreements].
Consultation activities are accomplished primarily through SCAG Policy Committees, other committees, subcommittees, task forces, and working groups. SCAG’s Policy Committees (Transportation Committee, Energy and Environment Committee and Community, Economic and Human Development Committee) are primarily made up of local elected officials. There are several issue-specific, as well as mode-specific, committees, subcommittees, task forces and working groups that are on-going as well as some that are created for a specific purpose and specific timeframe. All of these groups provide input to SCAG who thereafter forwards their recommendations to the policy committees. Examples include the Aviation Technical Advisory Committee, Technical Working Group, Transit Technical Advisory Committee, Modeling Task Force, Transportation Conformity Working Group and several Regional Planning Working Groups (on subjects including active transportation, environmental justice, public health and sustainable communities). Subsequent to the adoption of the 2012–2035 RTP/SCS, SCAG convened six subcommittees: Active Transportation, Goods Movement, High-Speed Rail and Transit, Public Health, Sustainability, and Transportation Finance. Membership on these groups includes elected officials as well as stakeholder agency representatives. The stakeholders had a direct pipeline to SCAG’s planning processes through these groups. In anticipation of the development for the 2020 RTP/SCS, SCAG formed two additional Regional Planning Working Groups, one focused on issues of safety and another on mobility innovation.

SCAG conducts meetings with planning staff from all 197 member jurisdictions and provides individual city council briefings when requested. Also, SCAG conducts several workshops prior to releasing the Draft RTP/SCS involving stakeholders to ensure that their input on major issues is addressed in the plan. In addition, SCAG meets with State and local agencies responsible for land use management, natural resources, environmental protection and others.

SCAG also utilizes the sub-regional council of governments (COG) structure to distribute information and solicit input on the content as well as the planning and programming process from local stakeholders.

SCAG mails out a notice of the Draft RTP and FTIP availability to the stakeholders at the local, state and federal level to solicit their comment and input to the final RTP and FTIP. Comments and responses are fully documented and reflected in the final RTP.

SCAG reviews and considers all public comments in the regional transportation planning process. Provide additional opportunity for public comment on the revised plan if the final plan differs significantly from the draft plan that was previously made public.

SCAG engages Tribal Governments in the RTP and FTIP processes through Tribal Government representation on SCAG’s governing board and policy committees.

**TITLE VI AND ENVIRONMENTAL JUSTICE**

Consideration of Environmental Justice in the transportation planning process originates from Title VI of the Civil Rights Act of 1964 (Title VI). Title VI establishes the need for transportation agencies to disclose to the public the benefits and burdens of proposed projects on minority populations. Title VI states that “No person in the United States shall, on the ground of race, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.” Additionally, Title VI not only bars intentional discrimination, but also unjustified disparate impact discrimination. Disparate impacts result from policies and practices that are neutral on their face (i.e., there is no evidence of intentional discrimination), but have the effect of discrimination on protected groups. The understanding of civil rights has expanded to include low-income communities, as further described below.

In the 1990’s, the federal executive branch issued orders on Environmental Justice that amplified Title VI, in part by providing protections on the basis of income as well as race. These directives, which included President Clinton’s Executive Order 12898 (1994) and subsequent U.S. Department of Transportation (DOT) and Federal Highway Administration (FHWA) orders (1997 and 1998, respectively), along with a 1999 DOT guidance memorandum, ordered every federal agency to make Environmental Justice part of its mission by identifying and addressing the effects of all programs, policies and activities on underrepresented groups and low-income populations. Reinforcing Title VI, these measures ensure that every federally funded project nationwide consider the human environment when undertaking the planning and decision-making process.

On August 4, 2011, 17 federal agencies signed the “Memorandum of Understanding on Environmental Justice and Executive Order 12898.” The signatories, including the U.S. Department of Transportation (DOT), agreed to develop Environmental Justice strategies to protect the health of people living in communities overburdened by pollution and to provide the public with annual progress reports on their efforts. The MOU advances agency responsibilities outlined in the 1994 Executive Order 12898 and directs each of the Federal agencies to make Environmental Justice part of its mission and to work with
other agencies on Environmental Justice issues as members of the Interagency Working Group on Environmental Justice.

In response to this MOU, DOT revised its Environmental Justice Strategy. The revisions reinforce the DOT’s programs and policies related to Environmental Justice and strengthen its efforts to outreach to minority and low-income populations. In addition, in July 2012, the Federal Transit Authority (FTA) issued two Circulars on Title VI and Environmental Justice to clarify the requirements and offer guidance. FTA Circular 4702.1A, Title VI Requirements and Guidelines for Federal Transit Administration Recipients provides information required in the Title VI Program, changes the reporting requirement from every four years to every three years, and adds a requirement for mapping and charts to analyze the impacts of the distribution of State and Federal public transportation funds. The FTA Circular 4703.1, Environmental Justice Policy Guidance for Federal Transit Administration Recipients (Docket number FTA-2011-0055) provides recommendations to MPOs (and other recipients of FTA funds) on how to fully engage Environmental Justice populations in the public transportation decision-making process; how to determine whether Environmental Justice populations would be subjected to disproportionately high and adverse human health or environmental effects as a result of a transportation plan, project, or activity; and how to avoid, minimize, or mitigate these effects. The Circular does not contain any new requirements, policies or directives. Nonetheless, SCAG complies with the framework provided to integrate the principles of Environmental Justice into its decision-making processes.

Under federal policy, all federally funded agencies must make Environmental Justice part of their mission and adhere to three fundamental Title VI/Environmental Justice principles:

1. To avoid, minimize, or mitigate disproportionately high and adverse human health and environmental effects, including social and economic effects, on minority populations and low-income populations.
2. To ensure the full and fair participation by all potentially affected communities in the transportation decision-making process.
3. To prevent the denial of, reduction in, or significant delay in the receipt of benefits by minority and low-income populations.

In addition to Federal requirements, SCAG must comply with California Government Code Section 11135, which states that, “no person in the State of California shall, on the basis of sex, race, color, religion, ancestry, national origin, ethnic group identification, age, mental disability, physical disability, medical condition, genetic information, marital status, or sexual orientation, be unlawfully denied full and equal access to the benefits of, or be unlawfully subjected to discrimination under, any program or activity that is conducted, operated, or administered by the state or by any state agency that is funded directly by the state, or receives any financial assistance from the state.”

The State of California also provides guidance for those involved in transportation decision-making to address Environmental Justice. In 2003, the California Department of Transportation (Caltrans) published the Desk Guide on Environmental Justice in Transportation Planning and Investments to provide information and examples of ways to promote Environmental Justice. The Desk Guide identified requirements for public agencies, guidance on impact analyses, recommendations for public involvement, and mitigation.

Finally, SCAG has in place a Title VI Program which was adopted in September 2017. The Title VI Program includes a process for investigating Title VI complaints as well as a copy of the agency’s Language Assistance Plan for Limited English Proficient (LEP) Populations. The key elements of the LEP Plan include: (1) Oral translators versed in Spanish, Chinese and Korean available upon request for meeting and workshops; (2) selected RTP materials available in English, Spanish, Chinese, Korean and Vietnamese languages; and (3) utilization of a specialty outreach consultant to engage with the LEP and minority communities. SCAG will continue these efforts for the 2020 RTP/SCS cycle. More information about the agency’s Title VI Program and LEP Plan is available on the SCAG website at: http://www.scag.ca.gov/participate/Pages/CivilRights.aspx.

State Planning Requirements

Under California law, each metropolitan planning organization is required to adopt a public participation plan, for development of the sustainable communities strategy and an alternative planning strategy (if one is developed), that includes all of the following:

1. Outreach efforts to encourage the active participation of a broad range of stakeholder groups in the planning process, consistent with SCAG’s adopted Public Participation Plan;
2. Consultation with congestion management agencies, transportation agencies, and transportation
3. Workshops throughout the region (a minimum of three public workshops in each county with a population of 500,000 or more) to provide the public with the information and tools necessary to provide a clear understanding of the issues and policy choices;

4. Preparation and circulation of a draft SCS, and APS if one is prepared, not less than 55 days before adoption of a final RTP;

5. At least three public hearings on the draft SCS in the RTP, and APS if one is prepared, held in different parts of the region, if feasible;

6. A process for enabling members of the public to provide a single request to receive notices, information and updates.

Further, SCAG must conduct at least two informational meetings in each county within the region for members of the board of supervisors and city councils on the SCS and APS, if any. The purpose of the meeting shall be to present a draft of the SCS to the members of the board of supervisors and city council members in that county and to solicit and consider their input and recommendations.

**INTERESTED PARTIES**

SCAG intends to encourage involvement of a broad range of people and organizations in the RTP/SCS planning process by reaching out to a wide variety of potential participants.

Per state law, SCAG has expanded its list of Interested Parties which includes the public, stakeholders and tribal governments, to whom we conduct outreach.

The following list of Interested Parties are target audiences SCAG aims to reach in the region:

- affordable housing advocates
- business organizations
- city managers
- community development representatives
- commercial property interests
- community-based organizations
- educational community and institutions
- elderly and retired persons
- elected officials
- environmental advocates
- freight shippers
- general public
- governmental agencies and non-profit organizations that receive Federal assistance from a source other than the Department of Transportation (DOT) to provide non-emergency transportation services and recipients of assistance under section 204 of Title 23 U.S.C.
- health and wellness representatives
- home builder representatives
- homeowner associations
- landowners
- Limited English Proficiency populations
- minority and low-income populations
- neighborhood and community groups
- neighborhood councils
- organizations serving rural area residents
- planners
- private providers of transportation
- private sector
- providers of freight transportation services
- public agencies
- public health and wellness representatives
- public sector
- representatives of the disabled
- representatives of transportation agency employees
- representatives of users of pedestrian walkways and bicycle transportation facilities
- representatives of users of public transit
- special interest non-profit agencies
- subregional organizations such as Councils of Governments
- transit operators
- transportation advocates
- Tribal Governments
- women’s organizations
- schools and school-based groups
BOTTOM-UP PLANNING AND INTERAGENCY CONSULTATION

SCAG’s three Policy Committees (Transportation Committee, Energy & Environment Committee and Community, Economic & Human Development Committee) include members appointed to represent the 15 subregional organizations in the SCAG region. Further, the numerous subcommittees, technical advisory committees, working groups, and the AB 1246 process (Cal. Pub. Util. Code §130059) facilitate SCAG’s ability to provide a framework for ground-up planning and more frequent and ongoing participation by interested parties at all stages of the process.

Within the AB 1246 process, the multi-county designated transportation planning agency (i.e. SCAG) shall convene at least two meetings annually of representatives from each of the county transportation commissions, the agency, and the Department of Transportation for the purposes below.

1. To review and discuss the near-term transportation improvement programs prior to adoption by the county transportation commissions.

2. To review and discuss the Regional Transportation Plan prior to adoption by SCAG pursuant to Chapter 2.5 (commencing with Section 65080) of Title 7 of the Government Code.

3. To consider progress in the development of a region wide and unified public transit system.

4. To review and discuss any other matter of mutual concern.

The region-wide Transportation Agencies CEOs Group is currently fulfilling the function of the AB 1246 process.

SCAG has a memorandum of understanding (MOU) with the South Coast Air Quality Management District (SCAQMD) on transportation and air quality conformity consultation procedures for the South Coast Air Basin and for the Riverside County portions of the Salton Sea Air Basin and the Mojave Desert Air Basin. Parties to the MOU include: SCAQMD, Los Angeles County Metropolitan Transportation Authority, Orange County Transportation Authority, Riverside County Transportation Commission, San Bernardino County Transportation Authority, California Department of Transportation (Caltrans), California Air Resource Board, and the Federal Highway Administration.

Likewise, SCAG has an MOU for transportation and air quality conformity consultation procedures with the Ventura County Air Pollution Control District (VCAPCD) for the Ventura County portion of the South Central Coast Air Basin (SCCAB). Parties to the MOU include: VCAPCD, Ventura County Transportation Commission, Caltrans, California Air Resources Board, Federal Highway Administration and the Federal Transit Administration.

To support interagency coordination and fulfill the interagency consultation requirements of the Federal Transportation Conformity Rule, SCAG hosts and participates in the Southern California Transportation Conformity Working Group (TCWG). The group meets on a regular basis to address and resolve regional issues pertaining to transportation conformity for the RTP and FTIP; RTP and TIP amendments; and the region’s air quality management plans. The TCWG also is the forum for interagency consultation on project-level particulate matter (PM) hot-spot analysis. SCAG serves as the regional PM hot spot analysis clearinghouse and maintains records on all projects on the TCWG page on SCAG’s website: http://www.scag.ca.gov/programs/Pages/TCWG.aspx

Participants in the Southern California TCWG include representatives from federal, state, regional and subregional agencies such as the United States Environmental Protection Agency (both national and regional representatives), Federal Highway Administration, Federal Transit Administration, California Air Resources Board, California Department of Transportation, Air Quality Management Districts, County Transportation Commissions, Transportation Corridor Agencies, and SCAG.
Regional Transportation Plan/Sustainable Communities Strategy

The Regional Transportation Plan/Sustainable Communities Strategy (RTP/SCS) represents the vision for Southern California’s future, including policies, strategies, and projects for advancing the region’s mobility, economy, and sustainability. The RTP/SCS details how the region will address its transportation and land use challenges and opportunities in order to achieve its air quality emissions standards and greenhouse gas reduction targets. SCAG updates the RTP/SCS every four years, as required by law, and SCAG is currently undertaking the development of the 2020 RTP/SCS to provide Southern California with a comprehensive vision for its transportation future to the year 2045.

California Senate Bill 375 (Steinberg, Chapter 728, 2008 Statutes) requires SCAG and other MPOs to engage the region in the development process of the SCS or an Alternative Planning Strategy (APS) through outreach efforts and a series of workshops and public hearings. For the SCAG region, these workshops and public hearings include workshops for local elected officials and workshops in each county in the region (at least 16 public workshops). SCAG will also conduct public hearings on the Draft 2020 RTP/SCS in different parts of the region.

SCAG prepares several technical companion documents for RTP/SCS updates. These include a Program Environmental Impact Report on the RTP/SCS per CEQA guidelines and transportation air quality conformity analyses (to ensure clean air mandates are met) per federal Clean Air Act requirements. Certain revisions to the RTP/SCS may warrant a revision or update to these technical documents.

SCAG also prepares an equity analysis of RTP/SCS updates to determine whether minority and low-income communities in the region share equitably in the benefits of the regional transportation plan without bearing a disproportionate share of the burdens. As an assessment of the region’s long-range transportation investment strategy, this analysis is conducted at a regional, program-level scale. This assessment of the long-range plan is intended to satisfy federal requirements under Title VI of the Civil Rights Act and federal policies and guidance on environmental justice. For each update of the RTP/SCS, SCAG prepares a public participation plan that provides more information on how the equity analysis will be conducted throughout that update of the RTP/SCS. For additional information on the Environmental Justice public participation procedures, see pages 32–33 of this Appendix B.)

UPDATING AND REVISING THE RTP/SCS

A complete update of an existing RTP/SCS is required at least once every four years. The RTP/SCS also may be revised in between major updates under certain circumstances, as described below.

RTP/SCS Update

This is a complete update of the most current RTP/SCS, which is prepared pursuant to state and federal requirements. RTP/SCS updates include extensive public consultation and participation involving hundreds of SCAG residents, public agency officials, and stakeholder groups over many months. SCAG’s Regional Council and policy committees and other members of the public play key roles in providing feedback on the policy and investment strategies identified in the plan. Local and Tribal governments, transit operators and other federal, state and regional agencies also actively participate in the development of an RTP/SCS update via existing working groups and ad hoc forums.

RTP/SCS Amendment
An amendment is a major revision to the RTP/SCS, including adding or deleting a project and major changes in project costs, completion year dates, and/or design concept and scope (e.g., changing project locations or the number of through traffic lanes). An amendment requires public review and comment and is ultimately presented to SCAG’s Regional Council for final approval. An amendment must demonstrate financial constraint and a finding that the change is consistent with federal transportation conformity mandates.

**RTP/SCS Administrative Modification**

This is a minor revision to the RTP/SCS for minor changes to project phase costs, funding sources, and/or initiation dates. An administrative modification does not require public review and comment, demonstration that the project can be completed based on expected funding, nor a finding that the change is consistent with federal transportation conformity requirements. As with an RTP/SCS amendment, changes to projects that are included in the RTP/SCS's financially unconstrained strategic plan may be changed without going through this process.

**2020 RTP/SCS Update Process and Schedule**

Developing the long-range plan for the SCAG region takes between two and three years to complete and involves working with six county transportation commissions (from the counties of Imperial, Los Angeles, Orange, Riverside, San Bernardino and Ventura), nine sub–regional councils of governments, 191 cities, and countless other stakeholder organizations and the public. The 2020 RTP/SCS involves goal setting, target setting, growth forecasting, financial projections, scenario development and analysis, and significant issues exploration. Considered at a high level, the 2020 RTP/SCS update will be completed in four phases: 1) Technical Bases & Data Collection; 2) Focus on Major Policy Directions; 3) Establish the Plan & Engage the Public; 4) Adopt 2020 RTP/SCS & PEIR (timeline illustrated in the graphic below.) Throughout the process, SCAG staff will engage the public and local, regional, and state partners to develop the 2020 RTP/SCS to meet current and future transportation needs over the next 25 years. Development of the 2020 RTP/SCS will be guided by an existing federal, state, and regional policy framework consisting of FAST Act/MAP–21, the California Transportation Plan and other relevant statewide plans, and the existing 2016 RTP/SCS.

In addition to the overall RTP/SCS development, SCAG also develops alternative scenarios for the Sustainable Communities Strategies to illustrate the outcomes of different policy and investment choices and identify pathways to meeting GHG reduction targets set by the California Air Resources Board. In preparation of the 2020 SCS Scenarios, SCAG will be engaging directly with community–based organizations and offering participation support to other organizations that are interested in informing scenario development. SCAG will also be developing a robust engagement tool to be used by the general public and promoted through SCAG’s regular outreach methods mentioned above on page 10 in order to collect nuanced input on investment and policy priorities.

Throughout the 2020 RTP/SCS development, SCAG’s Regional Council; Community, Economic, and Human Development Committee; Energy and Environment Committee; and Transportation Committee will consider the challenges and opportunities facing the SCAG region and how to best address them, while considering public input.

The process for the 2020 RTP/SCS development will need to be flexible and is subject to change, as needed, to reflect and respond to the input received as SCAG moves through the steps of updating the plan. To help direct interested SCAG residents and organizations to participate in key actions or decisions being taken, any changes as well as additional detail will be posted on the www.scagrtpscscs.org website.

PROGRAM ENVIRONMENTAL IMPACT REPORT

SCAG will prepare a Program Environmental Impact Report (PEIR) beginning in the fall of 2018 through summer 2019. The PEIR will evaluate the potential environmental impacts associated with the implementation of the 2020 RTP/SCS.

The 2020 PEIR will focus on a region-wide assessment of existing conditions and potential impacts, as well as broad policy alternatives and program-wide mitigation measures. Potential or probable environmental effects of individual projects included in the 2020 RTP/SCS Project List will not be specifically analyzed in the PEIR. The PEIR will serve as a first-tier document for later CEQA review of individual projects included in the program. For large scale planning approvals (such as the RTP/SCS), where project-level environmental analyses will subsequently be prepared for specific projects broadly identified within a PEIR, the site-specific analysis can be deferred until the project-level environmental document is prepared, provided deferral does not prevent adequate identification of significant effects of the planning approval at hand.

SCAG, as the lead agency of the 2020 RTP/SCS, is required to file all CEQA notices related to the PEIR (i.e. Notice of Preparation (NOP), Notice of Availability (NOA), Notice of Determination (NOD)) to the Office of Planning and Research and with the county clerk in each county within the project boundaries (which includes Imperial, Los Angeles, Orange, Riverside, San Bernardino, and Ventura Counties) for public review for 30–60 days. All CEQA notices are also e-mailed out to SCAG stakeholders through SCAG’s e-mailing list and posted at SCAG’s main office in Los Angeles and regional satellite offices in each of the other five counties for the full comment period to solicit public comments. Public comments received during the NOP stage, the first stage in developing an environmental document of the CEQA process, will be incorporated into the Draft PEIR and public comments received during the NOA stage, the second stage, will be responded to in the Final PEIR. This process ensures public comments are collected and addressed per CEQA requirements.

In summary, the PEIR will serve as an informational document to inform decision-makers and the public of the potential environmental consequences of approving the proposed plan by analyzing the projects and programs on a broad regional scale, not at a site-specific level of analysis. Site-specific analysis will occur as each project is defined and goes through individual project-level environmental review.

REGIONAL HOUSING NEEDS ASSESSMENT

In addition to the tasks outlined above to develop the 2020 RTP/SCS, SCAG is required to update the eight-year Regional Housing Needs Assessment (RHNA). The RTP/SCS must demonstrate on a regional level, areas sufficient to house all the population of the region, including the eight-year projection of the RHNA.

Both the RTP/SCS and RHNA use the local input survey, which collects information from each local jurisdiction, as the basis for future demographic projections, including household growth. The next RHNA cycle, also known as the 6th cycle, will cover the planning period October 2021 through October 2029. The latest SCAG can adopt the 6th RHNA allocation is October 2020, but SCAG is looking at alternative schedules for an earlier adoption date, possibly to coordinate with the adoption of the 2020 RTP/SCS. As with the SCAG’s development of the 2020 RTP/SCS, there will be several opportunities for the public to be involved in the RHNA process including through public meetings and hearings.

FEDERAL TRANSPORTATION IMPROVEMENT PROGRAM

Federal Transportation Improvement Plan

SCAG’s Federal Transportation Improvement Program (FTIP) is a capital listing of all transportation projects proposed over a six-year period. The listing, adopted every two years, identifies specific funding sources and funding amounts for each project. The FTIP must include all transportation projects that are federally funded, and/or regionally significant, regardless of funding source or whether subject to any federal action.

The FTIP includes improvements to projects on the state highway, local arterial, bridge, public transit, rail, bicycle, pedestrian, safety, maintenance, operational and planning projects to name a few. The projects are submitted to SCAG by the six County Transportation Commissions. SCAG analyzes the projects to ensure that they are consistent with state and federal requirements. Federal law requires the FTIP be consistent with the RTP.
The following outlines SCAG’s strategies, procedures and techniques for public participation on the FTIP. SCAG intends to update this section of the Appendix as needed prior to commencing each FTIP cycle to reflect appropriate changes.

1. FTIP Public Participation Process in the SCAG Region

SCAG has a Memorandum of Understanding (MOU) with transit operators and each of the County Transportation Commissions (CTCs) within the SCAG Region. These MOUs specify the role of the transit operators and CTCs with respect to approval of transportation projects utilizing federal, state highway, and transit funds within their respective jurisdiction. The County Transportation Commissions are also responsible for transportation programming and short-range planning in their respective counties. The County Transportation Commissions transmit their approved County TIP to SCAG. The public participation process and coordination is a tiered process within the SCAG region. This tiered process initiates the public participation process at the CTC’s county TIP development stage, which occurs long before the development of the SCAG FTIP.

There are several opportunities for the public to review and comment on projects and programs during the development of each county TIP and approval of the SCAG FTIP. These public participation opportunities are described below.

A. Project Identification

Public participation begins at the local agency level by identifying projects and associated work scopes based on local and regional transportation needs. Newly identified projects are commonly placed on funding needs lists, funding plans or capital improvement program plans and programs that identify projects to be funded. These lists, plans and programs are adopted by local agency boards (mostly elected officials) in meetings open to the general public. Stakeholders, interest groups and the general public have the opportunity to review and comment on these projects and local plans prior to local agency board approvals.

B. Project Funding

The general public, interested parties and stakeholders have an opportunity to review and comment on projects and programs during the allocation of funds by local agencies including cities, counties, special districts, and county transportation commissions (CTCs).

The process of assigning specific funding sources to projects normally occurs in meetings open to the general public by public policy boards. For example, the CTCs in the SCAG region conduct a “call for projects” when funding under their control (federal, state and/or local) is available for programming. Local agencies apply and compete for available funding based on adopted eligibility guidelines consistent with federal, state and local county requirements. Candidate projects usually have gone through an initial public review process and are included in local agency capital improvement needs programs or plans. The CTCs work through their respective committee review process to develop a list of projects recommended for funding and adoption by each respective policy board. CTCs review committees are comprised of local agency staff (stakeholders and interested parties), and in some cases include public elected officials. Review committee meetings are publicly noticed. The recommended project lists approved by the committees are forwarded to the respective policy boards for approval. Projects proposed for funding are made available for review by the general public, stakeholders and interested parties in advance of adoption by the CTCs policy boards. All allocation of funds by the policy boards occur in publicly-noticed meetings open to the general public.

The allocation of public funds to projects by other entities meet the public review requirements that are consistent with the federal, state and/or local laws that govern the allocation of the funds.
C. **County Transportation Improvement Program (TIP) Development**

The CTCs develop their respective TIPs based on FTIP Guidelines prepared by SCAG in consultation with the CTCs, SCAG’s TCWG and federal and state agencies staff, with approval by SCAG’s Regional Council. The CTCs’ submittal of their county TIP to SCAG is their county implementation plan, which is incorporated in its entirety into the SCAG FTIP. All projects programmed in County TIPs have been previously approved for funding by the entity responsible for allocating the project funds. When submitting County TIPs to SCAG, each CTC is required to adopt a financial resolution which certifies that it has the resources to fund the projects in the TIP and affirms its commitment to implement all projects. The financial resolution is approved by each policy board in publicly noticed meetings open to the general public.

D. **SCAG FTIP Development**

SCAG develops the FTIP for the six-county region based on the County TIPs prepared and submitted by the CTCs described above in Section C. The Draft SCAG FTIP is noticed for a minimum 30-day public review, and public hearings are held at the SCAG office and, where possible, these public hearings will be available via videoconference, teleconference, or via the web. SCAG also conducts public outreach efforts through social media outlets. The Draft SCAG FTIP documents are made available for review and comment by stakeholders, interested parties and the general public through the SCAG website at [http://ftip.scag.ca.gov/Pages/default.aspx](http://ftip.scag.ca.gov/Pages/default.aspx) and at public libraries throughout the six-county region prior to the public hearing. The list of libraries are posted on SCAG’s FTIP web page.

In addition to the public hearings, SCAG committees and working groups also review and discuss the draft FTIP. These SCAG groups include the Executive Administration Committee, the Transportation Committee (TC), the Transportation Conformity Working Group (TCWG), and the Energy and Environment Committee (EEC). The SCAG Regional Council takes final action when they adopt the FTIP.

E. **FTA Program of Projects**

The designated recipient of FTA Section 5307 funds must develop a Program of Projects (POP). The POP is a list of proposed FTA funded projects that must undergo a public review process. Guidance provided by FTA allows the FTIP to function as the POP as long as the public is notified through SCAG’s public notice that the FTIP public review process satisfies the public participation requirements of the POP. Once the FTIP is approved, the document will function as the POP for recipients of FTA funds in the SCAG region. SCAG’s public participation process for the FTIP is intended to satisfy FTA Section 5307 funding recipients’ public participation process for the POP.

F. **SCAG FTIP Updates**

The FTIP can be amended throughout its term. This process is similar to developing the formal FTIP. Proposed amendments to the adopted FTIP are submitted by the CTCs to SCAG. After SCAG has completed its analysis of the proposed change(s) to the FTIP ensuring consistency with the various programming rules and regulations, SCAG electronically posts the proposed change(s) for a 10-day public review and comment period on the SCAG website at [http://ftip.scag.ca.gov/Pages/default.aspx](http://ftip.scag.ca.gov/Pages/default.aspx).

In addition to posting the amendment information on the web, a notice is sent to the TCWG as part of the FTIP amendment public review process.
2. Other FTIP Public Participation strategies, procedures and techniques

A. Enhance Website Capabilities:
   I. Utilize SCAG’s website to provide information, announce draft and final program releases encourage feedback and comments from the public, make draft and final programs and corresponding documents available, provide contact information, inform of upcoming events and meetings, post meeting agendas and minutes.
   II. Ensure that the information available is timely, easy-to-understand and accessible and that the website is compliant with the 1990 Americans with Disabilities Act.

B. Update Contact Databases and Advisory Groups:
   I. Review and update mailing lists for outreach efforts.
   II. Expand contact databases to include all Interested Parties identified in the Plan.

C. Coordinate Outreach Efforts with other Stakeholder Organizations:
   I. Support interagency coordination by continuing to host and participate in the monthly TCGW meetings.
   II. Mail Notice of Draft FTIP availability to the stakeholders at the local, state and federal level to solicit their comment and input to the final FTIP. Ensure that the public comment period for the program is at least 30 days.
   III. Participate in regular meetings with the county transportation commissions in the coordination of the draft and final FTIP.

D. Conduct Public Hearings:
   I. Announce public hearings in printed materials, on SCAG’s website.
   II. Hold public meetings at convenient and accessible locations and times.
   III. Conduct at least two public hearings on the draft FTIP.
   IV. Explore new opportunities using state-of-the-art communications and information technology for reaching remote audiences.

E. Maintain a Log of Outreach Efforts:
   I. Maintain a log of all agency-wide outreach presentations.
   II. Review and consider all public comments in the regional transportation planning process.
   III. Record, track and maintain a log of comments and SCAG’s response to the comments.
   IV. Respond to all comments received in a timely manner.

3. Annual Listing of Projects

Federal regulations require SCAG to develop an annual listing of projects (including investments in pedestrian walkways and bicycle transportation facilities) for which federal funds were obligated in the preceding program year. SCAG, in consultation and coordination with the State, county transportation commissions, and public transportation operators throughout the SCAG region, compiles the information and produces the annual listing of projects. The annual listing of obligated projects may be found on the SCAG website at: http://ftip.scag.ca.gov/Pages/default.aspx.
4. FTIP Amendments

For the FTIP, the following summarizes the categories of amendments identified by FHWA for the FTIP. The public participation requirements for each amendment type are illustrated in Figure 1.

A. Category 1. Administrative Modification

An administrative modification includes minor changes to project cost, schedule, and project description changes without affecting the scope, and/or funding sources. Please see the Federal Statewide Transportation Improvement Program (FSTIP) and Federal Transportation Improvement program (FTIP) Amendment and Administrative Modification Procedures for a complete definition of an administrative modification and eligibility.

B. Category 2. Amendment — Changes that do not impact the existing conformity determination.

The Amendment category may include changes that are not eligible under an administrative modification.

C. Category 3. Amendment — Relying on the existing Conformity Determination.

This amendment may include adding a project or a project phase to the program. This amendment category consists of projects that are modeled and are included in the regional emissions analysis.

This amendment may include adding or deleting projects that are not currently included in the regional emissions analysis or part of the existing conformity determination. This amendment may involve adding or deleting projects that must be modeled for their air quality impacts: significantly changing the design concept, scope; or schedule of an existing project.

E. Category 5. Technical Amendment

Changes to project information not required to be included in the FTIP per federal requirements. Changes are not subject to an administrative modification or an amendment such as changes to project codes, and changes to correct typographical errors. These technical corrections do not impact project scope or cost.

FTIP Amendment and Administrative Modification Approval Procedures

SCAG Executive Director Authority

FTIP AMENDMENT PROCEDURES

As part of the TIP approval process, the SCAG Regional Council granted authority to SCAG’s Executive Director or designee to approve Federal Transportation Improvement Program (FTIP) amendments and associated conformity determination and to transmit to the state and federal agencies amendments to the most currently approved FTIP. These amendments must meet the following criteria:

» Changes that do not affect the regional emissions analysis.
» Changes that do not affect the timely implementation of the Transportation Control Measures.
» Changes that do not adversely impact financial constraint.
» Changes consistent with the adopted Regional Transportation Plan.

FTIP amendments triggered by an RTP amendment must be approved by the Regional Council.

FTIP Administrative Modification Procedure

The SCAG Regional Council has the discretion to delegate authority to SCAG’s Executive Director to approve FTIP Administrative Modifications to the Federal State Transportation Improvement Program (FSTIP) consistent with approved FSTIP/FTIP Administrative Modification and Amendment Procedures and as may be amended. Administrative Modifications are minor project changes that qualify under the FSTIP/FTIP Administrative Modification and Amendment Procedures. Because FTIP Administrative Modifications are considered minor changes, public review is not required.

The following procedures apply to this delegation of authority:

» SCAG will send copies of the approved administrative modification to Caltrans, FHWA, and FTA.
» Once the administrative modification is approved by SCAG, the administrative modification will be deemed part of the Federal State Transportation Improvement Program (FSTIP).
» SCAG will demonstrate in a subsequent amendment that the net financial change from each administrative modification has been accounted for.
» Caltrans will conduct periodic reviews of SCAG’s administrative modification process to confirm adherence to the procedures. Noncompliance with the procedures will result in revocation of the MPO’s delegation.

ENVIRONMENTAL JUSTICE PROGRAM

In 1994, Executive Order 12898 directed every federal agency to make environmental justice part of its mission by identifying and addressing the effects of all programs, policies, and activities on minority and low-income populations. Reinforcing Title IV of the Civil Rights Act of 1964, which addresses minority populations, this executive order ensures that every federally-funded project nationwide consider the human environment when undertaking the planning and decision-making process.

As the Metropolitan Planning Organization for six Southern California counties, SCAG developed a policy to ensure that environmental justice principles are an integral part of the transportation planning process, including the Regional Transportation Plan and Sustainable Communities Strategy (RTP/SCS). Additionally, as a government agency that receives federal funding, SCAG is required to conduct an environmental justice analysis for its RTP/SCS. SCAG’s environmental justice program has two main elements: technical analysis and public outreach. As part of SCAG’s environmental justice program, the agency also:

» Provides early and meaningful public access to decision-making processes for all interested parties, including minority and low-income populations;
» Seeks out and considers the input of traditionally underrepresented groups, such as minority and low-income populations, in the regional transportation planning process;
» Takes steps to propose mitigation measures or consider alternative approaches for the SCAG region when disproportionately high and adverse impacts on minority or low-income populations are identified; and
» Continues to evaluate and respond to environmental justice issues that arise during and after the implementation of SCAG’s regional plans.
SCAG also prepares additional companion documents, or appendices, to help support or add to the RTP/SCS. The environmental justice technical analysis and public outreach methodology are included in the RTP/SCS Environmental Justice (EJ) Appendix.

Early and continuous public outreach and input from SCAG’s environmental justice stakeholders help SCAG prioritize and address needs in the region. Public outreach for environmental justice issues will be conducted concurrently with the RTP/SCS public outreach and development process. SCAG will hold various kick-off meetings, outreach workshops, focus group meetings and interviews throughout the RTP/SCS development process. Specifically, SCAG will hold:

- At least one (1) kick-off meeting at the beginning of the RTP/SCS development at the SCAG Headquarters located at Downtown Los Angeles (DTLA);
- At least four (4) outreach workshops during the RTP/SCS development and EJ Appendix development process. At least two (2) of the meetings will be held at SCAG’s DTLA Headquarters while at least two (2) will be held in other geographical areas based on needs expressed by stakeholders;
- Several focus group discussions with various SCAG stakeholders to discuss EJ topics and concerns and the development of the EJ Appendix; and
- Interviews for SCAG stakeholders that cannot attending focus group meetings to discuss EJ topics and concerns and the development of the EJ Appendix.

In addition to public workshops held during the RTP/SCS EJ Appendix development process, Environmental Justice Working Group (EJWG) meetings will also be held on an ongoing basis every two to three months to help facilitate continuous discuss opportunities on EJ–related topics. Membership of the EJWG represents a cross-section of stakeholders in the EJ community, including advocacy groups (i.e. affordable housing, public health, transit riders, environmental conservation, etc.), regional/sub-regional agencies (i.e. County Transportation Commissions, Tribal Governments, AQMDs, etc.), local jurisdictions (i.e. City/County staff throughout SCAG region who are interested or are taking steps to address EJ topics in their local jurisdiction), and other stakeholders (i.e. non-governmental organizations, community based organizations, goods movement related groups like rail, airports, seaports, and logistic centers, and academic representatives from local universities/colleges who’ve done research on EJ topics). Some discussion topics include, but are not limited to introduction and implementation of relevant and recently passed legislation (i.e. SB 1000, AB 617), public health impacts like air quality, access to parks and open space, mortality rates and noise impacts on EJ communities, impacts of gentrification on low income communities and local businesses, and lack of transit access and impacts on EJ communities.

All public meetings and workshops aim to be accessible to all groups and individuals interested or concerned with environmental justice. In efforts to make these meetings and workshops more accessible, meeting and workshop materials can be provided in different languages to engage individuals who are not proficient in English. Preliminary meeting details like date, time, and location of meetings will be available to the public approximately 30 days before the meeting date to allow for adequate planning and meeting agendas will be provided at least 72 hours in advance of the meetings online and at all meeting locations. Videoconferencing at SCAG’s regional offices (in Imperial, Orange, Riverside, San Bernardino, and Ventura Counties) will be made available to ensure all populations within the SCAG region can be reached. Some meetings will also include webinar capabilities to be able to allow more SCAG stakeholders to participate.

Comments and input gathered during the public outreach process will be documented and incorporated into relevant and appropriate documents, like the current RTP/SCS Environmental Justice Appendix. In the case of the RTP/SCS Environmental Justice Appendix, there will be additional opportunities to provide input like during public outreach workshops and the draft release of the RTP/SCS EJ Appendix for public review.

The overall environmental justice outreach process encourages the public, with many opportunities to share their input and be involved, to discuss and address environmental justice issues and shape SCAG’s environmental justice program.
OVERALL WORK PROGRAM

Funding for SCAG’s metropolitan planning activities are documented in an annual Overall Work Program (OWP) (also known as a Unified Planning Work Program), pursuant to federal requirements, 23 CFR 450.308(b)-(c), and Caltrans guidance.

The OWP is developed each fiscal year, and details the agency’s planning and budgetary priorities for the following fiscal year. SCAG’s federal and state funding partners (FHWA, FTA and Caltrans) must approve SCAG’s OWP each year before it takes effect.

The following describes SCAG’s strategies, procedures and techniques with respect to public participation on the OWP.

1. Adopt OWP Preparation Schedule and Work Programs Outcomes: (September–October)
   » Regional Council adopts the OWP preparation schedule and work program outcomes for the coming fiscal year.

2. Conduct a Budget Workshop: (February)
   » SCAG staff conducts a Budget Workshop for the Regional Council and members of the public.

3. Distribute Draft OWP: (March)
   » The Regional Council approves the Comprehensive Budget which includes the draft OWP. The draft OWP is distributed to all Regional Council members and the Regional Council approves the release of the document for a minimum 45-day public comment and review period. The draft OWP is also placed on SCAG’s website.

4. Distribute the Draft OWP for Public Comments: (March)
   » Staff reaches out to over 300 City Planners, Planning Directors and other Planning representatives within the SCAG region, including subregional coordinators, CTCs and transit operators, encourages their feedback on the draft OWP, and notifies them of the availability of the draft document on SCAG’s website.

5. Review and Consider Comments Received in the Final OWP Deliberations: (April)
   » Staff reviews and considers all public comments in the OWP planning process.
   » Staff records, tracks and maintains a log of comments and SCAG’s response to the comments.

6. Adopt the Final Comprehensive Budget and Resolution Authorizing the Submittal to Funding Partners: (April)
   » The Regional Council adopts the Final Comprehensive Budget and Resolution authorizing the submittal of the Final OWP to Caltrans and other funding agencies as necessary for approval. Caltrans must submit the recommended Final OWP to FHWA/FTA by June 1 of each year.

1801.01 SCAG should partner with community based organizations and invest in community consciousness building based efforts. As mentioned, above the regional planning process can be complex, the public at-large needs more opportunities to digest information. SCAG can do better to demystify planning efforts by working with community groups to not only host feedback sessions but also facilitate informational workshops on how plans like the RTP/SCS impact communities. By providing grants for CBOs to facilitate the process of knowledge based workshops, trusted community partners can open doors to building stronger relationships for SCAG and use approaches to help community members better understand the planning process. For example, during the 2016 update of the RTP/SCS, SCAG hosted open house workshops throughout the region to gather feedback. A informational workshop organized by CBOs who could have supported learning the complex planning process would have better suited for community members who had no prior knowledge of the plan or its impacts. CBOs may also be able to utilize different types of engagement methods more suited to the populations they work with and hold events in locations where people are already gathering to maximize input--rather than requiring people to come to government-hosted meetings. Go Human is great example of how programs within SCAG are offering community engagement funding to CBOs to implement project that improve safety awareness. Programming of Go Human education materials and CBO grants is a good example of how SCAG can help support CBOs build knowledge of regional planning and safety within their own communities. Go Human community engagement events are also a good way to interact with the public and get feedback for the RTP/SCS 2020 update.

1801.02 SCAG’s outreach list needs major updating and should prioritize CBOs who work in DAC areas. Poor planning and land use decisions often disproportionately affect low-income, environmental justice populations and communities of color. Therefore, it is imperative that outreach grants prioritize CBOs with trusted relationships with underrepresented groups, who have more access to certain populations.

1801.03 Transparency of budget for all community engagement efforts and institutionalize that all programs have a robust, dedicated funding stream for outreach. Outreach budgets for planning/programming need to be more transparent. It’s unclear how much funding is devoted to outreach efforts and it’s critical that the public know where and how funds are distributed. The PPP refers to other plans such as the Overall Work Plan (OWP) which influences budgetary decisions. The connection between how the OWP, budget and the PPP work together is unclear. The PPP should mirror objectives included in the OWP and the budget should be reflected in both, so that public stakeholders truly understand what is possible for engagement. Adequate resources should be devoted to public engagement to allow for robust, creative, comprehensive community engagement.

Comment noted. As a part of the 2020 RTP/SCS development, SCAG intends to contract directly with CBOs in order to foster more meaningful engagement. More specifically, SCAG plans to partner with CBOs that serve the interests of traditionally underrepresented and/or underserved populations such as minority and low-income populations, elderly and retired persons, children, limited English proficiency populations, and people with disabilities. Although several MPOs in California use this approach in conducting RTP/SCS outreach, SCAG understands that it needs a customized approach that recognizes the need to engage with organizations over a unique and expansive geographic region.

Comment noted. SCAG’s outreach list needs major updating and should prioritize CBOs who work in DAC areas. Poor planning and land use decisions often disproportionately affect low-income, environmental justice populations and communities of color. Therefore, it is imperative that outreach grants prioritize CBOs with trusted relationships with underrepresented groups, who have more access to certain populations.

Therefore, it is imperative that outreach grants prioritize CBOs with trusted relationships with underrepresented groups, who have more access to certain populations.

Comment noted. SCAG’s Overall Work Plan (OWP) includes budget allocation for all of SCAG’s programs and proposed planning activities for the fiscal year, including public outreach/participation activities. For the upcoming fiscal year SCAG has devoted funds towards outreach activities for various transportation planning activities and studies required by federal and state law and authorized by the Regional Council. Please refer to the OWP for more information: http://www.scag.ca.gov/about/Pages/Overall%20Work%20Program.aspx
### 1801.04
Evaluation efforts of outreach need to include demographic metrics in order to better understand if feedback loops are successful in reaching underrepresented groups. The PPP outlines benchmarks used to gauge success, however it does not include demographic data. Other than geographic location such as number of meetings in a given county, there’s no way to measure if outreach efforts are reaching underrepresented groups. For example, metrics on race/ethnicity, gender, age, language & income are some of the demographic data that SCAG should be collecting. This type of demographic data collection coupled with numerical goals for reaching certain populations can ensure planning & programming outreach efforts are successfully engaging diverse communities & will help identify where we need additional engagement support—allowing for the tweaking of engagement methods to capture input from underrepresented populations. For example, The Minnesota Department of Transportation (MnDOT) conducted a case study on community engagement efforts that used focus groups to explore the transportation needs of immigrants. As a part of the focus group sessions, MnDOT worked with local university researchers & immigrant-centered CBOs to use census data to identify suburban, urban & rural community immigrants. MnDOT worked with trusted community partners on goals to collect demographic data of focus group participants to learn more about an underserved population, drafted a report on the unique transportation needs & increasing MnDOT’s knowledge of these populations. This example demonstrates the important role of a CBO as well as the important role of counting metrics of a population.

### 1801.05
Clear transparency on how community feedback will influence planning and programming. It is imperative that community members feel like their feedback is considered in final planning documents, and that they are engaged from the beginning of the process. The PPP should elevate examples and demonstrate avenues in which their feedback will be taken into account in regional plans. The PPP also needs to provide best practices for continued community outreach after a plan is developed and through its implementation. For example, SCAG working groups (like the environmental justice or active transportation group) should continue to facilitate engagement as we track the progress of goals within the RTP/SCS and more localized plans like SB 1000 General Plan updates.

Comment noted. SCAG values the public’s input and is continually evaluating ways to improve transparency. As the FTIP and RTP/SCS documents are developed, public comment response presentations and documents are circulated so that the public may understand how their feedback has been addressed. Regarding maintaining ongoing dialogue, as a part of the 2020 RTP/SCS development we have established Regional Planning Working Groups focused on a variety of issue areas (Active Transportation; Environmental Justice; New Mobility; Natural and Working Lands; Public Health; Sustainable Communities; and Transportation Safety). We anticipate that these working groups will engage stakeholders in the development and implementation of the regional plans and policies.

<td>Public Outreach Channels as listed in the plan: Facebook—The video listed on the facebook page is from 2010 and the pictures are from 2017. Hardly a place to obtain updates. The remedy for this problem is not noted as a new goal for 2018</td>

<td>The Planning document should include (but does not) standards for public participation as established by respected public participation organizations, such as IAP2 Federation or the State of California Guidelines for public participation.</td>
<td>Comment noted. The plan lists all legal guidelines that inform the public participation process. These requirements are summarized in the body of the plan in the section “What laws guide SCAG’s public participation process?” and are listed in full in Appendix A of the document. While developing the Public Participation Plan, SCAG worked to reflect current best practices and industry guidelines from many respected sources.</td>

SCAG’s Overall Work Plan (OWP) includes budget allocation for all of SCAG’s programs and proposed planning activities for the fiscal year, including public outreach/participation activities. For the upcoming fiscal year SCAG has devoted funds towards outreach activities for various transportation planning activities and studies required by federal and state law and authorized by the Regional Council. Subject: Chairman Shuster’s Infrastructure Discussion Draft

RECOMMENDED ACTION:  
For Information Only – No Action Required

EXECUTIVE SUMMARY:  
On Monday, July 23, 2018, Congressman Bill Shuster, Chairman of the House Transportation and Infrastructure Committee, introduced a discussion draft on an infrastructure investment package. The discussion draft does not represent a complete and final infrastructure bill but is meant to continue the discussion in the House of Representatives on finding solutions for America’s infrastructure funding needs, particularly the solvency of the Highway Trust Fund. Staff will keep the Committee apprised of any new developments on this proposed legislation.

BACKGROUND:  
Since 2008, the Highway Trust Fund (HTF) has been on the brink of insolvency, forcing Congress to issue payments out of the General Fund. This stopgap measure has become the norm for the HTF, leading to nearly $143 billion dollars in transfers from the General Fund over the past ten (10) years.

The primary causes for the insolvency of the HTF include the lack of an increase in the federal gas tax to keep pace with the rate of inflation and increased fuel efficiency of new vehicles. Infrastructure and transportation programs suffer from decreased revenue in the HTF, hence the need for Congress to transfer payments from the General Fund into the HTF in order to keep highway, mass transit, and various other programs funded.

Shuster Infrastructure Proposal  
Congressman Bill Shuster’s infrastructure proposal contains numerous provisions that address the short-term and long-term solvency of the HTF, as well as infrastructure investments and project financing/delivery. The discussion draft is organized into four titles and includes the following:

Title I – Highway Trust Fund  
Long-term  
Blue Ribbon Commission:

- Establishes a new, 15-member blue ribbon commission, called the Highway Trust Fund Commission, whose job it will be to submit ideas to the Congress on how to achieve the long-term solvency of the HTF.
- The commission’s recommendations would receive legislative fast-tracking and cannot include among its recommendations an increase to the gas tax.
VMT Pilot Program:
  • Establishes a two-year pilot program to test the feasibility of using vehicle miles traveled (VMT), rather than gasoline taxes, as a source of funding the HTF.

Short-term Highway Trust Fund Tax Increases:
  • Would immediately increase the existing federal gasoline excise tax by 15 cents per gallon over three years.
  • Would immediately increase the existing highway diesel fuel excise tax by 20 cents per gallon over three years.
  • After 2021, both new tax rates would be indexed to inflation.
  • Estimated revenues of $194 billion from gas tax increase and $86 billion from diesel tax increase over 10 years to the HTF.

Broadening the Highway Trust Fund’s Tax Base:
  • Enacts a 10% sales tax on batteries used in electric vehicles (estimated $3.3 billion in revenue over 10 years).
  • Enacts a 10% sales tax on bicycle tires measuring at least 26” in diameter (estimated $150 million in revenue over 10 years).
  • Enacts a tax on diesel fuel for passenger trains used in a public transportation system and receiving HTF mass transit aid.
  • Repeal of a tax break for mass transit buses allowing them to receive a refund of gasoline fuel and diesel fuel excise taxes.

These new taxes would take effect on January 1, 2019 and sunset after 2028 based on the notion that fuel taxes are not the long-term solution for HTF solvency. Overall, the Congressional Budget Office (CBO) estimates that the baseline for the HTF over the next ten years would amount to $407 billion. Congressman Shuster’s draft proposal could mean an additional $284 billion for the Highway Trust Fund over the next 10 years.

Title II – Investment in Infrastructure

Transportation
FAST Act Reauthorization
  • Enacts a one-year, clean extension of the FAST Act to give the new Blue Ribbon Commission time to report its recommendations to Congress.
  • Authorizes expenditure authority from the Highway Trust Fund through October 2021. All programs would be funded at their Fiscal Year 2020 rates.

National Infrastructure Investments Program
BUILD Grants (formerly TIGER)
  • Proposes up to $3 billion per year in general fund appropriations for the BUILD Grant program, formerly known as the TIGER Grant program.
• BUILD Grant program would remain competitive and require that 30% of awards be for projects in rural areas.

New Grant Programs
• A new incentive grant program for owners of transportation infrastructure assets that have leased to the private sector.
• A new Transformative Transportation Projects grant program for projects that use innovative technology to facilitate the movement of goods or people.

INFRA Grant Program
• Draft bill requires the Department of Transportation to submit to Congress an annual list of unsuccessful applicants for federal INFRA grants. The draft sets aside $200 million for FY 2019, 20, and 21 of INFRA grant money that can only be awarded to unsuccessful prior-year applicants.

The draft bill also establishes a $500 million per year set-aside (of this National Infrastructure Investments money) for a future Congress to authorize funding for nationally significant transportation highway, intercity rail, port, or freight projects.

Title III – Innovative Project Finance
Railroad Rehabilitation and Improvement Financing (RRIF)
• Authorizes funding for the Railroad Rehabilitation and Improvement Financing program for Fiscal Years 2019-2021.
  o Specifically $50 million in FY19, $51 million in FY20, and $52 million in FY21.

Pilot Program
• Creates a pilot program for three-to-five public buildings to be built under a public-private partnership and implemented by the General Services Administration.

New Capital Revolving Fund
• Creates a new $10 billion federal capital revolving fund for construction and rehabilitation of federal buildings.

Title IV – Accelerating Project Delivery
National Surface Transportation & Innovative Finance Bureau
• Draft bill proposes that this bureau be the sole entity for carrying out activities to accelerate project delivery.

Record of Decision Expedited
• Requires that a Record of Decision be issued for a transportation project within two years.
  o A Record of Decision (ROD) is issued by the Department of Transportation and signifies formal federal approval of an Environmental Impact Statement (EIS) or
Environmental Assessment (EA) concerning a proposed project. The ROD authorizes the respective state transportation agency to proceed with design, land acquisition, and construction based on the availability of funds.

**Categorical Exclusions**
- Draft bill expands the usage of Categorical Exclusions under the National Environmental Policy Act (NEPA) for transportation projects. Specifically:
  - Allows a project that receives a categorical exclusion under one modal administration to receive a categorical exclusion under a different modal administration.

The draft bill also proposes establishing a pilot program to explore innovative approaches to the environmental review process.

Subject: Cap-and-Trade Expenditure Plan Overview

RECOMMENDED ACTION:  
For Information Only – No Action Required

EXECUTIVE SUMMARY:  
Senate Bill (SB) 840 – the Budget Act of 2018 – was signed by the Governor on June 27, 2018 and contains appropriations for the state for fiscal year (FY) 2018-19. SB 856, also signed by the Governor on June 27, 2018, contains specific appropriations from the Greenhouse Gas Reduction Fund (GGRF), funded through cap-and-trade revenues. The report below highlights key pieces of cap-and-trade expenditures for FY 2018-19.

STRATEGIC PLAN:  
This item supports SCAG’s Strategic Plan, Goal 2: Advance Southern California’s policy interests and planning priorities through regional, statewide, and national engagement and advocacy.

BACKGROUND:  
In late July 2017, the California Legislature successfully passed legislation to extend the cap-and-trade program. Assembly Bill (AB) 398 by Assemblymember Eduardo Garcia (D-Coachella) formally extended the program to ensure the state continues to meet its ambitious climate goals. The Budget Act of 2018 appropriates funding for state programs for FY 2018-19, while SB 856 is “trailer bill” containing specific funding provisions from the Greenhouse Gas Reduction Fund.

SB 856  
The cap-and-trade expenditure plan for FY 2018-19 is included in SB 856. Key funding provisions include the following:

Air Resources Board  
$645 million is appropriated to the California Air Resources Board (ARB). Specifically:

- $245 million in incentives to reduce mobile and stationary sources of criteria air pollutants or toxic air contaminants in disadvantaged communities. The six-county SCAG region contains two-thirds of the disadvantaged communities in the state;

- $200 million to the ARB for the Clean Vehicle Rebate Project, which promotes the purchase or lease of new, eligible zero-emission vehicles, including electric, plug-in hybrid electric, and fuel cell vehicles. More than $235 million has been given in rebates under this program in the SCAG region during the life of the project;

- $125 million for the Hybrid and Zero-Emission Truck and Bus Voucher Incentive Project; and
- **$75 million** for the Enhanced Fleet Modernization Program and Plus-Up Pilot Project (Clean Cars 4 All).

**Governor’s Office of Planning and Research**
- **$1.165 million** for the Affordable Housing and Sustainable Communities Program;
- **$18 million** for research on reducing carbon emissions; and
- **$2 million** for technical assistance to disadvantaged communities.

**California Strategic Growth Council**
- **$40 million** for the Transformative Climate Communities Program, which aims to assist disadvantaged communities.

Subject: November 2018 Statewide Ballot Measures

RECOMMENDED ACTION:
For Information Only – No Action Required

EXECUTIVE SUMMARY:
This report includes a summary of qualified statewide measures that will be appearing on the November 6, 2018 Statewide General Election ballot. Staff will keep the Committee apprised of any significant developments that may arise related to these ballot propositions.

STRATEGIC PLAN:
This item supports SCAG’s Strategic Plan, Goal 2: Advance Southern California’s policy interests and planning priorities through regional, statewide, and national engagement and advocacy.

BACKGROUND:
There are eleven qualified ballot measures for the November 6, 2018 Statewide General Election. SCAG has traditionally not taken positions on ballot propositions in prior elections unless there is a clear nexus between a proposed measure and a SCAG policy jurisdiction and/or an adopted legislative priority.

There were originally 12 qualified ballot measures, but on July 18, 2018, the California Supreme Court removed Proposition 9 from the ballot which, if passed by the voters, would have divided the State of California into three separate states.

Proposition 1 – Veterans and Affordable Housing Bond Act of 2018
SB 3 (Beall) – Chapter 365, Statutes of 2017

Summary
If approved by the voters, Proposition 1 would authorize the state of California to issue $4 billion in general obligation bonds that will fund existing affordable housing programs ($3 billion) and subsidize the purchase of homes for veterans ($1 billion).

Proposition 2 – No Place Like Home Act of 2018
AB 1827 – Chapter 41, Statutes of 2018

Summary
If approved by the voters, Proposition 2 would allow the state to issue up to $2 billion in bonds to finance the No Place Like Home Program, which aims to build housing for homeless individuals.
Voters would also approve that the state is allowed to transfer up to $140 million annually from the Mental Health Services Fund, created by Proposition 63 in 2004, to the No Place Like Home Program in order to repay the $2 billion in bonds.

**Proposition 3 – The Water Supply and Water Quality Act of 2018**

**Summary**
If approved by the voters, Proposition 3 would authorize the state to issue $8.8 billion in general obligation funds in order to increase funding for various infrastructure projects related to water, water management, habitat conservancy, and groundwater storage.

**Proposition 4 – Children’s Hospital Bond Initiative**

**Summary**
If approved by the voters, Proposition 4 would allow the state to issue $1.5 billion in general obligation bonds for the renovation, expansion, and upgrade of hospitals that treat children. The funding would primarily be directed to non-profit and University of California hospitals.

**Proposition 5 – Property Tax Base Initiative**

**Summary**
If approved by the voters, Proposition 5 would allow all homeowners who are over 55 or disabled to transfer their property tax base when they move to a new property. Currently, eligible homeowners a transfer their property tax base to a new property if the replacement property is of equal or lesser value and the replacement property is located in an eligible county in the state. Additionally, the transfer may only occur once.

**Proposition 6 – Repeal of Senate Bill 1**

**Summary**
If approved by the voters, Proposition 6 would repeal the Road Repair and Accountability Act, reducing funding for highway and road maintenance and repairs. The California Legislative Analyst’s Office estimates that a repeal would signify a $2.4 billion decrease in revenues for this fiscal year. By 2020, approximately $5.1 billion would be lost annually. Proposition 6 would also require that all future taxes or fees on gasoline or diesel fuel, or on the privilege to operate a vehicle on public highways, require voter approval.

**Proposition 7 – Daylight Saving Time Measure**

**Summary**
If approved by the voters, Proposition 7 would allow the Legislature, by two-thirds vote, to establish permanent, year-round daylight saving time (DST) if the federal Uniform Time Act is changed to allow for permanent DST. Currently, the states of Arizona and Hawaii do not follow Daylight Savings Time.
Proposition 8 – Limits on Dialysis Clinics’ Revenue and Required Refunds Initiative

Summary
If approved by the voters, Proposition 8 would limit the revenue that dialysis clinics could make to up to 115 percent. Revenue exceeding 115 percent for the costs of direct patient care and healthcare improvements would require a dialysis clinic to issue a refund to the patients or patients’ payers.

Proposition 10 – Repeal of the Costa-Hawkins Rental Housing Act

Summary
If approved by the voters, Proposition 10 would repeal the Costa-Hawkins Rental Housing Act, allowing cities and counties to create local rent control policies for any housing. Proposition 10 would also allow cities and counties to pass rent control policies that limit how much a landlord may increase rents for a new renter.

Proposition 11 – Ambulance Employees Paid On-Call Breaks, Training, and Mental Health Services Initiative

Summary
If approved by the voters, Proposition 11 would require that emergency medical service employees of private ambulance services remain on call during meal and rest breaks. Proposition 11 would also require employers to provide additional training for EMT’s and paramedics, as well as provide them with paid mental health services.

Proposition 12 – Farm Animals Confinement Initiative

Summary
If approved by the voters, Proposition 12 would ban the sale of meat and eggs from calves raised for veal, breeding pigs, and egg-laying hens if they are held in confinement below a specific number of square feet.

Summary:
Would create the Road Maintenance and Rehabilitation Program to address deferred maintenance on the state highway system and the local street and road system. The bill would require the California Transportation Commission to adopt performance criteria, consistent with a specified asset management plan, to ensure efficient use of certain funds available for the program. The bill would provide for the deposit of various funds for the program in the Road Maintenance and Rehabilitation Account, which the bill would create in the State Transportation Fund.

Summary:
Would, upon the appropriation of moneys from the Public Transportation Account by the Legislature,
create the Transit Pass Pilot Program to be administered by the Department of Transportation to provide free or reduced-fare transit passes, directly or through a 3rd party, including a transit agency, to specified pupils and students by supporting new, or expanding existing, transit pass programs. The bill would require the department to develop guidelines that describe the application process and selection criteria for awarding the moneys made available for the program, and would exempt the development of those guidelines from the Administrative Procedure Act.

**Summary:**

The Licensed Physicians and Dentists from Mexico Pilot Program allows licensed physicians and dentists from Mexico to be issued a license by the Medical Board of California or the Dental Board of California to practice medicine or dentistry in California for a period not to exceed 3 years and establishes requirements for the participants in the program, including that a physician from Mexico, before leaving Mexico, is required to satisfactorily complete a 6 months orientation program that addresses specified topics and is approved by the Medical Board of California. Current law also requires dentists that participate in the program to enroll and complete an orientation program that focuses on specified topics. This bill would remove the requirement that the orientation program for physicians be 6 months in length.

Status: 3/29/2017-Approved by the Governor. Chaptered by Secretary of State - Chapter 4, Statutes of 2017.
Location: 3/29/2017-A. CHAPTERED

Summary:
Current federal law requires the United States Secretary of Transportation to carry out a surface transportation project delivery pilot program, under which the participating states assume certain responsibilities for environmental review and clearance of transportation projects that would otherwise be the responsibility of the federal government. Current law, until January 1, 2017, provided that the State of California consents to the jurisdiction of the federal courts with regard to the compliance, discharge, or enforcement of the responsibilities it assumed as a participant in the pilot program. This bill would reinstate the operation of the latter provision. The bill would repeal that provision on January 1, 2020. This bill would declare that it is to take effect immediately as an urgency statute.

Summary:
CEQA requires that an action or proceeding to attack, review, set aside, void or annul a determination,
finding, or decision of a public agency, as provided, on the grounds of noncompliance with its provisions
be brought in accordance with specified law governing administrative mandamus. CEQA requires a
court to make specified orders if it finds that any determination, finding, or decision of a public agency
has been made without compliance with CEQA, but prohibits a court from enjoining certain projects
unless the court makes specified findings. This bill would similarly prohibit a court from enjoining a
qualified strip mall conversion housing projects, as defined, unless the court makes specified findings.

Summary:
During the first 12 months after issuance of a provisional license, existing law prohibits the licensee from driving between the hours of 11 p.m. and 5 a.m. and transporting passengers who are under 20 years of age. Current law provides limited exceptions to these restrictions under which a licensee is authorized to drive under specified circumstances. This bill would, commencing January 1, 2020, expand the scope of the provisional licensing program by extending the applicable age range for the program to 16 to under 21 years of age. The bill would exempt active duty members of the California National Guard, the State Military Reserve, or the United States Armed Forces who are at least 18 years of age from the program.

**AB 65 (Patterson R)** Transportation bond debt service.

**Introduced:** 12/13/2016
**Last Amended:** 1/3/2018
**Status:** 1/13/2018-Failed Deadline pursuant to Rule 61(b)(1). (Last location was TRANS. on 1/19/2017)
**Location:** 1/13/2018-A, DEAD

**Summary:**
Current law requires loans of remaining weight fee revenues to the General Fund in any fiscal year to the extent the revenues are not needed for bond debt service purposes or to redeem or retire those bonds, with the loans to be repaid when the revenues are later needed for those bond debt service purposes. This bill would delete the requirement to loan any remaining weight fee revenues to the General Fund in a fiscal year in which all of the weight fee revenues are not needed for payment of debt service on general obligation bonds issued for transportation purposes, or to redeem or retire those bonds.

AB 66  (Patterson R)  High-Speed Rail Authority: reports.

Introduced: 12/13/2016
Status: 1/13/2018-Failed Deadline pursuant to Rule 61(b)(1). (Last location was TRANS. on 4/25/2017)
Location: 1/13/2018-A. DEAD

Summary:
Would require the business plan of the High-Speed Rail Authority to identify projected financing costs for each segment or combination of segments of the high-speed rail system, if financing is proposed by the authority. The bill would require the authority to identify in the business plan and in another report any significant changes in scope for segments of the high-speed rail system identified in the previous version of each report and to provide an explanation of adjustments in cost and schedule attributable to the changes.

AB 69  (Allen, Travis R)  State highways: roadside rests.

Introduced: 12/16/2016
Status: 1/20/2018-Failed Deadline pursuant to Rule 61(b)(2). (Last location was PRINT on 12/16/2016)
Location: 1/20/2018-A. DEAD

Summary:
Current law provides that the Department of Transportation has full possession and control of the state highway system and associated property. Current law authorizes the department to plan, design, and construct a system of safety roadside rests along state highways. Current law requires the department to design only those safety roadside rests that are reasonably economical and that will provide the motorist a place where he or she may stop for a short time during daytime and nighttime hours. This bill would make nonsubstantive changes to these provisions.

Introduced: 1/17/2017
Last Amended: 8/30/2017
Location: 10/3/2017-A. CHAPTERED

Summary:
Would ratify the amendment to the tribal-state gaming compact entered into between the State of
California and the United Auburn Indian Community, executed on August 18, 2017. The bill would provide that, in deference to tribal sovereignty, certain actions related to that compact are not projects for purposes of CEQA.

**Location:** 10/13/2017-A. CHAPTERED

**Summary:**
Under current law, the California Transportation Commission consists of 13 members, 9 of whom are to be appointed by the Governor in consultation with the Senate. Current law requires the Governor, in appointing members, to use every effort to ensure geographic balance of representation. This bill would additionally require the Governor, in appointing members, to use every effort to ensure that the commission has a diverse membership with expertise in transportation issues, taking into consideration factors including, but not limited to, socioeconomic background and professional experience, which may include experience working in, or representing, disadvantaged communities.

Greenhouse Gas Reduction Fund: water supply and wastewater systems.

Introduced: 1/19/2017

Last Amended: 3/6/2017

Status: 9/1/2017-Failed Deadline pursuant to Rule 61(a)(12). (Last location was APPR. SUSPENSE FILE on 7/17/2017)(May be acted upon Jan 2018)

Location: 9/1/2017-S. 2 YEAR

Summary:

Current law requires moneys from the Greenhouse Gas Reduction Fund to be allocated for the purpose of reducing greenhouse gas emissions in this state and satisfying other purposes. Current law authorizes specified investments, including water use and supply, if the investment furthers the regulatory purposes of the California Global Warming Solutions Act of 2006 and is consistent with law. This bill would authorize the use of the moneys in the fund for electric pump efficiency, water and wastewater systems, pump and pump motor efficiency improvements, and drinking water transmission and distribution systems’ water loss if the investment furthers the regulatory purposes of the act and is consistent with law.

**Summary:**  
CEQA defines the terms “urban area” and “urbanized area” to mean, among other things, an unincorporated area that is completely surrounded by one or more incorporated cities and the population density of the unincorporated area at least equals the population density of the surrounding city or cities. This bill would instead specify that the population density of the unincorporated area be at least 1,000 persons per square mile.

Location: 1/13/2018-A. DEAD

Summary:
Current law imposes weight fees on the registration of commercial motor vehicles and provides for the deposit of net weight fee revenues into the State Highway Account. Current law provides for the transfer of certain weight fee revenues from the State Highway Account to the Transportation Debt Service Fund to reimburse the General Fund for payment of debt service on general obligation bonds issued for transportation purposes. Current law also provides for the transfer of certain weight fee revenues to the transportation Bond Direct Payment Account for direct payment of debt service on designated bonds, which are defined to be certain transportation general obligation bonds issued pursuant to Proposition 1B of 2006. This bill would repeal these provisions, thereby retaining the weight fee revenues in the State Highway Account.

### Summary:
Current law authorizes the County of Orange and the cities in that county, by ordinance, to require the payment of fees as a condition of approval of a final map or as a condition of issuing a building permit for purposes of defraying the actual or estimated cost of constructing bridges over waterways, railways, freeways, and canyons, or constructing major thoroughfares. This bill would prohibit those entities, on and after January 1, 2018, from forming a new joint powers agency to construct bridge facilities or major thoroughfares under that specific authorization or the general authorization. The bill would prohibit a joint powers agency formed under that specific authorization from incurring new bonded indebtedness, except for specified purposes.

### Summary:
Current federal law authorizes, until September 30, 2019, a state to allow low emission and energy-efficient vehicles, as specified, to use lanes designated for high-occupancy vehicles (HOVs). Current federal law also authorizes, until September 30, 2025, a state to allow alternative fuel vehicles, as defined, and new qualified plug-in electric drive motor vehicles, as defined, to use those HOV lanes. This bill would extend the authority of drivers of specified vehicles to use HOV lanes until the date federal authorization expires, or until the Secretary of State receives a specified notice, whichever occurs first.

Introduced: 2/15/2017
Last Amended: 8/21/2017
Location: 10/13/2017-A. CHAPTERED

Summary:
Current law provides for the consolidated agency, commonly known as SANDAG, to be governed by a board of directors of 21 city and county members selected by the governing body of each member agency. Current law provides that the officers of the board are the chairperson and the vice chairperson. This bill would require the mayor and the president of the city council of the City of San Diego to serve on the board. The bill would delete the requirement for the chair of the County of San Diego Board of Supervisors to serve on the board.

Summary:
The Planning and Zoning Law, among other things, authorizes the legislative body of any county or city to adopt ordinances to regulate land use. Current law also establishes procedures by which city or county ordinances may be enacted or amended by initiative. This bill, in the case of an ordinance or an amendment of an ordinance that would reduce density or stop development or construction of any parcels located less than one mile from a major transit stop, as defined, within a city, county, or city and county that is proposed by the voters of the city, county, or city and county in accordance with specified law, would require that the proposed ordinance or amendment of an ordinance receive 55% of the votes cast on the ordinance in order to become effective.

AB 1086 (Daly D) Housing: regional housing needs.
Introduced: 2/16/2017
Last Amended: 7/5/2017
Status: 9/1/2017-Approved by the Governor. Chaptered by Secretary of State - Chapter 206, Statutes of 2017.
Location: 9/1/2017-A. CHAPTERED

Summary:
The Planning and Zoning Law requires the housing element, in turn, to include, among other things, an assessment of housing needs and an inventory of resources and constraints relevant to the meeting of those needs. That law further requires the Department of Housing and Community Development, for
the 4th and subsequent revisions of the housing element, to determine the existing and projected need for housing for each region, based upon population projections produced by the Department of Finance and regional population forecasts used in preparing regional transportation plans, in consultation with each council of governments. Current law includes a declaration of legislative intent regarding the allocation of regional housing need. This bill would make additional findings regarding the relationship between the shortage of housing and the state’s environmental policies.

**Summary:**

Current law requires funds in the Public Transportation Account to be allocated to various public transportation and transportation planning purposes, with specified revenues in the account to be allocated by the Controller to specified local transportation agencies for public transportation purposes, pursuant to the State Transit Assistance (STA) Program. Current requires STA funds to be allocated by formulas based 50% on population and 50% on transit operator revenues. This bill would revise and recast the provisions governing the STA program. The bill would provide that only STA-eligible operators, as defined, are eligible to receive an allocation from the portion of program funds based on transit operator revenues.

Introduced: 2/17/2017

Last Amended: 8/29/2017

Status: 10/10/2017-Approved by the Governor. Chaptered by Secretary of State - Chapter 642, Statutes of 2017.

Location: 10/10/2017-A. CHAPTERED

Summary:
Current law authorizes the Riverside County Transportation Commission to impose a transactions and use tax for transportation purposes subject to approval of the voters, which, pursuant to the California Constitution, requires approval of 2/3 of the voters. Current law provides that the maximum tax rate that may be imposed by the commission for transportation purposes is 1/2 of 1%. This bill would authorize the commission to impose a maximum tax rate for transportation purposes of 1% instead of 1/2 of 1%, subject to voter approval, and would specify that the tax rate imposed by the commission would not be considered for purposes of the combined rate limit.

**Summary:**
Would establish specific standards for the use of personal services contracts by counties. The bill would allow a county or county agency to contract for personal services currently or customarily performed by employees, as applicable, when specified conditions are met. The bill would exempt certain types of contracts from its provisions, and would exempt a city and county from its provisions. By placing new duties on local government agencies, the bill would impose a state-mandated local program. The bill also would provide that its provisions are severable.

**Summary:**

The Planning and Zoning Law requires the appropriate council of governments, or, for cities and counties without a council of governments, the Department of Housing and Community Development, to adopt a final regional housing need allocation plan that allocates a share of the regional housing need to each city, county, or city and county and is consistent with specified objectives, including that the plan increase the housing supply and the mix of housing types, tenure, and affordability in all cities and counties within the region in an equitable manner. Current law defines the term "household income levels" for purposes of these provisions. This bill would revise the objectives required to be addressed in the regional housing needs allocation plan and additionally require the plan to include an objective to increase access to areas of high opportunity for lower-income residents, while avoiding displacement and affirmatively furthering fair housing.

**Summary:**
CEQA requires the Office of Planning and Research to prepare and develop, and the Secretary of the Natural Resources Agency to certify and adopt, guidelines for the implementation of CEQA. CEQA requires the guidelines to include a list of classes of projects that have been determined not to have a significant effect on the environment and that are required to be exempt from CEQA (categorical exemption). Current guidelines for the implementation of CEQA exempts from the requirements of CEQA infill development meeting certain requirements, including the requirement that the proposed development occurs within city limits. This bill would revise the above-described categorical exemption to include proposed residential and mixed-use housing projects occurring within an unincorporated area of a county.

Summary:
The Joint Exercise of Powers Act generally authorizes 2 or more public agencies, by agreement, to jointly exercise any common power. Under the act, if an agency is not one or more of the parties to the agreement but is a public entity, commission, or board constituted pursuant to the agreement, the debts, liabilities, and obligations of the agency are the debts, liabilities, and obligations of the parties to the agreement, unless the agreement specifies otherwise. This bill would eliminate that authorization, and would specify that if an agency established by a joint powers agreement participates in, or contracts with, a public retirement system, member agencies, both current and
former to the agreement, would be required, prior to a termination or a decision to dissolve or cease the operations of the agency, to mutually agree as to the apportionment of the agency's retirement obligations among themselves, provided that the agreement equals 100% of the retirement liability of the agency.

8/16/2018 Upon adjournment of Session - John L. Burton Hearing Room (4203)

SENATE APPROPRIATIONS SUSPENSE, PORTANTINO, Chair

**Summary:**

This bill would create the Small System Water Authority Act of 2018 and state legislative findings and declarations relating to authorizing the creation of small system water authorities that will have powers to absorb, improve, and competently operate noncompliant public water systems. The bill, no later than March 1, 2019, would require the state board to provide written notice to cure to all public agencies, private water companies, or mutual water companies that operate a public water system that has either less than 3,000 service connections or that serves less than 10,000 people, and are not in compliance with one or more state or federal primary drinking water standard maximum contaminant levels as of December 31, 2018, and for 4 consecutive quarters, as specified.

**AB 2061 (Frazier D) Near-zero-emission and zero-emission vehicles.**

**Introduced:** 2/7/2018
**Last Amended:** 7/5/2018
**Status:** 8/6/2018-In committee: Referred to APPR. suspense file.

**Summary:**
Current state and federal law sets specified limits on the total gross weight imposed on the highway by a vehicle with any group of 2 or more consecutive axles. Current federal law authorizes a vehicle operated by an engine fueled primarily by natural gas to exceed these weight limits by an amount equal to the difference between the weight of the vehicle attributable to the natural gas tank and fueling system carried by that vehicle and the weight of a comparable diesel tank and fueling system. Under existing federal law, the maximum gross vehicle weight of that vehicle may not exceed 82,000 pounds. This bill would, to the extent expressly authorized by federal law, authorize a near-zero-emission vehicle or a zero-emission vehicle, as defined, to exceed the weight limits on the power unit by up to 2,000 pounds. This bill contains other provisions.

**AB 2341 (Mathis R)** California Environmental Quality Act: aesthetic impacts.

**Introduced:** 2/13/2018  
**Last Amended:** 6/14/2018

**Status:** 8/14/2018-In Assembly. Concurrence in Senate amendments pending. May be considered on or
after August 16 pursuant to Assembly Rule 77.

**Location:** 8/14/2018-A. CONCURRENCE

**Summary:**
The California Environmental Quality Act requires a lead agency to prepare a mitigated negative
declaration for a project that may have a significant effect on the environment if revisions in the project
would avoid or mitigate that effect and there is no substantial evidence that the project, as revised,
would have a significant effect on the environment. This bill would, until January 1, 2024, specify that,
except as provided, the aesthetic effects of projects meeting certain requirements are not significant
effects on the environment for purposes of CEQA and that the lead agency is not required to evaluate
the aesthetic effects of those projects.

Location: 5/25/2018-A. DEAD

Summary:
Current law creates the Metro Gold Line Foothill Extension Construction Authority, governed by a board of 5 voting members and 3 nonvoting members, appointed as specified, for purposes relating to the development of a light rail project extending from the City of Los Angeles to the Cities of Pasadena and Montclair, and authorizes the authority to accept grants, fees, and allocations from federal, state, local agencies, and private entities, and to accept transfers of funds from federal, state, and local agencies. This bill would increase to 6 the voting members of the board by adding one voting member appointed by the City of Montclair.

Summary:  
Current law declares that the fostering, continuance, and development of public transportation systems are a matter of statewide concern. Current law creates the Los Angeles County Metropolitan Transportation Authority, with various powers and duties with respect to transportation planning, programming, construction, and operations. This bill would authorize the authority to adopt, and revise as necessary, a commute benefit ordinance that requires covered employers operating within the authority's area with a specified number of employees to offer certain employees commute benefits, as specified, except that the bill would prohibit the ordinance from affecting employers covered by certain South Coast Air Quality Management District rules or regulations.

**Summary:**

The California Environmental Quality Act (CEQA) requires a lead agency, as defined, to prepare, or cause to be prepared, and certify the completion of, an environmental impact report on a project that it proposes to carry out or approve that may have a significant effect on the environment or to adopt a negative declaration if it finds that the project will not have that effect. This bill would authorize lead agencies, in describing and evaluating projects, to consider the specific economic, legal, social, technological, or other benefits of, and the negative impacts of denying, the project.

**Summary:**

Current law requires each local agency, as defined, to provide specified information to the public before approving an economic development subsidy within its jurisdiction, and to, among other things, hold hearings and report on those subsidies, as provided. Current law defines “economic development subsidy” for these purposes to mean any expenditure of public funds or loss of revenue to a local agency in the amount of $100,000 or more, for the purpose of stimulating economic development within the jurisdiction of a local agency, as provided. This bill would similarly require each local agency to provide specified information to the public before approving an economic development subsidy for a warehouse distribution center, as defined, and to, among things, hold hearings and report on those subsidies, as provided.

**Summary:**
Existing law dissolved redevelopment agencies as of February 1, 2012, and designates successor agencies to act as successor entities to the dissolved redevelopment agencies. This bill, the Community Redevelopment Law of 2018, would authorize a city or county to propose the formation of a redevelopment housing and infrastructure agency by adoption of a resolution of intention that meets specified requirements, including that the resolution of intention include a passthrough provision and an override passthrough provision, as defined. The bill would require the city or county to submit that resolution to each affected taxing entity, and would authorize an entity that receives that resolution to elect not to receive a passthrough payment, as provided.

Summary:
Current law provides for the development of a congestion management program for each county that includes an urbanized area by a designated congestion management agency. Current law authorizes the Metropolitan Transportation Commission and the Bay Area Air Quality Management District to jointly adopt a commute benefit ordinance that requires covered employers operating within the common area of the 2 agencies with a specified number of covered employees to offer those employees certain commute benefits. This bill would authorize 2 Go Zone demonstration programs in northern California and 2 in southern California.

AB 3124 (Bloom D) Vehicles: length limitations: buses: bicycle transportation devices.
Introduced: 2/16/2018
Last Amended: 4/2/2018
Location: 6/1/2018-A. CHAPTERED

Summary:
Current law imposes a 40-foot limitation on the length of vehicles that may be operated on the highways, with specified exemptions. Current law exempts from this limitation an articulated bus or articulated trolley coach that does not exceed a length of 60 feet, and authorizes the bus or trolley to be equipped with a folding device attached to the front of the bus or trolley if the device is designed and used exclusively for transporting bicycles. Current law prohibits the above-described device from extending more than 36 inches from the front body of the bus when fully deployed, and prohibits a bicycle that is transported on that device from having the bicycle handlebars extend more than 42 inches from the front of the bus. This bill would additionally authorize an articulated bus or articulated trolley coach that does not exceed a length of 60 feet to be equipped with a folding device attached to the front of the bus or trolley if the device is designed and used exclusively for transporting bicycles as long as the device does not extend more than 40 inches from the front body of the bus when fully deployed.

Introduced: 2/16/2018
Last Amended: 8/6/2018
Status: 8/7/2018-Read second time. Ordered to third reading.
Location: 8/7/2018-S. THIRD READING

Summary:
Current law provides for the licensure and regulation of alcoholism or drug abuse recovery or treatment facilities serving adults by the State Department of Health Care Services, as prescribed. Current law makes a violation of these provisions punishable by a civil penalty of not less than $25 or more than $50 per day for each violation, with additional penalties for repeat violations, as specified. This bill would make an initial license for a new facility issued by the department to a provider provisional for one year and revocable for good cause, as defined.

**Summary:**
Would amend the California Constitution to create the California Infrastructure Investment Fund in the State Treasury. The measure would require the Controller, beginning in the 2019–20 fiscal year, to transfer from the General Fund to the California Infrastructure Investment Fund in each fiscal year an amount equal to up to 2.5% of the estimated General Fund revenues for that fiscal year, as provided. The measure would require, for the 2019–20 fiscal year and each fiscal year thereafter, the amounts in the fund to be allocated, upon appropriation by the Legislature, for specified infrastructure investments, including the funding of deferred maintenance projects.

Summary:
Existing law authorizes a county board of supervisors, by ordinance, to establish a commission to negotiate an exclusive contract with the department to provide, or arrange for the provision of, health care services under the Medi-Cal program. This system of services provided by or through a county under these provisions is known as a county organized health system. This bill would codify those provisions of the enabling ordinance that prescribe the membership composition, the qualifications for individual members, tenure of the members, and the procedure for removing a member of the governing body of the commission established in the County of Orange, known as the Orange County Health Authority.

SB 35 (Wiener D) Planning and zoning: affordable housing: streamlined approval process.
Introduced: 12/5/2016
Last Amended: 9/1/2017
Location: 9/29/2017-S. CHAPTERED

Summary:
The Planning and Zoning Law requires a planning agency, after a legislative body has adopted all or part of a general plan, to provide an annual report to the legislative body, the Office of Planning and Research, and the Department of Housing and Community Development on the status of the general plan and progress in meeting the community's share of regional housing needs. Current law requires the housing element portion of the annual report to be prepared through the use of forms and definitions adopted by the department pursuant to the Administrative Procedure Act. This bill would require the housing element portion of the annual report to be prepared through the use of standards, forms, and definitions adopted by the department.

**Summary:**

Beginning with the 2004–05 fiscal year and for each fiscal year thereafter, existing law requires that each city, county, and city and county receive additional property tax revenues in the form of a vehicle license fee adjustment amount, as defined, from a Vehicle License Fee Property Tax Compensation Fund that exists in each county treasury. Current law requires that these additional allocations be funded from ad valorem property tax revenues otherwise required to be allocated to educational entities. This bill would modify these reduction and transfer provisions for a city incorporating after January 1, 2004,
and on or before January 1, 2012, for the 2017–18 fiscal year and for each fiscal year thereafter, by
providing for a vehicle license fee adjustment amount calculated on the basis of changes in assessed
valuation.

**Summary:**
Would require a court to award to a prevailing party reasonable attorney’s fees, expert witness fees,
and other costs incurred in a civil action brought to enforce a franchise, contract, license, permit, or
other authorization for solid waste handling services in an amount the court deems appropriate, but
would prohibit the court from awarding those fees and costs under specified circumstances. The bill
would require a plaintiff, in order for a court to award to a prevailing party those costs and fees, to first
notify and request approval to proceed from the relevant local agency.

Regional transportation plans.

Introduced: 1/18/2017
Last Amended: 6/21/2017

Summary:
Current law requires metropolitan planning organizations to adopt a sustainable communities strategy or alternative planning strategy, subject to specified requirements, as part of a regional transportation plan, which is to be designed to achieve certain targets for 2020 and 2035 established by the State Air Resources Board for the reduction of greenhouse gas emissions from automobiles and light trucks in the region. This bill would require the State Air Resources Board by September 1, 2018, and every 4 years thereafter, to prepare a report that assesses progress made by each metropolitan planning organization in meeting the regional greenhouse gas emission reduction targets set by the state board.

SB 406 (Leyva D) Vehicles: high-occupancy vehicle lanes: exceptions.
Introduced: 2/15/2017
Last Amended: 8/24/2017
Location: 9/30/2017-S. CHAPTERED

Summary:
Current law authorizes the Department of Transportation and local authorities to designate certain highway lanes for the exclusive or preferential use of high-occupancy vehicles (HOVs), requires the department or local authorities to place signage advising motorists of the rules governing the use of those lanes, and prohibits the use of those lanes by motorists other than in conformity with the posted rules. Current law provides a limited exemption allowing motorcycles, mass transit vehicles, and paratransit vehicles to use HOV lanes. This bill would provide an exemption to allow for blood transport vehicles, as defined, to use HOV lanes, regardless of the number of occupants.

Last Amended: 1/3/2018
Status: 2/1/2018-Return to Secretary of Senate pursuant to Joint Rule 62(a).
Location: 2/23/2017-S. T. & H.

Summary:
Would provide that no further bonds shall be sold for high-speed rail purposes pursuant to the Safe, Reliable High-Speed Passenger Train Bond Act for the 21st Century, except as specifically provided with respect to an existing appropriation for high-speed rail purposes for early improvement projects in the Phase 1 blended system. The bill, subject to the above exception, would require redirection of the unspent proceeds from outstanding bonds issued and sold for other high-speed rail purposes prior to the effective date of these provisions, upon appropriation, for use in retiring the debt incurred from the issuance and sale of those outstanding bonds.

SB 614  (Hertzberg D)  Public transportation agencies: administrative penalties.
Introduced: 2/17/2017
Last Amended: 7/17/2017
Location: 9/1/2017-S. CHAPTERED

Summary: Current law makes it a crime, punishable as an infraction or misdemeanor, as applicable, for a person to commit certain acts on or in a facility or vehicle of a public transportation system. Current law authorizes a public transportation agency to adopt and enforce an ordinance to impose and enforce civil administrative penalties for and other passenger misconduct on or in a transit facility vehicle in lieu of the criminal penalties otherwise applicable. Current law requires these administrative penalties to be deposited in the general fund of the county in which the citation is administered. This bill would instead require the administrative penalties to be deposited with the public transportation agency that issued the citation.

Location: 6/29/2018-A. DEAD

Summary:
Current law authorizes the Department of Transportation to issue a permit to the owner or developer of property adjacent to or near a state highway, including the associated right-of-way, to construct, alter, repair, or improve any portion of the highway for the purpose of improving local traffic access, as provided. Existing law specifies that the permit may be issued only if the work within the highway right-of-way is to be performed in accordance with plans and specifications approved by the department. If the improvement would not affect the operation of the state highway and the associated work would be performed in accordance with local agency plans and specifications, this bill would prohibit the department from denying an application for a permit solely because the associated work is not to be performed in accordance with plans and specifications approved by the department.

Location: 1/20/2018-S. DEAD

Summary:
Current law authorizes the Department of Transportation and regional transportation agencies to enter into comprehensive development lease agreements with public and private entities, or consortia of
those entities, for certain transportation projects that may charge certain users of those projects tolls and user fees, subject to various terms and requirements. These arrangements are commonly known as public-private partnerships. Current law provides that a lease agreement may not be entered into under these provisions on or after January 1, 2017. This bill would extend this authorization indefinitely.

**Summary:**
The California Global Warming Solutions Act of 2006 designates the State Air Resources Board as the state agency charged with monitoring and regulating sources of emissions of greenhouse gases. The act authorizes the state board to include use of market-based compliance mechanisms. Current law prohibits a state agency from linking a market-based compliance mechanism with any other state, province, or country unless the state agency notifies the Governor. Current law requires the Governor to issue specified findings within 45 days of receiving that notice from a state agency and to provide those findings to the Legislature. This bill would add to the findings required to be issued by the Governor and provided to the Legislature in those circumstances.

**Summary:**
Would authorize the Department of General Services, with the consent of the Department of the California Highway Patrol, to enter into a lease-purchase agreement, or lease with an option to purchase agreement, for a build-to-suit office facility to replace the California Highway Patrol area office in Tracy in San Joaquin County. The bill would require the facility to be designed and built to standards prescribed in the Essential Services Buildings Seismic Safety Act of 1986 and be subject to oversight and inspection in a manner consistent with state infrastructure projects. The bill would prescribe certain characteristics that the facility would be anticipated to contain.

**SB 850** (Committee on Budget and Fiscal Review) Housing.  
**Introduced:** 1/10/2018  
**Last Amended:** 6/11/2018  
Summary:
Current law requires, among other objective planning standards, that the development be subject to a minimum percentage of below market rate housing on the basis that the locality failed to submit its latest production report by the applicable time period and that report reflecting that there were fewer units of above moderate-income housing or housing affordable to households making below 80% of area median income that were issued building permits than what was required to meet the locality's regional housing needs assessment for that reporting period. This bill would modify this objective planning standard by requiring that the production report submitted by the locality reflect that there were both fewer units of affordable housing for persons of above moderate income and for persons making 80% of the area median income issued building permits than were required for the locality to meet its regional housing needs assessment for that reporting period.

Location: 5/25/2018-S. DEAD

Summary:
The Jobs and Economic Improvement Through Environmental Leadership Act of 2011 authorizes the Governor to certify a project as an environmental leadership development project if the project meets certain conditions, including, among other things, that the project will result in a minimum investment of $100,000,000 in California upon completion of construction and the project will not result in any net additional emissions of greenhouse gases. The act requires a lead agency to prepare the record of proceedings for a certified project concurrent with the preparation of certain environmental documents. This bill would authorize the Governor to certify updates to a community plan and the accompanying ordinances meeting specified requirements as being eligible for the CEQA streamlining benefits provided by the Jobs and Economic Improvement Through Environmental Leadership Act of 2011.

**Summary:**

Current law requires, for recipient transit agencies whose service areas include disadvantaged communities, as specified, that those recipient transit agencies expend at least 50% of the total moneys they received as part of the Low Carbon Transit Operations Program on projects or services that meet specified requirements and benefit those disadvantaged communities. This bill would waive the above requirement if the recipient transit agencies expend the funding provided on certain transit activities.

Summary:
Current law requires a local agency to designate, by ordinance, very high fire hazard severity zones in its jurisdiction, as provided in connection with a state program for fire prevention. This bill would require the local agency to transmit a copy of the adopted ordinance to the State Board of Forestry and Fire Protection within 30 days of adoption. By imposing a new duty on a local agency, the bill would impose a state-mandated local program.

Summary:
Current law requires the Chair of the California Transportation Commission to create a Road Usage Charge (RUC) Technical Advisory Committee in consultation with the Secretary of the Transportation Agency. Under current law, the purpose of the technical advisory committee is to guide the development and evaluation of a pilot program to assess the potential for mileage-based revenue collection as an alternative to the gas tax system. Current law requires the technical advisory committee to study RUC alternatives to the gas tax, gather public comment on issues and concerns related to the pilot program, and to make recommendations to the Secretary of the Transportation Agency on the design of a pilot program, as specified. Current law repeals these provisions on January 1, 2019. This bill would extend the operation of these provisions until January 1, 2023.
