Meeting housing needs

Message:

Great vote on increasing housing. But how, the Cities are NOT cooperating with your edicts and plans, where is the teeth. We have so many privately funded projects flailing in the wind with most planning/building departments still maintaining devil may care positions. It's most of them. Meanwhile potential homeowners with money are stacking households, salaried professionals are moving out of state. And the incredibly bad homeless situation continues to grow. We have maybe 20 yrs to No tax base, population left will be more drag on services, high and mighty no grow low grow cities who can't pay for basic services nor meet pension obligations. This who thing is ludicrous and getting worse.
