Pre-Certified Local Housing Data for Newport Beach

Developed by SCAG and pre-certified by the California Department of Housing and Community Development (HCD) for use in 6th cycle housing elements.

This report contains a wide range of jurisdiction-level data elements intended to provide an understanding housing need experienced in Newport Beach as a part of its 6th cycle housing element update. Data sources are noted below each table or figure.

I. POPULATION, EMPLOYMENT, AND HOUSEHOLDS

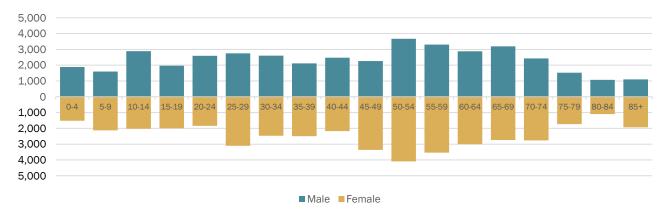

Population Trend, 2000-2020

CA DOF E-5 Population and Housing Unit Estimates

Newport Beach has a 2020 total population of 85,780 including 402 living in group quarters according to the California Department of Finance. The chart above describes the population trend in Newport Beach from 2000 to 2020. Over this period Newport Beach had an annual growth rate of 1% compared to 0.7% for the region.

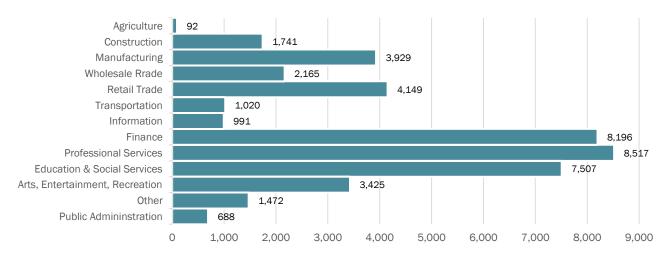

Current Population by Age and Sex

American Community Survey 2014-2018 5-year estimates

The population of Newport Beach is 49% male and 51% female. The share of the population of Newport Beach which is under 18 years of age is 17.4%, which is lower than the regional share of 23.4%. Newport Beach's seniors (65 and above) make up 22.7% of the population, which is higher than the regional share of 13%.

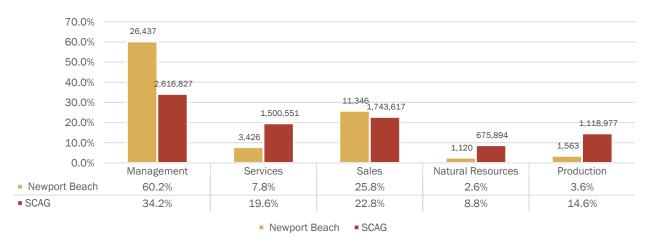

Employment by Industry

American Community Survey 2014-2018 5-year estimates using groupings of 2-digit NAICS codes.

Newport Beach has 43,892 workers living within its borders who work across 13 major industrial sectors. The chart above provides detailed employment information. The most prevalent industry is Professional Svcs. with 8,517 employees (19.4% of total) and the second most prevalent industry is Finance with 8,196 employees (18.7% of total).

Employment by Occupation

American Community Survey 2014-2018 5-year estimates using groupings of SOC codes.

In addition to understanding the industries in which the residents of Newport Beach work, it is also possible to analyze the types of jobs they hold. The most prevalent occupational category in Newport Beach is Management, in which 26,437 (60.2% of total) employees work. The second-most prevalent type of work is in Sales, which employs 11,346 (25.8% of total) in Newport Beach.

Farmworkers

Farmworkers by Occupation:

Newport Beach	Percent of total Newport Beach workers:	SCAG Total	
14	0.03%	57,741	Total jobs: Farming, fishing, and forestry occupations
14	0.05%	31,521	Full-time, year-round jobs: Farming, fishing, and forestry occupations

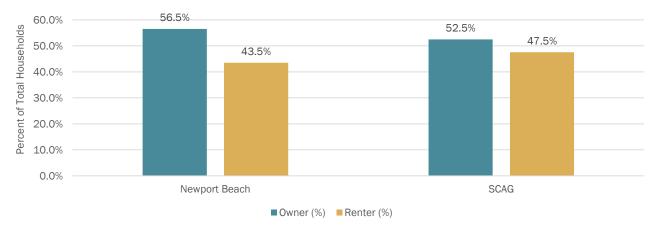

Employment in the Agricultural Industry:

p051110	ne mr ano rigno	artarar midde	···y.
	Percent of		
	total Newport		
Newport	Beach		
Beach	workers:	SCAG Total	
71	0.16%	73,778	Total in agriculture, forestry, fishing, and hunting
72	0.23%	44,979	Full-time, year-round in agriculture, forestry, fishing, and hunting

American Community Survey 2014-2018 5-year estimates using groupings of NAICS and SOC codes.

Statewide, farmworker housing is of unique concern and of unique importance. While only a small share of SCAG region jurisdictions have farmworkers living in them, they are essential to the region's economy and food supply.

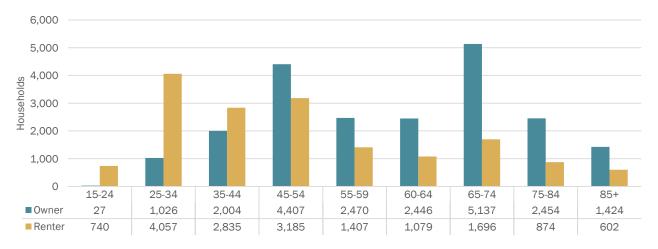

Housing Tenure

American Community Survey 2014-2018 5-year estimates.

Housing security can depend heavily on housing tenure, i.e. whether homes are owned or rented. Newport Beach's housing stock consists of 37,870 total units, 21,395 of which are owner-occupied and 16,475 of which are renter-occupied. The share of renters in Newport Beach is lower than in the SCAG region overall.

Housing Tenure By Age

American Community Survey 2014-2018 5-year estimates.

In many places, housing tenure varies substantially based on the age of the householder. In Newport Beach, the age group where renters outnumber owners the most is 15-24 (by 93%). The age group where owners outnumber renters the most is 65-74 (by 50.4%).

Housing Tenure by Year Moved to Current Residence

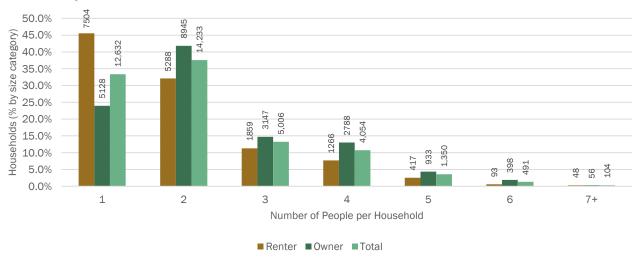

American Community Survey 2014-2018 5-year estimates.

Across the SCAG region, the most common move-in period was 2010-2014 (31.9%) followed by 2000-2009 (26.1%). In Newport Beach, the period during which most people started living in their current residence was 2010-2014 (32.6%) followed by 2000-2009 (21.6%).

II. SPECIALIZED HOUSEHOLD NEEDS: LARGE FAMILIES, SENIORS, AND FEMALE-HEADED

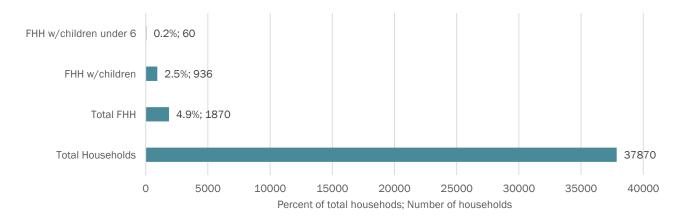

Households by Household Size

American Community Survey 2014-2018 5-year estimates.

This chart illustrates the range of household sizes in Newport Beach for owners, renters, and overall. The most commonly occuring household size is of two people (37.6%) and the second-most commonly occuring household is of one person (33.4%). Newport Beach has a higher share of single-person households than the SCAG region overall (33.4% vs. 23.4%) and a lower share of 7+ person households than the SCAG region overall (0.3% vs. 3.1%).

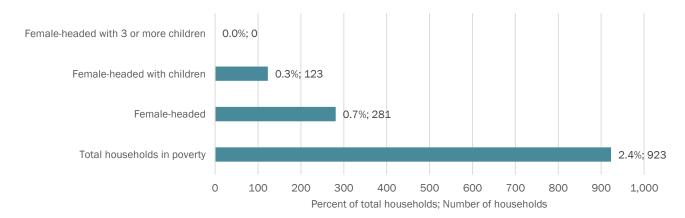

Female Headed Households (FHH)

American Community Survey 2014-2018 5-year estimates.

Statute requires analysis of specialized housing needs, including female-headed households in an effort to ensure adequate childcare or job training services. Of Newport Beach's 37,870 total households, 4.9% are female-headed (compared to 14.3% in the SCAG region), 2.5% are female-headed and with children (compared to 6.6% in the SCAG region), and 0.2% are female-headed and with children under 6 (compared to 1.0% in the SCAG region).

Households by Poverty Status

American Community Survey 2014-2018 5-year estimates.

2.4 percent of Newport Beach's households are experiencing poverty, compared to 7.9 percent of households in the SCAG region. Poverty thresholds, as defined by the ACS, vary by household type. More information can be found at M256. In 2018, a single individual under 65 was considered in poverty with a money income below \$13,064/year while the threshold for a family consisting of 2 adults and 2 children was \$25,465/year.

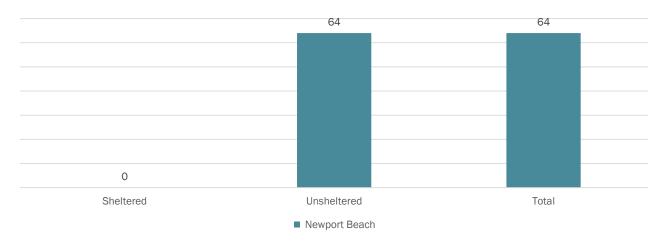

Elderly Households by Income and Tenure

		Owner	Renter		Percent of Total Elderly Households:
Income category, relative to surrounding area:	< 30% HAMFI	920	670	1,590	12.3%
to surrounding area.	30-50% HAMFI	820	830	1,650	12.8%
	50-80% HAMFI	1,165	455	1,620	12.5%
	80-100% HAMFI	395	310	705	5.5%
	> 100% HAMFI	6,245	1,105	7,350	56.9%
	TOTAL	9,545	3,370	12,915	

HUD CHAS, 2012-2016. HAMFI refers to Housing Urban Development Area Median Family Income.

Statute requires analysis of specialized housing needs, including housing needs for seniors. Federal housing data define a household type as 'elderly family' if it consists of two persons with either or both age 62 or over. Of Newport Beach's 12,915 such households, 12.3% earn less than 30% of the surrounding area income, (comared to 24.2% in the SCAG region), 25.1% earn less than 50% of the surrounding area income (compared to 30.9% in the SCAG region).

III. PEOPLE EXPERIENCING HOMELESSNESS

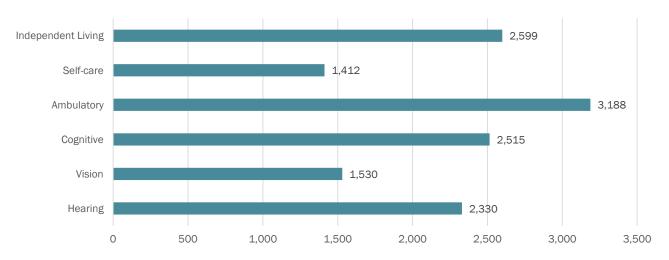

2019 city and county homelessness point-in-time counts processed by SCAG. Jurisdiction-level counts were not available in Imperial County and sheltered population (and thus total) counts were not available in Riverside County. As a result, SCAG region totals from this compilation of data sources likely undercount true totals.

#N/A

IV. PEOPLE WITH DISABILITIES, INCLUDING DEVELOPMENTAL DISABILITIES

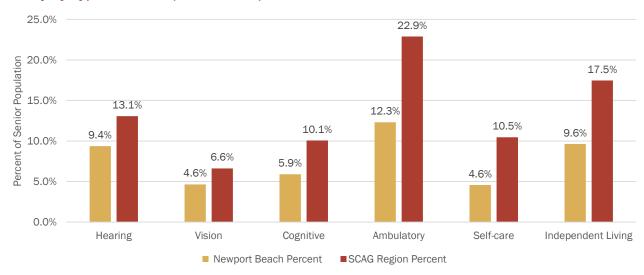

Disability by Type

American Community Survey 2014-2018 5-year estimates.

Disability data also provides valuable context for assessing current and future need for accessible housing units. Note that since some disability types are not recorded for children below a certain age, calculating disability as a percentage of total population may not be accurate.

Disability by Type - Seniors (65 and over)

American Community Survey 2014-2018 5-year estimates.

In Newport Beach, the most commonly occurring disability amongst seniors 65 and older was an ambulatory disability, experienced by 12.3% of Newport Beach's seniors (and 22.9% of seniors in the SCAG region).

Disability by Employment Status

	With a Disability	Percent of Total	No Disability	Percent of Total
Employed	996	43%	37,791	77%
Unemployed	152	7%	1,227	2%
Not in Labor Force	1,181	51%	10,275	21%
TOTAL	2,329		49,293	

American Community Survey 2014-2018 5-year estimates.

Understanding the employment status of people with disabilities may also be an important component in evaluating specialized housing needs. In Newport Beach, 42.8% of the population with a disability is employed, compared to 76.7% of the non-disabled population.

Developmental Disabilities

	New	port Beach
By Residence:	Home of Parent/Family/Guardian	202
	Independent/Supported Living	15
	Community Care Facility	5
	Intermediate Care Facility	0
	Foster/Family Home	10
	Other	0
By Age:	0 - 17 Years	232
	18+ Years	123
TOTAL		587

CA DDS consumer count by CA ZIP, age group and residence type for the end of June 2019. Data available in 161/197 SCAG jurisdictions.

The California Department of Developmental Services also provides data on developmental disabilities by age and type of residence. These data are collected at the ZIP-code level and were joined to the jurisdiction-level by SCAG. Totals may not match as counts below 11 individuals are unavailable and some entries were not matched to a ZIP code necessitating approximation.

V. HOUSING STOCK CHARACTERISTICS

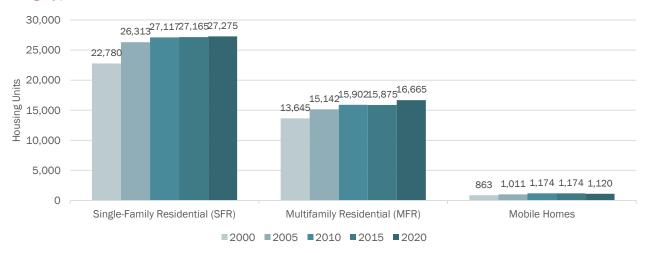

Housing Type

CA DOF E-5 Population and Housing Unit Estimates

The chart above provides detailed information on the housing stock in Newport Beach, which has a total of 45,060 housing units. The most prevalent housing type in Newport Beach is single-family detached with 20,265 units. The share of all single-family units in Newport Beach is 60.5%, which is lower than the 61.7% share in the SCAG region. Out of the total housing units in Newport Beach, there are 39,069 occupied-units, which equates to a 13.3% total vacancy rate. The average household size (as expressed by the population to housing unit ratio) is 2.185.

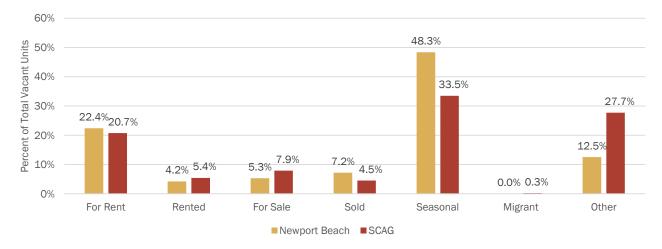

Housing Type Trend

CA DOF E-5 Population and Housing Unit Estimates

Over the past two decades (2000-2020), there has been more construction of single-family residential units than multi-family residential units in Newport Beach. When comparing 2000 to 2020, SFR units increased by 4,495, MFR units increased by 3,020, and mobile units increased by 257.

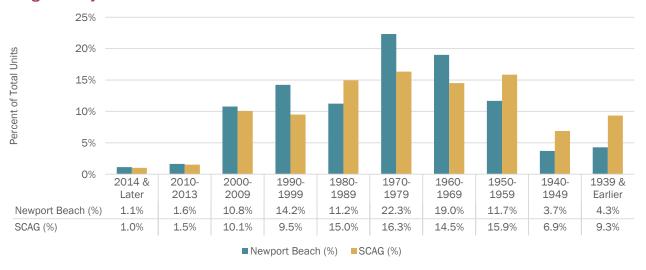

Vacant Units by Type

American Community Survey 2014-2018 5-year estimates.

The ACS provides additional detail on vacant housing units by category.

Housing Units by Year Structure Built

American Community Survey 2014-2018 5-year estimates.

Examining the age of the current housing stock is one way to understand how historical development patterns have contributed to a city's form. The time period where the highest share of Newport Beach's housing units were built is 1970-1979, while in the SCAG region more units were built during 1970-1979 than any other period.

Substandard Housing

American Community Survey 2014-2018 5-year estimates.

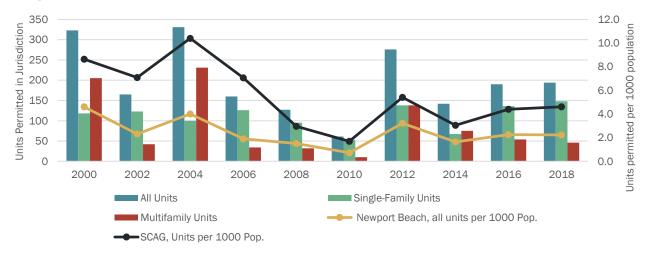

The ACS includes surveys about three factors of what may be considered substandard housing. In Newport Beach, 495 units lack telephone service, 122 units lack plumbing facilities, and 429 units lack complete kitchen facilities.

Median Home Sales Price for Existing Homes

SCAG Local Profiles, Core Logic/Data Quick. SCAG median home sales price calculated as household-weighted average of county medians. Between 2000 and 2018, median home sales prices in Newport Beach increased 212% while prices in the SCAG region increased 151%. 2018 median home sales prices in Newport Beach were \$1,826,000 and the highest experienced since 2000 was \$1,850,000 in 2017. Prices in Newport Beach have ranged from a low of 252.1% of the SCAG region median in 2003 and a high of 409.6% in 2012.

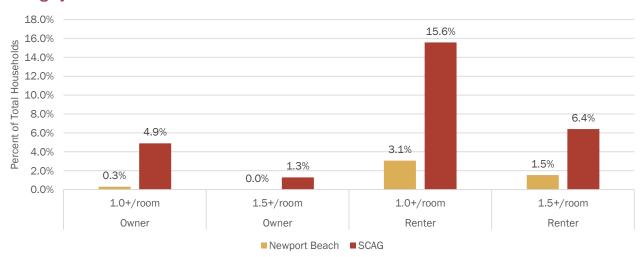

Housing Units Permitted

Core Logic/Data Quick. Additional detail available in SCAG 2019 Local Profiles. SCAG median home sales price calculated as household-weighted average of county medians.

VI. OVERPAYMENT AND OVERCROWDING

Crowding by Extent and Tenure

American Community Survey 2014-2018 5-year estimates.

In Newport Beach, 65 owner-occupied and 505 renter-occupied households had more than 1.0 occupants per room, which meets the ACS definition for overcrowding. owner-occupied households and 253 renter-occupied households had more than 1.5 occupants per room, which meets the ACS definition for severe overcrowding.

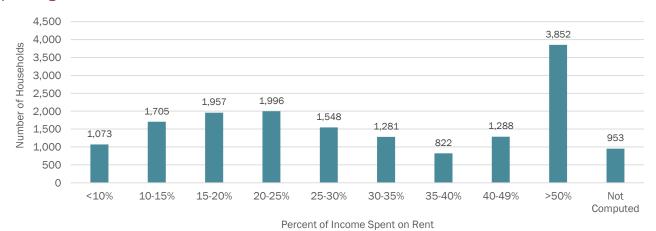

Cost Burden by Income

Households by Share of Income Spent on Housing Cost:				
Income < 30% 30-50% > 50%				
< 30% HAMFI	260	165	2,740	
30-50% HAMFI	690	494	2,279	
50-80% HAMFI	1,305	1,270	1,664	
80-100% HAMFI	950	700	545	
> 100% HAMFI	19,415	3,330	1,020	
Total Households	22,620	5,959	8,248	

HUD CHAS, 2012-2016. HAMFI refers to Housing Urban Development Area Median Family Income.

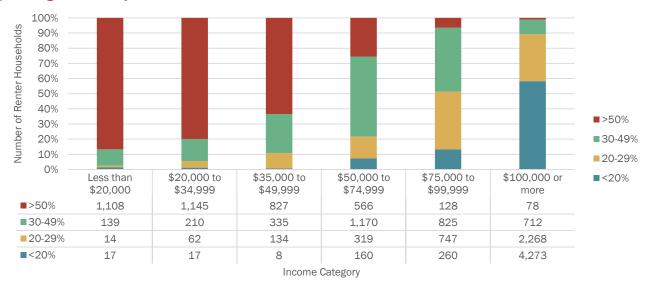

Housing cost burden is most commonly measured as the percentage of gross income spent on housing, with 30% a usual threshold for 'cost burden' and 50% the threshold for 'severe cost burden.' However, a lower-income household spending the same percent of income on housing as a higher-income household will likely experience more true 'cost burden.' These data indicate the number of households in Newport Beach by their income relative to the surrounding area and their share of income spent on housing.

Spending on Rent

Across Newport Beach's 16,475 renter households, 7,243 (44%) spend thirty percent or more of gross income on housing cost, compared to 55.3% in the SCAG region. Additionally, 3,852 renter households in Newport Beach (23.4%) spend fifty percent or more of gross income on housing cost, compared to 28.9% in the SCAG region.

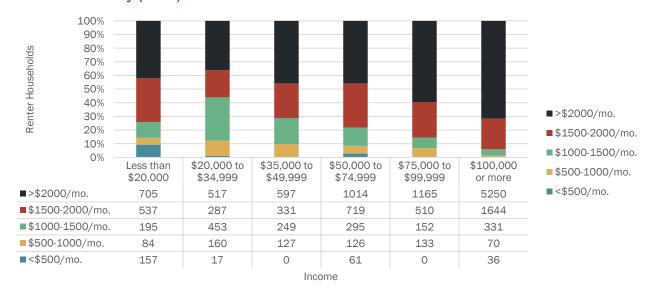

Spending on Rent by Income

American Community Survey 2014-2018 5-year estimates.

While the previous table breaks down cost burden by area-relative income, the ACS also allows for the analysis of Newport Beach's 15,522 renter households (for which income data are available) by spending on rent by income bracket (dollar amounts). As one might expect, the general trend is that low-income households spend a higher share of income on housing (e.g. over 50%) while high-income households are more likely to spend under 20% of income on housing.

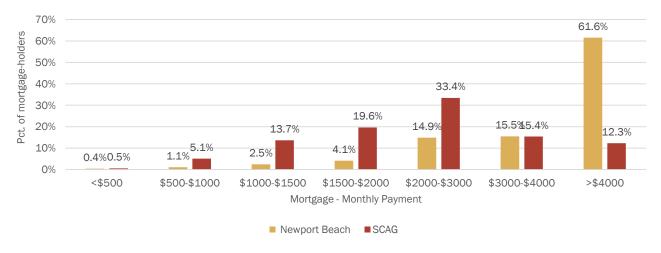

Household Income by (Cash) Rent

American Community Survey 2014-2018 5-year estimates.

Newport Beach renter households' cash rent paid can be broken down by household incomes. As one might expect, the general trend is that lower-income households spend less on rent while higher-income households spend more on rent, though this may not be universally true. Rent categories range from <\$500/month (1.7% of Newport Beach renters) to >\$2000/month (58.1% of Newport Beach renters). The most common rent category in Newport Beach is >\$2000/month with 58.1% of renters.

Monthly Owner Costs for Mortgage Holders

American Community Survey 2014-2018 5-year estimates.

While renter households receive much of the focus when it comes to housing cost analysis, owner households make up 56.5% of Newport Beach and 52.5% of the SCAG region. The most commonly occurring mortgage payment in Newport Beach is >\$4000/month and the most commonly occurring mortgage payment in the SCAG region is \$2000-\$3000/mo.

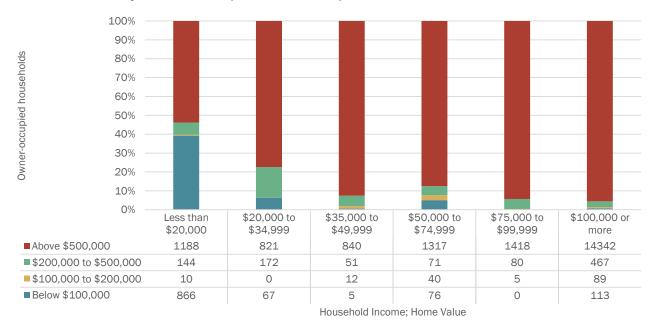

Costs for Mortgage Holders by Income

Household Income; Percent of income spent on mortgage costs

Mortgage-holding households in Newport Beach can be broken down by income and the percentage of income spent on mortgage costs. As one might expect, the general trend is that lower-income households spend a higher share of income on housing costs, while high-income households may spend a lower share of income on housing. The income category most prevalent amongst Newport Beach mortgage-holding households is \$75,000 or more (11,802 households) and the most prevalent share of income spent on mortgage costs is over 30% (6,558 households).

Household Income by Home Value (for owned units)

Another approach to evaluating the relationship between housing and income is to compare incomes and home values in Newport Beach. The most commonly-occurring income category amongst owner households in Newport Beach is \$100,000 or more (15,011 households) and the most commonly-occurring home value category is Above \$500,000 (19,926 households).

Extremely Low Income Housing Needs

	Total Households	Households below 30% HAMFI	Share below 30% HAMFI
White, non-Hispanic	31,580	3,185	10.1%
Black, non-Hispanic	184	15	8.2%
Asian and other, non-Hispanic	3,562	449	12.6%
Hispanic	2,340	335	14.3%
TOTAL	37,666	3,984	10.6%
Renter-occupied	16,605	2,385	14.4%
Owner-occupied	21,055	1,600	7.6%
TOTAL	37,660	3,985	10.6%

HUD CHAS, 2012-2016. HAMFI refers to Housing Urban Development Area Median Family Income.

Housing the extremely-low income population (below 30% of area median income) can be especially challenging. HUD's CHAS dataset provides a wealth of information on such households in Newport Beach. The above table provides a breakdown of extremely low income households by race and ethnicity. The race/ethnicity with the highest share of extremely-low income households in Newport Beach is Hispanic (14.3% compared to 10.6% of total population). In the SCAG region, the highest share of extremely-low income households is Black, non-Hispanic (27.1% compared to 17.7% of total households).

VII. ASSISTED UNITS AT RISK OF CONVERSION

Assisted Units at Risk of Conversion

Risk Level	Definition:	Low-income units in jurisdiction	Percent of county's low-income units
Very High	At-risk of converting to market rate within the next year	0	0%
High	At-risk of converting to market rate in the next 1-5 years	0	0%
Moderate	At-risk of converting to market rate in the next 5-10 years	0	0%
	At-risk of converting to market rate in the next 10 or more years		
	and/or are owned by a large/stable non-profit, mission-driven		
Low	developer.	396	100%
TOTAL	396	100%	

California Housing Partnership, July 2020. Includes HUD, Low-Income Housing Tax Credit (LIHTC), USDA, and CalHFA projects. Subsidized or assisted developments that do not have one of the aformentioned financing sources may not be included.

The California Housing Partnership (CHP) provides data on assisted housing units and assesses the level of risk to converting to market rate. These data identify homes without a known overlapping subsidy that would extend affordability beyond the indicated timeframe and unless otherwise noted are not owned by a large/stable non-profit, mission-driven developer. Detailed 2019 data can be found in SCAG's RHNA data appendix at http://scag.ca.gov/programs/Documents/RHNA/SCAG-Final-RHNA-Data-Appendix-030520.pdf. Complete, updated data can be requested from CHP through Danielle Mazzella, Preservation & Data Manager (dmazzella@chpc.net)

VIII. REGIONAL HOUSING NEEDS ALLOCATION

Final 6th Cycle Regional Housing Needs Allocation for Newport Beach:

	Units
Very-Low Income (<50% of AMI)	1,456
Low Income (50-80% of AMI)	930
Moderate Income (80-120% of AMI)	1,050
Above Moderate Income (>120% of AMI)	1,409
TOTAL	4,845

SCAG, 2021. Based on SCAG's 6th cycle Final RHNA Allocation, adopted March 2021. Please note that for the housing element update, local jurisdictions will have to consider extremely low income (ELI) households as well. ELI housing needs may be calculated either by using Census data or simply assuming that 50 percent of the very low income households qualify as extremely low income households.
