RHNA Methodology: Primary Factors

Based on:

Share of
household growth

Job Accessibility

Transit
Accessibility

Social Equity
Adjustment

- Household income distribution
- Other indicators of resources (environment, education, economy)

RHNA Reform Input Session: July 6

Comment highlights

- There should be a panel of experts to review the regional determination by HCD before its finalized
- HCD did not reflect all required factors in State housing law when providing a regional determination
- The regional determination should have been a range as in prior cycles
- The 6th cycle determination was not sufficient to meet SCAG housing needs

RHNA Reform Input Session: July 6

Comment highlights

- “Consistent with the development pattern of the SCS” should be more clearly defined
- More weight and emphasis should be put on transit accessibility and jobs access
- Transit and job access factors should be based on the planning period, not long-term
- Distribution methodology factors should include:
 - High wildfire risk
 - Exceeding prior RHNA need
 - Density
 - High median rents
 - Vacant office space and remote employee market
 - Aging infrastructure and cost of development

RHNA Reform Input Session: July 6

Comment highlights

- More time should be provided for jurisdictions appealing their RHNA
- Trade and transfer of RHNA units should be allowed between jurisdictions, maybe with parameters
- Trade and transfer of RHNA units should not be allowed between jurisdictions
- Subregional delegation should not be made available

Questions for discussion: Regional Determination

- How do we minimize double counting for factors, such as overcrowding and cost-burden?
 - Should the factors be reordered in the calculation of regional determination?
- What are your thoughts on a panel of experts reviewing individual regional determinations from HCD before they are finalized?
 - Who should be on this panel? What role could it have?

Questions for Discussion: Methodology

- What other factors should be included in the RHNA methodology?
 - Should these additional factors be codified statewide or at the discretion of the COGs?
 - What should be the basis year for the factors? Current, short-term, long-term?
- How can we continue furthering the objective of affirmatively furthering fair housing?
- Should the requirement for the methodology to be “consistent with the development pattern of the SCS” be further defined in State housing law?
