VIII. FINAL REGIONAL HOUSING NEEDS ALLOCATION
Pre-Certified Local Housing Data for San Gabriel
Developed by SCAG and pre-certified by the California Department of Housing and Community Development (HCD) for use in 6th cycle housing elements.

This report contains a wide range of jurisdiction-level data elements intended to provide an understanding housing need experienced in San Gabriel as a part of its 6th cycle housing element update. Data sources are noted below each table or figure.

I. POPULATION, EMPLOYMENT, AND HOUSEHOLDS
Population Trend, 2000-2020

San Gabriel has a 2020 total population of 40,104 including 452 living in group quarters according to the California Department of Finance. The chart above describes the population trend in San Gabriel from 2000 to 2020. Over this period San Gabriel had an annual growth rate of 0% compared to 0.7% for the region.
The population of San Gabriel is 47.7% male and 52.3% female. The share of the population of San Gabriel which is under 18 years of age is 18.2%, which is lower than the regional share of 23.4%. San Gabriel's seniors (65 and above) make up 16.1% of the population, which is higher than the regional share of 13%.

San Gabriel has 19,735 workers living within its borders who work across 13 major industrial sectors. The chart above provides detailed employment information. The most prevalent industry is Education & Social Services with 4,165 employees (21.1% of total) and the second most prevalent industry is Arts, Entertainment, Recreation with 2,867 employees (14.5% of total).

Statewide, farmworker housing is of unique concern and of unique importance. While only a small share of SCAG region jurisdictions have farmworkers living in them, they are essential to the region's economy and food supply.
Housing security can depend heavily on housing tenure, i.e. whether homes are owned or rented. San Gabriel's housing stock consists of 12,063 total units, 5,383 of which are owner-occupied and 6,680 of which are renter-occupied. The share of renters in San Gabriel is higher than in the SCAG region overall.

*American Community Survey 2014-2018 5-year estimates.*

In many places, housing tenure varies substantially based on the age of the householder. In San Gabriel, the age group where renters outnumber owners the most is 25-34 (by 67.2%). The age group where owners outnumber renters the most is 85+ (by 38.4%).
II. SPECIALIZED HOUSEHOLD NEEDS: LARGE FAMILIES, SENIORS, AND FEMALE-HEADED

This chart illustrates the range of household sizes in San Gabriel for owners, renters, and overall. The most commonly occurring household size is of two people (27.5%) and the second-most commonly occurring household is of three people (23.6%). San Gabriel has a lower share of single-person households than the SCAG region overall (16.1% vs. 23.4%) and a higher share of 7+ person households than the SCAG region overall (3.3% vs. 3.1%).

American Community Survey 2014-2018 5-year estimates.
Female Headed Households (FHH)

- FHH w/children under 6: 1.2%; 143
- FHH w/children: 5.2%; 624
- Total FHH: 16.7%; 2014
- Total Households: 12063

Statute requires analysis of specialized housing needs, including female-headed households in an effort to ensure adequate childcare or job training services. Of San Gabriel's 12,063 total households, 16.7% are female-headed (compared to 14.3% in the SCAG region), 5.2% are female-headed and with children (compared to 6.6% in the SCAG region), and 1.2% are female-headed and with children under 6 (compared to 1.0% in the SCAG region).

Households by Poverty Status

- Female-headed with 3 or more children: 0.1%; 14
- Female-headed with children: 1.2%; 149
- Female-headed: 3.0%; 363
- Total households in poverty: 7.4%; 894

7.4 percent of San Gabriel's households are experiencing poverty, compared to 7.9 percent of households in the SCAG region. Poverty thresholds, as defined by the ACS, vary by household type. More information can be found at M256. In 2018, a single individual under 65 was considered in poverty with a money income below $13,064/year while the threshold for a family consisting of 2 adults and 2 children was $25,465/year.
### Elderly Households by Income and Tenure

<td><strong>2,795</strong></td>
<td></td>
</tr>
</tbody>
</table>

*HUD CHAS, 2012-2016. HAMFI refers to Housing Urban Development Area Median Family Income.*

Statute requires analysis of specialized housing needs, including housing needs for seniors. Federal housing data define a household type as 'elderly family' if it consists of two persons with either or both age 62 or over. Of San Gabriel's 2,795 such households, 25.4% earn less than 30% of the surrounding area income, (compared to 24.2% in the SCAG region), 44.9% earn less than 50% of the surrounding area income (compared to 30.9% in the SCAG region).

### III. PEOPLE EXPERIENCING HOMELESSNESS

![Homelessness Chart](chart.png)

2019 city and county homelessness point-in-time counts processed by SCAG. Jurisdiction-level counts were not available in Imperial County and sheltered population (and thus total) counts were not available in Riverside County. As a result, SCAG region totals from this compilation of data sources likely undercount true totals.

#N/A
IV. PEOPLE WITH DISABILITIES, INCLUDING DEVELOPMENTAL DISABILITIES

Disability by Type

Disability data also provides valuable context for assessing current and future need for accessible housing units. Note that since some disability types are not recorded for children below a certain age, calculating disability as a percentage of total population may not be accurate.

Disability by Type - Seniors (65 and over)

In San Gabriel, the most commonly occurring disability amongst seniors 65 and older was an ambulatory disability, experienced by 17% of San Gabriel's seniors (and 22.9% of seniors in the SCAG region).
Disability by Employment Status

*CA DDS consumer count by CA ZIP, age group and residence type for the end of June 2019. Data available in 161/197 SCAG jurisdictions.*

The California Department of Developmental Services also provides data on developmental disabilities by age and type of residence. These data are collected at the ZIP-code level and were joined to the jurisdiction-level by SCAG. Totals may not match as counts below 11 individuals are unavailable and some entries were not matched to a ZIP code necessitating approximation.
V. HOUSING STOCK CHARACTERISTICS

Housing Type

<table>
<thead>
<tr>
<th>Housing Type</th>

<td>26.6%</td>
<td>27.3%</td>
</tr>
<tr>
<td>Mobile Homes</td>
<td>0.1%</td>
<td>3.5%</td>
</tr>
</tbody>
</table>

The chart above provides detailed information on the housing stock in San Gabriel, which has a total of 13,564 housing units. The most prevalent housing type in San Gabriel is single-family detached with 7,483 units. The share of all single-family units in San Gabriel is 67.6%, which is higher than the 61.7% share in the SCAG region. Out of the total housing units in San Gabriel, there are 12,614 occupied-units, which equates to a 7% total vacancy rate. The average household size (as expressed by the population to housing unit ratio) is 3.143.

Housing Type Trend

CA DOF E-5 Population and Housing Unit Estimates

Over the past two decades (2000-2020), there has been more construction of single-family residential units than multi-family residential units in San Gabriel. When comparing 2000 to 2020, SFR units increased by 1,033, MFR units increased by -342, and mobile homes decreased by -36.
Examining the age of the current housing stock is one way to understand how historical development patterns have contributed to a city's form. The time period where the highest share of San Gabriel's housing units were built is 1940-1949, while in the SCAG region more units were built during 1970-1979 than any other period.

---

**Vacant Units by Type**

American Community Survey 2014-2018 5-year estimates.

The ACS provides additional detail on vacant housing units by category.

**Housing Units by Year Structure Built**

American Community Survey 2014-2018 5-year estimates.

Examining the age of the current housing stock is one way to understand how historical development patterns have contributed to a city's form. The time period where the highest share of San Gabriel's housing units were built is 1940-1949, while in the SCAG region more units were built during 1970-1979 than any other period.
Substandard Housing

The ACS includes surveys about three factors of what may be considered substandard housing. In San Gabriel, 141 units lack telephone service, 36 units lack plumbing facilities, and 145 units lack complete kitchen facilities.

Median Home Sales Price for Existing Homes

Between 2000 and 2018, median home sales prices in San Gabriel increased 204% while prices in the SCAG region increased 151%. 2018 median home sales prices in San Gabriel were $745,000 and the highest experienced since 2000 was $745,000 in 2018. Prices in San Gabriel have ranged from a low of 104.3% of the SCAG region median in 2007 and a high of 163.7% in 2011.
VI. OVERPAYMENT AND OVERCROWDING

Crowding by Extent and Tenure

In San Gabriel, 380 owner-occupied and 807 renter-occupied households had more than 1.0 occupants per room, which meets the ACS definition for overcrowding. 62 owner-occupied households and 186 renter-occupied households had more than 1.5 occupants per room, which meets the ACS definition for severe overcrowding.
Cost Burden by Income

<td>2,712</td>
<td>2,870</td>
</tr>
</tbody>
</table>

HUD CHAS, 2012-2016. HAMFI refers to Housing Urban Development Area Median Family Income.

Housing cost burden is most commonly measured as the percentage of gross income spent on housing, with 30% a usual threshold for 'cost burden' and 50% the threshold for 'severe cost burden.' However, a lower-income household spending the same percent of income on housing as a higher-income household will likely experience more true 'cost burden.' These data indicate the number of households in San Gabriel by their income relative to the surrounding area and their share of income spent on housing.

Spending on Rent

Across San Gabriel's 6,680 renter households, 3,833 (57.4%) spend thirty percent or more of gross income on housing cost, compared to 55.3% in the SCAG region. Additionally, 2,133 renter households in San Gabriel (31.9%) spend fifty percent or more of gross income on housing cost, compared to 28.9% in the SCAG region.
While the previous table breaks down cost burden by area-relative income, the ACS also allows for the analysis of San Gabriel's 6,136 renter households (for which income data are available) by spending on rent by income bracket (dollar amounts). As one might expect, the general trend is that low-income households spend a higher share of income on housing (e.g. over 50%) while high-income households are more likely to spend under 20% of income on housing.

San Gabriel renter households' cash rent paid can be broken down by household incomes. As one might expect, the general trend is that lower-income households spend less on rent while higher-income households spend more on rent, though this may not be universally true. Rent categories range from <$500/month (1.8% of San Gabriel renters) to >$2000/month (15.1% of San Gabriel renters). The most common rent category in San Gabriel is $1000-1500/month with 45.2% of renters.
While renter households receive much of the focus when it comes to housing cost analysis, owner households make up 44.6% of San Gabriel and 52.5% of the SCAG region. The most commonly occurring mortgage payment in San Gabriel is $2000-$3000/month and the most commonly occurring mortgage payment in the SCAG region is $2000-$3000/mo.

Mortgage-holding households in San Gabriel can be broken down by income and the percentage of income spent on mortgage costs. As one might expect, the general trend is that lower-income households spend a higher share of income on housing costs, while high-income households may spend a lower share of income on housing. The income category most prevalent amongst San Gabriel mortgage-holding households is $75,000 or more (2,310 households) and the most prevalent share of income spent on mortgage costs is over 30% (1,631 households).
Another approach to evaluating the relationship between housing and income is to compare incomes and home values in San Gabriel. The most commonly-occurring income category amongst owner households in San Gabriel is $100,000 or more (2,422 households) and the most commonly-occurring home value category is Above $500,000 (4,281 households).

*HUD CHAS, 2012-2016. HAMFI refers to Housing Urban Development Area Median Family Income.*

Housing the extremely-low income population (below 30% of area median income) can be especially challenging. HUD's CHAS dataset provides a wealth of information on such households in San Gabriel. The above table provides a breakdown of extremely low income households by race and ethnicity. The race/ethnicity with the highest share of extremely-low income households in San Gabriel is Asian and other, non-Hispanic (22.1% compared to 18.4% of total population). In the SCAG region, the highest share of extremely-low income households is Black, non-Hispanic (27.1% compared to 17.7% of total households).

California Housing Partnership, July 2020. Includes HUD, Low-Income Housing Tax Credit (LIHTC), USDA, and CalHFA projects. Subsidized or assisted developments that do not have one of the aforementioned financing sources may not be included.

The California Housing Partnership (CHP) provides data on assisted housing units and assesses the level of risk to converting to market rate. These data identify homes without a known overlapping subsidy that would extend affordability beyond the indicated timeframe and unless otherwise noted are not owned by a large/stable non-profit, mission-driven developer. Detailed 2019 data can be found in SCAG's RHNA data appendix at http://scag.ca.gov/programs/Documents/RHNA/SCAG-Final-RHNA-Data-Appendix-030520.pdf. Complete, updated data can be requested from CHP through Danielle Mazzella, Preservation & Data Manager (dmazzella@chpc.net)

VIII. REGIONAL HOUSING NEEDS ALLOCATION
