- VIII. FINAL REGIONAL HOUSING NEEDS ALLOCATION**

Pre-Certified Local Housing Data for Santa Clarita

Developed by SCAG and pre-certified by the California Department of Housing and Community Development (HCD) for use in 6th cycle housing elements.

This report contains a wide range of jurisdiction-level data elements intended to provide an understanding housing need experienced in Santa Clarita as a part of its 6th cycle housing element update. Data sources are noted below each table or figure.

I. POPULATION, EMPLOYMENT, AND HOUSEHOLDS

Population Trend, 2000-2020

CA DOF E-5 Population and Housing Unit Estimates

Santa Clarita has a 2020 total population of 221,932 including 1,500 living in group quarters according to the California Department of Finance. The chart above describes the population trend in Santa Clarita from 2000 to 2020. Over this period Santa Clarita had an annual growth rate of 1.9% compared to 0.7% for the region.

Current Population by Age and Sex

American Community Survey 2014-2018 5-year estimates

The population of Santa Clarita is 49.6% male and 50.4% female. The share of the population of Santa Clarita which is under 18 years of age is 25.9%, which is higher than the regional share of 23.4%. Santa Clarita's seniors (65 and above) make up 11.3% of the population, which is lower than the regional share of 13%.

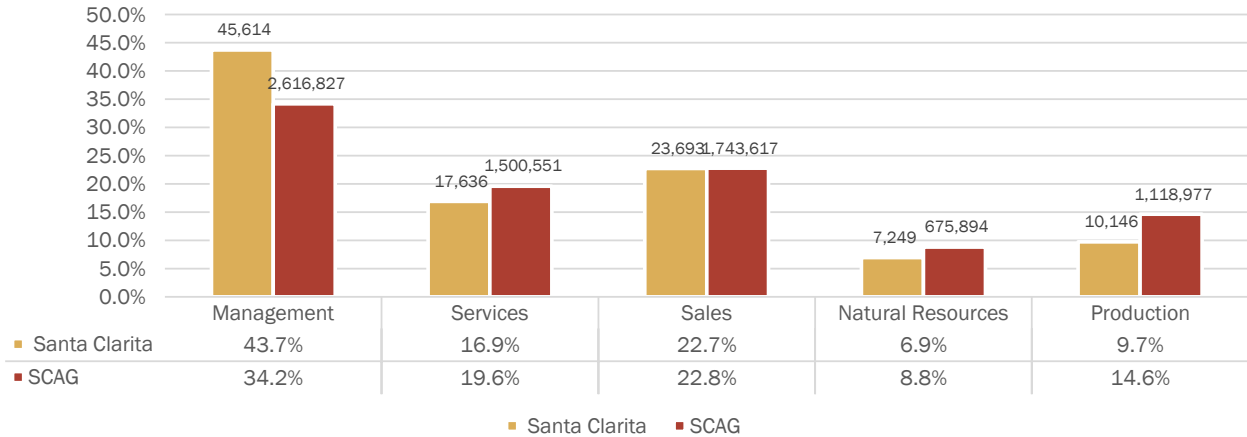

Employment by Industry

American Community Survey 2014-2018 5-year estimates using groupings of 2-digit NAICS codes.

Santa Clarita has 104,338 workers living within its borders who work across 13 major industrial sectors. The chart above provides detailed employment information. The most prevalent industry is Education & Social Services with 23,164 employees (22.2% of total) and the second most prevalent industry is Professional Svcs. with 12,024 employees (11.5% of total).

Employment by Occupation

American Community Survey 2014-2018 5-year estimates using groupings of SOC codes.

In addition to understanding the industries in which the residents of Santa Clarita work, it is also possible to analyze the types of jobs they hold. The most prevalent occupational category in Santa Clarita is Management, in which 45,614 (43.7% of total) employees work. The second-most prevalent type of work is in Sales, which employs 23,693 (22.7% of total) in Santa Clarita.

Farmworkers

Farmworkers by Occupation:

Santa Clarita	Percent of total Santa Clarita workers:	SCAG Total	
102	0.10%	57,741	Total jobs: Farming, fishing, and forestry occupations
102	0.14%	31,521	Full-time, year-round jobs: Farming, fishing, and forestry occupations

Employment in the Agricultural Industry:

Santa Clarita	Percent of total Santa Clarita workers:	SCAG Total	
178	0.17%	73,778	Total in agriculture, forestry, fishing, and hunting
190	0.26%	44,979	Full-time, year-round in agriculture, forestry, fishing, and hunting

American Community Survey 2014-2018 5-year estimates using groupings of NAICS and SOC codes.

Statewide, farmworker housing is of unique concern and of unique importance. While only a small share of SCAG region jurisdictions have farmworkers living in them, they are essential to the region's economy and food supply.

Housing Tenure

American Community Survey 2014-2018 5-year estimates.

Housing security can depend heavily on housing tenure, i.e. whether homes are owned or rented. Santa Clarita's housing stock consists of 67,583 total units, 45,807 of which are owner-occupied and 21,776 of which are renter-occupied. The share of renters in Santa Clarita is lower than in the SCAG region overall.

Housing Tenure By Age

American Community Survey 2014-2018 5-year estimates.

In many places, housing tenure varies substantially based on the age of the householder. In Santa Clarita, the age group where renters outnumber owners the most is 15-24 (by 79.8%). The age group where owners outnumber renters the most is 65-74 (by 62.8%).

Housing Tenure by Year Moved to Current Residence

American Community Survey 2014-2018 5-year estimates.

Across the SCAG region, the most common move-in period was 2010-2014 (31.9%) followed by 2000-2009 (26.1%). In Santa Clarita, the period during which most people started living in their current residence was 2010-2014 (30%) followed by 2000-2009 (29.7%).

II. SPECIALIZED HOUSEHOLD NEEDS: LARGE FAMILIES, SENIORS, AND FEMALE-HEADED

Households by Household Size

American Community Survey 2014-2018 5-year estimates.

This chart illustrates the range of household sizes in Santa Clarita for owners, renters, and overall. The most commonly occurring household size is of two people (29.1%) and the second-most commonly occurring household is of three people (19.3%). Santa Clarita has a lower share of single-person households than the SCAG region overall (18.9% vs. 23.4%) and a lower share of 7+ person households than the SCAG region overall (1.7% vs. 3.1%).

Female Headed Households (FHH)

American Community Survey 2014-2018 5-year estimates.

Statute requires analysis of specialized housing needs, including female-headed households in an effort to ensure adequate childcare or job training services. Of Santa Clarita's 67,583 total households, 11.3% are female-headed (compared to 14.3% in the SCAG region), 5.5% are female-headed and with children (compared to 6.6% in the SCAG region), and 0.8% are female-headed and with children under 6 (compared to 1.0% in the SCAG region).

Households by Poverty Status

American Community Survey 2014-2018 5-year estimates.

4.1 percent of Santa Clarita's households are experiencing poverty, compared to 7.9 percent of households in the SCAG region. Poverty thresholds, as defined by the ACS, vary by household type. More information can be found at M256. In 2018, a single individual under 65 was considered in poverty with a money income below \$13,064/year while the threshold for a family consisting of 2 adults and 2 children was \$25,465/year.

Elderly Households by Income and Tenure

		Owner	Renter	Total	Percent of Total Elderly Households:
Income category, relative to surrounding area:	< 30% HAMFI	1,085	1,070	2,155	15.3%
	30-50% HAMFI	1,480	750	2,230	15.8%
	50-80% HAMFI	1,875	445	2,320	16.4%
	80-100% HAMFI	1,220	260	1,480	10.5%
	> 100% HAMFI	5,305	615	5,920	42.0%
TOTAL		10,965	3,140	14,105	

HUD CHAS, 2012-2016. HAMFI refers to Housing Urban Development Area Median Family Income.

Statute requires analysis of specialized housing needs, including housing needs for seniors. Federal housing data define a household type as 'elderly family' if it consists of two persons with either or both age 62 or over. Of Santa Clarita's 14,105 such households, 15.3% earn less than 30% of the surrounding area income, (compared to 24.2% in the SCAG region), 31.1% earn less than 50% of the surrounding area income (compared to 30.9% in the SCAG region).

III. PEOPLE EXPERIENCING HOMELESSNESS

2019 city and county homelessness point-in-time counts processed by SCAG. Jurisdiction-level counts were not available in Imperial County and sheltered population (and thus total) counts were not available in Riverside County. As a result, SCAG region totals from this compilation of data sources likely undercount true totals.

#N/A

IV. PEOPLE WITH DISABILITIES, INCLUDING DEVELOPMENTAL DISABILITIES

Disability by Type

American Community Survey 2014-2018 5-year estimates.

Disability data also provides valuable context for assessing current and future need for accessible housing units. Note that since some disability types are not recorded for children below a certain age, calculating disability as a percentage of total population may not be accurate.

Disability by Type - Seniors (65 and over)

American Community Survey 2014-2018 5-year estimates.

In Santa Clarita, the most commonly occurring disability amongst seniors 65 and older was an ambulatory disability, experienced by 24.2% of Santa Clarita's seniors (and 22.9% of seniors in the SCAG region).

Disability by Employment Status

	With a Disability	Percent of Total	No Disability	Percent of Total
Employed	4,517	43%	94,168	78%
Unemployed	560	5%	5,346	4%
Not in Labor Force	5,515	52%	21,220	18%
TOTAL	10,592		120,734	

American Community Survey 2014-2018 5-year estimates.

Understanding the employment status of people with disabilities may also be an important component in evaluating specialized housing needs. In Santa Clarita, 42.6% of the population with a disability is employed, compared to 78% of the non-disabled population.

Developmental Disabilities

		Santa Clarita
By Residence:	Home of Parent/Family/Guardian	1021
	Independent/Supported Living	41
	Community Care Facility	38
	Intermediate Care Facility	0
	Foster/Family Home	15
	Other	10
By Age:	0 - 17 Years	1125
	18+ Years	729
TOTAL		2979

CA DDS consumer count by CA ZIP, age group and residence type for the end of June 2019. Data available in 161/197 SCAG jurisdictions.

The California Department of Developmental Services also provides data on developmental disabilities by age and type of residence. These data are collected at the ZIP-code level and were joined to the jurisdiction-level by SCAG. Totals may not match as counts below 11 individuals are unavailable and some entries were not matched to a ZIP code necessitating approximation.

V. HOUSING STOCK CHARACTERISTICS

Housing Type

CA DOF E-5 Population and Housing Unit Estimates

The chart above provides detailed information on the housing stock in Santa Clarita, which has a total of 77,008 housing units. The most prevalent housing type in Santa Clarita is single-family detached with 46,951 units. The share of all single-family units in Santa Clarita is 72.8%, which is higher than the 61.7% share in the SCAG region. Out of the total housing units in Santa Clarita, there are 74,149 occupied-units, which equates to a 3.7% total vacancy rate. The average household size (as expressed by the population to housing unit ratio) is 2.973.

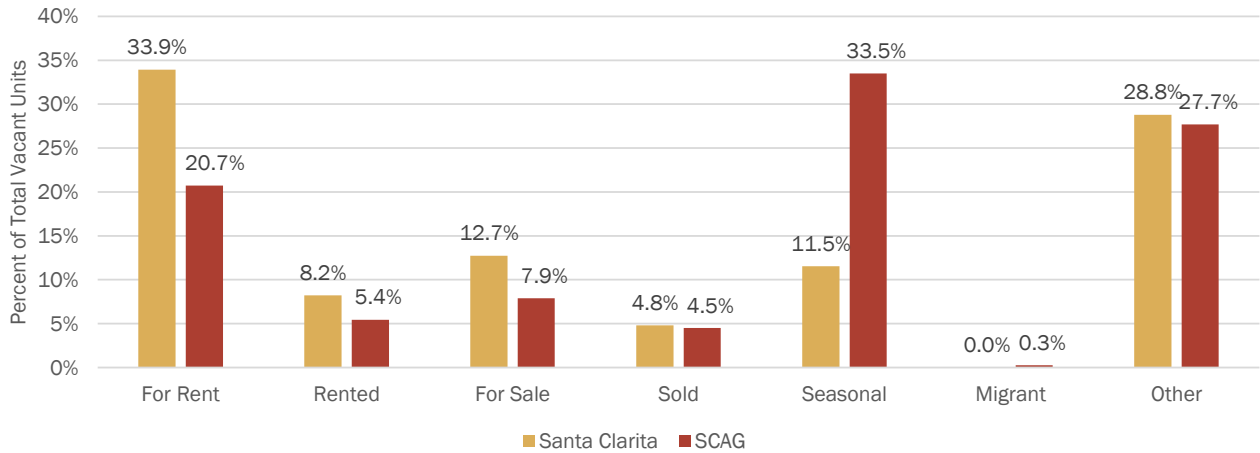

Housing Type Trend

CA DOF E-5 Population and Housing Unit Estimates

Over the past two decades (2000-2020), there has been more construction of single-family residential units than multi-family residential units in Santa Clarita. When comparing 2000 to 2020, SFR units increased by 17,930, MFR units increased by 6,286, and mobile units increased by 336.

Vacant Units by Type

American Community Survey 2014-2018 5-year estimates.

The ACS provides additional detail on vacant housing units by category.

Housing Units by Year Structure Built

American Community Survey 2014-2018 5-year estimates.

Examining the age of the current housing stock is one way to understand how historical development patterns have contributed to a city's form. The time period where the highest share of Santa Clarita's housing units were built is 1980-1989, while in the SCAG region more units were built during 1970-1979 than any other period.

Substandard Housing

American Community Survey 2014-2018 5-year estimates.

The ACS includes surveys about three factors of what may be considered substandard housing. In Santa Clarita, 805 units lack telephone service, 96 units lack plumbing facilities, and 592 units lack complete kitchen facilities.

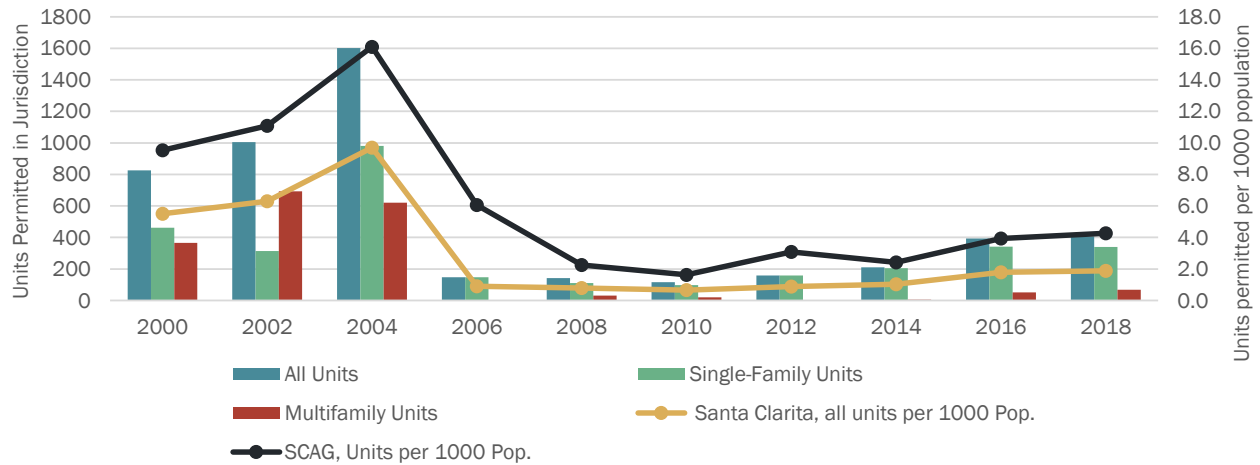

Median Home Sales Price for Existing Homes

SCAG Local Profiles, Core Logic/Data Quick. SCAG median home sales price calculated as household-weighted average of county medians.

Between 2000 and 2018, median home sales prices in Santa Clarita increased 134% while prices in the SCAG region increased 151%. 2018 median home sales prices in Santa Clarita were \$538,000 and the highest experienced since 2000 was \$548,100 in 2006. Prices in Santa Clarita have ranged from a low of 87.8% of the SCAG region median in 2007 and a high of 126.2% in 2009.

Housing Units Permitted

Core Logic/Data Quick. Additional detail available in SCAG 2019 Local Profiles. SCAG median home sales price calculated as household-weighted average of county medians.

VI. OVERPAYMENT AND OVERCROWDING

Crowding by Extent and Tenure

American Community Survey 2014-2018 5-year estimates.

In Santa Clarita, 1,077 owner-occupied and 3,199 renter-occupied households had more than 1.0 occupants per room, which meets the ACS definition for overcrowding. 175 owner-occupied households and 1,179 renter-occupied households had more than 1.5 occupants per room, which meets the ACS definition for severe overcrowding.

Cost Burden by Income

Households by Share of Income Spent on Housing Cost:			
Income	< 30%	30-50%	> 50%
< 30% HAMFI	564	575	4,405
30-50% HAMFI	1,395	1,680	3,165
50-80% HAMFI	3,130	3,845	1,730
80-100% HAMFI	3,480	2,470	409
> 100% HAMFI	27,770	4,155	384
<i>Total Households</i>	<i>36,339</i>	<i>12,725</i>	<i>10,093</i>

HUD CHAS, 2012-2016. HAMFI refers to Housing Urban Development Area Median Family Income.

Housing cost burden is most commonly measured as the percentage of gross income spent on housing, with 30% a usual threshold for 'cost burden' and 50% the threshold for 'severe cost burden.' However, a lower-income household spending the same percent of income on housing as a higher-income household will likely experience more true 'cost burden.' These data indicate the number of households in Santa Clarita by their income relative to the surrounding area and their share of income spent on housing.

Spending on Rent

Across Santa Clarita's 21,776 renter households, 12,574 (57.7%) spend thirty percent or more of gross income on housing cost, compared to 55.3% in the SCAG region. Additionally, 5,876 renter households in Santa Clarita (27%) spend fifty percent or more of gross income on housing cost, compared to 28.9% in the SCAG region.

Spending on Rent by Income

American Community Survey 2014-2018 5-year estimates.

While the previous table breaks down cost burden by area-relative income, the ACS also allows for the analysis of Santa Clarita's 21,077 renter households (for which income data are available) by spending on rent by income bracket (dollar amounts). As one might expect, the general trend is that low-income households spend a higher share of income on housing (e.g. over 50%) while high-income households are more likely to spend under 20% of income on housing.

Household Income by (Cash) Rent

American Community Survey 2014-2018 5-year estimates.

Santa Clarita renter households' cash rent paid can be broken down by household incomes. As one might expect, the general trend is that lower-income households spend less on rent while higher-income households spend more on rent, though this may not be universally true. Rent categories range from <\$500/month (2.1% of Santa Clarita renters) to >\$2000/month (36.5% of Santa Clarita renters). The most common rent category in Santa Clarita is \$1500-2000/month with 37.3% of renters.

Monthly Owner Costs for Mortgage Holders

American Community Survey 2014-2018 5-year estimates.

While renter households receive much of the focus when it comes to housing cost analysis, owner households make up 67.8% of Santa Clarita and 52.5% of the SCAG region. The most commonly occurring mortgage payment in Santa Clarita is \$2000-\$3000/month and the most commonly occurring mortgage payment in the SCAG region is \$2000-\$3000/mo.

Costs for Mortgage Holders by Income

Mortgage-holding households in Santa Clarita can be broken down by income and the percentage of income spent on mortgage costs. As one might expect, the general trend is that lower-income households spend a higher share of income on housing costs, while high-income households may spend a lower share of income on housing. The income category most prevalent amongst Santa Clarita mortgage-holding households is \$75,000 or more (27,763 households) and the most prevalent share of income spent on mortgage costs is over 30% (13,222 households).

Household Income by Home Value (for owned units)

Another approach to evaluating the relationship between housing and income is to compare incomes and home values in Santa Clarita. The most commonly-occurring income category amongst owner households in Santa Clarita is \$100,000 or more (26,374 households) and the most commonly-occurring home value category is Above \$500,000 (22,642 households).

Extremely Low Income Housing Needs

	Total Households	Households below 30% HAMFI	Share below 30% HAMFI
White, non-Hispanic	36,730	3,125	8.5%
Black, non-Hispanic	1,780	205	11.5%
Asian and other, non-Hispanic	6,865	714	10.4%
Hispanic	14,195	1,915	13.5%
TOTAL	59,570	5,959	10.0%
Renter-occupied	19,020	3,325	17.5%
Owner-occupied	40,580	2,640	6.5%
TOTAL	59,600	5,965	10.0%

HUD CHAS, 2012-2016. HAMFI refers to Housing Urban Development Area Median Family Income.

Housing the extremely-low income population (below 30% of area median income) can be especially challenging. HUD's CHAS dataset provides a wealth of information on such households in Santa Clarita. The above table provides a breakdown of extremely low income households by race and ethnicity. The race/ethnicity with the highest share of extremely-low income households in Santa Clarita is Hispanic (13.5% compared to 10% of total population). In the SCAG region, the highest share of extremely-low income households is Black, non-Hispanic (27.1% compared to 17.7% of total households).

VII. ASSISTED UNITS AT RISK OF CONVERSION

Assisted Units at Risk of Conversion

Risk Level	Definition:	Low-income units in jurisdiction	Percent of county's low-income units
Very High	At-risk of converting to market rate within the next year	0	0%
High	At-risk of converting to market rate in the next 1-5 years	89	14%
Moderate	At-risk of converting to market rate in the next 5-10 years	0	0%
Low	At-risk of converting to market rate in the next 10 or more years and/or are owned by a large/stable non-profit, mission-driven developer.	559	86%
TOTAL		648	100%

California Housing Partnership, July 2020. Includes HUD, Low-Income Housing Tax Credit (LIHTC), USDA, and CalHFA projects. Subsidized or assisted developments that do not have one of the aforementioned financing sources may not be included.

The California Housing Partnership (CHP) provides data on assisted housing units and assesses the level of risk to converting to market rate. These data identify homes without a known overlapping subsidy that would extend affordability beyond the indicated timeframe and unless otherwise noted are not owned by a large/stable non-profit, mission-driven developer. Detailed 2019 data can be found in SCAG's RHNA data appendix at <http://scag.ca.gov/programs/Documents/RHNA/SCAG-Final-RHNA-Data-Appendix-030520.pdf>. Complete, updated data can be requested from CHP through Danielle Mazzella, Preservation & Data Manager (dmazzella@chpc.net)

VIII. REGIONAL HOUSING NEEDS ALLOCATION

Final 6th Cycle Regional Housing Needs Allocation for Santa Clarita:

	Units
Very-Low Income (<50% of AMI)	3,397
Low Income (50-80% of AMI)	1,734
Moderate Income (80-120% of AMI)	1,672
Above Moderate Income (>120% of AMI)	3,228
TOTAL	10,031

SCAG, 2021. Based on SCAG's 6th cycle Final RHNA Allocation, adopted March 2021. Please note that for the housing element update, local jurisdictions will have to consider extremely low income (ELI) households as well. ELI housing needs may be calculated either by using Census data or simply assuming that 50 percent of the very low income households qualify as extremely low income households.
