- VI. OVERPAYMENT AND OVERCROWDING**
- VII. ASSISTED UNITS AT RISK OF CONVERSION**
- VIII. FINAL REGIONAL HOUSING NEEDS ALLOCATION**

Pre-Certified Local Housing Data for Tustin

Developed by SCAG and pre-certified by the California Department of Housing and Community Development (HCD) for use in 6th cycle housing elements.

This report contains a wide range of jurisdiction-level data elements intended to provide an understanding housing need experienced in Tustin as a part of its 6th cycle housing element update. Data sources are noted below each table or figure.

I. POPULATION, EMPLOYMENT, AND HOUSEHOLDS

Population Trend, 2000-2020

CA DOF E-5 Population and Housing Unit Estimates

Tustin has a 2020 total population of 80,382 including 520 living in group quarters according to the California Department of Finance. The chart above describes the population trend in Tustin from 2000 to 2020. Over this period Tustin had an annual growth rate of 0.9% compared to 0.7% for the region.

Current Population by Age and Sex

American Community Survey 2014-2018 5-year estimates

The population of Tustin is 49.5% male and 50.5% female. The share of the population of Tustin which is under 18 years of age is 25.1%, which is higher than the regional share of 23.4%. Tustin's seniors (65 and above) make up 9.9% of the population, which is lower than the regional share of 13%.

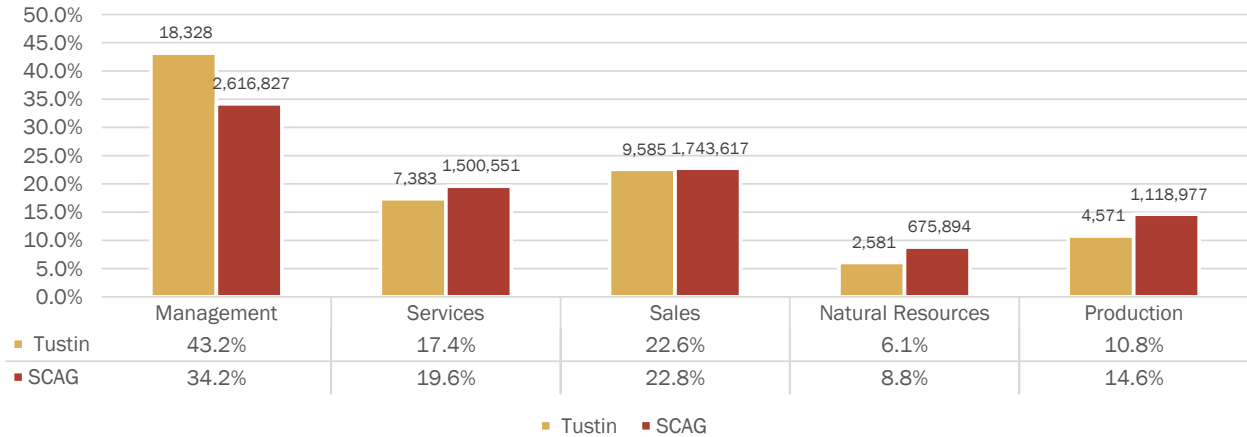

Employment by Industry

American Community Survey 2014-2018 5-year estimates using groupings of 2-digit NAICS codes.

Tustin has 42,448 workers living within its borders who work across 13 major industrial sectors. The chart above provides detailed employment information. The most prevalent industry is Education & Social Services with 7,796 employees (18.4% of total) and the second most prevalent industry is Professional Svcs. with 6,625 employees (15.6% of total).

Employment by Occupation

American Community Survey 2014-2018 5-year estimates using groupings of SOC codes.

In addition to understanding the industries in which the residents of Tustin work, it is also possible to analyze the types of jobs they hold. The most prevalent occupational category in Tustin is Management, in which 18,328 (43.2% of total) employees work. The second-most prevalent type of work is in Sales, which employs 9,585 (22.6% of total) in Tustin.

Farmworkers

Farmworkers by Occupation:

Tustin	Percent of total Tustin workers:	SCAG Total	
319	0.75%	57,741	Total jobs: Farming, fishing, and forestry occupations
225	0.75%	31,521	Full-time, year-round jobs: Farming, fishing, and forestry occupations

Employment in the Agricultural Industry:

Tustin	Percent of total Tustin workers:	SCAG Total	
415	0.98%	73,778	Total in agriculture, forestry, fishing, and hunting
258	0.86%	44,979	Full-time, year-round in agriculture, forestry, fishing, and hunting

American Community Survey 2014-2018 5-year estimates using groupings of NAICS and SOC codes.

Statewide, farmworker housing is of unique concern and of unique importance. While only a small share of SCAG region jurisdictions have farmworkers living in them, they are essential to the region's economy and food supply.

Housing Tenure

American Community Survey 2014-2018 5-year estimates.

Housing security can depend heavily on housing tenure, i.e. whether homes are owned or rented. Tustin's housing stock consists of 26,132 total units, 12,532 of which are owner-occupied and 13,600 of which are renter-occupied. The share of renters in Tustin is higher than in the SCAG region overall.

Housing Tenure By Age

American Community Survey 2014-2018 5-year estimates.

In many places, housing tenure varies substantially based on the age of the householder. In Tustin, the age group where renters outnumber owners the most is 15-24 (by 73.9%). The age group where owners outnumber renters the most is 75-84 (by 31.9%).

Housing Tenure by Year Moved to Current Residence

American Community Survey 2014-2018 5-year estimates.

Across the SCAG region, the most common move-in period was 2010-2014 (31.9%) followed by 2000-2009 (26.1%). In Tustin, the period during which most people started living in their current residence was 2010-2014 (33.9%) followed by 2000-2009 (25.8%).

II. SPECIALIZED HOUSEHOLD NEEDS: LARGE FAMILIES, SENIORS, AND FEMALE-HEADED

Households by Household Size

American Community Survey 2014-2018 5-year estimates.

This chart illustrates the range of household sizes in Tustin for owners, renters, and overall. The most commonly occurring household size is of two people (28.4%) and the second-most commonly occurring household is of one person (22.3%). Tustin has a lower share of single-person households than the SCAG region overall (22.3% vs. 23.4%) and a lower share of 7+ person households than the SCAG region overall (2.7% vs. 3.1%).

Female Headed Households (FHH)

American Community Survey 2014-2018 5-year estimates.

Statute requires analysis of specialized housing needs, including female-headed households in an effort to ensure adequate childcare or job training services. Of Tustin's 26,132 total households, 13.9% are female-headed (compared to 14.3% in the SCAG region), 6.8% are female-headed and with children (compared to 6.6% in the SCAG region), and 0.8% are female-headed and with children under 6 (compared to 1.0% in the SCAG region).

Households by Poverty Status

American Community Survey 2014-2018 5-year estimates.

5.7 percent of Tustin's households are experiencing poverty, compared to 7.9 percent of households in the SCAG region. Poverty thresholds, as defined by the ACS, vary by household type. More information can be found at M256. In 2018, a single individual under 65 was considered in poverty with a money income below \$13,064/year while the threshold for a family consisting of 2 adults and 2 children was \$25,465/year.

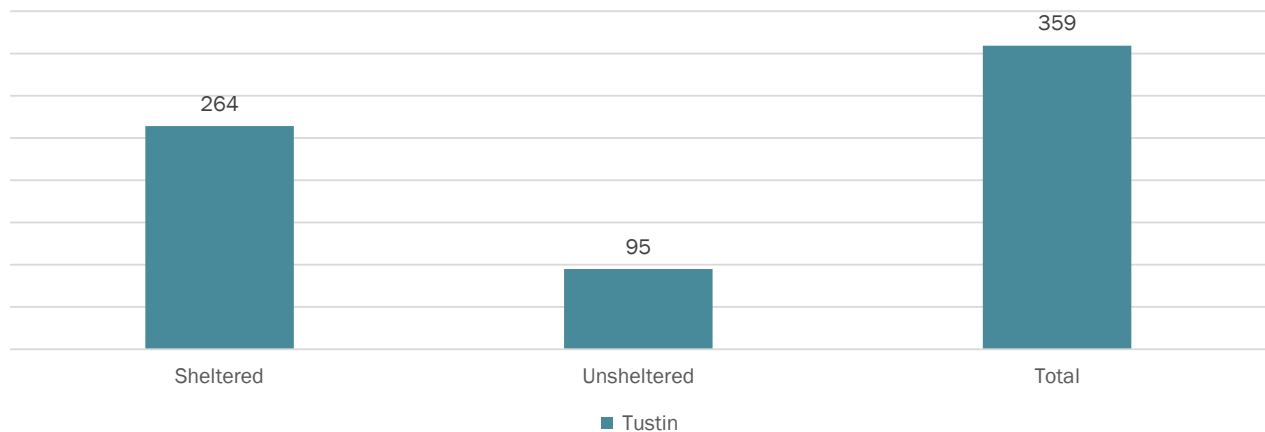

Elderly Households by Income and Tenure

		Owner	Renter	Total	Percent of Total Elderly Households:
Income category, relative to surrounding area:	< 30% HAMFI	485	510	995	20.5%
	30-50% HAMFI	550	550	1,100	22.7%
	50-80% HAMFI	585	315	900	18.6%
	80-100% HAMFI	275	90	365	7.5%
	> 100% HAMFI	1,160	330	1,490	30.7%
TOTAL		3,055	1,795	4,850	

HUD CHAS, 2012-2016. HAMFI refers to Housing Urban Development Area Median Family Income.

Statute requires analysis of specialized housing needs, including housing needs for seniors. Federal housing data define a household type as 'elderly family' if it consists of two persons with either or both age 62 or over. Of Tustin's 4,850 such households, 20.5% earn less than 30% of the surrounding area income, (compared to 24.2% in the SCAG region), 43.2% earn less than 50% of the surrounding area income (compared to 30.9% in the SCAG region).

III. PEOPLE EXPERIENCING HOMELESSNESS

2019 city and county homelessness point-in-time counts processed by SCAG. Jurisdiction-level counts were not available in Imperial County and sheltered population (and thus total) counts were not available in Riverside County. As a result, SCAG region totals from this compilation of data sources likely undercount true totals.

#N/A

IV. PEOPLE WITH DISABILITIES, INCLUDING DEVELOPMENTAL DISABILITIES

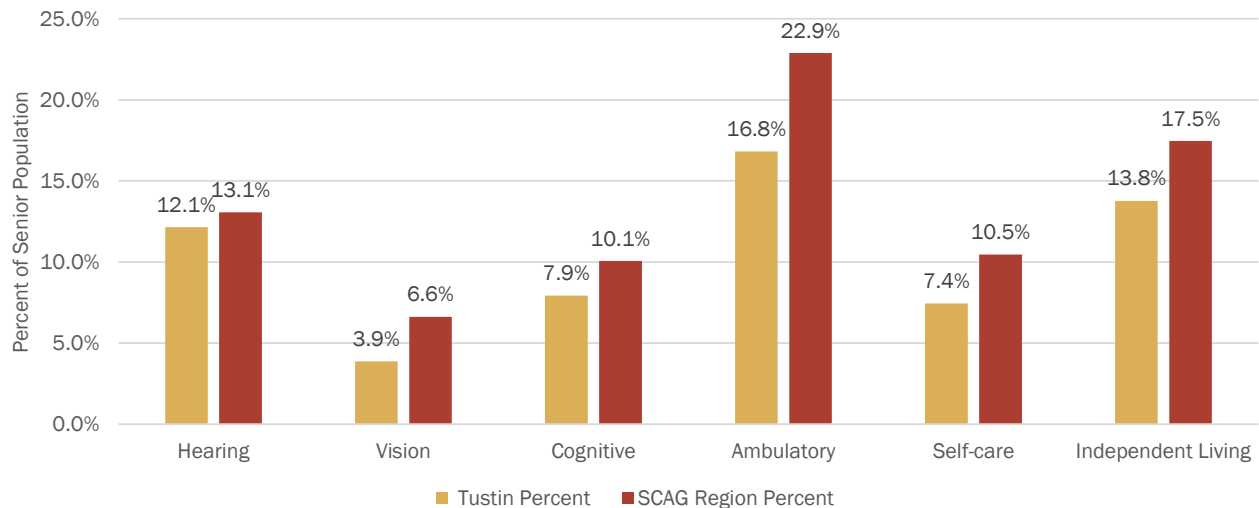

Disability by Type

American Community Survey 2014-2018 5-year estimates.

Disability data also provides valuable context for assessing current and future need for accessible housing units. Note that since some disability types are not recorded for children below a certain age, calculating disability as a percentage of total population may not be accurate.

Disability by Type - Seniors (65 and over)

American Community Survey 2014-2018 5-year estimates.

In Tustin, the most commonly occurring disability amongst seniors 65 and older was an ambulatory disability, experienced by 16.8% of Tustin's seniors (and 22.9% of seniors in the SCAG region).

Disability by Employment Status

	With a Disability	Percent of Total	No Disability	Percent of Total
Employed	1,666	49%	38,600	79%
Unemployed	241	7%	2,027	4%
Not in Labor Force	1,480	44%	8,018	16%
TOTAL	3,387		48,645	

American Community Survey 2014-2018 5-year estimates.

Understanding the employment status of people with disabilities may also be an important component in evaluating specialized housing needs. In Tustin, 49.2% of the population with a disability is employed, compared to 79.4% of the non-disabled population.

Developmental Disabilities

	Tustin
By Residence: Home of Parent/Family/Guardian	691
Independent/Supported Living	57
Community Care Facility	5
Intermediate Care Facility	0
Foster/Family Home	15
Other	22
By Age: 0 - 17 Years	790
18+ Years	458
TOTAL	2038

CA DDS consumer count by CA ZIP, age group and residence type for the end of June 2019. Data available in 161/197 SCAG jurisdictions.

The California Department of Developmental Services also provides data on developmental disabilities by age and type of residence. These data are collected at the ZIP-code level and were joined to the jurisdiction-level by SCAG. Totals may not match as counts below 11 individuals are unavailable and some entries were not matched to a ZIP code necessitating approximation.

V. HOUSING STOCK CHARACTERISTICS

Housing Type

CA DOF E-5 Population and Housing Unit Estimates

The chart above provides detailed information on the housing stock in Tustin, which has a total of 28,257 housing units. The most prevalent housing type in Tustin is single-family detached with 9,882 units. The share of all single-family units in Tustin is 48%, which is lower than the 61.7% share in the SCAG region. Out of the total housing units in Tustin, there are 26,863 occupied-units, which equates to a 4.9% total vacancy rate. The average household size (as expressed by the population to housing unit ratio) is 2.973.

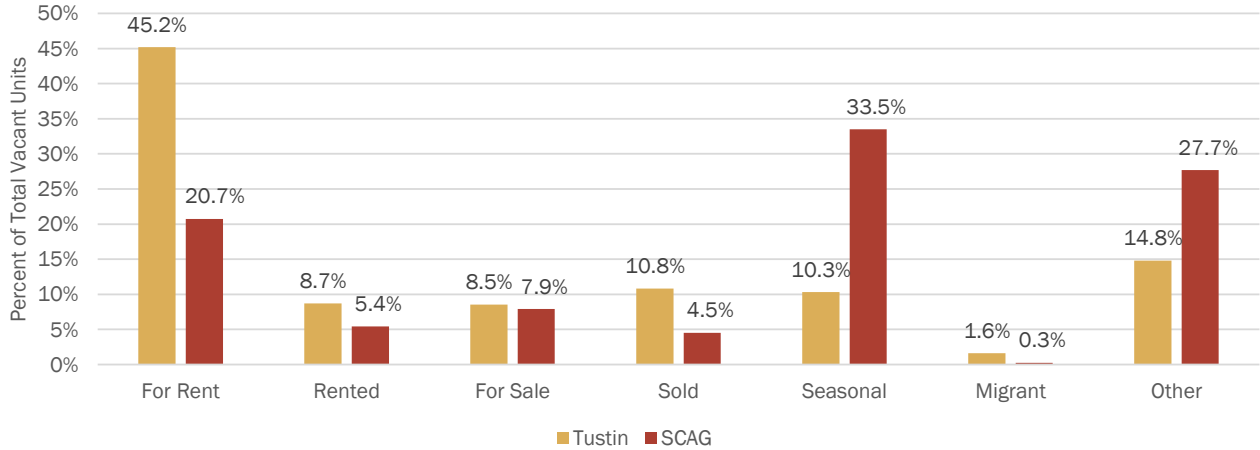

Housing Type Trend

CA DOF E-5 Population and Housing Unit Estimates

Over the past two decades (2000-2020), there has been more construction of single-family residential units than multi-family residential units in Tustin. When comparing 2000 to 2020, SFR units increased by 2,017, MFR units increased by 738, and mobile units increased by 1.

Vacant Units by Type

American Community Survey 2014-2018 5-year estimates.

The ACS provides additional detail on vacant housing units by category.

Housing Units by Year Structure Built

American Community Survey 2014-2018 5-year estimates.

Examining the age of the current housing stock is one way to understand how historical development patterns have contributed to a city's form. The time period where the highest share of Tustin's housing units were built is 1960-1969, while in the SCAG region more units were built during 1970-1979 than any other period.

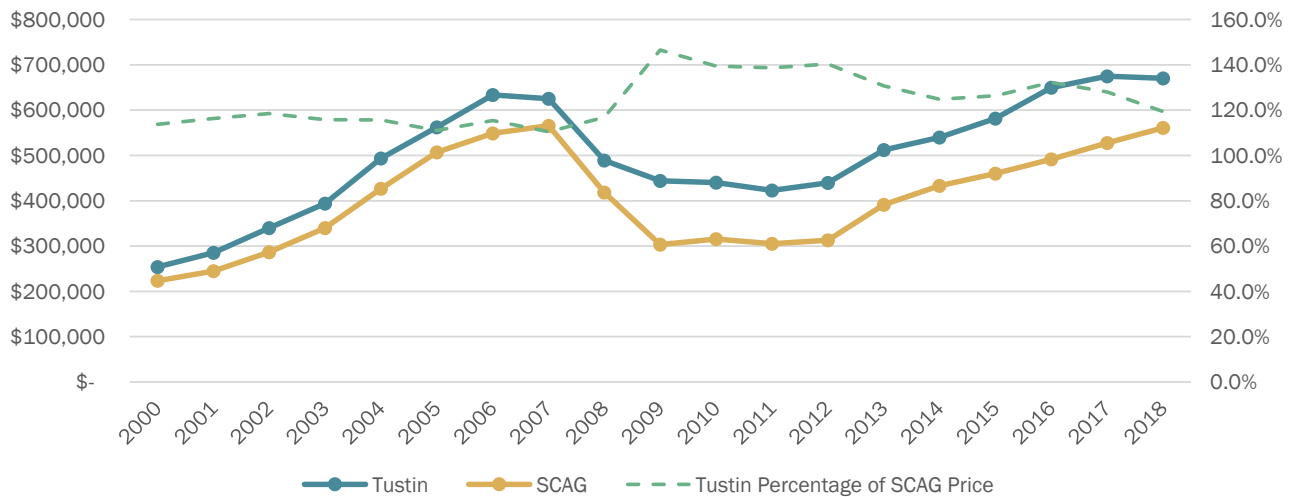

Substandard Housing

American Community Survey 2014-2018 5-year estimates.

The ACS includes surveys about three factors of what may be considered substandard housing. In Tustin, 580 units lack telephone service, 110 units lack plumbing facilities, and 466 units lack complete kitchen facilities.

Median Home Sales Price for Existing Homes

SCAG Local Profiles, Core Logic/Data Quick. SCAG median home sales price calculated as household-weighted average of county medians.

Between 2000 and 2018, median home sales prices in Tustin increased 164% while prices in the SCAG region increased 151%. 2018 median home sales prices in Tustin were \$670,000 and the highest experienced since 2000 was \$675,000 in 2017. Prices in Tustin have ranged from a low of 110.5% of the SCAG region median in 2007 and a high of 146.5% in 2009.

Housing Units Permitted

Core Logic/Data Quick. Additional detail available in SCAG 2019 Local Profiles. SCAG median home sales price calculated as household-weighted average of county medians.

VI. OVERPAYMENT AND OVERCROWDING

Crowding by Extent and Tenure

American Community Survey 2014-2018 5-year estimates.

In Tustin, 482 owner-occupied and 2,299 renter-occupied households had more than 1.0 occupants per room, which meets the ACS definition for overcrowding. 131 owner-occupied households and 760 renter-occupied households had more than 1.5 occupants per room, which meets the ACS definition for severe overcrowding.

Cost Burden by Income

Households by Share of Income Spent on Housing Cost:			
Income	< 30%	30-50%	> 50%
< 30% HAMFI	550	430	2,565
30-50% HAMFI	705	1,750	1,580
50-80% HAMFI	2,380	2,350	629
80-100% HAMFI	1,795	765	75
> 100% HAMFI	8,695	1,099	194
Total Households	14,125	6,394	5,043

HUD CHAS, 2012-2016. HAMFI refers to Housing Urban Development Area Median Family Income.

Housing cost burden is most commonly measured as the percentage of gross income spent on housing, with 30% a usual threshold for 'cost burden' and 50% the threshold for 'severe cost burden.' However, a lower-income household spending the same percent of income on housing as a higher-income household will likely experience more true 'cost burden.' These data indicate the number of households in Tustin by their income relative to the surrounding area and their share of income spent on housing.

Spending on Rent

Across Tustin's 13,600 renter households, 7,170 (52.7%) spend thirty percent or more of gross income on housing cost, compared to 55.3% in the SCAG region. Additionally, 3,194 renter households in Tustin (23.5%) spend fifty percent or more of gross income on housing cost, compared to 28.9% in the SCAG region.

Spending on Rent by Income

American Community Survey 2014-2018 5-year estimates.

While the previous table breaks down cost burden by area-relative income, the ACS also allows for the analysis of Tustin's 13,019 renter households (for which income data are available) by spending on rent by income bracket (dollar amounts). As one might expect, the general trend is that low-income households spend a higher share of income on housing (e.g. over 50%) while high-income households are more likely to spend under 20% of income on housing.

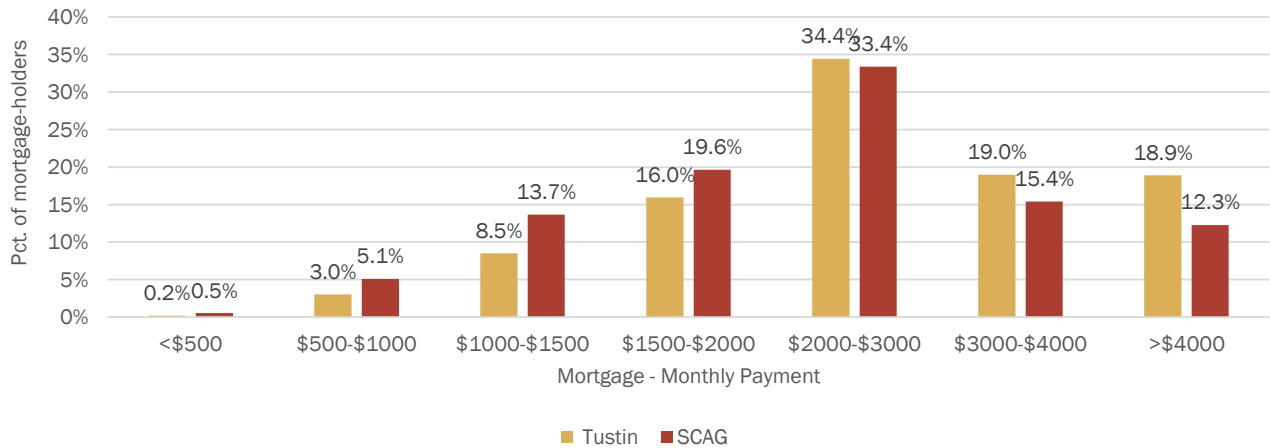

Household Income by (Cash) Rent

American Community Survey 2014-2018 5-year estimates.

Tustin renter households' cash rent paid can be broken down by household incomes. As one might expect, the general trend is that lower-income households spend less on rent while higher-income households spend more on rent, though this may not be universally true. Rent categories range from <\$500/month (3.7% of Tustin renters) to >\$2000/month (32.1% of Tustin renters). The most common rent category in Tustin is \$1500-2000/month with 38.1% of renters.

Monthly Owner Costs for Mortgage Holders

American Community Survey 2014-2018 5-year estimates.

While renter households receive much of the focus when it comes to housing cost analysis, owner households make up 48% of Tustin and 52.5% of the SCAG region. The most commonly occurring mortgage payment in Tustin is \$2000-\$3000/month and the most commonly occurring mortgage payment in the SCAG region is \$2000-\$3000/mo.

Costs for Mortgage Holders by Income

Mortgage-holding households in Tustin can be broken down by income and the percentage of income spent on mortgage costs. As one might expect, the general trend is that lower-income households spend a higher share of income on housing costs, while high-income households may spend a lower share of income on housing. The income category most prevalent amongst Tustin mortgage-holding households is \$75,000 or more (7,169 households) and the most prevalent share of income spent on mortgage costs is over 30% (3,821 households).

Household Income by Home Value (for owned units)

Another approach to evaluating the relationship between housing and income is to compare incomes and home values in Tustin. The most commonly-occurring income category amongst owner households in Tustin is \$100,000 or more (6,813 households) and the most commonly-occurring home value category is Above \$500,000 (8,312 households).

Extremely Low Income Housing Needs

	Total Households	Households below 30% HAMFI	Share below 30% HAMFI
White, non-Hispanic	10,495	1,485	14.1%
Black, non-Hispanic	609	165	27.1%
Asian and other, non-Hispanic	6,977	659	9.4%
Hispanic	7,705	1,465	19.0%
TOTAL	25,786	3,774	14.6%
Renter-occupied	13,295	2,650	19.9%
Owner-occupied	12,475	1,115	8.9%
TOTAL	25,770	3,765	14.6%

HUD CHAS, 2012-2016. HAMFI refers to Housing Urban Development Area Median Family Income.

Housing the extremely-low income population (below 30% of area median income) can be especially challenging. HUD's CHAS dataset provides a wealth of information on such households in Tustin. The above table provides a breakdown of extremely low income households by race and ethnicity. The race/ethnicity with the highest share of extremely-low income households in Tustin is Black, non-Hispanic (27.1% compared to 14.6% of total population). In the SCAG region, the highest share of extremely-low income households is Black, non-Hispanic (27.1% compared to 17.7% of total households).

VII. ASSISTED UNITS AT RISK OF CONVERSION

Assisted Units at Risk of Conversion

Risk Level	Definition:	Low-income units in jurisdiction	Percent of county's low-income units
Very High	At-risk of converting to market rate within the next year	0	0%
High	At-risk of converting to market rate in the next 1-5 years	100	13%
Moderate	At-risk of converting to market rate in the next 5-10 years	212	27%
Low	At-risk of converting to market rate in the next 10 or more years and/or are owned by a large/stable non-profit, mission-driven developer.	460	60%
TOTAL		772	100%

California Housing Partnership, July 2020. Includes HUD, Low-Income Housing Tax Credit (LIHTC), USDA, and CalHFA projects. Subsidized or assisted developments that do not have one of the aforementioned financing sources may not be included.

The California Housing Partnership (CHP) provides data on assisted housing units and assesses the level of risk to converting to market rate. These data identify homes without a known overlapping subsidy that would extend affordability beyond the indicated timeframe and unless otherwise noted are not owned by a large/stable non-profit, mission-driven developer. Detailed 2019 data can be found in SCAG's RHNA data appendix at <http://scag.ca.gov/programs/Documents/RHNA/SCAG-Final-RHNA-Data-Appendix-030520.pdf>. Complete, updated data can be requested from CHP through Danielle Mazzella, Preservation & Data Manager (dmazzella@chpc.net)

VIII. REGIONAL HOUSING NEEDS ALLOCATION

Final 6th Cycle Regional Housing Needs Allocation for Tustin:

	Units
Very-Low Income (<50% of AMI)	1,724
Low Income (50-80% of AMI)	1,046
Moderate Income (80-120% of AMI)	1,132
Above Moderate Income (>120% of AMI)	2,880
TOTAL	6,782

SCAG, 2021. Based on SCAG's 6th cycle Final RHNA Allocation, adopted March 2021. Please note that for the housing element update, local jurisdictions will have to consider extremely low income (ELI) households as well. ELI housing needs may be calculated either by using Census data or simply assuming that 50 percent of the very low income households qualify as extremely low income households.
