IV. PEOPLE WITH DISABILITIES, INCLUDING DEVELOPMENTAL DISABILITIES

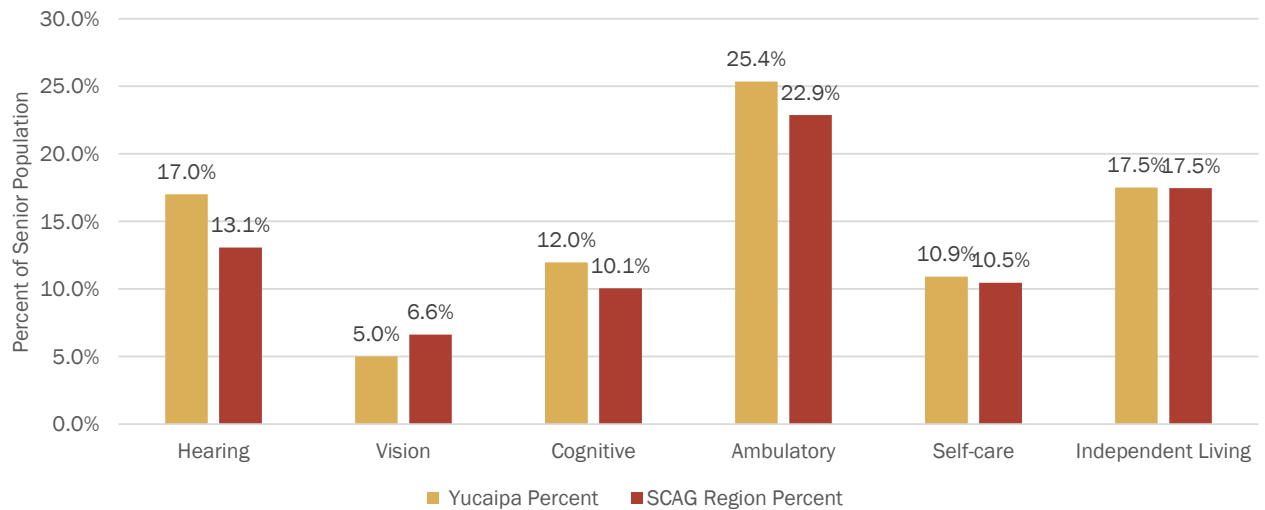

Disability by Type

American Community Survey 2014-2018 5-year estimates.

Disability data also provides valuable context for assessing current and future need for accessible housing units. Note that since some disability types are not recorded for children below a certain age, calculating disability as a percentage of total population may not be accurate.

Disability by Type - Seniors (65 and over)

American Community Survey 2014-2018 5-year estimates.

In Yucaipa, the most commonly occurring disability amongst seniors 65 and older was an ambulatory disability, experienced by 25.4% of Yucaipa's seniors (and 22.9% of seniors in the SCAG region).

Cost Burden by Income

Income	< 30%	30-50%	> 50%
< 30% HAMFI	415	289	1,665
30-50% HAMFI	815	550	720
50-80% HAMFI	1,435	935	384

> 100% HAMFI	7,555	1,220	150
<i>Total Households</i>	<i>11,265</i>	<i>3,428</i>	<i>3,164</i>

HUD CHAS, 2012-2016. HAMFI refers to Housing Urban Development Area Median Family Income.

Housing cost burden is most commonly measured as the percentage of gross income spent on housing, with 30% a usual threshold for 'cost burden' and 50% the threshold for 'severe cost burden.' However, a lower-income household spending the same percent of income on housing as a higher-income household will likely experience more true 'cost burden.' These data indicate the number of households in Yucaipa by their income relative to the surrounding area and their share of income spent on housing.

Spending on Rent

Across Yucaipa's 5,243 renter households, 2,444 (46.6%) spend thirty percent or more of gross income on housing cost, compared to 55.3% in the SCAG region. Additionally, 1,344 renter households in Yucaipa (25.6%) spend fifty percent or more of gross income on housing cost, compared to 28.9% in the SCAG region.

Spending on Rent by Income

American Community Survey 2014-2018 5-year estimates.

While the previous table breaks down cost burden by area-relative income, the ACS also allows for the analysis of Yucaipa's 4,962 renter households (for which income data are available) by spending on rent by income bracket (dollar amounts). As one might expect, the general trend is that low-income households spend a higher share of income on housing (e.g. over 50%) while high-income households are more likely to spend under 20% of income on housing.

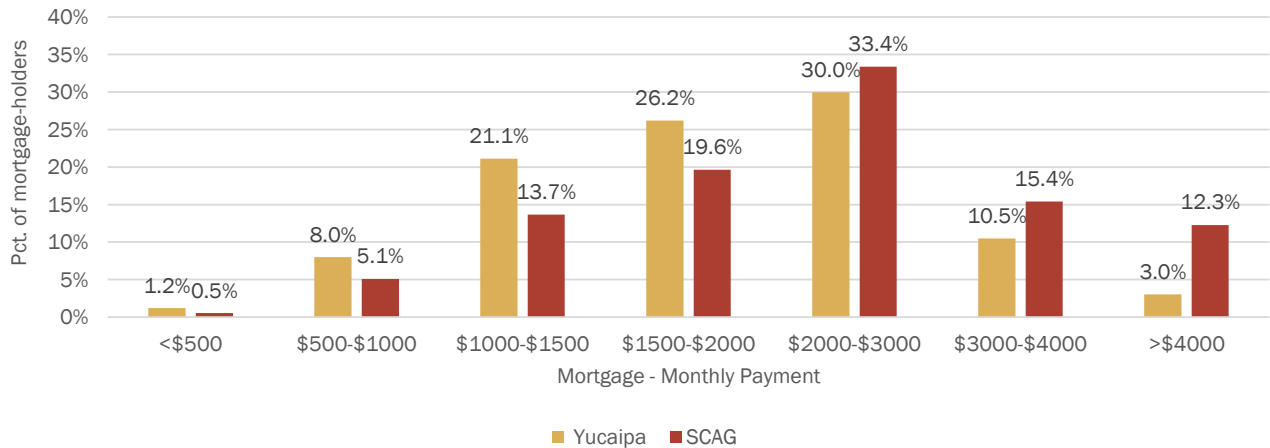

Household Income by (Cash) Rent

American Community Survey 2014-2018 5-year estimates.

Yucaipa renter households' cash rent paid can be broken down by household incomes. Rent categories range from <\$500/month (6.7% of Yucaipa renters) to >\$2000/month (13.7% of Yucaipa renters). The most common rent category in Yucaipa is \$1000-1500/month with 36.7% of renters.

The most commonly occurring mortgage payment in Yucaipa is \$2000-\$3000/month and the most commonly occurring mortgage payment in the SCAG region is \$2000-\$3000/mo.

Costs for Mortgage Holders by Income

Mortgage-holding households in Yucaipa can be broken down by income and the percentage of income spent on mortgage costs. As one might expect, the general trend is that lower-income households spend a higher share of income on housing costs, while high-income households may spend a lower share of income on housing. The income category most prevalent amongst Yucaipa mortgage-holding households is \$75,000 or more (5,432 households) and the most prevalent share of income spent on mortgage costs is under 20% (3,066 households).
